2025.7月大作文预测

一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以2道题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如范文1的父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、“父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观" 、“个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。（下面的范文7）

那我我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

.....

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、成长的影响因素

Some people believe that parents have great influence on children's growth but others think that influence from the outside plays a more important role.Discuss both these views and give yourown opinion.(教育)

有些人认为父母对孩子的成长影响巨大，但另一些人认为外界的影响发挥着更重要的作用。请讨论这两种观点，并给出你自己的看法。

🍊 写作立场：二者结合

两者结合的立场。父母的影响在儿童的成长中至关重要，但外界因素，如学校、同龄人以及社会环境，也在塑造儿童性格和行为方面发挥着重要作用。

逻辑链分析：

主体段1

观点：父母对儿童的成长有重要影响。

扩展延伸：父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

举例：父母的教育方式、关爱与榜样作用塑造了儿童的性格和道德观。

结果分析：良好的家庭环境能为孩子提供安全感，帮助他们形成积极的世界观。

主体段2

观点：外界因素在儿童成长过程中也有着不可忽视的作用。

扩展延伸：学校教育、同龄人群体的影响以及社会环境，都在塑造孩子的社会行为和认知方面起到了关键作用。

举例：孩子在学校学到的知识和与同伴的互动，往往影响他们的社交技巧与自我认知。

让步：尽管父母影响深远，但外界因素在日常成长过程中，尤其是青春期后，往往对孩子产生更大的冲击。

Some people argue that parents have the greatest influence on their children's growth, while others believe that outside influences, such as peers and society, play a more significant role.

Both views have their merits, but in my opinion, the impact of both parents and external factors is crucial in shaping a child's development.

有人认为父母对孩子的成长影响极大，而另一些人则认为外界影响（如同龄人、社会等）发挥着更重要的作用。两种观点各有道理，但在我看来，父母与外部因素的影响对塑造孩子的成长都至关重要。

On the one hand, parents are the first and most important role models for children. From an early age, children look up to their parents for guidance and support. The values, beliefs, and behavior that parents instill in their children form the foundation of their character. For example, a child raised in a nurturing and supportive home is likely to develop a strong sense of self-esteem and empathy, whereas a child with neglectful parents might struggle with emotional regulation and relationships. In this way, the influence of parents is essential for a child's emotional and moral development.

一方面，父母是孩子最初且最重要的榜样。从幼年起，孩子就依赖父母获取引导与支持。父母向孩子灌输的价值观、信仰和行为模式，构成了其人格的基础。例如，在充满关爱与支持的家庭中长大的孩子，更可能形成强烈的自尊心与同理心；而在父母疏于照顾的环境中成长的孩子，可能在情绪管理和人际关系方面面临困难。从这个角度而言，父母的影响对孩子的情感与道德发展至关重要。

On the other hand, external influences such as peers, school environments, and broader societal norms also play a significant role in shaping a child's growth. As children grow older, they interact more with their peers and the world around them, which can influence their interests, social skills, and values. For instance, children who engage in group activities at school may develop better teamwork and communication skills. Furthermore, societal norms and expectations can affect how children perceive their roles in the world and shape their aspirations. While parents lay the foundation, external factors can often have a more immediate and powerful influence as children navigate the larger world beyond the family unit.

另一方面，同龄人、学校环境及更广泛的社会规范等外部因素，在塑造孩子成长的过程中也扮演着重要角色。随着孩子逐渐长大，他们与同龄人和周围世界的互动增多，这会影响他们的兴趣、社交技能和价值观。例如，参与学校团体活动的孩子可能会培养更好的团队合作与沟通能力。此外，社会规范与期望会影响孩子对自身社会角色的认知，并塑造他们的理想抱负。尽管父母为孩子奠定了成长基础，但当孩子接触家庭之外的广阔世界时，外部因素往往会产生更直接且强大的影响。

In conclusion, both parental guidance and external factors contribute significantly to a child's growth. Parents provide the initial emotional and moral foundation, while outside influences help children develop the social and cognitive skills necessary for their future. Therefore, it is essential to recognize the importance of both elements in a child's overall development.

总之，父母的引导与外部因素都对孩子的成长有重要贡献。父母为孩子提供最初的情感与道德基础，而外部影响则帮助孩子发展未来所需的社交与认知能力。因此，在孩子的整体成长过程中，必须认识到这两方面因素的重要性。

2、整容

An increasing number of people arechoosing cosmetic surgeries. Why do people have operations to change the way they look? Do you think this is a positive or negative development? (健康)

近年来，越来越多的人选择整容手术。为何人们要通过手术改变外貌？你认为这是积极还是消极的发展？

🍊 写作立场：正常解释原因+负面分析

虽然整形手术可以帮助一些人增强自信，但普遍来看，这种现象可能反映了现代社会对外貌的过度关注，以及由此带来的心理和社会问题。

逻辑链分析：

主体段1

观点：越来越多的人选择整形手术，这反映了社会对外貌标准的过度关注。

合理性推断：现代社会的社交平台和媒体对美的标准设定越来越高，很多人通过整形手术来迎合这些标准。

扩展延伸：这种对外貌的重视可能是因为外貌成为了社会认同的一部分，影响个人的自我价值感。

举例：在一些社交平台上，完美的外貌往往得到更多的点赞和关注，这使得许多人决定通过手术来改变自己的外貌。

主体段2

观点：从长远来看，整形手术是一种负面发展。

扩展延伸：虽然整形手术能帮助部分人改善外貌，但它不能真正解决内心的自卑问题，反而可能加剧心理上的焦虑。

举例：例如，一些人进行手术后虽然外貌有所改变，但心理上的不安依然存在，甚至会寻求更多手术来达到完美，陷入无止境的循环。

结果分析：这种追求外貌完美的趋势可能导致人们对自己的不满情绪越来越强，甚至影响到心理健康，最终这会成为社会的一种负面趋势。

In recent years, the rising popularity of cosmetic surgery has raised concerns about society’s growing obsession with physical appearance. People are increasingly opting for surgeries to meet certain beauty standards, but this trend reflects an overemphasis on looks in modern society, and I believe this is ultimately a negative development.

近年来，整容手术的日益普及引发了人们对社会愈发沉迷于外貌的担忧。人们越来越倾向于通过手术来迎合特定的审美标准，但这一趋势反映出现代社会对外表的过度强调，我认为这从根本上是一种消极的发展。

One of the key reasons for this rise in cosmetic surgery is the increasing pressure from social media and the entertainment industry. These platforms often set unattainable standards of beauty, with flawless bodies and faces being portrayed as ideal. As a result, many people, especially the younger generation, feel compelled to undergo cosmetic procedures to meet these standards and gain social acceptance. For instance, many individuals turn to cosmetic surgery after seeing influencers on social media who promote "perfect" body types, believing that this will improve their self-esteem and social standing. However, this excessive focus on appearance can create a dangerous cycle of self-criticism, with individuals constantly seeking physical perfection but never feeling truly satisfied with their looks.

整容手术兴起的关键原因之一，是社交媒体和娱乐行业带来的压力与日俱增。这些平台常将无瑕的身材与容貌树立为 “理想标准”，而这类标准往往难以企及。因此，许多人（尤其是年轻一代）感到被迫通过整容手术来符合这些标准，以获得社会认同。例如，不少人在看到社交媒体上网红推广的 “完美体型” 后选择整容，认为这能提升自尊与社会地位。然而，这种对外观的过度关注会形成危险的自我批判循环 —— 人们不断追求身体完美，却从未对自身外貌真正满意。

From a long-term perspective, cosmetic surgery is ultimately a negative development. While it may provide temporary improvements in appearance, it does not address deeper psychological issues. For example, some people who undergo surgery may still feel dissatisfied with their appearance and continue seeking more procedures in an attempt to achieve the perfect look. This creates an unhealthy cycle of dissatisfaction, which can contribute to anxiety, self-esteem issues, and even depression. In the long run, this trend can damage mental well-being and promote an unrealistic standard of beauty.

从长远来看，整容手术本质上是一种消极趋势。尽管它可能带来外貌的短期改善，却无法解决深层心理问题。例如，一些接受手术的人可能仍对外表不满，进而持续寻求更多手术以追求 “完美形象”。这会形成不健康的 “不满循环”，可能引发焦虑、自卑，甚至抑郁。长期来看，这一趋势会损害心理健康，并强化不切实际的审美标准。

In conclusion, although cosmetic surgery may offer immediate aesthetic benefits, it ultimately reflects society’s unhealthy obsession with physical appearance. It is a negative development because it fails to address the deeper issues of self-esteem and mental health, and it may even exacerbate these problems in the long term.

总之，尽管整容手术可能带来即时的美学收益，但它本质上反映了社会对身体外貌的不健康沉迷。这是一种消极发展，因为它未能解决自尊与心理健康的深层问题，甚至可能在长期内加剧这些问题。

3、艺术的重要性

Today, advanced science and technology have made great changes to people’ s life, but artist such as musicians, painters and writers are still highly valued. What can arts tell us about life that science and technology cannot?（社会）

如今，先进的科学技术已极大地改变了人们的生活，但音乐家、画家和作家等艺术家仍受到高度重视。艺术能告诉我们哪些科技无法揭示的人生真谛?

🍊 写作立场：扣题即可

我会选择**艺术与科学互补**的立场。科技为人类带来了巨大的便利，但艺术能传达科技无法表达的情感和人类的深层次思想。艺术和科技是互补的，两者共同影响着我们的生活。

逻辑链分析：

主体段1

观点：艺术能揭示人类内心深处的情感和思想，科技无法替代这一点。

扩展延伸：科学与技术通常侧重于理性和功能性，而艺术则更能触及人的情感和精神层面。

举例：如音乐能够传达复杂的情感，而文学作品则能够揭示人类生活的复杂性和矛盾。

结果分析：艺术作品不仅丰富了我们的内心世界，也能够帮助我们更好地理解他人和社会。

主体段2

观点：艺术能够突破语言和文化的界限，传递普遍的价值观和情感。

扩展延伸：尽管科技具有普遍性和实用性，但艺术常常能超越这些界限，以独特的方式连接人类的共性。

举例：世界各地的绘画、音乐、电影等形式，不同文化的人们都能产生共鸣，艺术帮助人们跨越国界、种族，建立更深的情感联系。

让步：虽然科技也能促进全球化和跨文化交流，但艺术的力量在情感连接和价值观传播上依然具有独特优势。

In today’ s world, the rapid advancements in science and technology have undoubtedly transformed our lives in countless ways. From medicine to communication, technology has revolutionized the way we live. However, despite these advancements, art forms such as music,

painting, and literature continue to hold immense value. While science and technology offer practical solutions, art provides unique insights into the human experience that science cannot replicate.

在当今世界，科学技术的飞速发展无疑从无数方面改变了我们的生活。从医学到通信，科技彻底革新了我们的生存方式。然而，尽管科技进步日新月异，音乐、绘画和文学等艺术形式依然具有巨大价值。科技提供实用的解决方案，而艺术则能给予人类体验中独一无二的洞见，这是科技无法复制的。

One of the key aspects that art offers, which science and technology cannot, is the ability to convey deep emotions and human experiences. While technology excels at providing factual knowledge and improving the material aspects of our lives, art taps into our emotions, exploring the complexities of human nature. For example, music can evoke powerful feelings of joy, sadness, or nostalgia, often expressing emotions that cannot be easily put into words. Similarly, literature allows us to reflect on human struggles, relationships, and philosophical questions, helping us understand not only ourselves but also others. Thus, art enriches our inner world by allowing us to connect with the emotional and intellectual aspects of life that science cannot address.

艺术能做到而科技无法企及的核心一点，在于其传递深层情感与人类经验的能力。科技擅长提供事实性知识并改善生活的物质层面，而艺术则触及我们的情感，探索人性的复杂之处。例如，音乐能唤起喜悦、悲伤或怀旧等强烈情感，常常表达出难以用语言形容的情绪；文学则让我们反思人类的挣扎、关系与哲学命题，帮助我们不仅理解自身，也理解他人。因此，艺术通过让我们与生活中科技无法触及的情感和思想层面相连，丰富了我们的内心世界。

Furthermore, art transcends linguistic and cultural boundaries, offering universal messages and emotional connections. Although science and technology are vital for global communication and innovation, art possesses a unique ability to unite people from diverse backgrounds through shared experiences and emotions. For instance, a piece of music or a painting can resonate with people from different cultures, speaking directly to universal human experiences, such as love, loss, or hope. Art brings people together in ways that technology alone cannot, fostering empathy and understanding between different communities. While technology certainly aids in bridging cultural gaps, art has the power to connect us on a much deeper, emotional level.

此外，艺术超越语言和文化的界限，传递普世的信息与情感联结。尽管科技对全球沟通与创新至关重要，但艺术拥有独特的能力，能通过共享的经历和情感将不同背景的人凝聚在一起。比如，一首乐曲或一幅画作能让不同文化的人产生共鸣，直接诉说爱、失去或希望等人类共通的体验。艺术以单靠科技无法实现的方式将人们团结起来，促进不同群体间的共情与理解。虽然科技确实有助于弥合文化差异，但艺术能在更深的情感层面将我们相连。

In conclusion, while science and technology have profoundly changed the world, art provides insights and emotional depth that technology cannot replicate. By helping us explore our inner worlds and fostering universal connections, art continues to be an indispensable part of human

life. Rather than seeing art and technology as competing forces, it is more productive to view them as complementary, each playing a vital role in enhancing our lives.

总之，尽管科学技术深刻改变了世界，但艺术提供了科技无法复制的洞见与情感深度。通过帮助我们探索内心世界并促成普世联结，艺术始终是人类生活中不可或缺的部分。与其将艺术与科技视为对立力量，更有意义的是将它们看作互补的存在 —— 二者在提升生活品质方面都扮演着关键角色。

4、年轻人任要职

Some people think that younger peopleare not suitable for important positions ingovernment. Others think that it will be a good idea for younger people to take on these positions. Discuss both these viewsand give your own opinion.(政府)

有些人认为年轻人不适合担任政府要职，另一些人则认为年轻人担任这些职位是个好主意。请讨论两种观点并给出自己的看法。

🍊 写作立场：年长者更适合

我会选择**年长者适合担任政府要职**的立场。虽然年轻人有创新力和活力，但年长者因长期积累的经验和政治智慧，通常更能胜任国家层面的决策与管理。

逻辑链分析：

主体段1

观点：年长者更适合担任政府要职，因为他们拥有丰富的经验和深刻的政治理解。

扩展延伸：政府的工作不仅仅涉及日常管理，还涉及复杂的决策。

合理性推断：年长者在长时间的政治生涯中，往往经历过多次关键决策，积累了丰富的危机处理经验。

举例：许多国家的历史和现状表明，许多经验丰富的领导人，比如美国的奥巴马，都是在逐步积累经验后才担任关键职位的。

结果分析：经验能够帮助年长者在面对重大挑战时做出更理智和冷静的决策。

主体段2

观点：年轻人虽然充满活力，但缺乏足够的经验和政治阅历，因此难以应对复杂的政府事务。

扩展延伸：年轻人在面对突发事件或历史性决策时，可能缺乏应对的深度与耐心，容易受到情绪或个人判断的影响。

扩展延伸：与其依赖年轻人的新颖思想，不如依赖那些已经通过实践积累过智慧的年长者。

举例：例如，在应对国家安全、经济危机等重大问题时，年长者可以依靠自己的经验做出更稳妥的决策，避免轻率的决策可能带来的不良后果。

结果分析：从长远来看，年长者能够更稳定地推动国家发展，并确保政策的可持续性与连贯性。

Some people believe that younger individuals are not suited for important positions in government, arguing that they lack the experience and maturity required for such roles. Others, however, feel that it would be beneficial for younger people to take on these positions, as they bring fresh ideas and perspectives. I believe that while young people bring enthusiasm and innovation, older individuals are more suitable for key government positions due to their experience and wisdom.

有人认为年轻人不适合担任政府要职，称他们缺乏此类职位所需的经验和成熟度；但也有人认为年轻人担任这些职位大有益处，因为他们能带来新想法和新视角。我认为，尽管年轻人充满热情与创新精神，但年长者凭借经验和智慧更适合担任政府关键职位。

One of the main reasons older individuals are better suited for government roles is their vast experience. Government decisions often require an understanding of history, culture, and complex political dynamics—knowledge that is typically acquired over years of experience. Older politicians have lived through many changes, crises, and political challenges, which have shaped their decision-making skills. In fact, the vast majority of political leaders, such as Obama of the United States, ascended to key positions after serving in multiple government roles for many years. This helped them develop the necessary skills to navigate national and international affairs. As a result, older politicians are often better equipped to handle major crises with a steady hand and avoid making impulsive decisions that could harm national stability.

年长者更适合政府职位的主要原因之一在于其丰富的经验。政府决策往往需要理解历史、文化和复杂的政治动态 —— 这些知识通常需要多年经验积累。年长的政治家经历过诸多变革、危机和政治挑战，这些经历塑造了他们的决策能力。事实上，绝大多数政治领导人（如美国的奥巴马）都是在政府多个岗位任职多年后才登上关键职位，这帮助他们培养了处理国家和国际事务的必要技能。因此，年长的政治家往往更能以稳健的手段应对重大危机，避免做出可能损害国家稳定的冲动决策。

On the other hand, while young people may bring fresh perspectives, they often lack the deep understanding required to make informed decisions in complex situations. Their lack of experience can lead to a more impulsive or idealistic approach, which may not always be appropriate for the nuanced realities of governance. For example, in matters such as national security or economic policy, young leaders might be more prone to take risky or untested

approaches, which could have long-term negative consequences. Older leaders, with their greater wealth of experience, are more likely to make pragmatic decisions based on careful consideration and past lessons learned.

另一方面，尽管年轻人可能带来新视角，但他们往往缺乏在复杂局面中做出明智决策所需的深刻认知。经验的缺失可能导致他们的处事方式更冲动或理想化，而这未必适合治理中的微妙现实。例如，在国家安全或经济政策等事务上，年轻领导人可能更倾向于采取冒险或未经检验的措施，这可能产生长期负面影响。而年长领导人凭借更丰富的经验，更可能基于审慎考量和过往教训做出务实决策。

In conclusion, while younger individuals can offer innovation and new ideas, older individuals are more suited for key government positions due to their experience, wisdom, and ability to navigate complex political landscapes. Their leadership helps ensure stability and continuity in governance, which is crucial for the long-term success of a nation.

总之，尽管年轻人能带来创新与新想法，但年长者因经验、智慧和驾驭复杂政治格局的能力，更适合担任政府关键职位。他们的领导有助于确保治理的稳定性和连续性，这对国家的长远发展至关重要。

5、互联网新闻

More and more people no longer readnewspaper or watch TV programs to getnews. They get news about the world through the internet. Is this a positive or negative development?(媒体)

越来越多的人不再通过报纸或电视节目获取新闻，而是通过互联网了解世界动态。这是积极还是消极的发展?

🍊 写作立场：这件事是积极的

我会选择**这是一种积极的发展**的立场。互联网不仅为人们提供了便捷、快速和个性化的新闻获取方式，还推动了信息的全球化和即时传播，提升了公众的新闻获取效率。

逻辑链分析：

主体段1

观点：越来越多人通过互联网获取新闻，这一转变对社会而言是一项积极的进步。

扩展延伸：互联网提供了比传统媒体更快速、便捷的获取信息的途径。人们不再依赖纸质报纸或电视节目，而是通过在线新闻平台、社交媒体和新闻应用获取信息。

举例：例如，用户通过新闻APP或社交平台，能够实时获取全球范围内的新闻更新，远超传统媒体的时效性。

结果分析：这种便捷性让信息传播更为迅速，减少了新闻的滞后性，使公众能够更及时地了解全球发生的重要事件。

主体段2

观点：虽然互联网新闻面临着假新闻的问题，但它的处理效率远高于传统媒体。

扩展延伸：互联网确实存在虚假新闻和不实信息的传播问题，这可能误导公众对事件的判断。

反面假设：然而，传统媒体同样面临类似的问题，甚至在一些情况下，报纸和电视台曾报道过错误的内容，且未能及时纠正，造成了更广泛的误导。

合理性推断：互联网新闻相比传统媒体的优势在于其即时反应能力，通过公众举报、快速核查和内容屏蔽等措施，互联网能在更短的时间内纠正假新闻，处理效率更高。

In recent years, more and more people have turned to the internet for news, leaving behind traditional sources such as newspapers and TV programs. While some may view this shift as problematic, I strongly believe that it represents a positive development due to the internet’ s ability to provide faster, more efficient, and diverse access to information.

近年来，越来越多人转而通过互联网获取新闻，摒弃了报纸和电视节目等传统信息渠道。尽管有人认为这种转变存在问题，但我坚信这是一种积极发展 —— 因为互联网能以更快速、高效且多元的方式提供信息获取途径。

For one thing, the internet has revolutionized the way people access news. Unlike traditional media, which often requires specific schedules or subscriptions, the internet provides instant access to news from all over the world at any time. For instance, with news apps on their smartphones, users can receive real-time updates on global events, avoiding the delays associated with print newspapers or scheduled television broadcasts. This immediacy has made news dissemination faster, ensuring that people are informed promptly about significant events happening around the world.

一方面，互联网彻底革新了人们获取新闻的方式。与传统媒体往往需要特定时段或订阅不同，互联网允许用户随时即时获取全球新闻。例如，借助智能手机上的新闻应用，用户能接收全球事件的实时更新，避免了纸质报纸或电视定时播报带来的延迟。这种即时性让新闻传播更为迅速，确保人们能及时了解世界各地发生的重大事件。

On the other hand, while internet-based news does face the issue of misinformation, it has developed effective ways to counteract this. The internet, like traditional media, sometimes becomes a platform for fake news and unreliable information. However, traditional media also has its share of flaws. Major newspapers and TV stations have historically reported inaccurate stories, and in many cases, these mistakes have gone uncorrected for extended periods. The internet, however, has the advantage of speed. Through user reports, fact-checking, and the ability to quickly remove or correct content, internet news can address misinformation far more efficiently than traditional media outlets.

另一方面，尽管网络新闻确实面临虚假信息问题，但其已发展出有效的应对方式。与传统媒体类似，互联网有时也会成为假新闻和不可靠信息的传播平台。然而，传统媒体自身亦存在缺陷：主流报纸和电视台历史上曾报道过不准确的新闻，且在许多案例中，这些错误长期未被纠正。而互联网的优势在于速度 —— 通过用户举报、事实核查以及快速删除或修正内容的能力，网络新闻处理虚假信息的效率远高于传统媒体机构。

In conclusion, the rise of internet-based news is undeniably a positive development. It not only makes news more accessible and timely but also promotes greater global interaction and the exchange of ideas. While there are certainly challenges, such as misinformation, the benefits of internet news far outweigh these drawbacks, making it an essential tool for modern society.

总之，网络新闻的崛起无疑是一种积极发展。它不仅让新闻获取更便捷、及时，还促进了更广泛的全球互动与思想交流。尽管存在虚假信息等挑战，但网络新闻的优势远大于弊端，使其成为现代社会的重要工具。

6、国际合作的好处

Some people think the main benefit of international cooperation is in the protection of the environment, while others think that the main benefits are in the world of business. Discuss both views and give your own opinion.(国际)

有人认为国际合作的主要益处在于环境保护，而另一些人则认为其主要益处体现在商业领域。请讨论这两种观点并给出你自己的看法。

🍊 写作立场：两者都有很大的好处

我会选择**两者都有很大的好处，都不能忽视**的立场。尽管国际合作在商业领域和环保方面各有其显著优势，但这两者互为补充，均在全球化时代具有重要作用。

逻辑链分析：

主体段1

观点：一些人认为国际合作的最大好处体现在商业领域。

扩展延伸：国际合作促进了全球经济的增长，推动了各国之间的贸易和投资，帮助企业在更大范围内扩展市场。

举例：通过国际贸易协议、经济合作组织和跨国企业合作，全球市场不断扩大，企业能够在全球范围内获取资源和市场份额。

结果分析：这种经济合作提升了国家的经济发展水平，促进了全球经济一体化，并为企业创造了更多商业机会，推动了就业和经济繁荣。

主体段2

观点：然而，国际合作的最大好处也体现在环境保护领域。

合理性推断：全球面临的环境问题，如气候变化和污染，是跨国界的挑战，必须通过国际合作来解决。

扩展延伸：国家在环保领域的合作能够共享绿色技术、制定全球统一的环保标准，减少全球环境危机。

举例：巴黎气候协议是全球范围内环保合作的典范，多个国家共同承诺减少温室气体排放，以应对气候变化。

结果分析：全球合作促进了环保技术的普及和各国环境保护措施的实施，有助于减缓气候变化，改善全球环境质量。

总结段

立场：尽管商业领域和环保领域的国际合作都有其显著的优势，二者互为补充，都非常重要。

总结：国际合作不仅有助于推动全球经济发展，还能在解决全球环境问题方面发挥关键作用。全球化的今天，商业和环境问题互相关联，需要国家和各方力量共同努力，才能取得真正的进步。

In recent years, international cooperation has become a cornerstone of global progress. Some argue that the primary benefit of such cooperation lies in the business sector, while others emphasize its importance in environmental protection. Both perspectives have merit, and in my view, both are indispensable for fostering a prosperous and sustainable future.

近年来，国际合作已成为全球发展的基石。有人认为此类合作的主要益处体现在商业领域，也有人强调其在环境保护中的重要性。两种观点都有道理，而在我看来，二者对于构建繁荣且可持续的未来同样不可或缺。

On the one hand, supporters of international cooperation in the business world believe that it brings about significant economic benefits. By reducing trade barriers and fostering cross-border investment, countries can expand their markets and increase their economic growth. For example, international trade agreements and economic alliances help businesses access a wider range of consumers, suppliers, and resources. This expanded network of cooperation enables companies to scale their operations, improve efficiency, and create more job opportunities. As a result, global economic prosperity is achieved, and the interconnectedness of economies strengthens.

一方面，支持商业领域国际合作的人认为，其能带来显著的经济收益。通过减少贸易壁垒、促进跨境投资，各国可以拓展市场并推动经济增长。例如，国际贸易协定和经济联盟帮助企业接触更广泛的消费者、供应商和资源。这种扩展的合作网络使企业能够扩大经营规模、提升效率并创造更多就业机会。最终，全球经济繁荣得以实现，各国经济的互联性也随之增强。

Furthermore, many argue that the most crucial benefit of international cooperation lies in addressing global environmental challenges. Issues such as climate change, deforestation, and pollution transcend national borders and require collaborative solutions. Through international cooperation, countries can share green technologies, implement common environmental standards, and jointly combat ecological threats. A prime example of this is the Paris Agreement, where nations around the world pledged to reduce carbon emissions and mitigate the effects of climate change. This collective action not only helps combat environmental degradation but also fosters a sustainable future for generations to come.

另一方面，许多人认为国际合作的核心益处在于应对全球性环境挑战。气候变化、森林砍伐和污染等问题超越国界，需要协同解决方案。通过国际合作，各国能够共享绿色技术、实施统一的环境标准，并共同抵御生态威胁。《巴黎协定》便是典型例证 —— 世界各国在此承诺减少碳排放、缓解气候变化影响。这种集体行动不仅有助于遏制环境恶化，还能为子孙后代打造可持续的未来。

In conclusion, while both international cooperation in business and environmental protection have their own significant advantages, I believe that neither should be overlooked. Both are essential for global progress, as they complement each other in fostering economic growth and ensuring a sustainable environment. Therefore, international cooperation should continue to thrive in both domains to build a better and more interconnected world.

总之，尽管商业领域与环境保护领域的国际合作各有显著优势，但二者都不应被忽视。它们在促进经济增长和保障环境可持续性方面相辅相成，共同构成全球发展的必要条件。因此，国际合作应在这两个领域持续深化，以构建更美好、更互联的世界。

7、文化作品展示

Art galleries and museums should display more traditional cultural works and fewer artworks from other countries. To what extent do you agree or disagree? （社会）

美术馆和博物馆应该更多展示传统文化作品，减少其他国家的艺术作品。你在多大程度上同意或反对?

🍊 写作立场：展示本国艺术作品

我会选择**更多展示本国艺术作品**的立场，尽管国际艺术展示具有重要意义，但艺术画廊和博物馆应该优先展示本国的传统艺术作品，以弘扬和保护本国文化。

逻辑链分析：

主体段1

观点：有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。

扩展延伸：这些传统文化艺术作品是国家文化遗产的重要组成部分，展示这些作品有助于弘扬和保护民族文化。

举例：例如，中国的书法、西方的文艺复兴艺术作品，它们展示了各自文化的艺术风格与历史背景。

结果分析：展示本国的艺术作品不仅能提高民众的文化自信，还能激发对本国历史、哲学与艺术的尊重和理解。

主体段2

观点：虽然展示国际艺术作品有其价值，但更多展示本国艺术作品能够更好地促进文化传承和社会认同。

扩展延伸：本国艺术作品不仅是文化遗产的传承，也是文化认同的关键。展示这些作品能够帮助公众，尤其是年轻一代，更好地理解和接纳本国的历史与文化。

合理性推断：本国的艺术作品能够为公众提供直接的文化联系和认同感，这种文化认同感在全球化的今天变得尤为重要。

反面假设：如果博物馆和画廊过度注重展示国际艺术，可能会导致本国文化的弱化和疏远，特别是在全球化浪潮下，失去对本土艺术和历史的认同感。

Some people argue that art galleries and museums should focus on displaying more traditional cultural works from their own countries and fewer artworks from other countries. While traditional art plays a key role in preserving national identity, I firmly believe that galleries and museums should prioritize showcasing domestic artworks, as these works play a vital role in preserving and promoting national culture.

有人主张美术馆和博物馆应侧重展示本国传统文化作品，减少其他国家的艺术品。尽管传统艺术在维系民族身份中扮演关键角色，但我坚定认为美术馆和博物馆应优先陈列本土艺术作品，因为这些作品对保存和弘扬民族文化具有重要意义。

For one thing, traditional cultural artworks are deeply intertwined with a country’s identity and heritage. These works reflect the values, beliefs, and history of a nation. For example, Chinese calligraphy and Western Renaissance paintings provide valuable insights into their respective cultures and philosophies. By focusing on these works, galleries help to preserve national heritage and foster a sense of pride and respect for one’s heritage. This is particularly important for younger generations who may not be fully aware of their cultural roots, as it helps them develop a deeper understanding of their history and traditions.

一方面，传统文化艺术品与国家的身份和遗产深度交织。这些作品反映了一个民族的价值观、信仰与历史。例如，中国书法与西方文艺复兴绘画为各自的文化和哲学提供了珍贵洞见。通过聚焦这些作品，美术馆有助于保护民族遗产，并培养人们对自身文化的自豪感与尊重。这对可能不完全了解自身文化根源的年轻一代尤为重要，因为它帮助他们深入理解自己的历史与传统。

However, I believe that showcasing more domestic artworks is crucial for strengthening national identity and cultural continuity. Domestic art is not only a reflection of cultural heritage but also a vital means of fostering cultural pride and recognition. By displaying national artworks, galleries provide audiences with a more direct connection to their heritage and help them form a stronger sense of cultural belonging. If galleries and museums focus too much on international art, they may weaken the recognition of national culture, potentially leading to a disconnection from one’ s artistic roots in the process of global integration.

然而，我认为更多展示本土艺术品对强化民族身份和文化延续性至关重要。本土艺术不仅是文化遗产的映射，更是培养文化自豪感与认同感的重要途径。通过陈列民族艺术品，美术馆为观众提供了与自身遗产更直接的连接，帮助他们形成更强烈的文化归属感。如果美术馆和博物馆过度关注国际艺术，可能会削弱对民族文化的认知，甚至在全球融合过程中导致与本土艺术根源的脱节。

In conclusion, while showcasing international artworks is important for promoting global dialogue, it is essential that domestic art takes priority in art galleries and museums. This approach not only preserves cultural heritage but also fosters a stronger sense of national identity and pride.

总之，尽管展示国际艺术品对促进全球对话很重要，但美术馆和博物馆必须优先考虑本土艺术。这种方式不仅能保护文化遗产，还能培养更强烈的民族认同感与自豪感。

8、gap year

In some countries, many young people choose to work or travel for a year between finishing high school and starting university studies. Discuss the advantagesand disadvantages.(旅游)

在一些国家，许多年轻人选择在高中毕业和进入大学之间用一年时间工作或旅行。讨论其利弊。

🍊 写作立场：

我会选择**支持年轻人选择在高中毕业后和开始大学学业之间工作或旅行**的立场。虽然这一选择可能会有一些不利之处，但其带来的个人成长和实际经验是无法忽视的，且其好处大大超过潜在的缺点。

逻辑链分析：

主体段1

观点：让年轻人在高中毕业后先工作或旅行有助于他们积累实际经验，提升个人技能。

扩展延伸：这一年可以让他们探索不同的职业方向，或在旅行中体验不同的文化，增加他们的世界观和人际交往能力。

举例：例如，一些年轻人选择在旅游业或志愿工作中积累工作经验，这些经历不仅提升了他们的职业技能，还增加了他们对社会责任的理解。

结果分析：这种经历有助于增强自信心，使他们在进入大学学习时更加成熟，能够更清楚地认识自己未来的职业目标和人生方向。

主体段2

观点：尽管一些人认为，长时间离开学术环境会导致学生失去学习的动力和适应能力，但这个观点并不成立。

扩展延伸：事实上，短暂的休整和工作经历可以为学生提供清晰的职业规划，并促使他们以更加积极的心态投入到学术学习中。

举例：例如，一些曾经选择旅行或工作的学生表示，他们通过这段时间的反思和经历，回到学校时更加专注，并清楚地知道自己未来的目标。

让步：虽然这段时间可能会让一些学生觉得初期回归学术较为困难，但随着对自己目标的明确，他们通常能够更好地适应大学的学习环境。

In some countries, many young people choose to take a gap year between finishing high school and starting university studies, either to work or to travel. While some argue that this break could disrupt their academic momentum, I strongly believe that it is a positive decision with significant benefits for personal growth and career preparation.

在一些国家，许多年轻人选择在高中毕业与大学入学之间休学一年（间隔年），用于工作或旅行。尽管有人认为这种中断会破坏学业动力，但我坚信这是一个积极的决定，对个人成长和职业准备具有重要意义。

On the one hand, taking a gap year provides young people with valuable life experiences that help them develop essential skills. By working or traveling, they can gain practical experience in various fields, which can be beneficial for their future careers. For example, some young people choose to work in the tourism industry or engage in volunteer work, which not only builds their professional skills but also helps them understand social responsibilities and cultural diversity. Traveling abroad or living in a different environment can also broaden their perspectives, allowing them to develop a global view and improve their social skills. As a result, they often return to their university studies with more confidence, a clearer sense of direction, and the maturity to handle academic challenges.

一方面，间隔年为年轻人提供了宝贵的生活体验，帮助他们培养关键能力。通过工作或旅行，他们能在不同领域积累实践经验，这对未来职业发展大有助益。例如，部分年轻人选择在旅游业工作或参与

志愿活动，这不仅能提升专业技能，还能帮助他们理解社会责任与文化多样性。出国旅行或在不同环境中生活也能拓宽视野，使其形成全球化视角并提升社交能力。因此，当他们重返大学校园时，往往会更自信、方向更清晰，也更成熟地应对学业挑战。

However, some critics argue that a gap year may cause students to lose interest in academics and struggle to re-adjust to university life. This viewpoint, however, is unfounded. In fact, taking time off to work or travel helps students gain a better sense of their goals and careers, which in turn motivates them to pursue their academic studies with renewed focus. For instance, many students who have taken a gap year report returning to university with greater determination and a clearer vision for their future. While it may take some time to readjust, this period of reflection and experience often enhances their academic performance, as they approach their studies with a stronger sense of purpose.

然而，一些批评者认为间隔年可能导致学生对学术失去兴趣，难以重新适应大学生活。但这种观点缺乏依据。事实上，花时间工作或旅行能帮助学生更明确自身目标与职业方向，进而激励他们以全新的专注度投入学术学习。例如，许多经历过间隔年的学生反馈，重返大学时会更具决心，对未来也有更清晰的规划。尽管重新适应可能需要时间，但这段反思与体验的时光通常会提升他们的学业表现，因为他们会以更强的目标感对待学习。

In conclusion, although there are concerns about taking a gap year, the advantages—such as gaining practical experience, clarifying career goals, and developing greater maturity—far outweigh the potential drawbacks. A well-planned gap year can significantly enrich a young person’ s university experience and help them succeed in their studies.

总之，尽管人们对间隔年存在担忧，但其优势 —— 如获得实践经验、明确职业目标、培养成熟心智 —— 远超过潜在弊端。规划合理的间隔年能显著丰富年轻人的大学体验，并帮助他们在学业中取得成功。

9、淡水

Fresh water is a limited resource in some parts of the world. Today, increasing demand made it a global problem. What are the causes of increasing demand？ What measures can governments and individuals take to solve this problem?(环境)

在世界某些地区，淡水是一种有限资源。如今，不断增长的需求使其成为全球性问题。需求增长的原因是什么？政府和个人可以采取哪些措施来解决这个问题？

🍊 写作立场：

这类题型立场比较简单，题目都预设好了，直接写即可

逻辑链分析：

主体段1

观点：淡水需求增加的主要原因在于人口增长和工业化进程的加快。

举例：例如，随着全球人口特别是在发展中国家的快速增长，水的需求也随之增加。尤其是印度和中国等国家，农业灌溉和工业用水需求的增加，极大地加重了水资源的消耗。

扩展延伸：工业化和农业灌溉所需的水量持续增加，意味着不仅人们的日常用水需求在增长，连水资源的污染程度也在不断加重。

结果分析：这种需求的增加和资源的污染，导致了水危机问题的加剧，进一步加大了对可持续水资源管理的挑战。

主体段2

观点：政府和个人都有很多方法。

扩展延伸：政府可以通过实施严格的水资源管理政策和鼓励水资源回收技术来缓解需求压力。

举例：例如，新加坡通过先进的水处理技术和雨水回收系统有效地解决了水资源短缺问题。

扩展延伸：个人可以通过采取节水设备、改变日常生活习惯来减少不必要的水浪费。

举例：例如，许多家庭选择安装节水型设备，如节水马桶和水龙头，这些设备能有效减少水的浪费。

让步：尽管这些措施可能需要初期投入，但从长远来看，它们无疑能够有效缓解水资源短缺问题。

Freshwater is a limited resource in many parts of the world, and the increasing global demand for water has turned it into a critical issue. The rising demand for freshwater is caused by several factors, and both governments and individuals must take action to address this problem.

在世界许多地区，淡水是一种有限资源，而全球对水资源需求的不断增长已使其成为一个关键问题。淡水需求上升由多种因素导致，政府和个人都必须采取行动来解决这一问题。

To begin with, the primary causes of increasing demand for freshwater are population growth and industrialization. As the global population continues to rise, especially in developing countries, the demand for water has surged. At the same time, industrialization has led to greater water consumption in agriculture, manufacturing, and other industries. For instance, countries like India and China, with rapidly growing populations and expanding industries, require large amounts of water for irrigation and production. This increasing demand for water has put immense pressure on available resources, and it has also led to water pollution, further exacerbating the problem.

一方面，淡水需求增长的主要原因是人口增长和工业化。随着全球人口持续增加（尤其是在发展中国家），对水的需求急剧上升。与此同时，工业化导致农业、制造业和其他行业的用水量大幅增加。例如，印度和中国等人口快速增长、工业不断扩张的国家，需要大量水资源用于灌溉和生产。这种不断增长的用水需求给现有资源带来了巨大压力，同时也导致了水污染，进一步加剧了问题。

Additionally, both governments and individuals can take concrete steps to address the growing demand for freshwater. Governments can implement stricter water management policies, such as promoting water conservation and recycling technologies. For example, Singapore has successfully implemented advanced water treatment technologies and rainwater harvesting systems, significantly increasing water efficiency. Individuals can also help by adopting water-saving habits, such as using water-efficient appliances and reducing wasteful practices. For instance, many households have installed water-saving devices like low-flow toilets and faucets, which effectively reduce water wastage. Although these measures may require initial investment, they will significantly alleviate the pressure on freshwater resources in the long run, ensuring sustainable usage.

另一方面，政府和个人都可以采取具体措施来应对日益增长的淡水需求。政府可以实施更严格的水资源管理政策，如推广节水和水循环技术。例如，新加坡成功实施了先进的水处理技术和雨水收集系统，显著提高了用水效率。个人也可以通过养成节水习惯来提供帮助，如使用节水器具和减少浪费行为。例如，许多家庭安装了低流量马桶和水龙头等节水设备，有效减少了水资源浪费。尽管这些措施可能需要初始投资，但从长远来看，它们将显著缓解淡水资源的压力，确保可持续利用。

In conclusion, the rising demand for freshwater is a pressing global issue, but with the right measures taken by both governments and individuals, we can mitigate the problem. By improving water management, encouraging conservation, and reducing waste, we can ensure that freshwater resources are available for future generations.

过改善水资源管理、鼓励节约用水和减少浪费，我们可以确保淡水资源供子孙后代使用。

10、增加假期

Employers should give their staff atleast a 4-week holiday a year to makeemployees better at their jobs. To what extent do you agree or disagree?(工作)

雇主每年应给予员工至少 4 周假期，以使他们更好地胜任工作。你在多大程度上同意或反对？

🍊 写作立场：

我会选择**支持雇主应给予员工至少四周假期**的立场。适当的假期不仅能帮助员工恢复精力，还能提高工作效率和创造力，从而对雇主和员工双方都带来好处。

逻辑链分析：

主体段1

观点：给予员工四周以上的假期有助于员工恢复精力，提升工作效率。

扩展延伸：长时间的工作压力会导致员工疲劳和精力不集中，影响工作表现。定期休假有助于员工放松心情，减轻压力，保持工作动力。

举例：例如，一些研究表明，每年有足够假期的员工更能够维持高效的工作状态，尤其在创意行业中，假期有助于激发新的灵感和创新。

结果分析：这种休息能使员工在工作时保持更高的专注度和生产力，从而提高公司的整体效率。

主体段2

观点：员工假期不仅有助于提升工作表现，也有助于员工的长期身心健康。

扩展延伸：长时间的工作不仅影响员工的效率，还会对员工的身体和心理健康产生不利影响。假期可以有效预防职业倦怠，促进员工的身心恢复。

举例：例如，许多跨国公司，如谷歌和微软，已经开始提供长时间假期，发现这不仅改善了员工的工作表现，还提高了员工的整体幸福感和忠诚度。

让步：虽然有些企业担心员工休假期间的工作中断，但适当的假期安排不会影响工作效率，反而能通过提升员工的整体福祉来促进更高效的工作。

Employers should give their staff at least a four-week holiday each year to improve their job performance. I strongly agree with this suggestion, as taking adequate time off not only helps employees to recharge and reduce stress but also boosts their productivity and job satisfaction in the long run.

雇主应每年为员工提供至少四周假期，以提升其工作表现。我强烈认同这一建议，因为充足的休假不仅能帮助员工恢复精力、缓解压力，从长远来看还能提升生产力与工作满意度。

On the one hand, providing employees with sufficient time off allows them to rest and recover, which is essential for maintaining high performance. Continuous work without breaks can lead to exhaustion, burnout, and a decrease in focus, which negatively impacts employees' effectiveness. For instance, studies have shown that employees who take regular holidays tend to be more productive and creative, especially in industries that require innovation and problem-solving. By taking a proper break, employees return to work with renewed energy, better focus, and improved performance.

一方面，为员工提供足够的休假时间可使其休息恢复，这对维持高绩效至关重要。持续工作而不休息会导致疲惫、职业倦怠和专注力下降，对员工的工作效率产生负面影响。例如，研究表明，定期休假的员工往往更具生产力和创造力，尤其是在需要创新与解决问题的行业中。通过适当休息，员工重返工作时会精力充沛、专注力更强，工作表现也会提升。

On the other hand, regular holidays also contribute to the overall physical and mental well-being of employees. Long working hours can lead to health issues, including stress, anxiety, and physical ailments like back pain or eye strain. A sufficient amount of vacation time gives employees the opportunity to rest, exercise, and engage in activities that promote health, thus reducing the risk of burnout and improving long-term job satisfaction. Companies such as Google and Microsoft have already adopted long vacation policies, which have been shown to increase employee loyalty and happiness, while simultaneously enhancing their work performance. Although some employers might be concerned about the disruption caused by extended holidays, careful planning can ensure that time off does not affect productivity but instead fosters a healthier, more motivated workforce.

另一方面，定期休假也有助于员工的整体身心健康。长时间工作可能导致健康问题，包括压力、焦虑和背痛、眼疲劳等身体疾病。充足的假期让员工有机会休息、锻炼并参与促进健康的活动，从而降低职业倦怠风险，提升长期工作满意度。谷歌和微软等公司已采用长假期政策，事实证明这不仅能增强员工忠诚度和幸福感，还能同时提升工作表现。尽管有些雇主可能担心长假造成的工作中断，但通过周密规划，休假不仅不会影响生产力，反而能培养更健康、更有动力的员工队伍。

In conclusion, giving employees at least four weeks of holiday per year is highly beneficial for both the individual and the organization. Not only does it improve job performance and creativity, but it also ensures employees' long-term health and job satisfaction, creating a more productive and loyal workforce.

总之，每年为员工提供至少四周假期对个人和组织都大有益处。它不仅能提升工作表现和创造力，还能保障员工的长期健康与工作满意度，打造更高效、更忠诚的员工团队。

11、文理科

In schools and universities, girls tend to choose arts subjects, while boys choose science subjects. What is the reason? Should the trend be changed?（教育）

在中小学和大学中，女生往往选择文科科目，而男生则选择理科科目。其原因是什么？这一趋势应该被改变吗?

🍊 写作立场：

我会选择**支持这种性别偏好没有必要改变的立场**，认为这一趋势反映了性别间在兴趣和天赋方面的自然差异。尽管如此，教育应当鼓励学生自由选择课程，而不是被性别所局限。

逻辑链分析：

主体段1

观点：女孩倾向选择艺术科目，男孩则偏向选择科学科目，主要是由于传统的社会期望和性别角色的影响。

扩展延伸：传统上，女性被鼓励从事与艺术和人文学科相关的工作，而男性则被引导向科学和技术领域。这种性别角色的固定观念仍然在许多社会中存在，影响了学生的选择。

举例：例如，许多文化中，女孩从小就被鼓励参与艺术活动如绘画和舞蹈，而男孩则更多接触数学、物理等学科。

结果分析：这种性别角色的影响让女生和男生在学术兴趣上形成了固定的偏好，从而在教育选择上形成了明显的性别差异。

主体段2

观点：尽管这种趋势反映了某些社会文化因素，但不应该强迫改变学生的兴趣和选择。

扩展延伸：每个学生都有自己独特的兴趣和天赋，教育应当鼓励学生根据自己的兴趣和能力选择科目，而非因为性别的预设框架。

举例：例如，一些女性在STEM（科学、技术、工程、数学）领域取得了显著成就，像玛丽·居里和Ada Lovelace等科学家的成功证明了女性同样能够在科学领域取得卓越成绩。

让步：虽然应该减少性别偏见的影响，但应尊重学生的选择，不必强行改变他们对艺术或科学的兴趣。

In many schools and universities, there is a noticeable trend where girls tend to choose arts subjects, while boys often opt for science-related fields. This gendered pattern of subject selection has been a topic of discussion, and understanding its reasons can help us address whether this trend should be changed.

在许多中小学和大学里，存在一个显著趋势：女生倾向于选择文科科目，而男生往往选择理科相关领域。这种基于性别的学科选择模式一直是讨论的话题，理解其背后的原因有助于我们探讨这一趋势是否应该被改变。

The reason behind this trend lies in traditional gender roles and societal expectations. Historically, girls have been encouraged to pursue careers in the arts and humanities, while boys are often directed towards science and technology. These cultural norms continue to influence students' choices, even in modern education systems. For example, girls are more likely to engage in activities such as painting, dance, or literature from a young age, while boys are often steered towards subjects like math, physics, and engineering. This societal conditioning leads to the formation of fixed academic preferences based on gender, creating a clear distinction in the subjects chosen by each gender.

这一趋势的根源在于传统性别角色和社会期望。从历史上看，女性一直被鼓励从事艺术和人文学科相关的职业，而男性则常被引导至科学与技术领域。即使在现代教育体系中，这些文化规范仍在影响学

生的选择。例如，女孩从小更可能参与绘画、舞蹈或文学等活动，而男孩则常被引导至数学、物理和工程等学科。这种社会教化导致基于性别的固定学术偏好形成，使两性选择的学科产生明显差异。

On the other side, while this trend reflects certain cultural and social factors, it should not be forcefully changed. It is important to recognize that every student has unique interests and talents, and education should foster an environment where students can freely choose subjects based on their personal preferences and abilities, rather than societal expectations linked to their gender. For instance, there are many accomplished women in the fields of STEM , such as Marie Curie, who proved that women can excel in scientific disciplines. Although efforts should be made to reduce gender biases, it is crucial to respect students' choices and interests, allowing them to pursue arts or science subjects according to their passions.

另一方面，尽管这一趋势反映了特定的文化和社会因素，但不应强行改变。重要的是要认识到每个学生都有独特的兴趣和天赋，教育应营造一种环境，让学生能基于个人偏好和能力自由选择学科，而非受与性别相关的社会期望影响。例如，在 STEM 领域有许多杰出女性，如玛丽·居里，她们证明了女性可以在科学学科中卓越出众。尽管应努力减少性别偏见，但尊重学生的选择和兴趣至关重要，让他们能根据热情追求文科或理科科目。

In conclusion, the trend of girls choosing arts subjects and boys selecting science subjects reflects societal influences and individual preferences. While it is important to minimize gender bias in education, it is also essential to ensure that students are free to make choices that align with their interests and talents, regardless of traditional gender norms.

总之，女生选文科、男生选理科的趋势反映了社会影响和个人偏好。尽管在教育中减少性别偏见很重要，但同样重要的是确保学生能自由做出符合自身兴趣和天赋的选择，无论传统性别规范如何。

12、线上购物

Online shopping is now replacing shopping in the store. Do you think it is a positive or negative development?(科技）

线上购物如今正取代实体店购物。你认为这是积极还是消极的发展？（科技类）

🍊 写作立场：支持

我会选择**支持在线购物替代传统商店购物**的立场。在线购物提供了更高效、便捷的购物体验，尽管存在一些潜在问题，但总体来看，这一趋势对消费者和零售商都有显著的益处。

逻辑链分析：

主体段1

观点：在线购物为消费者提供了便捷性，尤其在节省时间和精力方面。

扩展延伸：消费者无需到实体店购物，可以通过互联网随时随地购买产品。

举例：例如，许多人选择在忙碌的工作日后晚上或周末进行网上购物，而不必担心商店的营业时间。

合理性推断：这种便利性使得消费者能够充分利用碎片化时间来完成购物，减少了实体店购物带来的时间和精力消耗。

主体段2

观点：在线购物推动了全球化购物，提供了更多的选择和竞争力的价格。

扩展延伸：通过在线平台，消费者可以接触到来自世界各地的商品，选择范围更广，价格更具竞争力。

举例：例如，平台如淘宝让消费者能够购买从不同国家和地区的商品，包括那些在本地商店无法找到的商品。

结果分析：这种全球购物的便利不仅增加了商品的多样性，还通过市场竞争降低了价格，增加了消费者的购买力。

Online shopping has rapidly replaced in-store shopping as the preferred method for purchasing goods. While some may view this shift as a negative development, I strongly believe that it is a positive trend due to the convenience, variety, and affordability it offers to consumers.

线上购物已迅速取代实体店购物，成为消费者选购商品的首选方式。尽管有人认为这一转变是消极发展，但我坚信这是积极趋势 —— 因其为消费者带来了便利、多样选择和实惠价格。

Online shopping provides significant convenience by saving time and energy. Unlike traditional shopping, where consumers need to visit physical stores during specific hours, online shopping allows people to browse and buy products at any time, from anywhere. For example, many consumers choose to shop online after work or during weekends when physical stores are closed, allowing them to shop when it’ s most convenient for them. This flexibility not only saves time but also allows shoppers to make the best use of their free time, making the whole shopping experience more efficient.

线上购物通过节省时间和精力实现了显著的便利性。与传统购物需消费者在特定时段前往实体店不同，线上购物允许人们随时随地浏览和购买商品。例如，许多消费者选择在下班后或周末实体店歇业时网购，以便在最方便的时间购物。这种灵活性不仅节省时间，还能让购物者充分利用空闲时间，使整个购物体验更高效。

Additionally, online shopping has brought about a global marketplace that offers more product choices and competitive pricing. Consumers can access products from around the world and compare prices easily, which increases the variety of products available and drives down prices through competition. For instance, platforms like taobao provide consumers with the opportunity to purchase items from different countries, including those that are not available in local stores. This global reach not only increases the diversity of products but also enhances

consumers' purchasing power by making items more affordable through international competition.

此外，线上购物催生了全球市场，提供了更多产品选择和竞争性定价。消费者能接触到来自世界各地的商品并轻松比价，这既增加了可选商品的多样性，又通过竞争压低了价格。例如，淘宝等平台为消费者提供了购买不同国家商品的机会，包括本地实体店没有的商品。这种全球覆盖不仅丰富了产品多样性，还通过国际竞争让商品更实惠，增强了消费者的购买力。

In conclusion, the rise of online shopping is undeniably a positive development. It offers unmatched convenience, a broader selection of products, and more affordable prices. Despite the challenges it poses to traditional brick-and-mortar stores, online shopping is undoubtedly a step forward in modern retail.

总之，线上购物的崛起无疑是积极发展。它带来了无可比拟的便利性、更广泛的产品选择和更实惠的价格。尽管它对传统实体店构成挑战，但线上购物无疑是现代零售业的一大进步。

13、贫富差距

Some people believe that the best way to produce a happier society is to ensure that there are only small differences between its richest and poorest members.To what extent do you agree or disagree?(社会)

有人认为，创造更幸福社会的最佳方式是确保贫富成员之间的差异很小。你在多大程度上同意或反对?

🍊 写作立场：部分同意

我会选择**部分同意**的立场，认为缩小社会贫富差距有助于建立一个更加和谐的社会，但并不是唯一的途径，其他社会因素同样也能影响社会的幸福感。

逻辑链分析：

主体段1

观点：缩小贫富差距有助于社会稳定与和谐，进而提高社会幸福感。

扩展延伸：贫富差距过大容易导致社会不公和阶级分化，这不仅影响低收入人群的生活质量，还可能加剧社会的不满和紧张情绪。

举例：例如，在一些经济不平等严重的国家，社会动荡和犯罪率较高，因而限制了社会整体的幸福感。

结果分析：通过减少贫富差距，社会成员的幸福感可以得到提升，社会的凝聚力和稳定性也会加强。

主体段2

观点：尽管缩小贫富差距有助于提升社会的整体幸福感，但并不是唯一的解决办法。

扩展延伸：幸福感还受到教育、健康、社会福利等其他因素的影响，而这些因素能促进社会成员的个人发展和满足感。

举例：例如，北欧国家提供良好的教育和健全的社会福利体系，尽管其贫富差距适中，但其民众普遍拥有较高的幸福感。

让步：虽然收入不平等减少可以提升社会和谐，但也需要关注其他提升生活质量的方面，如精神文化生活和公平机会等。

Some people believe that the best way to produce a happier society is to ensure that there are only small differences between the richest and poorest members. While reducing income inequality may contribute to a more harmonious society, I believe it is not the only factor that influences happiness. A combination of various social elements is essential to creating a society where people feel truly fulfilled.

有人认为，构建更幸福社会的最佳途径是确保贫富群体间的差异微乎其微。尽管缩小收入差距可能有助于营造更和谐的社会，但我认为这并非影响幸福感的唯一因素 —— 创造一个让人们真正感到满足的社会，需要多种社会要素的共同作用。

On the one hand, reducing the gap between the rich and the poor can indeed foster social stability and harmony, which are key to a happier society. When income inequality is too great, it can lead to social unrest and dissatisfaction, as lower-income groups often feel marginalized or excluded from the benefits of society. For example, in countries with extreme wealth disparity, social unrest and higher crime rates are often seen, which ultimately reduces the overall happiness of society. By narrowing this gap, society can promote a sense of fairness and inclusivity, making people feel more content and secure in their social environment.

一方面，缩小贫富差距确实能促进社会稳定与和谐，而这正是幸福社会的核心要素。当收入不平等程度过高时，可能引发社会动荡与不满，因为低收入群体常感到被边缘化或被排除在社会福利之外。例如，在财富差距悬殊的国家，往往可见社会动荡与更高的犯罪率，最终降低社会整体幸福感。通过缩小这一差距，社会能传递公平与包容的理念，让人们在社会环境中更感满足与安全。

In addition, while reducing income inequality is beneficial, it is not the sole solution to creating a happier society. Other factors, such as access to quality education, healthcare, and social welfare, play a significant role in improving the overall well-being of individuals. For instance, Scandinavian countries, which provide excellent public services and welfare systems, consistently rank high in global happiness indexes, even though their income inequality is not as

low as some might expect. Therefore, while economic equality is important, a holistic approach that focuses on providing equal opportunities and access to essential services is crucial for societal happiness.

另一方面，尽管缩小收入差距有益，但它并非创造幸福社会的唯一解决方案。其他因素（如优质教育、医疗服务和社会福利的可及性）在提升个体整体福祉方面发挥着重要作用。例如，北欧国家虽收入不平等程度未必如预期般低，却因提供出色的公共服务和福利体系，在全球幸福指数中始终名列前茅。因此，经济平等固然重要，但聚焦于提供平等机会和基本服务可及性的整体性策略，才是社会幸福的关键。

In conclusion, while minimizing income inequality can help foster a happier society, it should be viewed as part of a broader strategy that includes improving access to education, healthcare, and social services. Only by addressing these various aspects can we create a truly fulfilling society for all members.

总之，尽管最小化收入不平等有助于构建幸福社会，但应将其视为更广泛策略的一部分 —— 这一策略还需包括改善教育、医疗和社会服务的可及性。只有兼顾这些不同层面，才能为所有社会成员创造真正充实的生活环境。

14、空地植树

Some people think it is more importantto plant more trees in open spaces intowns and cities than to provide morehousing. To what extent do you agree or disagree?(环境)

有人认为，在城镇的空地上种植更多树木比提供更多住房更重要。你在多大程度上同意或反对?

🍊 写作立场：部分同意

我会选择**部分同意**的立场。虽然增加绿地和种植树木对改善环境和提升生活质量非常重要，但提供更多住房同样也是解决城市化问题和满足居民需求的关键。两者应当平衡发展，不能单纯偏向其中之一。

逻辑链分析：

主体段1

观点：增加城市绿地和树木能够显著改善环境质量，提升居民的生活质量。

扩展延伸：树木能够改善空气质量，减少热岛效应，并为居民提供休闲和放松的空间。

举例：例如，城市中的公园和绿地能够为居民提供社交场所，增强城市的宜居性，像哥本哈根等城市就通过增加绿地来改善居民的生活环境。

让步：尽管增加绿地能带来许多环境和健康上的好处，但这并不意味着忽视住房建设的重要性。

主体段2

观点：然而，提供更多的住房是解决城市化进程中居民住房需求问题的迫切任务。

扩展延伸：随着人口的增长和城市化速度的加快，城市中的住房问题日益严峻，缺乏足够的住房会导致贫民窟的形成和社会不稳定。

举例：例如，伦敦和纽约等大城市面临着住房紧张的问题，造成了高租金和低收入群体居住条件的恶化。

反面假设：如果城市发展过度侧重绿化而忽视住房建设，可能导致城市空间的不合理分配，使得低收入群体和移民难以负担住房。

Some people think it is more important to plant more trees in open spaces in towns and cities than to provide more housing. While I understand the environmental benefits of increasing green spaces, I believe that providing more housing is just as important. A balance must be struck between the need for green spaces and the necessity for sufficient housing in urban areas.

有人认为，在城镇空地上种植更多树木比提供更多住房更为重要。尽管我理解增加绿地的环境效益，但我认为提供住房同样重要 —— 在城市地区，必须在绿地需求与充足住房的必要性之间达成平衡。

On the one hand, increasing the number of trees and expanding green spaces in cities can significantly improve the environment and enhance residents' quality of life. Trees help improve air quality by absorbing pollutants and producing oxygen, while also mitigating the urban heat island effect, making cities more comfortable. For example, cities like Copenhagen have integrated more green spaces into their urban planning, creating parks and recreational areas that improve residents' mental and physical well-being. While this brings undeniable benefits, it should not overshadow the need for more housing in rapidly growing urban areas.

一方面，在城市中增加树木数量、拓展绿地面积能显著改善环境并提升居民生活质量。树木通过吸收污染物、释放氧气来改善空气质量，同时缓解城市热岛效应，让城市更宜居。例如，哥本哈根等城市在城市规划中融入了更多绿地，打造公园和休闲区，改善了居民的身心健康。尽管这带来了不可否认的益处，但在快速发展的城市地区，它不应掩盖对更多住房的需求。

On the other hand, providing more housing is essential to address the growing demand due to urbanization. As populations increase and cities expand, the lack of affordable housing becomes a major concern. Insufficient housing can lead to the formation of slums, overcrowding, and social instability. For instance, cities like London and New York face severe housing shortages, leading to high rents and worsening living conditions for low-income families. If urban development focuses solely on increasing green spaces while neglecting housing, it could lead

to an imbalanced allocation of city space, making it harder for low-income groups to find suitable and affordable accommodation.

另一方面，提供更多住房是应对城市化带来的增长需求的关键。随着人口增加和城市扩张，经济适用房短缺成为主要问题。住房不足可能导致贫民窟形成、居住拥挤和社会不稳定。例如，伦敦和纽约等城市面临严重的住房短缺，导致租金高企，低收入家庭的居住条件恶化。如果城市发展只专注于增加绿地而忽视住房，可能导致城市空间分配失衡，使低收入群体更难找到合适且负担得起的住所。

In conclusion, both planting more trees and providing more housing are essential for creating sustainable and livable cities. While green spaces are crucial for the environment and residents' well-being, addressing the housing shortage should remain a priority to ensure that urban areas can accommodate growing populations in a fair and balanced way.

总之，种植更多树木和提供更多住房对于打造可持续的宜居城市同样重要。尽管绿地对环境和居民福祉至关重要，但解决住房短缺问题仍应是优先事项，以确保城市地区能以公平且平衡的方式容纳不断增长的人口。

15、工作时长

Countries with a long average working time are more economically successful than those countries which do not have a long working time. To what extent do you agree or disagree?(健康)

平均工作时间长的国家比工作时间短的国家在经济上更成功。你在多大程度上同意或反对?

🍊 写作立场：不同意

我会选择**不同意**的立场。长时间工作并不直接等于更高的经济成功，真正决定经济成就的是工作效率、技术创新和员工的健康状况。虽然长时间工作可能会在短期内提升产量，但从长远来看，它可能会带来健康问题和生产力下降。

逻辑链分析：

主体段1

观点：长时间工作并不意味着更高的经济成功，工作效率和创新能力更为关键。

扩展延伸：即使长时间工作能够在短期内增加产量，但长期来看，过度的工作时间会降低工作效率，影响员工的创新能力。与其延长工作时间，企业应当通过提高效率和创新来推动经济增长。

举例：例如，瑞士和德国的工作时间相对较短，但它们通过提高工作效率和创新能力，依然实现了较高的经济水平。

结果分析：这种注重效率而非工作时长的方法，不仅能够提高生产力，也能促进员工的身心健康，避免因过度工作而带来的负面影响。

主体段2

观点：长时间工作对员工的健康造成负面影响，进而降低整体生产力。

扩展延伸：长时间工作会增加员工的疲劳感，导致健康问题，这不仅会降低员工的工作效率，还可能增加企业的医疗成本。

举例：设想一个员工在工作时长非常长的情况下，每周都加班至深夜，健康状况逐渐恶化，开始出现睡眠不足、焦虑等问题，这会导致他的工作效率显著下降，最终影响到整体团队的生产力。

让步：虽然在短期内，长时间工作可能会带来产量的增加，但从长远来看，员工健康的恶化会导致更多的休病假、降低工作效率，最终使经济增长停滞。

Some people believe that countries with long average working hours are more economically successful than those with shorter working hours. However, I disagree with this notion. Economic success is more closely related to work efficiency, innovation, and the well-being of the workforce, rather than simply the number of hours worked.

有人认为，平均工作时间长的国家比工作时间短的国家经济更成功。然而，我不认同这一观点。经济成功更取决于工作效率、创新能力和劳动力福祉，而非单纯的工作时长。

Firstly, long working hours do not necessarily result in greater economic success. While working longer hours might boost output in the short term, it is work efficiency and innovation that are crucial for long-term economic growth. Countries that prioritize improving work efficiency and fostering innovation tend to perform better economically, even with relatively short working hours. For example, Switzerland and Germany have managed to maintain strong economies by optimizing work processes and promoting technological advancements, even though their average working hours are relatively moderate. It is not the length of working hours but the quality of work that drives sustainable economic success.

一方面，长工作时间未必带来更高的经济成就。尽管延长工作时间可能在短期内提升产出，但长期经济增长的关键在于工作效率与创新。优先提升工作效率、鼓励创新的国家往往经济表现更优，即便其平均工作时间相对较短。例如，瑞士和德国通过优化工作流程、推动技术进步，成功维持了强劲的经济，尽管它们的平均工作时间较为适度。驱动可持续经济成功的并非工作时长，而是工作质量。

Moreover, long working hours can have a negative impact on employees' health, which can, in turn, reduce overall productivity. Working extended hours without sufficient rest can lead to physical and mental exhaustion, which diminishes their performance and creativity.For instance, suppose an employee consistently works overtime, staying up late every night. This would eventually result in poor sleep, anxiety, and burnout, leading to a noticeable drop in his

or her work efficiency. Such health issues not only reduce individual performance but can also affect the overall productivity of a team, and ultimately, the economy. While long working hours may result in higher output in the short term, the long-term costs in terms of health and productivity will likely outweigh these short-term gains.

另一方面，长工作时间会对员工健康产生负面影响，进而降低整体生产力。长时间工作且缺乏充足休息会导致身心疲惫，削弱工作表现与创造力。例如，假设一名员工持续加班、每晚熬夜，最终会导致睡眠不佳、焦虑和职业倦怠，工作效率显著下降。此类健康问题不仅降低个人绩效，还会影响团队整体生产力，最终对经济造成损害。尽管长工作时间可能带来短期产出提升，但健康与生产力方面的长期代价很可能超过这些短期收益。

In conclusion, while long working hours may bring short-term benefits, they do not necessarily lead to sustained economic success. A more balanced approach that emphasizes work efficiency, innovation, and employee health is essential for long-term economic growth and prosperity.

总之，尽管长工作时间可能带来短期利益，但未必能促成持续的经济成功。强调工作效率、创新及员工健康的平衡策略，才是长期经济增长与繁荣的关键。
