2025.11月大作文预测 公开版

在看预测之前大家要有一个认知：雅思写作的题库特别广，在不断增加新题的同时还会进行老题重考，所以完全无法统计出题库的完整内容，因此雅思写作可以视为“没有题库”。所以预测是基于近期高频考题做的整理，可以作为类似于“观点库”的辅助内容，但不要寄很大希望于预测到原题

一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以“父母对儿童成长的影响”这一话题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、“父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观" 、“个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。

那我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

……

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、饮食健康

The government has the duty to ensurethat its citizens have a healthy diet, whileothers believe this is individuals'responsibility. Discuss both views and giveyour opinion.(政府)

- 政府有责任确保公民保持健康饮食，而另一些人认为这是个人的责任。讨论双方观点并给出你的意见。

🍊 写作立场：双方结合

我认为政府和个人在促进健康饮食方面都负有责任，但政府的作用更为关键。因为政府能通过政策、教育和监管影响食品环境，而个人的自律在缺乏外部支持时往往难以长期维持。

逻辑链分析：

主体段1

观点：政府在确保全民健康饮食方面确实发挥着关键作用。

扩展延伸：因为政府有权制定政策、限制不健康食品广告、并规范食品安全标准。

举例：例如，许多国家通过征收“糖税”来减少含糖饮料消费，或强制要求食品包装标注营养信息。

结果分析：这些政策可以有效减少肥胖率和慢性病，为公共卫生体系减轻负担。

主体段2

观点：然而，从根本上说，健康饮食的责任仍然在于个人。

扩展延伸：即便政府提供了健康指导，人们依然可以选择吃快餐、忽视营养标签。

合理性推断：饮食是一种日常行为，无法通过法律或政策完全监管，只有当个人具备健康意识并主动控制饮食，措施才会真正奏效。

结果分析：因此，公众健康的提升最终取决于个人自律，而非政府干预的力度

The debate surrounding who should take responsibility for public health has drawn increasing attention. While some people argue that the government should play a leading role in promoting a healthy diet, others believe that individuals themselves should take charge. From my perspective, both sides have valid points, but I tend to believe that personal responsibility is the more decisive factor.

关于谁应该为公共健康负责的争论日益受到关注。尽管有些人认为政府应在推广健康饮食方面发挥主导作用，但也有人认为个人应该自己负责。在我看来，双方的观点都有道理，但我倾向于认为个人责任是更为关键的因素。

On one hand, the government undoubtedly plays a vital role in ensuring that citizens maintain a healthy diet. It can implement national policies, regulate food industries, and restrict misleading advertising for unhealthy products. For instance, many countries have introduced a “sugar tax” to discourage the overconsumption of soft drinks, or required food producers to display detailed nutrition labels on packaging. Such regulations not only guide consumers toward healthier options but also help reduce obesity and diet-related diseases. In the long run, this lessens the financial pressure on public healthcare systems.

一方面，政府在确保公民保持健康饮食方面无疑扮演着重要角色。政府可以实施国家政策，监管食品行业，并限制不健康产品的误导性广告。例如，许多国家推出了“糖税”以抑制软饮料的过度消费，或要求食品生产商在包装上标注详细的营养标签。这些规定不仅引导消费者选择更健康的食品，还有助于减少肥胖和与饮食相关的疾病。从长远来看，这减轻了公共医疗系统的财政压力。

On the other hand, personal responsibility remains the cornerstone of maintaining a healthy diet. Even with strict regulations, people still have the freedom to choose what they eat. For example, some individuals continue to rely on fast food despite knowing its negative effects. Since diet is a daily habit that cannot be fully controlled by laws or policies, only when individuals cultivate health awareness and exercise self-discipline can positive results be achieved. Therefore, long-term public health improvement depends more on individuals’ commitment than on governmental intervention.

另一方面，个人责任仍然是保持健康饮食的基石。即使有严格的规定，人们仍然有选择吃什么食物的自由。例如，尽管知道快餐的负面影响，一些人仍然依赖快餐。由于饮食是一种日常习惯，无法完全通过法律或政策来控制，只有当个人培养健康意识并自律时，才能取得积极的效果。因此，公共健康的长期改善更多地依赖于个人的努力，而不是政府的干预。

In conclusion, both the government and individuals play essential roles in encouraging healthy eating, but it is ultimately up to individuals to make responsible dietary choices.

总之，政府和个人在鼓励健康饮食方面都发挥着重要作用，但最终做出负责任的饮食选择还是要靠个人。

2、媒体的影响

News media are important in modern society. Why are they so important? Are their influences generally positive or negative?(媒体)

- 新闻媒体在现代社会中十分重要。为何它们如此重要？其影响通常是积极的还是消极的？

🍊 写作立场：积极作用

我认为新闻媒体在现代社会至关重要。它不仅帮助人们了解世界，还促进社会透明与公平。虽然媒体偶尔会带来负面影响，但这些问题大多可控，因此总体而言，它对社会的影响是积极的。

逻辑链分析：

主体段1

观点：新闻媒体之所以重要，是因为它在信息传播中扮演着核心角色。

扩展延伸：媒体能够帮助人们了解国内外时事，促进社会透明度和公众参与。

举例：例如，当出现自然灾害或公共卫生事件时，媒体能迅速传递信息，指导公众如何应对。

结果分析：这不仅能提升社会的应变能力，也增强了民众对公共事务的信任感。

主体段2

观点：虽然媒体有一定负面影响，但这些问题是可控的，并不能否定其总体价值。

举例：一些商业化媒体追求流量，制造恐慌或传播未经证实的消息，损害社会稳定。

让步反驳：但这些问题源于运作方式，而非媒体本身；通过监管与教育完全可改善。

结果分析：因此，只要保持专业与公正，媒体的积极作用依然远大于负面影响。

News media play an indispensable role in modern society, serving as the main bridge between people and the world around them. They not only keep citizens informed but also promote transparency, civic engagement, and accountability. Although some drawbacks exist, the overall influence of the media remains strongly positive.

新闻媒体在现代社会中扮演着不可或缺的角色，它架起了人们与外部世界沟通的重要桥梁。媒体不仅帮助民众获取信息，还能促进社会透明度、公民参与度和问责机制。尽管存在一些弊端，但媒体的整体影响始终是积极正向的。

To begin with, the media are crucial because they enable people to stay connected with the world and understand ongoing developments. By delivering timely and accurate reports, they help citizens form independent opinions and respond to social issues responsibly. For instance, during natural disasters or public health crises, news outlets provide essential information and government updates that guide people’ s decisions. This flow of information improves public awareness, enhances national resilience, and reinforces trust between citizens and authorities.

首先，媒体的重要性在于它能帮助人们了解世界动态，把握时事脉搏。通过及时准确的报道，媒体助力公民形成独立观点，并以负责任的态度应对社会问题。以自然灾害或公共卫生危机为例，新闻机构提供的关键信息和政府通报能有效指导民众行动。这种信息流动既提升了公众认知，也增强了社会应对能力，同时巩固了公民与政府之间的信任。

However, it is true that the media can sometimes produce harmful effects. Certain commercial outlets, driven by competition for clicks and profits, may exaggerate conflicts, spread unverified stories, or create emotional headlines that mislead the public and damage social harmony. Nevertheless, these issues usually stem from how media organizations operate rather than from the media itself. With stricter regulation, stronger professional ethics, and improved media literacy among audiences, such problems can be largely mitigated. Once these distortions are kept under control, the media’ s vital functions such as informing the public, monitoring those in power, and uniting communities clearly outweigh any potential harm.

然而不可否认，媒体有时也会产生负面影响。部分商业媒体为争夺点击率和利润，可能夸大矛盾、传播未经核实的消息，或制造煽动性标题误导公众、破坏社会和谐。但这些问题的根源往往在于媒体机构的运营机制，而非媒体本质。通过加强监管、提升职业道德、增强受众的媒介素养，这些问题大多能够得到控制。只要对这些失真信息加以约束，媒体在信息传播、权力监督和社会凝聚等方面的重要作用，显然远超其可能带来的潜在危害。

In conclusion, while modern media are not without flaws, their contributions to openness, knowledge, and democracy are undeniable. When guided by responsibility and integrity, their impact on society is overwhelmingly positive.

总之，尽管现代媒体存在缺陷，但它们对推动社会开放、知识传播和民主进程的贡献不容置疑。在责任与诚信的引导下，媒体对社会产生的积极影响始终占据主导地位。

3、平均工时

Countries with a long average working time are more economically successful than those countries which do not have a long working time. To what extent do you agree or disagree?(工作)

- 平均工作时间长的国家比那些工作时间不长的国家在经济上更成功。你在多大程度上同意或不同意？

🍊 写作立场：积极作用

我并不完全同意“长工时国家更成功”这一说法。虽然延长工作时间在早期确实能推动经济增长，但这种模式往往不可持续。真正的经济成功更依赖于生产效率、科技创新和员工福祉的平衡。

逻辑链分析：

主体段1

观点：长工时在某些阶段确实有助于经济增长。

扩展延伸：特别是在工业化或经济发展初期，更多的劳动投入意味着更高的产出。

举例：例如，东亚一些国家在上世纪快速增长时期，人均工时较长，这在短期内显著提高了制造业产值。

结果分析：因此，延长工时在经济起飞阶段可以帮助国家积累资本、提升竞争力。

主体段2

观点：然而，长期依赖长工时并不是可持续的成功之道。

举例：过度劳累会降低员工创造力和效率，甚至导致“过劳文化”，损害健康与社会幸福感。

让步反驳：虽然勤奋工作是一种美德，但现代经济更依赖技术创新和生产力提升，而非单纯的工作时长。

结果分析：因此，一个国家若想保持长期繁荣，必须在工作强度与生活质量之间找到平衡，推动高质量而非高强度的增长。

The relationship between working hours and economic success has been widely debated. While it is true that longer working hours can boost productivity in certain contexts, I believe that this factor alone cannot guarantee sustainable growth.

工作时间与经济发展之间的关系一直备受争议。虽然在某些情况下，延长工作时间确实能提升生产效率，但我认为仅靠这一点并不能保证经济的可持续发展。

On the one hand, extended working hours may contribute to economic expansion, particularly in developing economies. When industries are still labour-intensive, longer working time directly increases production output and accelerates industrial growth. For instance, several

East Asian countries experienced rapid economic development in the late twentieth century, partly due to the long working hours of their manufacturing sectors. In the short term, this intensive work culture helped nations accumulate capital, build infrastructure, and strengthen global competitiveness.

一方面，延长工作时间可能促进经济增长，特别是在发展中国家。当产业仍处于劳动密集型阶段时，延长工时直接增加了产出，加速了工业发展。以二十世纪末多个东亚国家为例，其制造业普遍实行长时间工作制，这在一定程度上推动了经济腾飞。短期来看，这种高强度工作文化有助于资本积累、基础设施建设和全球竞争力提升。

However, relying on long working hours in the long run is neither healthy nor sustainable. Excessive work often leads to burnout, declining productivity, and deteriorating mental health, all of which weaken the labour force that drives economic growth. Although hard work remains an admirable value, modern economies depend increasingly on innovation, automation, and knowledge-based industries rather than on sheer working time. Countries such as Germany and Sweden, for example, have maintained strong economies despite relatively shorter working weeks, thanks to high efficiency and technological advancement. Therefore, true economic success should be measured not by how long people work but by how effectively they work.

然而，长期依赖延长工作时间既不利于民生健康，也不具备可持续性。过度工作往往导致员工倦怠、生产效率下降及心理健康恶化，这些都会削弱推动经济增长的劳动力质量。尽管勤奋工作仍是值得推崇的价值观，但现代经济越来越依赖创新、自动化和知识型产业，而非单纯的工作时长。以德国和瑞典为例，这些国家尽管周工作时长相对较短，却凭借高效生产与技术进步保持了强劲经济实力。因此，真正的经济成功不应以工作时长来衡量，而应以工作效率为准则。

In conclusion, while longer working hours may bring short-term benefits during early development, lasting prosperity depends on improving productivity and ensuring a balanced, innovative workforce. Quality of work, rather than quantity of time, is the key to genuine economic success.

总之，虽然在发展初期延长工作时间可能带来短期收益，但持久繁荣必须依靠生产力提升和平衡发展的创新劳动力。真正决定经济成功的关键在于工作质量，而非工作时间的长短。

4、体育比赛

Some people think sports games are important for society, while others believe they should be taken as leisure activities. Discuss both views and giveyour opinion.(政府)

- 有些人认为体育赛事对社会很重要，而另一些人则认为体育应被视为休闲活动。讨论双方观点并给出你的意见。

🍊 写作立场：共存

很明显双方观点并不冲突吗，娱乐活动也能对社会很重要。

逻辑链分析：

主体段1

观点：体育赛事在社会层面具有显著的重要性。

扩展延伸：它能激发民族自豪感、促进社会团结，并传递公平竞争与合作精神。

举例：例如，奥运会或世界杯常常让不同背景的人们团结在一起，共同为国家加油。

结果分析：这种集体情感能增强社会凝聚力，并激励青少年参与体育、追求更健康的生活方式。

主体段2

观点：然而，也有人认为体育主要是一种休闲活动，用来放松身心。

扩展延伸：与大型赛事的社会意义相比，普通人更关注运动带来的快乐与健康。

举例：比如，人们下班后打篮球、跑步或踢球，只是为了释放压力，而非追求荣誉或竞争。

结果分析：不过，这种个人层面的休闲意义并不与社会价值冲突，反而说明体育能在个人与社会层面同时带来积极影响，因此其社会重要性依旧不可忽视。

Sports have long played a central role in human society. Some people believe that sporting events are essential for social development, while others think they should simply be seen as leisure activities. Personally, I agree that sports can provide relaxation and fun, but their wider social importance should never be underestimated.

体育运动在人类社会中始终占据重要地位。有人认为体育赛事对社会发展至关重要，另一些人则认为它们应被单纯视为休闲活动。我个人认同体育能带来放松和乐趣，但其广泛的社会意义绝不容忽视。

On the one hand, sports games have significant social and cultural value. They not only represent national honor but also bring people together and promote mutual understanding among nations. Major international competitions such as the Olympic Games or the World Cup can momentarily bridge political and cultural divides, as people from all backgrounds unite to support their teams. Moreover, athletes’ perseverance and teamwork set positive examples for the younger generation, encouraging them to value discipline, fairness, and dedication. As a

result, sports become more than mere competitions; they serve as a shared language that strengthens social bonds and inspires collective pride.

一方面，体育赛事具有重要的社会与文化价值。它们不仅代表着国家荣誉，更能凝聚人心，促进民族间相互理解。诸如奥运会或世界杯等重大国际赛事能暂时弥合政治与文化分歧，让不同背景的人们共同为支持的队伍欢呼。此外，运动员展现的毅力与团队精神为年轻一代树立了榜样，激励他们珍视纪律、公平与奉献。因此，体育已超越竞赛本身，成为强化社会纽带、激发集体荣誉感的共同语言。

On the other hand, many people consider sports primarily as a way to relax and improve their personal well-being. Compared with grand sporting events, ordinary individuals tend to focus on enjoyment, physical health, and social interaction. For instance, people often play football, go jogging, or swim after work simply to stay fit and release stress. However, this personal enjoyment does not contradict the broader social importance of sports. In fact, it highlights how deeply sports are embedded in everyday life, creating a culture that values health, connection, and balance.

另一方面，许多人将体育主要视为改善个人生活品质的休闲方式。与大型赛事相比，普通人更关注运动带来的愉悦体验、健康效益和社交互动。例如，人们下班后踢足球、跑步或游泳，往往只是为了保持健康、释放压力。但这种个人享受与体育的广泛社会价值并不矛盾。实际上，这正体现了体育已深度融入日常生活，形成了一种珍视健康、联结与平衡的文化氛围。

In conclusion, while sports undeniably serve as a leisure activity, their contribution to unity, cultural exchange, and national identity makes them far more important than simple entertainment.

总之，尽管体育确实具有休闲功能，但其在促进团结、文化交流和塑造民族认同方面的贡献，使其意义远超越简单的娱乐范畴。

5、环境问题

There are many environmenta!problems, such as the greenhouse effectand climate change, and people have hardly found any solutions. Why is this the case? And what measures can be taken? (环境)

- 存在许多环境问题，例如温室效应和气候变化，而人们几乎尚未找到任何解决方案。为何会如此？可以采取哪些措施？

🍊 写作立场：正常列举

我认为环境问题之所以难以解决，主要是因为利益冲突、公众意识不足以及国际合作效率低。要想真正缓解气候变化，需要政府、企业和个人共同努力，通过政策引导、技术创新和

教育宣传实现可持续发展。

逻辑链分析：

主体段1

观点：环境问题之所以长期存在，主要原因在于经济利益与生态保护之间的冲突。

扩展延伸：许多国家和企业依赖高污染行业维持增长，导致环保政策难以落地。

举例：例如，一些发展中国家仍依靠燃煤发电和重工业出口，短期内无法放弃高碳经济。

结果分析：因此，即使人们意识到环境风险，现实的经济压力依然让全球减排行动步履维艰。

主体段2

观点：要应对气候变化，必须采取综合措施。

举例：政府应制定严格的排放标准并投资清洁能源，企业应发展绿色生产技术，学校和媒体则应提高公众环保意识。

合理性推断：这些措施能从制度、技术和意识三个层面同时发力，使环保成为全社会的共同行动。

结果分析：若多方形成合力，环境问题虽无法彻底消除，但可以显著减缓恶化趋势，为可持续未来奠定基础。

Environmental challenges such as the greenhouse effect and climate change have become increasingly serious, yet effective solutions remain elusive. This situation can be attributed to conflicting interests, limited public awareness, and insufficient international cooperation. However, with joint efforts from governments, businesses, and individuals, meaningful progress is still achievable.

温室效应和气候变化等环境问题日益严峻，但有效的解决方案仍难以落实。这种困境源于利益冲突、公众意识不足以及国际合作欠缺。然而，只要政府、企业和个人共同努力，实现实质性进展依然可能。

One major reason behind the difficulty lies in the tension between economic development and environmental protection. Many industries still depend heavily on fossil fuels and high-emission production, making it costly to shift toward greener alternatives. For example, in some developing countries, coal-fired power plants and heavy manufacturing remain essential to national income and employment. As a result, even when governments acknowledge the urgency of climate action, economic pressures often outweigh environmental concerns. In addition, global coordination is complex, since different nations face unequal responsibilities

and priorities. These combined factors explain why current solutions are often slow and fragmented.

解决环境问题的主要障碍之一在于经济发展与环境保护之间的矛盾。许多产业仍高度依赖化石燃料和高排放生产模式，转向绿色替代方案成本高昂。例如，在一些发展中国家，燃煤电厂和重工业仍是国民收入和就业的重要支柱。因此，即便政府意识到气候行动的紧迫性，经济压力往往仍凌驾于环境考量之上。此外，各国责任与优先事项不尽相同，导致全球协作复杂化。这些因素共同造成当前解决方案推进缓慢且零散的现状。

To address this issue, a range of measures should be implemented simultaneously. Governments can impose stricter emission limits, promote renewable energy, and offer incentives for sustainable innovation. Companies, in turn, should adopt eco-friendly production methods and invest in cleaner technologies. Education and media campaigns can also raise public awareness and encourage lifestyle changes such as waste reduction and energy saving. By combining policy enforcement, technological progress, and social participation, environmental protection can shift from an ideal into a collective responsibility.

为解决这一难题，需要多管齐下实施系列措施。政府应推行更严格的排放标准，推广可再生能源，并为可持续创新提供激励政策。企业则需采用环保生产方式，投资清洁技术。通过教育宣传和媒体传播，可提升公众环保意识，推动减少浪费、节约能源等生活方式转变。将政策监管、技术进步与社会参与相结合，环境保护才能从理想转化为共同责任。

In conclusion, while there are undeniable obstacles to solving environmental problems, coordinated actions at multiple levels can gradually reverse current trends. A balanced approach that values both growth and sustainability is the key to securing a livable planet for future generations.

尽管环境治理存在显著阻力，但通过多层面的协同行动，当前趋势仍可被逐步扭转。在发展与可持续性之间寻求平衡，才是为子孙后代守护宜居星球的关键所在。

6、远程工作生活

Nowadays, people in some countriescan choose to live and work anywherethey want because of the improvement ofthe transportation and communicationtechnologies. Discuss the benefits and thedrawbacks of the phenomenon.(科技)

- 如今，由于交通和通信技术的进步，一些国家的人们可以选择在任何地方生活和工作。讨论这一现象的好处与弊端。

🍊 写作立场：正常列举

我认为交通与通信技术的进步极大地拓宽了人们的生活与职业选择空间。它带来了更高的灵活性和机会，但也导致了社会不平衡和心理压力等副作用。整体而言，这一趋势利大于弊。

（可以只列举不总结是否利大于弊，总结了也不扣分）

逻辑链分析：

主体段1

观点：技术的发展让人们能够打破地理限制，自由选择工作和居住地点。

举例：例如，许多公司采用远程办公制度，使员工可以住在生活成本更低、环境更舒适的地方，同时保持与总部实时协作。

合理性推断：这不仅帮助人们节省通勤时间，还让他们在职业与家庭之间找到更好的平衡。

结果分析：从更广的层面看，这种灵活性也缓解了大城市的拥挤，并促进了欠发达地区的经济活力。

主体段2

观点：然而，这种自由流动也带来一些负面影响。

举例：随着人口自由迁移，热门城市房价上涨、竞争激烈；远程工作者还可能感到孤独，工作与生活界限变得模糊。

让步反驳：不过，这些问题并非技术本身导致，而是社会和个人在适应过程中出现的副作用。

结果分析：通过完善政策与提高自我管理能力，这些挑战可以被克服，从而让技术带来的灵活性成为一种积极趋势。

The rapid development of transportation and communication technologies has transformed how people live and work. Nowadays, individuals can choose where to reside and pursue their careers without being tied to a specific city. While this trend offers clear advantages, it also creates new challenges that society must address.

交通与通信技术的飞速发展彻底改变了人们的生活和工作方式。如今，个体在选择居住地和追求职业生涯时，不再受限于特定城市。这种趋势虽带来显著优势，但也催生了社会必须应对的新挑战。

To begin with, improved technologies have given people far greater flexibility in their lifestyles. Many companies now adopt remote-working systems that allow employees to live in places with lower costs of living or better environments while maintaining real-time communication with their teams. This not only saves commuting time but also enables individuals to balance professional goals with personal well-being. On a broader scale, such flexibility helps reduce urban overcrowding and stimulates economic activity in less-developed areas, leading to a more balanced national development.

首先，技术进步赋予人们更大的生活灵活性。许多企业采用远程办公系统，员工既可居住在生活成本更低、环境更宜人的地区，又能与团队保持实时沟通。这不仅节省通勤时间，更有助于实现职业追求与个人福祉的平衡。从更宏观视角看，这种灵活性有助于缓解城市过度拥挤，激发欠发达地区经济活力，促进国家更均衡发展。

However, this growing mobility also brings some drawbacks. As more people relocate freely, property prices in popular cities rise sharply, and job competition becomes more intense. Meanwhile, remote workers may feel socially isolated and find it difficult to separate work from personal life. Nevertheless, these challenges do not stem from technology itself but from the way people and institutions adapt to it. With sound urban planning, better digital management, and stronger self-discipline, such issues can be effectively minimized.

然而，人员流动性的增强也带来隐忧。随着自由迁徙成为常态，热门城市房价急剧上涨，就业竞争日趋激烈。与此同时，远程工作者可能面临社交孤立感，难以划清工作与生活界限。但这些挑战并非源于技术本身，而是源于社会个体与机构对新型生活方式的适应程度。通过合理城市规划、完善数字管理机制及加强个人自律，这些问题都能得到有效缓解。

In conclusion, the ability to live and work anywhere is one of the greatest achievements of modern technology. Although it introduces new forms of pressure and social adjustment, its overall impact remains overwhelmingly positive, as it promotes freedom, efficiency, and a more connected world.

总之，随时随地生活与工作的自由是现代科技最重要的成就之一。尽管它带来了新型压力和社会适应课题，但其通过促进个人自由、提升社会效率、构建更紧密联结的世界，所产生的整体影响始终是积极深远的。

7、食品浪费

In some countries, people waste a lot offood which is bought in shops andrestaurants. What do you think are the reasons? What can be done to solve this problem?(社会)

- 在一些国家，人们大量浪费从商店和餐馆购买的食物。你认为原因是什么？可以采取哪些措施来解决这个问题？

🍊 写作立场：正常列举

我认为人们浪费食物的主要原因在于消费观念错误、食物价格过低以及供应链管理不当。要解决这一问题，需要政府、商家和公众共同努力，通过政策引导、教育宣传和技术改进来减少浪费。

逻辑链分析：

主体段1

观点：造成食物浪费的首要原因是人们缺乏节约意识，把食物当作理所当然的资源。

扩展延伸：在一些经济较发达的国家，食物价格相对低廉，人们倾向于过度购买或点餐，以显示富足或方便。

举例：例如，许多餐厅提供自助餐，人们常常拿取超过自己能吃完的量，剩余部分最终被丢弃。

结果分析：这种“过量消费”逐渐形成社会习惯，导致大量可食用的食物被浪费掉。

主体段2

观点：要减少食物浪费，必须从制度、教育和技术三个方面入手。

举例：政府可以制定法规惩罚大规模浪费的商家，餐厅应推出“小份菜”或打包激励措施，公众教育也应强调珍惜食物的重要性。

合理性推断：此外，改进食品储存与物流技术能减少运输环节中的损耗，使食物更高效地到达消费者手中。

结果分析：如果社会各层面共同参与，食物浪费问题将得到显著缓解，不仅节省资源，也能缓解环境压力。

In many countries today, large amounts of food are wasted in shops and restaurants. This problem has become increasingly serious, as people often discard edible food without realizing its social and environmental costs. Several factors contribute to this issue, but practical solutions are available if governments, businesses, and individuals take collective action.

如今在许多国家，大量食物在商店和餐馆中被浪费。这一问题日益严重，因为人们常常丢弃可食用食物，却没有意识到其社会和环境代价。造成此现象的因素有多方面，但若政府、企业和个人能共同采取行动，仍有可行的解决之道。

One major reason behind food waste is the lack of awareness about its consequences. In wealthier societies, food is relatively cheap and easily accessible, leading people to over-purchase or order more than they can finish. For example, in buffet-style restaurants, customers often take excessive portions, and leftovers are simply thrown away. Similarly, supermarkets discard food that is still edible but past its “best before” date to maintain a clean image. Over time, such habits create a culture of overconsumption, where wasting food is seen as normal rather than shameful.

食物浪费的主要成因之一，是人们对其后果缺乏认知。在较富裕的社会中，食物价格相对低廉且易得，导致人们过度购买或点餐。例如在自助餐厅，顾客常取用过量，未吃完的食物最终被丢弃。同

样，超市为维持整洁形象，会将已过"最佳食用期"但仍可食用的食品直接销毁。长此以往，这种习惯催生了过度消费的文化，浪费食物反而被视为常态而非可耻行为。

To tackle this problem, comprehensive measures should be taken at different levels. Governments can introduce stricter regulations that penalize large-scale food waste by companies, while restaurants could offer smaller portion options or discounts for customers who avoid leftovers. Public education campaigns should also emphasize the moral and environmental responsibility of reducing waste. On the technological side, better storage and transportation systems can minimize spoilage before food reaches consumers. These combined efforts can change both behavior and infrastructure, addressing the root of the problem rather than its symptoms.

解决这一问题需要多层面的综合措施。政府应出台更严格的法规，对企业大规模浪费行为进行处罚；餐厅可提供小份餐食选择，或为"光盘"顾客提供折扣。公共教育宣传也应强调减少浪费的道德意义和环保责任。在技术层面，通过改善仓储和运输系统，能够有效降低食品在流通环节的损耗。这些协同努力既能改变行为习惯，又能完善基础设施，从根源而非表象上解决问题。

In conclusion, food waste mainly results from careless consumption habits and inefficient management. By promoting awareness, improving systems, and enforcing responsibility, societies can significantly reduce waste and move toward a more sustainable future.

总之，食物浪费主要源于漫不经心的消费习惯和低效的管理模式。通过提升公众意识、完善系统机制并落实责任追究，社会完全可以显著减少浪费，迈向更可持续的未来。

8、教育

Education of young people is highly prioritized in many countries. However, educating adults who cannot write or read is even more important and governments should spend more money on this. To what extent do you agree or disagree?

- 许多国家高度重视年轻人的教育。然而，对那些不会读写的成年人进行教育更为重要，并且政府应在这方面投入更多资金。你在多大程度上同意或不同意？

🍊 写作立场：部分同意

我部分同意这一观点。虽然青少年的教育是国家发展的根基，但对成人文盲的教育同样重要，尤其是在社会公平和经济可持续性方面。政府应在两者之间保持平衡，而不是单方面偏重某一群体。

逻辑链分析：

主体段1

观点：成人教育在社会发展中确实具有不可替代的意义。

扩展延伸：文盲成人往往缺乏就业机会和社会参与感，这不仅限制了个人发展，也拖慢了整体经济进步。

举例：例如，在一些发展中国家，大量中年劳动力无法阅读培训材料，导致企业生产力下降、贫困代际传递。

结果分析：通过提供基础教育与技能培训，政府可以帮助这些人重新融入劳动力市场，从而提高国家整体人力资本。

主体段2

观点：然而，青少年教育仍然是教育体系的核心，任何国家都不能忽视。

举例：儿童和青少年正处于可塑性最强的阶段，投资他们的教育可以带来更长远的回报。

合理性推断：相比之下，成人扫盲虽能解决短期问题，但长期而言，培养受过良好教育的年轻一代才能持续推动创新与经济增长。

结果分析：因此，政府应在两者之间协调资金分配：既保障儿童教育质量，又为成人提供再学习机会。

Education for young people is often seen as the cornerstone of national progress. However, some argue that educating illiterate adults should receive even greater attention and funding from governments. In my view, both forms of education are essential, and a balanced approach is the most reasonable solution.

青少年教育常被视为国家进步的基石。然而有人认为，对不识字的成年人进行教育更应获得政府的重视和资金支持。在我看来，这两种教育形式都至关重要，均衡发展才是最合理的解决方案。

To begin with, adult education plays a crucial role in promoting equality and improving national productivity. Adults who cannot read or write are often excluded from the modern workforce, unable to access training materials or basic information. This not only limits their personal opportunities but also hinders economic growth. For example, in many developing countries, a large proportion of middle-aged workers remain illiterate, which reduces industrial efficiency and keeps families trapped in poverty. By investing in adult literacy programs, governments can enable these individuals to gain practical skills, secure better jobs, and contribute more effectively to society.

首先，成人教育在促进社会平等和提升国家生产力方面具有关键作用。不具备读写能力的成年人往往被排除在现代劳动力市场之外，无法获取培训资料和基础信息。这不仅限制个人发展机会，更会阻碍

经济增长。例如在许多发展中国家，大量中年劳动者仍处于文盲状态，导致工业效率低下，家庭难以摆脱贫困。通过投资扫盲项目，政府能帮助这些人掌握实用技能，获得更好工作，从而更有效地回馈社会。

However, prioritizing youth education remains equally, if not more, important. Children and teenagers represent the future workforce, and investing in them yields long-term benefits for innovation, technology, and sustainable development. For instance, providing quality education to young people ensures that future generations will not face the same literacy problems as today’ s adults. While adult education offers short-term solutions to current inequalities, strong youth education builds a foundation for lasting progress. Therefore, rather than shifting resources entirely, governments should strive to fund both areas appropriately, ensuring that no group is left behind.

然而，青少年教育的优先性同样不容忽视。儿童和青少年代表未来劳动力，对其投资能为创新、科技和可持续发展带来长期效益。比如为年轻一代提供优质教育，可确保未来国民不再重蹈当今成年人的文盲困境。成人教育虽能短期缓解当前不平等，坚实的青少年教育却能为持久进步奠定基础。因此，政府不应简单转移资源，而应统筹兼顾，确保两个群体都不被忽视。

In conclusion, adult literacy programs deserve significant attention, but they should not replace the priority of youth education. A government that invests wisely in both will achieve a more equitable and sustainable society.

总之，成人扫盲项目值得重点关注，但不应取代青少年教育的优先地位。明智的政府应当双管齐下，通过均衡投入构建更加公平、可持续的社会。

9、外语

When you learn a foreign language, all four skills (listening, reading, speaking writing) are equally important. To what extent do you agree or disagree?(文化)

- 学习一门外语时，听、读、说、写这四项技能都同等重要。你在多大程度上同意或不同意？

🍊 写作立场：部分同意

我部分同意这个观点。四项技能确实相互联系，缺一不可，但在实际学习中，它们的重要性会因学习目的和文化背景而有所不同。对多数人而言，听说往往比读写更实用，但全面发展仍然是语言掌握的理想目标。

逻辑链分析：

主体段1

观点：四项语言技能密不可分，只有均衡发展才能真正掌握一门语言。

扩展延伸：听力是理解的基础，口语是表达的媒介，而阅读与写作则帮助人们积累词汇、理解语法并形成系统思维。

举例：例如，一个学生若只会说而不懂写，很难在学术或工作场合准确表达；反之，若只读写而不会交流，也难以融入真实语言环境。

结果分析：因此，全面发展听、说、读、写能帮助学习者更深入地理解文化、增强表达力与跨文化沟通能力。

主体段2

观点：然而，在现实应用中，不同技能的重要性确实存在差异。

举例：对于出国留学或国际工作的人来说，听力和口语往往比阅读与写作更实用，因为它们直接决定沟通效率。

让步反驳：但若忽视读写能力，学习者将难以理解文化内涵或参与更高层次的交流，如学术研究或书面表达。

结果分析（平衡立场）：因此，虽然学习重点可根据个人目标调整，但从长远看，四项技能的协调发展才是语言学习的最终目标。

When learning a foreign language, many people believe that all four skills—listening, reading, speaking, and writing—are equally important. While I agree that each of them contributes to effective communication, their relative importance may vary depending on individual goals and contexts.

学习外语时，许多人认为听、读、说、写四项技能同等重要。尽管我认同每一项技能都对有效沟通有所助益，但其相对重要性会因个人目标与使用场景而异。

On the one hand, all four skills are interrelated and essential for mastering a language. Listening enables comprehension, speaking allows expression, and reading and writing expand vocabulary, structure, and cultural understanding. For instance, a learner who only speaks but cannot write accurately will struggle in academic or professional settings, while someone who only reads and writes will find it difficult to interact in real-life conversations. Balanced development in all areas not only enhances communication but also deepens understanding of cultural nuances and thinking patterns embedded in the language.

一方面，四项技能相互关联，都是掌握语言不可或缺的要素。听力促进理解，口语实现表达，读写则拓展词汇量、完善结构认知并深化文化理解。例如，仅擅长口语而书写不准的学习者，在学术或职场环境中将举步维艰；只精通读写的学习者则难以应对现实对话。各项能力的均衡发展不仅提升沟通效能，更有助于领悟语言中蕴含的文化底蕴与思维模式。

On the other hand, in real-world situations, certain skills may naturally take priority. For example, people who study a foreign language for travel or work abroad often rely more on listening and speaking to build relationships and solve daily problems. However, neglecting reading and writing can limit long-term progress, as these skills are vital for understanding complex ideas, engaging with written culture, and developing accuracy. Therefore, while it is reasonable to adjust learning priorities based on personal needs, achieving proficiency in all four skills remains the ultimate goal of language acquisition.

另一方面，在真实语境中，某些技能可能自然凸显其重要性。比如为海外旅行或工作而学习外语者，往往更依赖听说能力来建立人际关系、解决日常问题。但若忽视读写训练，将限制长期发展——这两项技能对理解复杂概念、接触书面文化及提升语言精确度至关重要。因此，虽可根据个人需求调整学习重点，但全面掌握四项技能仍是语言习得的终极目标。

In conclusion, the four language skills support and reinforce one another. Their practical importance may differ across situations, but equal attention to each ensures not only communication ability but also cultural and intellectual depth in language learning.

总之，语言技能之间存在着相辅相成的关系。虽然实际应用中各项技能的权重可能变化，但均衡发展方能确保学习者既获得沟通能力，又收获语言背后的文化与思维深度。

10、教育 or 监狱

In most countries, prison is an effectivesolution for the problem of crime. Some people think a more effective solution is to provide a better education. To what extent do you agree or disagree?(犯罪)

- 在大多数国家，监狱是解决犯罪问题的有效方法。有些人认为更有效的解决方法是提供更好的教育。你在多大程度上同意或不同意？

🍊 写作立场：完全同意

我完全同意教育比监狱更能有效解决犯罪问题。监狱确实能在短期内保障安全，但无法从根源上减少犯罪；相反，教育能帮助人们掌握技能、改变思维，从而防止重犯。相比之下，建更多监狱既昂贵又治标不治本。

逻辑链分析：

主体段1

观点：教育是从根源减少犯罪的更有效方式。

扩展延伸：许多罪犯之所以违法，是因为缺乏受教育机会、就业技能或正确的价值观。

举例：例如，接受职业培训和心理辅导的服刑人员在释放后更容易找到工作、重建生活，从而降低再犯率。

结果分析：这说明教育不仅能帮助罪犯重新融入社会，还能让他们成为对社会有贡献的成员，实现长期的社会稳定。

主体段2

让步：诚然，监狱在短期内可以起到惩戒和威慑作用，对严重罪犯而言仍然必要。

扩展延伸：但事实是，许多囚犯在出狱后仍会再次犯罪，因为他们没有真正改变思维或掌握谋生能力。此外，建设和维持监狱的成本极高，却未必能带来更安全的社会。

合理性推断：这说明单靠惩罚无法从根源上消除犯罪，反而可能造成资源浪费与恶性循环。

结果分析：因此，政府应把更多资金投入教育与再培训，而非不断扩建监狱，以实现更具长期效益的治安改善。

In most countries, imprisonment is regarded as the main solution to crime. However, I firmly believe that providing better education is a more effective and sustainable way to reduce criminal behavior in the long run.

在大多数国家，监禁被视为解决犯罪问题的主要手段。然而我坚信，从长远来看提供更优质的教育才是减少犯罪行为的更有效且可持续的方式。

Education tackles the root causes of crime by addressing ignorance, poverty, and lack of opportunity. Many offenders turn to illegal activities because they lack education, employable skills, or moral guidance. For instance, inmates who receive vocational training and psychological counseling during their sentence are far less likely to reoffend after release. Education allows them to find legitimate jobs and rebuild their self-esteem, transforming them from social burdens into productive citizens. In this sense, education prevents crime before it happens and creates long-term benefits for both individuals and society.

教育通过消除无知、贫困和机会匮乏，直指犯罪根源。许多违法者走上犯罪道路正是由于缺乏教育、就业技能或道德引导。例如，在服刑期间接受职业培训和心理辅导的囚犯，获释后再次犯罪的可能性显著降低。教育使他们能够找到正当工作、重建自尊，从而从社会负担转变为有贡献的公民。从这个意义上说，教育能从源头上预防犯罪，为个人和社会创造长期效益。

Admittedly, prisons still serve an essential purpose in punishing and isolating dangerous criminals. They help maintain order and reassure the public that justice is being upheld. Nevertheless, relying solely on imprisonment is costly and often ineffective. Many released prisoners end up committing crimes again because their attitudes and life circumstances remain unchanged. Moreover, constructing and maintaining prisons require huge financial resources that could instead be used for preventive measures such as education and rehabilitation

programs. Punishment alone can control crime temporarily, but only education can truly eliminate its causes.

应当承认，监狱在惩罚和隔离危险罪犯方面仍具有不可替代的作用。它有助于维护秩序，并让公众确信正义得到伸张。然而，仅依靠监禁手段不仅成本高昂，且往往收效甚微。许多获释囚犯因思想观念和生活环境未有改变而重蹈覆辙。此外，监狱建设和维护所需的巨额资金，本可用于教育和矫治等预防性措施。单靠惩罚只能暂时控制犯罪，唯有教育才能真正根除犯罪诱因。

In conclusion, while prisons play a limited role in protecting society, education is the key to achieving lasting crime reduction. By investing in knowledge and rehabilitation rather than expansion of prisons, governments can build safer and more equitable communities for the future.

综上所述，尽管监狱在保护社会方面作用有限，教育才是实现持久降低犯罪率的关键。通过投资知识与矫治而非扩建监狱，政府才能为未来构建更安全、更公平的社会。

11、无薪工作

A number of tertiary courses requirestudents to undertake a period of unpaid work at companies or organisation as partof their programme. What are the advantages and disadvantages of this type of course requirement?(教育)

- 许多高等教育课程要求学生在其项目框架内，在公司或机构进行一段时间的无薪工作。这类课程要求有哪些优点和缺点?

🍊 写作立场：正常列举

我认为大学课程中设置无薪实习既有明显的好处，也存在潜在的弊端。它能帮助学生积累实践经验、提高就业竞争力，但也可能导致劳动力被剥削或造成经济负担。总体而言，这种做法若被合理管理，其优势将超过缺点。

逻辑链分析：

主体段1

观点：无薪实习能让学生在学习阶段提前接触社会，积累实际经验。

扩展延伸：课堂知识往往理论性强，而实习能让学生理解行业运作方式，并将理论应用到实践中。

举例：例如，商科或传媒专业的学生通过企业实习，能学习职场沟通、项目管理和团队协作，这些技能是课堂难以获得的。

结果分析：因此，这类课程安排能增强学生的职业能力与自信，为毕业后的就业打下基础。

主体段2

观点：然而，无薪实习也可能引发一些问题。

举例：部分企业把学生当作廉价劳动力，让他们承担繁琐事务，却缺乏真正的培训。此外，没有收入的实习对经济条件有限的学生而言是一种负担。

让步反驳：不过，只要学校与企业建立监督机制、明确实习内容与时间限制，这些问题是可以被避免的。

结果分析：因此，只要制度完善、保障公平，无薪实习仍然能成为高等教育中极具价值的实践环节。

Many university programs today require students to complete a period of unpaid work in companies or organizations as part of their curriculum. While this approach provides valuable opportunities for practical learning, it also raises concerns about fairness and potential exploitation.

如今，许多大学课程都要求学生在企业或机构完成一段无薪实习，作为学业组成部分。这种方式虽为实践学习提供了宝贵机会，但也引发了关于公平性与潜在剥削的担忧。

On the positive side, unpaid internships allow students to gain hands-on experience and apply theoretical knowledge to real-life situations. Academic learning alone often lacks exposure to the realities of the workplace, but internships bridge this gap. For example, students majoring in business or communication can learn essential professional skills such as teamwork, time management, and problem-solving while working on real projects. These experiences not only enhance their confidence but also make them more competitive in the job market after graduation. In many cases, students even receive job offers from the companies where they interned, showing that such programs can be mutually beneficial.

从积极角度看，无薪实习能让学生获得实践经验，将理论知识应用于实际场景。单纯的学术学习往往缺乏对职场真实状况的接触，而实习正好弥补这一空白。例如，商科或传播学专业的学生通过参与真实项目，能掌握团队协作、时间管理和问题解决等关键职业技能。这些经历不仅增强他们的信心，也提升了毕业后的就业竞争力。事实上，不少学生最终会获得实习单位的入职邀请，可见此类项目能实现双赢。

However, this practice also has some drawbacks. Some companies may take advantage of interns as free labor, assigning them repetitive or meaningless tasks without proper training. Moreover, because these internships are unpaid, students from low-income families may struggle to participate, leading to inequality in access to career opportunities. Nevertheless, these issues can be mitigated if universities and governments establish clear guidelines and

monitoring systems to ensure that internships are educational rather than exploitative. With appropriate oversight, the benefits of such programs can outweigh their disadvantages.

然而，这种做法也存在缺陷。部分企业可能将实习生视为免费劳动力，分配重复性工作或无关杂务，却不提供应有指导。此外，由于实习没有报酬，低收入家庭学生可能难以参与，导致职业机会获取不均。不过，若高校与政府能建立明确的指导规范和监督机制，确保实习的教育属性而非剥削性质，这些问题便可得到缓解。通过有效监管，此类项目的益处仍能超越其弊端。

In conclusion, although unpaid internships may create financial and ethical concerns, they remain a valuable component of higher education. When properly managed, they equip students with practical experience, strengthen employability, and build a smoother bridge between academia and the professional world.

总之，尽管无薪实习可能带来经济与伦理方面的顾虑，它仍是高等教育中有价值的环节。只要管理得当，实习不仅能赋予学生实践经验、增强就业能力，更能在学术与职业世界间架起更坚实的桥梁。

12、污染费

Some people think that companies and private individuals, not the government, should pay to clean up the environment in proportion to the amount of pollution they have produced.To what extent do you agree or disagree?（环境类）

- 有些人认为，公司和个人应根据其造成的污染程度来支付环境清理费用，而不是由政府承担。你在多大程度上同意或不同意？

🍊 写作立场：完全同意

我完全同意应由企业和个人承担环境清理费用。毕竟，他们是污染的直接制造者，让他们为自己的行为买单不仅公平，而且能从源头减少污染。政府应当负责制定规则与监管，而不是替污染者埋单。

逻辑链分析：

主体段1

观点：让污染者承担环境清理成本是最公平、最具责任意识的做法。

扩展延伸：若污染的代价由纳税人承担，就意味着守法者为违法者买单，这不仅不公正，还会削弱公众环保积极性。

举例：例如，一些制造业企业长期排放废水，却依靠政府财政清理河流污染，这等于鼓励了不负责任的生产方式。

结果分析：只有让污染者为环境损害付出经济代价，才能让他们在生产决策中真正考虑生态成本。

主体段2

观点：更重要的是，这种做法能有效激励企业与个人减少污染，从源头解决问题。

举例：征收碳排放税迫使高污染企业投资清洁能源；塑料垃圾收费政策促使个人减少一次性制品的使用。

合理性推断：当污染者需要承担清理费用时，他们会主动寻求更环保的生产与消费方式，以降低经济负担。

结果分析：这不仅能改善环境质量，还能促进绿色创新与可持续经济增长，从长远看比政府单独治理更高效、更具激励性。

I completely agree that companies and individuals should bear the cost of cleaning up pollution in proportion to the amount they produce. Since they are the direct creators of environmental damage, it is both fair and practical to make them financially responsible for its consequences.

我完全赞同企业和个人应当根据其制造污染的数量按比例承担治理费用。作为环境破坏的直接制造者，让他们为污染后果承担经济责任既符合公平原则，也具有现实可行性。

First of all, requiring polluters to pay for cleanup is a matter of justice and accountability. If governments or taxpayers shoulder these costs, it means that law-abiding citizens are paying for the irresponsibility of others. This not only undermines fairness but also weakens the public’s motivation to protect the environment. For instance, many factories discharge toxic waste into rivers while relying on public funds for restoration projects. Such practices encourage careless production and allow companies to externalize their environmental costs. Only when polluters are forced to pay for their actions will they truly consider the ecological impact of their business decisions.

首先，要求污染者支付治理费用关乎社会正义与责任担当。若由政府或纳税人承担这些成本，意味着守法公民在为不负责任的行为买单。这不仅有损公平，更会削弱公众环保积极性。以许多工厂向河流排放有毒废水却依赖公共资金进行治理为例，这种做法纵容了粗放式生产，使企业得以将环境成本转嫁给社会。唯有让污染者为自身行为付出代价，他们才会真正考量经营决策对生态的影响。

Moreover, this approach provides a strong incentive to reduce pollution at its source. For example, carbon taxes push high-emission industries to invest in cleaner energy, while plastic bag fees have successfully reduced waste by changing consumer behavior. When people and businesses know they must cover cleanup expenses, they naturally adopt more sustainable practices to minimize costs. This system not only improves environmental quality but also promotes green innovation and sustainable economic growth.

此外，这一原则能为源头治污提供强劲动力。碳税政策推动高排放行业投资清洁能源，塑料袋收费机制通过改变消费习惯有效减少白色污染——当企业和民众明确知晓必须承担治理费用时，自然会采取更可持续的做法以控制成本。这种制度不仅提升环境质量，更将催生绿色创新，推动经济可持续发展。

In conclusion, shifting the financial burden of pollution to those who cause it is both fair and effective. Governments should focus on setting strict regulations and enforcing transparency, while companies and individuals take full responsibility for their environmental footprint. Only through this approach can real progress be achieved toward a cleaner and more responsible world.

总之，将污染的经济负担转移给责任主体既公平又高效。政府应着力制定严格法规并强化监管透明度，而企业与个人则需对自身环境足迹全面负责。唯有通过这种方式，我们才能在建设更清洁、更负责任世界的道路上取得实质进展。

13、素食

Some people think everyone should be a vegetarian, because we do not need to eat meat to have a healthy diet. To what extent do you agree or disagree?(健康)

- 有些人认为每个人都应该成为素食主义者，因为我们不需要吃肉来保持健康饮食。你在多大程度上同意或不同意？

🍊 写作立场：完全反对

吃肉仍然是保持健康和体力的重要方式，吃蔬菜并不能让人们保持健康。

逻辑链分析：

主体段1

观点：吃肉仍然是保持健康和体力的重要方式。

扩展延伸：肉类能够帮助人体增强能量、维持活力和肌肉，若完全不吃肉，身体会变得虚弱、容易疲劳。

举例：例如，医生建议儿童、孕妇和老年人适量吃肉，以帮助成长、恢复身体、保持健康；在寒冷地区或重体力劳动者中，肉类能提供维持体温和体力的能量。

结果分析：因此，适度食用肉类比完全拒绝更符合健康规律，也更现实可行，是一种更平衡的饮食方式。

主体段2

观点：确实，蔬菜和水果富含维生素与纤维，有助于预防疾病、控制体重。

举例：但完全依赖植物食物难以满足人体所有营养需求，许多素食者需要通过服用额外营养补充品来维持健康。

合理性推断：每个人的身体状况与生活方式不同，不可能存在适合所有人的单一饮食方案。

结果分析：因此，与其要求所有人吃素，不如提倡肉类与蔬菜平衡搭配的饮食习惯，这才是真正健康、自然的方式。

Some people say that everyone should be a vegetarian because meat is not necessary for a healthy diet. I completely disagree with this idea. While eating more vegetables is good for our health, meat is still an important part of a balanced diet and daily life.

有人认为所有人都应该吃素，因为肉类并非健康饮食的必需。我完全不同意这种观点。虽然多吃蔬菜有益健康，但肉类仍是均衡饮食和日常生活中不可或缺的部分。

To begin with, eating some meat is still important for keeping the body strong and full of energy. Meat gives us food that helps us build muscles and stay active every day. If people stop eating meat for a long time, they may easily feel tired, lose focus, or even get sick more often. Doctors also suggest that children, pregnant women, and older people should eat some meat because it helps them grow, recover from illness, and stay healthy. In many cold places or jobs that need strong physical work, people need meat to get enough energy to work or stay warm. For these reasons, eating meat in small or proper amounts is more realistic and better for health than not eating it at all.

首先，适量摄入肉类对维持身体强健和精力充沛至关重要。肉类提供的营养能帮助我们增强肌肉、保持日常活力。若长期不摄入肉类，人们容易感到疲劳、注意力不集中，甚至更易生病。医生也建议儿童、孕妇和老年人适当食用肉类，因为这有助于生长发育、疾病康复和维持健康。在许多寒冷地区或需要强体力劳动的工作中，人们需要通过肉类获取足够能量来维持工作机能和体温。因此，适量食肉比完全素食更符合现实需求，也更有利于健康。

It is true that vegetables and fruits have many benefits. They give people vitamins and fiber, and can help reduce the risk of heart problems and keep body weight under control. However, living only on vegetables and grains cannot give us everything our body needs. Many vegetarians have to take extra pills or powders to make up for what they miss from meat, and this is not a natural or easy way to live. Everyone’ s body and lifestyle are different, so one single diet cannot fit everyone.

诚然，蔬菜水果益处良多，它们提供维生素和膳食纤维，有助于降低心脏病风险并控制体重。但仅靠植物性饮食无法满足人体的全部需求。许多素食者不得不额外服用补充剂来弥补肉类营养的缺失，这并非自然轻松的生活方式。每个人的体质和生活环境不同，单一饮食模式不可能适用于所有人。

In conclusion, a vegetarian diet may be fine for some people, but asking everyone to stop eating meat is not practical or healthy. The best way is to eat both meat and vegetables in balance.

总之，素食饮食或许适合部分人群，但要求所有人停止食肉既不现实也不健康。最佳方式应是均衡摄入肉类与蔬菜，根据个体需求保持饮食多样性。

14、太空旅游

Space travel has been possible forsome time and some people believe thatspace tourism could be developed in thefuture. Do you think it is a positive or negative development?(旅游)

- 太空旅行已成为现实一段时间了，有些人认为未来可能会发展太空旅游业。你认为这是积极的还是消极的发展?

🍊 写作立场：积极

我认为太空旅游的发展总体上是积极的。它能推动科技创新、促进经济发展，并激发人类的探索精神。虽然太空旅行成本高、风险大、污染环境，但这些问题都可以随着技术进步逐渐改善，因此它的正面影响更长远。

逻辑链分析：

主体段1

观点：太空旅游能带来科技和经济两方面的好处。

扩展延伸：它能推动火箭制造、通信、能源等领域的创新，同时带动大量就业岗位出现，促进相关产业链发展。

举例：例如，私人航天公司正在研发可重复使用的火箭，这让发射成本下降、太空飞行更安全。与此同时，这些项目吸引了工程师、技术人员和研究人员的加入，带来了新的工作机会。

结果分析：这些技术进步最终会反向作用于地球生活，如卫星通讯、天气预报和太阳能技术等。即便只有少数人能真正去太空，但整个社会都能从中受益。

主体段2

观点：有人认为太空旅游弊大于利。

举例：他们担心火箭发射会造成污染，票价过高只让富人受益，而且太空旅行存在安全隐患。

合理性推断：但这些问题可以通过技术和制度逐步解决，例如开发更清洁的燃料、使用更坚固的材料、增加安全标准，以及让更多企业进入市场以降低价格。

结果分析：因此，只要有良好的监管与创新，太空旅游能在确保安全与环保的前提下健康发展，成为推动科学和人类精神进步的重要力量。

Space travel has been possible for many years, and some people believe that space tourism could be developed in the future. In my opinion, this is a positive development because it can encourage scientific progress, create new jobs, and help people look at the world from a new perspective.

太空旅行已成为现实多年，有人认为未来可能发展出太空旅游业。在我看来，这是积极的发展方向，因为它能推动科学进步、创造就业机会，并帮助人类以全新视角审视我们的世界。

To begin with, space tourism brings both technological and economic benefits. It pushes scientists and companies to develop new ideas that later improve life on Earth. For example, private space companies are now working on rockets that can be reused, making space travel safer and cheaper than before. These projects require engineers, designers, and technicians, creating thousands of new jobs and driving innovation. Furthermore, the technology developed for space exploration often becomes useful in everyday life. Many modern tools, such as satellite communication, weather forecasting, and solar energy, were first created for space programs. Therefore, even though only a few people can travel to space now, everyone can benefit from the progress it brings to society.

太空旅游首先带来科技与经济双重效益。它促使科学家和企业不断突破创新，这些技术最终将改善地球生活。例如，民营航天公司正在研发可重复使用的火箭，这使太空旅行变得更安全、更经济。这类项目需要工程师、设计师和技术人员参与，从而创造大量就业岗位，推动产业创新。更重要的是，为太空探索研发的技术往往能转化为民用成果——从卫星通信、气象预报到太阳能技术，诸多现代科技都源自航天计划。因此，即使目前仅有少数人能亲历太空，全社会都能从相关技术进步中受益。

However, some people argue that space tourism has more disadvantages than benefits. They point out that rockets produce pollution, that tickets are extremely expensive, and that traveling in space remains risky. These are valid concerns, but they can be reduced over time. Scientists are already researching cleaner fuels and stronger materials to make rockets safer. As more companies join this field, competition will lower prices, and space travel will become more affordable. Governments can also set rules to protect the environment and guarantee safety. If these steps are taken, space tourism can grow in a responsible way.

当然，有观点认为太空旅游弊大于利。他们指出火箭排放污染、票价极其昂贵及太空旅行风险等问题。这些担忧确实存在，但都能通过技术发展逐步缓解。科学家已在研究更清洁的燃料和更坚固的材料来提升安全性；随着更多企业加入竞争，票价将逐渐降低；政府也可通过立法规范环保标准与安全准则。只要采取有效措施，太空旅游完全能实现负责任的发展。

In conclusion, although space tourism still faces challenges, it should be seen as a positive development. It drives new discoveries, connects people around the world, and reminds us that human curiosity has no limit.

尽管面临挑战，我们仍应以积极眼光看待太空旅游的发展。它推动着人类探索未知，促进全球协作，更时刻提醒我们：人类的好奇心永无止境。

15、建筑设计

Some people believe that when designing a building, the most important thing to be considered is the function rather than the outward appearance. To what extent do you agree or disagree?(文化)

- 有些人认为在设计建筑时，最重要的考虑因素是功能而非外观。你在多大程度上同意或不同意？

🍊 写作立场：完全反对

我认为建筑的功能应当放在首位，但这并不意味着外观不重要。建筑首先是供人使用的空间，只有满足使用需求，才能体现真正的价值；在此基础上再兼顾美观，才是更合理的设计理念。

逻辑链分析：

主体段1

观点：建筑设计的首要目标是服务人们的实际生活和工作。

扩展延伸：如果一座建筑外表再漂亮，但内部布局混乱、空间利用率低，就无法实现基本功能。

举例：例如，学校若只注重外形而忽视采光与通风，会影响学生学习；医院若装饰豪华却缺少合理的路线规划，会降低救治效率。

结果分析：因此，建筑必须首先实用、安全、舒适，功能是建筑存在的基础。

主体段2

让步：当然，美观设计在现代社会中也有其意义。

举例：一些城市地标如悉尼歌剧院或巴黎卢浮宫的外形设计，使城市形象更具吸引力，也能促进旅游和文化传播。

合理性推断：这说明功能与外观并非对立，只要在满足使用需求的前提下融入美学考虑，建筑才能兼具实用与文化价值。

结果分析：换言之，美观应当服务于功能，而非取代功能，这才是建筑设计的最佳平衡点。

When designing a building, some people believe that its function should be considered more important than its appearance. I agree with this view, as a building must first serve its practical purpose before focusing on visual appeal.

在建筑设计领域，有人认为功能应比外观更重要。我赞同这一观点，因为建筑必须首先满足实用需求，而后才应关注视觉美感。

To begin with, the main role of architecture is to meet human needs. No matter how impressive a building looks, it loses its value if it cannot provide safety, comfort, and convenience. For instance, a school that looks stylish but has poor lighting and ventilation will make studying uncomfortable. Similarly, a hospital with fancy decorations but a confusing layout could even delay medical treatment. These examples show that functionality is the foundation of any successful design. Buildings should first be practical, efficient, and suitable for everyday use before any attention is given to aesthetics.

首先，建筑的根本使命在于满足人类需求。无论建筑外观如何惊艳，若无法提供安全、舒适与便利，便失去了核心价值。例如，一所设计时尚但采光通风欠佳的学校会让学生学习倍感不适；一家装饰华丽但布局混乱的医院甚至可能延误救治。这些例证表明，功能性是所有成功设计的基石。建筑应当首先确保实用、高效与适用，而后才考虑美学呈现。

Nevertheless, the outward appearance of buildings also plays an important role in modern society. Attractive designs can enhance a city’ s image, attract tourists, and express cultural identity. Landmarks such as the Sydney Opera House or the Louvre Museum have become symbols of their cities not only because of their functions but also because of their beauty. This suggests that functionality and appearance should complement rather than oppose each other. A good design should combine both, ensuring that a building is useful while also adding artistic and cultural value.

当然，建筑外观在现代社会中也具有重要作用。富有吸引力的设计能提升城市形象、吸引游客流量并传递文化认同。悉尼歌剧院与卢浮宫等标志性建筑能成为城市象征，不仅因其功能卓越，更因其美学价值。这启示我们，功能与外观本应相辅相成而非相互对立。优秀的设计应当二者兼顾，既确保建筑实用可靠，又为其赋予艺术文化内涵。

In conclusion, while the function of a building should always come first, its appearance cannot be completely ignored. The best architecture achieves a balance between practicality and beauty, serving both the needs of people and the spirit of the city.

综上所述，虽然建筑功能始终居于首位，但其外观亦不可偏废。最佳的建筑设计总是在实用与美学之间取得平衡，既服务于人的需求，又承载城市的精神气质。
