2025.10月大作文预测 公开版

在看预测之前大家要有一个认知：雅思写作的题库特别广，在不断增加新题的同时还会进行老题重考，所以完全无法统计出题库的完整内容，因此雅思写作可以视为“没有题库”。所以预测是基于近期高频考题做的整理，可以作为类似于“观点库”的辅助内容，但不要寄很大希望于预测到原题

一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以“父母对儿童成长的影响”这一话题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、“父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观" 、“个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。

那我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

……

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、小孩犯错

Some people think children have the freedom to make mistakes, while other people believe that adults should prevent children from making mistakes. Discussboth sides and give your opinion. (教育)

有些人认为儿童应有犯错的自由，而另一些人则认为成人应阻止儿童犯错。讨论双方观点并给出你自己的意见。

🍊 写作立场：双方结合

我认为孩子应该有一定的自由去犯错，但成年人必须在关键时刻给予适当的引导和干预。因为错误是学习和成长的重要途径，但如果完全放任不管，孩子可能会在一些重大问题上付出过高代价。

逻辑链分析：

主体段1

提出观点：支持者认为，允许孩子犯错是成长的重要部分。

扩展延伸：错误能帮助他们认识到因果关系，并培养解决问题的能力。

举例：例如，孩子在做实验时操作失误也能加深他们对科学原理的理解。

结果分析：这种经历能让孩子更具独立性和抗挫能力，为未来挑战做好准备。

主体段2

提出观点：反对者认为，成年人有责任防止孩子犯错，以避免他们受到伤害。

举例：例如，如果孩子在过马路时没有注意交通信号，成人必须立刻阻止，以防发生危险。

扩展延伸：这种保护不仅确保安全，也能为孩子建立正确的价值观和行为模式。

总结（结合我的观点）：因此，最佳做法是结合两种观点：在孩子的小错误上允许尝试和学习，但在涉及健康或安全的问题上，成年人必须进行干预。

Whether children should be free to make mistakes or whether adults should prevent them from doing so has become a topic of debate. Some people argue that mistakes are a natural part of growing up, while others believe it is the duty of parents and teachers to shield children from errors. I believe both perspectives hold truth, but a balance between freedom and guidance is necessary.

孩子是否应该可以自由犯错，还是成年人应该阻止他们犯错，这已成为一个有争议的话题。一些人认为，犯错是成长过程中自然而然的一部分，而另一些人则认为，父母和老师有责任保护孩子不犯错。我认为这两种观点都有道理，但在自由和引导之间需要达到一种平衡。

On the one hand, mistakes play an essential role in children’s development. By making errors, children learn about consequences and develop problem-solving skills. For instance, when a child conducts a science experiment incorrectly, the failure itself teaches them about cause and effect in a way that books cannot. Such experiences strengthen resilience and independence, preparing them to cope with challenges later in life. Without the chance to make mistakes, children may grow up overly dependent on adults and afraid of taking risks.

一方面，犯错在孩子的成长发展中起着至关重要的作用。通过犯错，孩子们能了解行为后果并培养解决问题的能力。例如，当一个孩子不正确地进行一项科学实验时，失败本身会以书本无法做到的方式教会他们因果关系。这样的经历能增强他们的适应能力和独立性，为他们日后应对生活中的挑战做好准备。如果没有犯错的机会，孩子们长大后可能会过度依赖成年人，并且害怕冒险。

On the other hand, there are situations where adult intervention is essential. Certain mistakes could expose children to serious danger, such as crossing the road without looking at traffic lights. In such cases, adults must step in to protect children’s safety and instill appropriate behavior. Furthermore, early guidance from adults helps children build sound values and decision-making frameworks. Allowing complete freedom in all areas would not only be irresponsible but could also result in lasting harm.

另一方面，在有些情况下，成年人的干预是必不可少的。某些错误可能会让孩子面临严重的危险，比如过马路时不看交通信号灯。在这类情况下，成年人必须介入以保护孩子的安全，并灌输恰当的行为规范。此外，成年人的早期引导有助于孩子建立正确的价值观和决策框架。在所有方面都给予孩子完全的自由不仅是不负责任的做法，还可能导致持久的伤害。

In conclusion, children should be given space to learn from small mistakes, as these contribute to their independence and growth. However, adults should intervene when errors involve safety or serious consequences. A balanced approach ensures children benefit from both freedom and protection in their development.

总之，应该给孩子留出空间，让他们从小错误中学习，因为这些小错误有助于他们的独立和成长。然而，当错误涉及安全或会产生严重后果时，成年人就应该进行干预。一种平衡的做法能确保孩子在成长过程中既能从自由中获益，又能得到保护。

2、艺术与科技

Today, advanced science andtechnology have made great changes topeople's life, but artists such asmusicians, painters and writers are stilhighly valued. What can arts tell us aboutlife that science and technology cannot?(科技)

如今，先进的科学和技术给人们的生活带来了巨大变化，但艺术家，如音乐家、画家和作家，仍然备受重视。关于生活，艺术能告诉我们哪些科学和技术无法揭示的东西?

🍊 写作立场

我认为艺术能够揭示科学与技术无法涵盖的人类体验，特别是情感、文化和精神层面的意义。科学回答“是什么”和“如何”，而艺术探讨“为什么”和“意味着什么”。

逻辑链分析：

主体段1

提出观点：艺术能够传达生活中的情感与意义，这是科学难以实现的。

举例：音乐可以安慰失去亲人的人，小说可以让人们在困境中获得希望。

扩展延伸：这些体验并不是数据或逻辑能解释的，而是通过象征、氛围和情感共鸣来实现。

结果分析：因此，人们在面对喜怒哀乐时，更多依赖艺术而非科学来寻找精神支持。

主体段2

提出观点：艺术还能保存文化记忆，展现主观的人类体验，而科学记录更多是客观规律。

扩展延伸1：艺术作品往往承载了特定时代的思想，是社会精神财富的重要组成部分。

举例：例如梵高的画作不仅描绘自然景象，还反映了他的情绪，这些层面科学无法完整捕捉。

扩展延伸2：若社会只重视科学技术而忽略艺术，可能会在物质繁荣中失去文化根基。

Science and technology have dramatically reshaped human life, offering convenience, efficiency, and solutions to countless problems. However, despite these advancements, artists such as musicians, painters, and writers are still highly valued. This is because art offers insights into human life that go beyond the capacity of science and technology.

科技已经极大地重塑了人类生活，为无数问题提供了便利、效率和解决方案。然而，尽管有这些进步，诸如音乐家、画家和作家之类的艺术家仍然备受珍视。这是因为艺术能提供对人类生活的深刻见解，而这超出了科技的能力范畴。

Art reveals the emotional depth and meaning of life, something no formula or machine can replicate. While science explains phenomena through facts and data, it cannot evoke sorrow, joy, or hope in the way that art does. For example, a piece of music can comfort someone grieving the loss of a loved one, while a novel can inspire courage in those facing hardship. Such experiences are shaped by symbolism and atmosphere rather than rational explanation, which is why people often turn to art for strength and healing during life’s most difficult moments.

艺术揭示了生活的情感深度和意义，这是任何公式或机器都无法复制的。虽然科学通过事实和数据来解释现象，但它无法像艺术那样唤起悲伤、喜悦或希望等情感。例如，一首乐曲能够慰藉一位正为失去所爱之人而悲痛的人，一部小说能够鼓舞那些身处困境的人鼓起勇气。这样的体验是由象征手法和氛围营造出来的，而非依靠理性的阐释，这就是为什么人们在生命中最艰难的时刻常常会从艺术中寻求力量和慰藉的原因。

In addition, art preserves culture and captures unique human experiences that science cannot record. Scientific reports may tell us how societies function, but only art conveys the values, struggles, and perspectives of an era. Van Gogh’s paintings, for instance, do not merely depict landscapes; they also reveal his inner turmoil and emotional sensitivity. These subjective insights are irreplaceable, and without them, future generations would lose an essential connection to the human past. If societies focus solely on material progress through science and technology, they risk weakening their cultural identity and spiritual foundation.

此外，艺术保存了文化，并捕捉了那些科学无法记录的独特人类经历。科学报告或许能告诉我们社会是如何运转的，但只有艺术才能传达一个时代的价值观、奋斗历程以及看待事物的视角。例如，梵高的画作不仅仅描绘了风景，它们还展现了他内心的煎熬以及情感上的细腻敏感。这些主观的深刻见解是不可替代的，倘若没有它们，后代将会失去与人类过往的一种重要联系。如果社会仅仅专注于通过科技实现物质上的进步，那它们就有可能削弱自身的文化特性和精神根基。

In conclusion, art continues to be indispensable because it communicates emotional resonance, cultural heritage, and existential meaning—dimensions that science and technology, despite their remarkable progress, can never fully provide.

总之，艺术依然不可或缺，因为它传达了情感共鸣、文化传承以及存在的意义 —— 这些层面，尽管科技取得了显著的进步，却永远无法完全提供。

3、全球化

There are fewer and fewer differences between countries. People around the world may watch the same kinds of TV series, buy goods of same brands, and follow the same trends. Discuss the advantages and disadvantages of this phenomenon.（社会）

国家间的差异越来越少。世界各地的人们可能观看同类型的电视剧、购买相同品牌的商品、追随同样的潮流。讨论这一现象的优点和缺点。

🍊 写作立场

既有积极面，也存在明显的消极面。它在便利交流、拓展视野的同时，也威胁了本地文化和多样性。

逻辑链分析：

主体段1

提出观点：全球化让各国差异逐渐缩小，为人们带来交流便利和更丰富的选择

扩展延伸：人们能够通过相似的品牌、影视作品和潮流更容易找到共鸣

举例：例如年轻人无论在亚洲还是欧洲，都可能追同样的美剧或购买相同的电子产品，从而更容易建立联系

结果分析：这种趋势有助于减少文化隔阂，推动国际交流和理解

主体段2

提出观点：然而，差异减少也可能带来文化的单一化和本土特色的丧失

扩展延伸：传统服饰、手工艺品或地方戏剧等元素可能被忽视，因为大众更追随全球化的产品

举例：例如在一些发展中国家，本土的传统节庆和习俗逐渐被国际流行节日所取代

结果分析：长此以往，独特的文化遗产会被淡化，世界变得过于同质化

The growing similarity among countries has become increasingly noticeable in recent years. People around the world now enjoy the same TV series, buy identical brands, and follow common trends. This phenomenon has both advantages and disadvantages that deserve careful consideration.

近年来，国家之间日益趋同的现象愈发明显。如今，世界各地的人们都在追同样的电视剧，购买相同的品牌商品，追随共同的潮流。这一现象有利有弊，值得我们仔细考量。

On the positive side, fewer differences between nations help people connect more easily. When individuals watch the same shows or purchase similar products, they find it easier to share experiences and communicate. For instance, young people in Asia and Europe may follow the same American drama or purchase the same smartphone brand, which provides them with common topics and fosters mutual understanding. This shared culture reduces barriers

between societies and encourages international cooperation. As a result, globalization makes people feel more connected and helps create a sense of global community.

从积极的方面来看，国家之间差异的减少有助于人们更轻松地建立联系。当人们观看同样的节目或购买相似的产品时，他们会发现更容易分享经历、进行交流。例如，亚洲和欧洲的年轻人可能都追同一部美剧，或者购买同一个智能手机品牌，这为他们提供了共同话题，增进了相互理解。这种共享文化减少了不同社会之间的隔阂，促进了国际合作。因此，全球化让人们感觉彼此间的联系更加紧密，有助于营造一种全球共同体的意识。

However, the disadvantages cannot be overlooked. The loss of cultural diversity is one of the most worrying consequences. Local traditions, arts, and unique practices are often ignored because global trends dominate the market. For example, in certain developing countries, traditional festivals or folk performances are gradually overshadowed by international celebrations such as Halloween or Valentine’ s Day. If this continues, cultural uniqueness may fade away, and the world could become overly uniform. Such homogenization risks depriving future generations of valuable cultural heritage.

然而，其弊端也不容忽视。文化多样性的丧失是最令人担忧的后果之一。由于全球潮流主导了市场，地方传统、艺术以及独特的习俗往往被忽视。例如，在一些发展中国家，传统节日或民间表演正逐渐被诸如万圣节、情人节之类的国际节日所掩盖。如果这种情况持续下去，文化的独特性可能会逐渐消失，世界可能会变得过于单一。这种同质化现象有可能剥夺后代宝贵的文化遗产。

In conclusion, the increasing similarity among countries brings clear benefits in terms of communication and shared experiences, but it also carries the danger of cultural erosion. To strike a balance, societies should embrace global influences while at the same time protecting and promoting their own traditions.

总之，国家之间日益增加的相似性在交流和共享体验方面带来了明显的益处，但同时也存在文化被侵蚀的风险。为了达到平衡，各个社会应当在接纳全球影响的同时，保护并弘扬自身的传统。

4、政府与公共健康

Some people say that governmentsshould focus on reducing environmentalpollution and housing problems to helppeople prevent illness and disease. Towhat extent do you agree or disagree?(政府)

有些人认为政府应着重减少环境污染和住房问题，以帮助人们预防疾病。你在多大程度上同意或不同意?

🍊 写作立场：同意

我完全同意政府应把重点放在环境与住房问题上，因为这是疾病的根源，治理它们能起到最大范围的预防作用。

逻辑链分析：

主体段1

提出观点：环境污染是健康问题的主要来源，必须优先治理。

扩展延伸：空气、水源与土壤污染会引发大规模慢性病与传染病，是医疗系统难以承受的负担。

举例：印度一些大城市因严重雾霾导致哮喘和肺癌患者明显增加，说明污染直接侵蚀公共健康。

反面假设：如果政府忽视环境治理，疾病负担将不断累积，拖垮公共财政与劳动力效率。

主体段2

提出观点：改善住房条件同样是预防疾病的关键手段。

扩展延伸：拥挤和低质量住房会促进病毒传播，并导致心理健康问题。

举例：在发展中国家，许多居民因长期居住在棚户区，和肠道疾病传播速度远高于居住条件较好的社区。

结果分析：通过提供经济适用房和改善基础设施，政府可以减少大规模流行病风险。

Some argue that governments should give top priority to reducing environmental pollution and solving housing problems as a means of preventing illness and disease. I fully agree with this position, as these two areas are the root causes of many health issues and tackling them brings the widest benefits.

有些人认为，政府应当将减少环境污染和解决住房问题列为首要任务，以此来预防疾病。我完全赞同这一观点，因为这两个方面是诸多健康问题的根源，解决它们能带来最为广泛的益处。

Environmental pollution is one of the most significant threats to human health, and it must be addressed as a first priority. Polluted air, contaminated water, and toxic soil contribute directly to chronic conditions such as asthma, cancer, and cardiovascular diseases. For instance, in large cities in India, severe smog has caused a sharp rise in respiratory illnesses, proving that pollution directly undermines public health. If governments ignore this challenge, the medical system will face escalating costs, and the economy will suffer from reduced labor productivity. By contrast, effective pollution control can prevent countless cases of illness before they occur, saving both lives and resources.

环境污染是对人类健康最为重大的威胁之一，必须将其作为首要问题加以解决。受污染的空气、被污染的水以及有毒的土壤直接导致了诸如哮喘、癌症和心血管疾病等慢性疾病。例如，在印度的大城市中，严重的雾霾已致使呼吸系统疾病急剧增多，这证明了污染直接损害着公众健康。如果政府忽视这

一挑战，医疗系统将会面临不断攀升的成本，经济也会因劳动力生产率下降而受到影响。相比之下，有效的污染控制措施能够在无数疾病发生之前就进行预防，既能挽救生命，又能节省资源。

In addition, improving housing conditions plays a crucial role in disease prevention. Overcrowded and poorly maintained housing not only facilitates the spread of infectious diseases but also contributes to mental health problems such as stress and depression. For example, communities in developing countries that are forced to live in slums face far higher rates of tuberculosis and intestinal diseases compared with those in safer housing. By providing affordable housing and investing in infrastructure, governments can reduce the risk of large-scale epidemics while also improving citizens' quality of life.

此外，改善住房条件在疾病预防方面也起着至关重要的作用。过度拥挤且维护不善的住房不仅会助长传染病的传播，还会引发诸如压力和抑郁等心理健康问题。例如，发展中国家那些被迫居住在贫民窟的社区，相较于居住在条件更好住房里的社区，面临着高得多的结核病和肠道疾病发病率。通过提供经济适用房并投资基础设施建设，政府能够降低大规模传染病爆发的风险，同时还能提高公民的生活质量。

In conclusion, focusing on environmental and housing problems is the most effective way to prevent diseases on a national scale. By prioritizing these two areas, governments can reduce illness, protect public finances, and build healthier societies.

总之，关注环境和住房问题是在全国范围内预防疾病最有效的途径。通过优先处理这两个方面的问题，政府能够减少疾病发生、保护公共财政，进而构建更健康的社会。

5、广告的影响

Some people say that advertising has positive economic effects. Others think ithas negative social effects because it wilmake people feel dissatisfied with whothey are and what they have. Discuss bothviews and give your own opinion.(媒体)

有些人认为广告对经济有积极影响。另一些人则认为它会产生负面社会影响，因为它会让人们对自己是谁以及拥有什么感到不满。讨论两种观点并给出你自己的意见。

🍊 写作立场：正面大于负面

我认为广告的经济效益远远超过其社会负面影响。广告推动消费、创造就业、促进创新，也为消费者提供信息和选择。虽然它可能引发攀比与焦虑，但通过教育和监管完全可以控制。

逻辑链分析

主体段 1

- 提出观点：广告是现代市场经济运转的关键力量

- 扩展延伸：它刺激消费需求，推动竞争与创新，创造大量就业机会
- 举例：例如，在节日购物季或全球体育赛事期间，大规模广告投入显著提升零售、媒体与物流行业收入
- 扩展延伸2：同时，广告使新品牌能快速进入市场，促进技术升级和产业活力
- 结果分析：广告不仅提升了企业利润，也带动税收增长和公共服务资金来源

主体段 2

- 提出观点：尽管有人担心广告会制造焦虑、助长物质主义
- 扩展延伸：确实，一些奢侈品或美容广告以“理想化”形象吸引注意，容易让人产生不必要的比较
- 让步：然而，问题并非广告本身，而是监管和消费者教育的缺失；在信息过载时代，广告反而是企业和消费者之间高效沟通的桥梁
- 结果分析：通过制定伦理标准、限制误导性宣传，广告仍可在促进经济繁荣的同时保持社会平衡

Advertising has become an inseparable part of the modern economy, but people disagree on whether its overall influence is positive or negative. Some claim it creates social dissatisfaction and encourages materialism, while others argue it drives innovation and economic progress. I personally believe that advertising’s benefits to the economy far outweigh its drawbacks.

广告已成为现代经济不可分割的一部分，但人们对其总体影响是积极还是消极存在分歧。一些人认为广告会引发社会不满并助长物质主义，而另一些人则认为它能推动创新和经济进步。我个人认为，广告对经济的益处远远超过其弊端。

Advertising serves as a powerful engine of growth in today’s market economies. It stimulates consumer demand, boosts competition, and generates employment across multiple sectors. For instance, during global sporting events or annual shopping festivals, companies dramatically increase advertising investment, which in turn boosts sales in retail, logistics, and media industries. Furthermore, advertising enables new businesses to reach potential customers quickly, allowing small brands and start-ups to compete with established corporations. This encourages technological advancement and market diversity. As a result, advertising not only strengthens corporate profits but also expands tax revenue and supports public services, contributing to long-term national prosperity.

在当今市场经济中，广告是强有力的增长引擎。它能刺激消费需求、促进竞争，并为多个行业创造就业机会。例如，在全球体育赛事或年度购物节期间，企业大幅增加广告投入，这反过来又促进了零售、物流和媒体行业的销售。此外，广告使新企业能够快速触达潜在客户，让新兴品牌和初创公司得以与老牌企业竞争。这有助于推动技术进步和市场多元化。因此，广告不仅增强了企业利润，也扩大了税收收入并支持公共服务，为国家的长期繁荣做出贡献。

Opponents, however, believe that advertising damages social values by promoting unrealistic lifestyles. It is true that some luxury or beauty advertisements exaggerate perfection, implying that wealth and appearance define happiness. Nevertheless, these problems stem more from a lack of consumer education and weak regulation than from advertising itself. When governed by ethical standards and transparent policies, advertising continues to serve as an effective communication tool between producers and consumers. It helps people discover products that genuinely meet their needs while keeping the economy vibrant.

然而，反对者认为广告通过宣扬不切实际的生活方式损害社会价值观。确实，部分奢侈品或美容广告过度夸大完美，暗示财富和外表决定幸福。然而，这些问题更多源于消费者教育的缺失和监管不力，而非广告本身。当受到道德规范和透明政策的约束时，广告仍能作为生产者和消费者之间有效的沟通工具。它帮助人们发现真正满足其需求的产品，同时保持经济的活力。

In conclusion, although advertising may create psychological pressure, its contribution to employment, competition, and innovation makes it a crucial force for modern economies. With proper regulation and responsible messaging, advertising can promote both economic prosperity and social well-being.

总之，尽管广告可能带来心理压力，但它在促进就业、竞争和创新方面的贡献，使其成为现代经济的重要推动力。通过合理监管和负责任的信息传递，广告能够同时促进经济繁荣与社会福祉。

6、国际合作

Most of the urgent problems can only be solved with international cooperation.To what extent do you agree or disagree?(国际)

大多数紧迫问题只有通过国际合作才能解决。你在多大程度上同意或不同意？

🍊 写作立场：部分同意

我部分同意。确实有很多紧迫问题必须依赖国际合作才能解决，比如环境保护和跨境犯罪。但同时，也有一些问题主要依赖本国政策和社会治理就能完成。

逻辑链分析：

主体段1

提出观点：许多全球性问题必须通过国际合作才能解决

扩展延伸：因为这些问题跨越国界，单一国家无法独立处理

举例：例如全球气候变化要求各国共同制定减排目标，否则单方面的努力会被其他国家的高排放抵消

结果分析：国际协作能带来更统一的标准和更高的效率，从而解决真正的全球性挑战

主体段2

提出观点：然而，并不是所有紧迫问题都需要依赖国际合作

扩展延伸：许多涉及公共卫生、教育改革或社会治安的问题，更依赖国内政策的完善与执行

举例：例如日本通过本国政策大力推广垃圾分类和回收体系，在未依赖国际协作的情况下显著改善了环境

结果分析：这说明一些问题更适合通过本国制度创新和社会动员来解决，而非依赖外部力量

It is often argued that most of the urgent problems facing the world today can only be solved through international cooperation. I partly agree with this view, as while global issues demand joint action, there are also domestic challenges that individual countries can effectively address on their own.

人们常说，当今世界面临的大多数紧迫问题唯有通过国际合作才能得到解决。我部分认同这一观点，因为尽管全球性问题需要共同行动，但也存在一些国内挑战是各个国家凭借自身力量就能有效应对的。

On the one hand, many pressing challenges cannot be handled without collective global efforts. This is because such problems transcend national borders, making unilateral actions insufficient. For example, climate change requires all countries to commit to emission reductions. If only a few nations take responsibility while others continue to pollute, the global impact will remain unchanged. International cooperation ensures common standards and shared responsibilities, which makes solutions more effective and sustainable. In this sense, some of the most urgent issues truly rely on countries working hand in hand.

一方面，许多紧迫的挑战若没有全球共同努力是无法解决的。这是因为此类问题超越了国界，单方面的行动是远远不够的。例如，气候变化需要所有国家都致力于减排。如果只有少数国家承担责任，而其他国家继续污染环境，那么全球所受的影响将不会改变。国际合作能确保统一标准和共担责任，这使得解决方案更具成效且更可持续。从这个意义上来说，一些最为紧迫的问题确实需要各国携手合作才能解决。

On the other hand, not every urgent problem requires international involvement. Issues such as public health, education reform, or local crime prevention can be better managed through domestic policies and institutions. Japan provides a good example: by implementing a nationwide system of waste separation and recycling, it has significantly improved its environmental conditions without relying heavily on international support. This shows that many urgent problems are more efficiently solved through internal reforms and strong governance rather than external cooperation.

另一方面，并非每一个紧迫问题都需要国际参与。诸如公共卫生、教育改革或者地方犯罪预防等问题，通过国内政策和相关机构能够得到更好的处理。日本就是一个很好的例子：通过在全国范围内推行垃圾分类和回收利用体系，该国显著改善了自身的环境状况，且并未过度依赖国际支持。这表明，许多紧迫问题通过内部改革和强有力的国内治理来解决，效率会更高，而非依靠外部合作。

In conclusion, while international cooperation is indispensable for tackling global problems like climate change, many pressing issues can be effectively managed within national boundaries. A balanced approach, combining global collaboration with domestic responsibility, is therefore the most practical path forward.

总之，虽然国际合作对于应对气候变化这类全球性问题必不可少，但许多紧迫问题在国家内部就能得到有效处理。因此，将全球协作与国内责任相结合的平衡做法，才是最为切实可行的前进道路。

7、减少犯罪

Some people believe that in order to reduce crimes, prisoners should be given longer prison sentences while some people think there are other alternative ways. Discuss both views and give your opinion.（犯罪）

有些人认为为了减少犯罪，囚犯应被判处更长的刑期，而另一些人则认为存在其他替代方法。讨论两种观点并给出你自己的意见。

🍊 写作立场：部分同意

我认为单纯延长刑期的效果有限，只有结合教育、康复与社会支持等替代方式，才能真正降低犯罪率。

逻辑链分析：

主体段1

提出观点：支持者认为更长的刑期能有效震慑潜在罪犯。

扩展延伸：当违法者意识到违法代价更高，他们会更谨慎，社会安全也更有保障。

举例：例如，在一些国家，对毒品犯罪加大处罚力度后，相关犯罪率出现下降趋势。

让步：然而，过度依赖惩罚也可能导致监狱人满为患，未必能解决犯罪的根源。

主体段2

提出观点：另一种观点认为，预防和改造措施比单纯延长刑期更有效。

扩展延伸：教育和职业培训能帮助罪犯掌握技能，从而在出狱后重返社会。

举例：例如，挪威的监狱提供学习和就业机会，使累犯率大幅降低。

结果分析：这表明从根源改善行为与环境，比单纯增加刑期更有长远价值。

There has long been debate over the most effective way to reduce crime. Some argue that longer prison sentences are necessary to deter criminals, while others believe alternative approaches are more effective. I personally agree with the latter view, as prevention and rehabilitation address the root causes of crime.

长期以来，关于降低犯罪率最有效的方法一直存在争议。一些人认为有必要延长刑期来威慑罪犯，而另一些人则相信其他替代方法更为有效。我个人认同后者的观点，因为预防和改造措施能够从根源上解决犯罪问题。

Supporters of longer sentences contend that harsher punishments can serve as a strong deterrent. When offenders realise that the cost of breaking the law will be extremely high, they may be less willing to take the risk. For instance, in some countries where penalties for drug-related crimes were significantly increased, the number of such offences declined in the short term. Longer incarceration also keeps dangerous individuals away from the public, thus improving safety. However, over-reliance on punitive measures can also lead to overcrowded prisons and does not address why people commit crimes in the first place.

支持延长刑期的人主张，更严厉的惩罚可以起到强有力的威慑作用。当违法者意识到违法的代价将会极高时，他们可能就不太愿意去冒险了。例如，在一些国家，对涉毒犯罪的惩处力度大幅提高后，这类犯罪行为的数量在短期内有所下降。更长时间的监禁还能使危险分子远离公众，从而提升社会安全。然而，过度依赖惩罚性措施也可能导致监狱人满为患，而且并不能解决人们最初犯罪的原因。

By contrast, advocates of alternative measures emphasise education, rehabilitation, and social support as more effective long-term solutions. Providing offenders with vocational training and counselling can help them reintegrate into society after release. Norway’ s prison system, for example, focuses on offering learning opportunities and employment pathways, which has resulted in one of the lowest reoffending rates in the world. Such approaches not only prevent crime from recurring but also save resources by reducing the need for repeated incarceration. This demonstrates that tackling underlying causes of crime is more sustainable than simply extending sentences.

相比之下，倡导替代措施的人强调教育、改造以及社会支持才是更有效的长期解决方案。为罪犯提供职业培训和心理咨询能够帮助他们在获释后重新融入社会。例如，挪威的监狱系统侧重于提供学习机会和就业途径，这使得该国的再犯率处于世界最低水平之一。这类方法不仅能防止犯罪再次发生，还能通过减少反复监禁的需求来节省资源。这表明，解决犯罪的潜在根源比单纯延长刑期更具可持续性。

In conclusion, while longer sentences may have some deterrent effect, I believe alternative strategies such as rehabilitation and education are far more effective in reducing crime rates

over the long term. Addressing root causes ensures both individual transformation and a safer society.

总之，虽然延长刑期可能会有一定的威慑作用，但我认为诸如改造和教育这类替代策略在长期降低犯罪率方面要有效得多。解决犯罪根源既能确保个人的转变，又能营造一个更安全的社会。

8、艺术展

Art galleries and museums shoulddisplay more traditional cultural works andfewer artworks from other countries. To what extent do you agree or disagree?(文化)

艺术画廊和博物馆应展示更多传统文化作品，减少来自其他国家的艺术品。你在多大程度上同意或不同意？

🍊 写作立场：同意

我同意博物馆和美术馆应更多展示本国的传统文化作品，因为它们承载民族记忆和身份认同，而外国艺术虽然有价值，但应占较小比例。

逻辑链分析：

主体段1

提出观点：传统文化作品应成为展览的主体，因为它们体现了一个国家的独特身份。

扩展延伸：艺术不仅是审美体验，更是民族记忆的传承，帮助公民理解自身文化根源。

举例：比如中国的青铜器和书法，向后代展示了古代社会的价值观和思想方式。

结果分析：更多地展出本土文化，有助于强化公民的归属感和文化自豪感。

主体段2

提出观点：虽然外国艺术有一定意义，但过多展示会冲淡传统文化的影响力。

扩展延伸：本国艺术空间有限，如果被大量外来作品占据，本地创作者的声音将被削弱。

举例：例如，在欧洲部分城市，现代国际艺术展频繁举办，导致年轻人对本土传统艺术的兴趣下降。

反面假设：如果忽视传统艺术，社会可能在全球化中逐渐丧失文化独特性和创造力来源。

It is often argued that art galleries and museums should display more traditional cultural works and fewer artworks from abroad. I agree with this view, as national collections serve a vital role in preserving heritage and shaping cultural identity.

人们常争论说，艺术画廊和博物馆应该展出更多的传统文化作品，而减少国外艺术品的展出数量。我赞同这一观点，因为本国的藏品在保护文化遗产以及塑造文化特性方面起着至关重要的作用。

Traditional cultural works deserve to be at the center of exhibitions because they embody a nation’ s history and values. Art is not only about aesthetics but also about memory and continuity. By showcasing traditional crafts, paintings, or relics, museums help citizens understand where they come from and what their ancestors valued. For instance, Chinese calligraphy and bronze vessels reveal the philosophies and social structures of past dynasties, offering lessons that remain relevant today. Such displays strengthen cultural pride and reinforce a sense of belonging among younger generations.

传统文化作品理应成为展览的核心内容，因为它们体现了一个国家的历史与价值观。艺术不仅仅关乎美学，还关乎记忆与传承。通过展示传统手工艺品、绘画或者文物，博物馆能够帮助民众了解自己来自何处，以及他们的祖先所珍视的东西是什么。例如，中国的书法和青铜器展现了过往朝代的哲学思想与社会结构，其中蕴含的道理在今天依然有着重要意义。这类展览能够增强民众的文化自豪感，强化年轻一代的归属感。

In contrast, placing too much emphasis on foreign artworks can dilute this essential role. Exhibition space is always limited, and if international works dominate, the opportunity to highlight local traditions will shrink. In some European cities, for example, the popularity of modern global art exhibitions has unintentionally led young audiences to neglect their own national heritage. This imbalance risks weakening domestic artists’ visibility and undermining appreciation for traditional works. If traditional culture is sidelined for too long, societies may gradually lose the distinctiveness and creativity that arise from their unique histories.

相反，过于强调国外艺术品会削弱本国藏品的这一关键作用。展览空间总是有限的，如果国际作品占据主导地位，那么凸显本土传统的机会就会减少。例如，在一些欧洲城市，现代全球艺术展览的流行无意间导致年轻观众忽视了本国的文化遗产。这种失衡状况有可能削弱本国艺术家的知名度，也不利于人们对传统文化作品的欣赏。如果传统文化长期被边缘化，社会可能会逐渐失去源于其独特历史所产生的独特性和创造力。

In conclusion, while international art has its value in broadening perspectives, galleries and museums should prioritize traditional cultural works. These collections preserve memory, foster identity, and ensure that cultural diversity is not eroded by globalization. By giving tradition more space, nations can both educate their citizens and inspire future generations of artists.

总之，虽然国际艺术在拓宽视野方面有其价值，但画廊和博物馆应当优先考虑展出传统文化作品。这些藏品保存着记忆，培育着文化特性，并且确保文化多样性不会因全球化而受到侵蚀。通过给传统文化更多的展示空间，各个国家既能教育本国公民，又能激励未来的艺术家们。

9、博物馆与本地游客

Many museums and historical sites aremainly visited by tourists and not localpeople. Why is this the case? What can be done to attract local people?(旅游)

许多博物馆和历史遗址主要被游客参观，而非本地人。原因是什么？可以采取什么措施来吸引本地人？

🍊 写作立场

我认为这是因为本地人缺乏新鲜感和参与动力。要吸引本地人，就需要提高展览的互动性和教育性，并给予他们更多的实际优惠和机会。

逻辑链分析：

主体段1

提出观点：本地人对这些场所的兴趣低于游客。

举例：例如，伦敦或北京的居民往往在学生时期就已经参观过多次。

扩展延伸：因此，他们缺乏新鲜感，而游客则把这些地方视为“必打卡”的文化景点。

结果分析：这种差异让博物馆逐渐成为旅游资源，而非日常生活的一部分。

主体段2

提出观点：要吸引本地人，就必须提高他们的参与感和归属感。

扩展延伸：博物馆可以与社区合作，设计特别展览、举办教育讲座或节庆活动，增加互动性。

举例：例如，巴黎的一些博物馆推出居民专属的免费日和轮换展览，使当地人有动力定期回访。

反面假设：如果缺乏这些举措，本地人可能继续把博物馆视为“游客专属空间”。

Many museums and historical sites are mainly visited by tourists rather than local residents. This is a common phenomenon worldwide, and understanding its causes is the first step to attracting more local audiences.

许多博物馆和历史遗址的主要访客是游客而非本地居民，这是全球普遍现象，而理解其成因是吸引更多本地观众的第一步。

One key reason is that local people often lose interest because these places lack novelty for them. Tourists, coming from other regions or countries, see museums and monuments as

cultural highlights and make them central to their trips. Locals, however, may have visited these sites during school excursions or childhood, which reduces their sense of discovery. For instance, many Londoners or Beijingers rarely return to their famous museums, even though millions of tourists visit them each year. As a result, these institutions increasingly serve as tourist landmarks rather than integral parts of local cultural life.

关键原因在于这些场所对本地居民缺乏新鲜感。来自其他地区或国家的游客将博物馆和历史遗迹视为文化精华，并将其列为旅行核心内容。但本地人往往在求学期间或童年时代就已参观过这些场所，探索欲随之减弱。例如伦敦大英博物馆、北京故宫博物院每年吸引数百万游客，但当地居民却鲜少再次踏入。这使得这些文化场馆逐渐成为旅游地标，而非本地文化生活的有机组成部分。

To encourage greater local participation, museums and historical sites need to build stronger connections with their communities. Instead of offering the same displays year after year, they can create temporary exhibitions, organise cultural festivals, or host educational workshops that appeal to families and students. In Paris, for example, some museums now provide resident-only free admission days and frequently rotate their collections, which has successfully encouraged locals to return. Without such initiatives, however, locals may continue to view these institutions as spaces reserved for outsiders, leaving cultural resources disconnected from everyday life.

要提升本地参与度，博物馆和历史遗址需要与社区建立更紧密的联系。与其常年维持固定展陈，不如策划临时展览、组织文化节或开展面向家庭和学生的教育工坊。以巴黎为例，部分博物馆推出仅对居民开放的免费开放日，并频繁更替展品，成功吸引了本地人群回流。若无此类举措，这些文化场所可能始终被本地人视为"游客专属区"，导致文化资源与日常生活脱节。

In conclusion, the lack of novelty explains why museums attract tourists more than locals, but targeted strategies such as rotating exhibitions and community events can restore their relevance. By doing so, these cultural sites can remain meaningful to both visitors and residents alike.

总而言之，新鲜感缺失是博物馆更吸引游客的主因，但通过针对性策略——如轮换展品、举办社区活动——能重新激活本地参与。如此，这些文化场所方能同时为游客与居民创造持久价值。

10、整容

An increasing number of people are choosing cosmetic surgeries. Why do people have operations to change the way they look? Do you think this is a positive or negative development?（社会）

越来越多的人选择整容手术。人们为什么通过手术改变外貌？你认为这是积极的还是消极的发展？

🍊 写作立场：负面发展

我认为，整容手术的流行主要源于社会审美压力和个人自我实现的需求。虽然它在提升自信方面有一定积极作用，但总体而言是一种负面发展，因为其背后加剧了社会对外貌的过度关注，也潜藏健康和心理风险。

逻辑链分析：

主体段1

提出观点：许多人选择整容是因为社会环境和个人心理因素。

扩展延伸：在媒体与社交平台的渲染下，外貌被放大成衡量价值的标准。

举例：例如在一些国家，明星或网络红人公开整容经历，进一步强化了“变美等于成功”的观念。

结果分析：人们担心被边缘化，于是趋向追随潮流，通过手术满足社会期待。

主体段2

提出观点：然而，这一趋势带来的负面后果不可忽视。

扩展延伸：整容手术不仅有手术风险，还可能导致心理依赖，使人陷入“永远不够好”的循环。

举例：例如在韩国，虽然整容文化盛行，但不少年轻人对外貌产生过度焦虑，甚至因失败案例造成长期困扰。

反面假设：如果社会继续强化这种价值观，健康标准和人格发展可能被忽视，人们会被困在表面化的评价体系中。

In recent years, cosmetic surgery has become increasingly common, with more people choosing to alter their appearance. This trend is driven both by social pressures and by individuals' pursuit of self-confidence. While surgery may bring short-term benefits, I believe its overall consequences are negative for both individuals and society.

近年来，整容手术日益普遍，越来越多人选择通过改变外貌来应对社会压力或追求自信。尽管手术可能带来短期效益，但我认为这种现象对个人和社会产生的整体影响是消极的。

Many people undergo cosmetic procedures because of cultural and psychological pressures. In a world dominated by social media and visual culture, appearance is often magnified as a measure of personal worth. For instance, in some countries， celebrities and online influencers openly discuss their surgeries, reinforcing the belief that looking attractive is a prerequisite for success. As a result, ordinary people may feel compelled to conform, fearing marginalisation if they do not meet prevailing beauty standards.

社会文化与心理压力是推动整容风潮的重要因素。在社交媒体和视觉文化主导的时代，外貌常被放大为个人价值的衡量标准。例如在一些国家，明星和网红公开讨论自己的整形经历，强化了"出众外表是成功前提"的认知。这种环境使普通人产生从众心理，担心不符合主流审美标准会被边缘化。

Nevertheless, the negative impacts of this phenomenon outweigh its advantages. Cosmetic surgery carries medical risks such as infections or complications, but perhaps more serious are the psychological effects. People may develop a dependency, believing they are never “good enough” without constant alterations. South Korea offers a clear example: despite its advanced cosmetic industry, many young people struggle with body-image anxiety, and those who experience unsuccessful surgeries can face long-lasting trauma. If such trends continue unchecked, society risks prioritising superficial beauty over health, skills, and character.

然而，整容盛行带来的负面影响远超其益处。除了感染、并发症等医疗风险，更值得警惕的是心理依赖——部分人会陷入"永远不够好"的认知困境，不断寻求新的改造。韩国便是典型例证：尽管拥有发达的整容产业，许多年轻人仍深陷外貌焦虑，手术失败者更可能承受长期心理创伤。若放任这种趋势发展，社会将逐渐陷入重外表轻内涵的危险取向，弱化对健康、能力与品格的关注。

In conclusion, although cosmetic surgery can offer individuals a temporary boost in confidence, the broader implications are troubling. The growing emphasis on appearance intensifies social pressure and exposes individuals to medical and psychological risks. For these reasons, I regard the rise of cosmetic surgery as a negative development.

综上所述，整容手术虽能带来暂时的自信提升，但其深层影响令人忧虑。对外貌的过度强调不仅加剧社会压力，更使个体暴露于医疗与心理风险之中。因此我认为，整容手术的流行是一种负面发展趋势。

11、在线商务活动

Research says more and morebusiness training and business meetingare taking place online. Do the advantages outweigh the disadvantages?(工作)

研究表明，越来越多的商务培训和商务会议正在线上进行。利大于弊吗？

🍊 写作立场：利大于弊

我认为在线商务培训和会议的优势大于劣势。虽然确实存在面对面沟通缺失的问题，但其带来的灵活性、成本节约和环保价值，使它整体上更有利。

逻辑链分析：

主体段1

提出观点：在线化让企业更高效、更灵活。

扩展延伸：节省差旅与场地开支，员工可以随时随地参与。

举例：例如跨国公司可通过视频会议完成季度战略讨论，而无需让高管飞行数千公里。

结果分析：节省的资金和时间能被重新投入到研发、培训或客户服务，增强竞争力。

主体段2

提出观点：不过，线上模式确实存在局限。

扩展延伸：屏幕沟通削弱了非语言信号和非正式交流，影响团队信任和凝聚力。

举例：新人如果只接受线上培训，往往难以与同事建立联系，降低融入感。

让步：然而，互动白板能在一定程度上缓解这种问题；年轻员工的技术熟练度还可以帮助弥补代际差异。

反面假设：如果线上模式，企业将重新承担巨额差旅和时间成本，在全球竞争中处于劣势。

Recent research shows that more business training and meetings are moving online. I believe that the advantages of this trend outweigh the disadvantages, as long as organisations make smart use of digital tools.

近年来，越来越多的企业培训和会议转向线上。研究表明，只要机构能善用数字工具，这种趋势便利大于弊。

The clearest benefit is efficiency and flexibility. Online platforms save companies huge amounts once spent on travel, hotels, and meeting venues. Employees, meanwhile, can join from anywhere, often with just a laptop and internet access. For example, a multinational firm can hold its quarterly strategy session via video conference instead of flying executives across continents. This not only reduces costs and preparation time but also lowers carbon emissions. The money saved can then be reinvested into innovation, staff training, or customer service, which enhances long-term competitiveness. In practice, this means firms can expand global collaboration without the delays and expenses of traditional business travel.

最显著的优势在于效率与灵活性。线上平台为企业节省了原本用于差旅、住宿和会议场地的巨额开支，而员工仅需笔记本电脑和网络即可随时随地参与。例如，跨国企业可通过视频会议召开季度战略会，无需高管跨洲飞行。这既降低了成本与筹备时间，也减少了碳排放。节省的资金可再投资于创新研发、员工培训或客户服务，从而增强长期竞争力。实践中，这意味着企业能够突破传统商务旅行的耗时耗资限制，拓展全球协作。

Admittedly, online communication has limitations. Non-verbal signals and informal interactions are often lost on screens, weakening trust and team cohesion. A new employee trained

exclusively online, for instance, may struggle to feel connected to colleagues. However, this drawback can be partly addressed through technology itself, such as using interactive whiteboards. Moreover, companies that integrate digital tools effectively often discover that younger staff, already comfortable with technology, can bridge communication gaps and support older colleagues. More importantly, if companies abandoned digital methods because of such concerns, they would once again face heavy travel expenses and wasted time, making them far less adaptable in today’ s fast-paced market.

必须承认，线上交流存在局限。屏幕间易流失非语言信号与非正式互动，削弱团队信任感与凝聚力。例如仅接受线上培训的新员工，可能难以建立同事间的归属感。但这一缺陷可通过技术手段部分弥补——如使用交互式电子白板增强参与感。此外，擅长数字技术的年轻员工往往能弥合沟通断层，协助年长同事适应变革。更重要的是，若因这些顾虑放弃数字化手段，企业将重新陷入高额差旅成本与时间浪费的困境，在当今快节奏市场中丧失应变能力。

In conclusion, while online meetings cannot fully replicate face-to-face interaction, their ability to save costs, improve convenience, and support sustainability makes them a broadly positive development.

总之，尽管线上会议无法完全复制面对面交流，但其在节约成本、提升便捷度与促进可持续性方面的优势，使之成为值得肯定的发展趋向。

12、环境与生活水平

Damage to the environment is an inevitable consequence of improvement in the standard of living. To what extent do you agree or disagree?(环境)

对环境的破坏是生活水平提高的不可避免的后果。你在多大程度上同意或不同意？

🍊 写作立场：不同意

我不同意“生活水平提高必然导致环境破坏”的观点。虽然确实有不少国家依赖资源出口和开发来换取发展，但这并不代表所有国家必须走这条道路，现代技术和政策完全能让环境保护与生活质量提升共存。

逻辑链分析：

主体段1

提出观点：一些人认为提升生活水平不可避免会破坏环境

扩展延伸：这是因为许多国家的经济增长依赖对石油、煤炭或森林等自然资源的过度开发

举例：例如一些产油国通过出口石油推动社会财富增加，但也造成空气污染和土地退化

结果分析：这种模式让人们觉得环境破坏是经济发展的自然代价

主体段2

提出观点：一些人认为提升生活水平不可避免会破坏环境

扩展延伸：这是因为许多国家的经济增长依赖对石油、煤炭或森林等自然资源的过度开发

举例：例如一些产油国通过出口石油推动社会财富增加，但也造成空气污染和土地退化

结果分析：这种模式让人们觉得环境破坏是经济发展的自然代价

Some people argue that damage to the environment is an inevitable consequence of improvements in the standard of living. I do not agree with this statement. Although many economies still rely on heavy resource consumption, modern societies can achieve prosperity without destroying nature.

有人提出环境破坏是生活水平提升过程中不可避免的代价。对此我难以苟同。尽管许多经济体仍依赖于资源消耗，但现代社会完全能够在保护自然的前提下实现繁荣。

It is understandable why many people believe that higher living standards inevitably cause environmental harm. In many countries, economic growth depends heavily on extracting and selling natural resources such as oil, coal, or timber. For example, several oil-exporting nations have raised living standards by exporting fossil fuels, yet this has resulted in serious air pollution and soil degradation. Such development paths reinforce the impression that prosperity and environmental damage are inseparable, making people assume that destruction of nature is the unavoidable cost of progress.

认为生活水平提高必然导致环境破坏的观点确有其现实依据。许多国家的经济增长严重依赖石油、煤炭、木材等自然资源的开采与销售。例如部分石油出口国通过化石燃料贸易提升了国民生活水平，却也因此造成严重的空气污染与土地退化。这类发展模式强化了"繁荣必然伴随环境破坏"的认知，使人们误以为生态牺牲是进步必须支付的代价。

However, damage to the environment does not have to accompany improvements in quality of life. Advances in renewable energy, sustainable city planning, and circular economies allow nations to decouple growth from pollution. Denmark offers a convincing example, as it has expanded wind power while enforcing strict energy efficiency codes for buildings. As a result, households enjoy modern comfort with lower emissions. Likewise, many metropolitan areas promote public transport and green spaces, which reduce congestion and improve air quality. These cases demonstrate that economic growth and environmental protection can progress together, offering a model of prosperity without ecological sacrifice.

然而，环境破坏与生活质量提升并非必然共生。可再生能源、可持续城市规划与循环经济等领域的发展，使国家能够实现经济增长与污染脱钩。丹麦便是力证：该国在大力发展风电的同时，严格执行建筑能效标准，使民众在享受现代生活便利的同时降低了碳排放。同样，众多大都市通过推广公共交通与绿地建设，既缓解了交通拥堵又改善了空气质量。这些案例表明经济发展与环境保护可以协同并进，为无生态牺牲的繁荣模式提供了范本。

In conclusion, while resource-driven growth has often harmed nature, this pattern is not inevitable. With cleaner technologies and responsible policies, societies can ensure both higher living standards and a sustainable environment for future generations.

综上所述，尽管资源驱动型增长常伴随环境代价，但这种模式并非必然。通过清洁技术与责任政策，人类社会完全能够在提升生活水平的同时，为后代留下可持续发展的环境。

13、着装风格

Nowadays, people tend to wearwestern style clothes rather thantraditional clothes. What are the reasons?Do you think it is a positive or negative development?(社会)

如今，人们倾向于穿西式服装而非传统服装。原因是什么？你认为这是积极的还是消极的发展？

🍊 写作立场：利大于弊

我认为人们选择穿西式服装主要是因为其实用性与全球化影响。尽管这种趋势带来了便利与统一，但总体而言是一个负面发展，因为它加速了传统服饰的边缘化，削弱了文化多样性。

逻辑链分析：

主体段1

提出观点：人们选择西式服装的主要原因在于其舒适和实用性。

扩展延伸：西式衣物多以轻便、功能性面料为主，更适合现代快节奏的生活方式。

举例：例如牛仔裤和T恤，既适合工作，也适合休闲，几乎成为全球通用的日常服饰。

结果分析：这种普遍适用性让西式服装在全球广泛流行，逐渐取代了传统服饰的日常地位。

主体段2

提出观点：这种趋势带来积极的便利和社交认同，但也伴随文化传承的隐忧。

举例：在跨国交流或留学环境中，穿着西式服饰能帮助人们更容易融入群体。

扩展延伸：然而，如果年轻一代过度依赖西式服装，可能会淡化他们对民族传统服饰的理解和兴趣。

让步：因此，这一趋势整体上是积极的，但社会应鼓励在特殊场合或节庆中保留传统服饰。

In recent decades, the popularity of Western-style clothing has grown rapidly, and many people now prefer jeans, T-shirts, or suits over their traditional outfits. This phenomenon can be explained by both practical considerations and the influence of globalization.

近几十年来，西式服装的流行度迅速攀升，越来越多人开始偏爱牛仔裤、T恤和西装，而非传统服饰。这一现象既源于实用考量，也受到全球化影响。

One of the main reasons for this trend is practicality. Western clothes are generally designed with comfort and functionality in mind, making them well suited to fast-paced modern lifestyles. Fabrics are lighter, easier to maintain, and more adaptable to different occasions. For instance, jeans and T-shirts can be worn both in workplaces with a casual dress code and in leisure settings, which has made them a staple across the world. As a result, these clothes offer a sense of convenience and versatility that traditional outfits may lack, thus explaining their global spread.

实用性能是推动这一趋势的主要因素。西式服装普遍注重舒适性与功能性，更适应快节奏的现代生活。其面料更轻便、更易打理，且适用于多种场合。例如在允许休闲着装的工作场所或娱乐场景中，牛仔裤与T恤已成为全球标配。这类服饰提供的便利性与普适性，恰恰是传统服装难以企及的，这解释了其为何能风靡世界。

Beyond practicality, wearing Western clothes also reflects the influence of globalization and social identity. When studying abroad or working in international companies, people often find it easier to integrate when they wear styles similar to their peers. This creates a sense of belonging and reduces cultural distance. However, the risk is that overreliance on Western fashion could weaken younger generations' appreciation for their own cultural attire. Traditional clothes may gradually become limited to museums or festivals if they are not actively promoted. Therefore, while the adoption of Western clothes is largely a positive development, societies should still encourage people to wear traditional clothing during important ceremonies or cultural events to preserve heritage.

除实用价值外，西式服装的盛行还折射出全球化与社会认同的影响。在留学或跨国企业工作中，人们穿着与同伴相似的服装能更快融入环境。这种选择既创造归属感，也消弭了文化隔阂。但隐患在于，过度依赖西方时尚可能削弱年轻一代对本土服饰的认同。若不加推广，传统服装或将逐渐局限于博物馆与节庆活动。因此，在接纳西式服装这一积极趋势的同时，社会仍应鼓励民众在重要典礼或文化活动中穿着传统服饰，以延续文化血脉。

In conclusion, the shift toward Western-style clothing reflects convenience and global connection, and it is generally a positive trend. Nevertheless, balancing modern practicality with cultural preservation remains essential.

总之，西式服装的兴起既彰显了实用价值与全球联结，总体而言是积极的潮流。然而，在现代实用性与文化传承之间寻求平衡，依然至关重要。

14、电视广告

Nowadays, there are many televisionadvertisements aimed at children. What are the effects of these advertisements on children? Should TV advertisements becontroled?(媒体)

如今，有许多针对儿童的电视广告。这些广告对儿童有什么影响？电视广告应受到控制吗？

🍊 写作立场

我认为电视广告对儿童影响较大，既包括消费习惯上的不健康引导，也涉及价值观塑造。为了保护未成年人，广告应当被适度管控。

逻辑链分析：

主体段1

提出观点：电视广告容易对儿童的消费和价值观产生不良影响。

扩展延伸：儿童缺乏批判思维，往往被广告中的夸张信息和视觉效果吸引。

举例：例如，快餐和饮料广告通常将高糖高脂食品与快乐、友谊联系起来，导致儿童偏好不健康饮食。

结果分析：这种趋势不仅增加肥胖风险，还可能培养孩子的物质化倾向。

主体段2

提出观点：因此，广告必须受到合理限制。

扩展延伸1：政府可以制定法规，禁止在儿童节目时段播放垃圾食品广告。

举例：比如一些国家在晚间动画中禁止高热量零食广告，结果儿童肥胖率的增长得到了遏制。

扩展延伸2：除此之外，广告监管还可以要求企业加入健康教育元素，让宣传更具责任感。

Nowadays, there are countless television advertisements targeting children, and their influence on young audiences cannot be ignored. I strongly believe that such advertising should be carefully controlled because its negative impacts outweigh any benefits.

如今，针对儿童的电视广告层出不穷，其对年轻观众产生的影响不容忽视。我坚信此类广告应当受到严格管控，因其负面影响远大于任何益处。

The major problem is that advertisements can mislead children, who are not yet able to critically evaluate commercial messages. Since they are easily attracted by colorful visuals and exaggerated slogans, they may accept unrealistic claims as truth. For example, commercials for fast food or sugary drinks often associate these products with joy, fun, or friendship. As a result, many children develop unhealthy eating habits and prefer junk food over balanced meals. In the long term, this exposure can contribute to childhood obesity and even encourage a materialistic outlook, where children equate happiness with possessions.

首要问题在于广告容易误导尚未具备批判性思维能力的儿童。绚丽的画面与夸张的宣传语极易吸引儿童，使他们将虚假宣传信以为真。例如，快餐与含糖饮料广告常将这些产品与快乐、友谊等概念绑定，导致许多儿童养成不健康的饮食习惯，偏爱垃圾食品而非均衡膳食。长期接触此类广告不仅可能引发儿童肥胖问题，更会助长物质主义价值观，使孩子将幸福等同于物质占有。

Given these risks, strict regulation of children’s advertising is essential. Governments could introduce rules to ban or limit junk food commercials during popular children’s shows, so young audiences are not constantly exposed to harmful messages. For instance, some countries have already restricted high-calorie snack ads during cartoons, which has coincided with a slower rise in childhood obesity. Beyond restrictions, authorities could also require companies to include educational elements in their advertisements, such as reminders about healthy lifestyles or responsible consumption. This not only reduces harm but also turns media into a more positive force for children’s development.

鉴于这些风险，对儿童广告实施严格监管至关重要。政府应制定法规，禁止或限制在热门儿童节目时段播放垃圾食品广告，以减少儿童接触有害信息的频率。例如部分国家已对卡通时段的高热量零食广告实施限制，同期儿童肥胖率增速明显放缓。除限制措施外，相关部门还可要求企业在广告中加入教育元素，如植入健康生活方式或理性消费的提示。这不仅能降低广告危害，更能使媒体转化为促进儿童成长的积极力量。

In conclusion, television advertising has significant negative effects on children, particularly in shaping their diets and values. Appropriate regulation is therefore necessary to protect children from misleading influences and ensure their well-being.

总之，电视广告对儿童的饮食习惯与价值观念塑造存在显著负面影响。通过合理监管保护儿童免受误导性宣传侵害，是保障其健康成长的应有之义。

15、音乐

Music has always been and continuesto be the universal language of mankind.To what extent do you agree or disagree?(文化)

音乐过去是，而且将继续是全人类的通用语言。你在多大程度上同意或不同意？

🍊 写作立场：部分同意

我部分同意音乐是人类的“通用语言”。音乐确实能超越语言传递情感，但在涉及具体内容和文化背景时，音乐未必能被所有人普遍理解。

逻辑链分析：

主体段1

提出观点：音乐能跨越语言和国界传递情感，是一种普遍的表达方式。

扩展延伸：旋律、节奏和音调能够直接触动人类的情绪反应，而不依赖语言。

举例：例如在奥运会或世界杯开幕式中，音乐能够让来自不同国家的观众产生共同的激情与认同。

结果分析：这种作用说明音乐确实能在一定程度上成为全人类共享的沟通方式。

主体段2

提出观点：然而，音乐的解读往往受到文化背景和个人经历的影响。

举例：例如某些东方乐器的音色可能让本土观众联想到庆典，但西方观众可能无法准确把握其中含义。

扩展延伸：音乐能够准确传递情绪，却难以传递具体信息，甚至可能造成误解。

让步：因此，音乐虽然是强大的情感语言，但并非严格意义上的“通用语言”。

Music has often been described as the universal language of mankind because of its ability to cross linguistic and cultural barriers. I partly agree with this view. While music can indeed transmit emotions that resonate with people worldwide, it is not always capable of being understood as a fully universal language.

音乐常被誉为人类的通用语言，因其能跨越语言与文化的障碍。对此我部分认同：虽然音乐确实能传递引发全球共鸣的情感，但它并非总能被完全理解为一种普世语言。

On the one hand, music has a remarkable power to convey feelings without the need for translation. Rhythm, melody, and tone can directly influence human emotions, creating shared experiences among diverse audiences. For example, during global events such as the Olympic Games or the World Cup, the opening ceremonies often use music to evoke excitement and unity. People from all backgrounds may feel the same passion, even if they do not share a common spoken language. This demonstrates that music has a unique ability to transcend national borders and foster mutual understanding.

从积极层面看，音乐具有无需翻译即可传递情感的非凡力量。节奏、旋律与音调能直接触动人类情绪，在不同受众间创造共通体验。譬如在奥运会或世界杯等全球盛事的开幕典礼上，音乐常被用于激发激情与凝聚力。即使语言不通，来自不同文化背景的人们仍能感受相同的情感共振，这印证了音乐超越国界、促进理解的独特能力。

On the other hand, the interpretation of music is shaped by cultural traditions and personal experiences. A piece that uses traditional Asian instruments may remind local audiences of festivals or religious rituals, while foreign listeners may not grasp these symbolic meanings. Moreover, music can convey emotions like joy or sadness, but it struggles to communicate specific information, such as facts or instructions. In some cases, a composition may even be misunderstood if its cultural context is unfamiliar. Therefore, music cannot always function as a universal language in the strictest sense.

然而从另一视角看，音乐诠释始终受文化传统与个人经历制约。运用传统亚洲乐器的曲目可能让本土听众联想到节庆仪式，而异文化听众却难以捕捉这些深层符号。此外，音乐虽能传达悲喜等基础情绪，却难以传递具体信息（如事实陈述或操作指引）。当缺乏相应文化背景时，音乐作品甚至可能引发误读。因此严格来说，音乐并非总能充当真正意义上的通用语言。

In conclusion, music does possess universal qualities in transmitting emotions, but its meaning is not equally understood by all people. It is more accurate to view music as a shared emotional language rather than a complete substitute for human communication.

综上所述，音乐在情感传递层面确实具有普世性，但其内涵并非能被所有人等同解读。将音乐视为一种共享的情感符号系统，而非人类交流的完整替代品，或许是更审慎的认知。
