2025.8月大作文预测

一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以2道题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如范文1的父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、“父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观" 、“个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。（下面的范文7）

那我我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

.....

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、种树

Some people think it is more important to plant more trees in open spaces in towns and cities than to provide more housing. To what extent do you agree or disagree?（环境）

一些人认为，在城镇的开放空间种更多的树比提供更多的住房更重要。你在多大程度上同意或不同意这种观点？

🍊 ✅ 写作立场建议：同意（更支持城市种树）

尽管住房短缺确实存在，但我认为城市应优先将空地用于种树。这不仅能缓解环境压力，还能提升居民的生活质量，是更具长期意义的发展方向。

逻辑链分析：

主体段 1

- **提出观点**：优先种树能带来深远的生态和公共健康益处。
- **扩展延伸**：城市污染严重，绿地不仅可以吸收二氧化碳，还能调节气温，缓解热岛效应。并且绿地还能成为居民放松和社交的场所，增强社区联系。
- **举例**：例如北京持续扩大城市绿化，不仅缓解了极端气候，还提升了居民幸福感。
- **合理性推断**：随着城市化推进，绿色空间将成为维持城市生态平衡和社会活力的关键。

主体段 2

- **提出观点**：虽然有人主张利用空地建房缓解住房压力，但这一策略并非长远之计。
- **让步反驳**：确实，一些大城市房价高企，低收入人群难以负担合适的住房。但忽视城市绿地只会带来生活质量下降，并加剧环境问题。
- **举例**：设想一个没有树木、四处是水泥建筑的城市，居民暴露在雾霾、高温和噪音中，身心健康将长期受损。
- **总结**：因此尽管住房很重要，但优先考虑绿地对城市的长期活力至关重要。

In many urban areas, people debate whether open spaces should be used for planting trees or building more housing. While the shortage of housing is a real issue in some cities, I believe it is

more beneficial in the long run to preserve these spaces for greenery.

在许多城市地区，人们争论开放空间应用于种树还是建造更多住房。虽然一些城市确实存在住房短缺问题，但我认为从长远来看，将这些空间保留为绿地更有益处。

Planting more trees in towns and cities brings substantial ecological and public health benefits. Urban environments often struggle with poor air quality and high temperatures, and green spaces can absorb carbon dioxide, cool surrounding areas, and reduce the urban heat island effect. More importantly, they offer spaces for relaxation and social interaction, which strengthen community bonds and mental well-being. For example, Beijing has continuously expanded urban greening, which has not only alleviated extreme climates but also enhanced residents' sense of happiness. As cities continue to grow, maintaining green spaces will be crucial to ensuring both environmental sustainability and human well-being.

在城镇种植更多树木能带来显著的生态和公共健康效益。城市环境往往面临空气质量差和气温偏高的问题，而绿地可以吸收二氧化碳、降低周边温度并减轻城市热岛效应。更重要的是，绿地为人们提供了放松和社交的空间，有助于增强社区凝聚力和人们的心理健康。例如，哥本哈根扩大了城市森林面积，不仅改善了空气质量、缓解了夏季极端高温，还提高了居民的生活质量。随着城市不断发展，维持绿地对于确保环境可持续性和人类福祉都至关重要。

Some people argue that using open land to build housing is more urgent, especially given the growing urban population and rising housing costs. It is true that affordable housing is a major concern in many metropolitan areas. However, neglecting the need for green spaces would lead to lower life satisfaction and greater environmental degradation. For instance, a city filled entirely with concrete, where residents endure smog, heatwaves, and noise, would become increasingly unlivable. Cities that overdevelop often see residents move away due to declining living conditions and health risks. Therefore, urban development should consider long-term livability, not just short-term economic gain.

有些人认为，利用开放土地建造住房更为迫切，尤其是考虑到城市人口不断增长和住房成本持续上升的情况。诚然，经济适用房在许多大都市地区都是一个主要问题。然而，忽视对绿地的需求会导致生活满意度下降和环境进一步恶化。例如，一个完全被混凝土覆盖的城市，居民忍受着雾霾、热浪和噪音之苦，这样的城市会变得越来越不适宜居住。过度开发的城市往往会因生活条件下降和健康风险增加而导致居民搬走。因此，城市发展应考虑长期宜居性，而不仅仅是短期经济收益。

In conclusion, although urban housing is a pressing concern, planting more trees in open spaces is a more sustainable and socially valuable approach. It addresses both environmental challenges and the long-term quality of life for city residents.

总之，尽管城市住房是一个紧迫的问题，但在开放空间种植更多树木是一种更可持续、更具社会价值的做法。它既解决了环境挑战，也关乎城市居民的长期生活质量。

2、老年人用新技术

Mobile phones and the internet bring a lot of benefits to people nowadays. However, older people use them the least. In what aspects do mobile phones and the internet benefit older people? How can we encourage them to use these technologies?（科技）

如今，手机和互联网给人们带来了诸多益处。然而，老年人使用它们的频率最低。手机和互联网在哪些方面对老年人有益？我们可以通过哪些方式鼓励他们使用这些技术？

🍊 ✅ 写作立场建议：正面立场

我认为手机与互联网能显著改善老年人的生活质量，尤其是在沟通、健康和信息获取方面。我们应主动消除障碍，帮助他们融入数字社会。

✅ 逻辑链分析：

主体段1

- **提出观点**：手机和网络为老年人生活带来显著便利
- **扩展延伸**：帮助老年人保持社交联系、获取医疗信息、丰富精神生活
- **举例**：例如使用微信视频与子女联系，或预约在线问诊
- **合理性推断**：这些功能能缓解孤独、提升健康意识、增强生活独立性

主体段2

- **提出观点**：要让老年人广泛使用这些技术，必须降低心理和操作门槛
- **扩展延伸**：许多老年人因担心出错或缺乏指导而不敢尝试
- **举例**：社区或子女可定期组织“智能课堂”，从基础操作到安全使用逐步讲解
- **反面假设**：如果忽视这一群体，他们可能被数字社会边缘化，生活不便、沟通困难

Mobile phones and the internet can significantly improve the quality of life for older people, even though they tend to use these technologies less than younger generations. These tools provide benefits in areas such as communication, healthcare, and access to information.

尽管老年人使用手机和互联网的频率往往低于年轻一代，但这些技术能显著提升老年人的生活质量。这些工具在沟通、医疗保健和信息获取等方面都能带来益处。

To begin with, mobile devices help older adults stay socially connected and emotionally supported. Many seniors live apart from their families, and video calls or messaging apps allow them to talk with loved ones regularly. For instance, an elderly woman living alone can use

WeChat to chat with her children every evening, which brings her comfort and reduces feelings of isolation. Beyond social use, the internet also offers access to telemedicine services, health articles, and entertainment such as music and online classes. These digital resources empower older people to manage their lives more independently and stay mentally active.

首先，移动设备有助于老年人维持社交联系并获得情感支持。许多老年人与家人分居两地，而视频通话或即时通讯应用能让他们定期与亲人交流。例如，一位独居的老年女性可以通过微信每晚和子女聊天，这能给她带来慰藉，减轻孤独感。除了用于社交，互联网还能让他们获取远程医疗服务、健康文章以及音乐、在线课程等娱乐资源。这些数字资源能让老年人更自主地管理自己的生活，保持思维活跃。

To encourage the elderly to embrace these tools, we must provide support at multiple levels. First, mobile apps and websites should offer simplified versions tailored for seniors. These interfaces should feature larger fonts, clearer layouts, and fewer complex functions to reduce technological anxiety. For example, many banking apps now include a “simple mode” that highlights only the most essential features, which has proven popular among older users. Second, both communities and families should organize regular training sessions. These events help older people build confidence and develop digital habits. One effective approach is to invite young volunteers to teach seniors how to use basic apps like messaging or health platforms in a friendly, one-on-one setting.These methods are of great help to the elderly in using mobile phones and the Internet.

要鼓励老年人接纳这些工具，我们必须在多个层面提供支持。首先，移动应用和网站应提供为老年人量身定制的简化版本。这些界面应采用更大的字体、更清晰的布局，减少复杂功能，以减轻他们对技术的焦虑。例如，许多银行应用现在都设有 “简易模式”，只突出显示最基本的功能，这种模式在老年用户中很受欢迎。其次，社区和家庭都应组织定期的培训课程。这些活动有助于老年人建立信心，培养使用数字技术的习惯。一种有效的方法是邀请年轻志愿者以友好的一对一方式，教老年人使用即时通讯或健康平台等基础应用。这些方法都对老人适用手机和互联网有很大帮助。

In conclusion, mobile phones and the internet offer meaningful benefits for older people. Through simplified tools and personalized education, we can help them fully enjoy the advantages of modern technology.

总之，手机和互联网为老年人带来了切实的好处。通过简化的工具和个性化的指导，我们能帮助他们充分享受现代科技的优势。

3、离家工作

In many countries, people need to leave their families and friends to find jobs in other places. Do you think the advantages outweigh the disadvantages?（工作）

在许多国家，人们需要离开家人和朋友去其他地方找工作。你认为这样做的利大于弊吗?

🍊 ✅ 写作立场建议：正面立场

我认为手机与互联网能显著改善老年人的生活质量，尤其是在沟通、健康和信息获取方面。我们应主动消除障碍，帮助他们融入数字社会。

✅ 逻辑链分析：

主体段 1

- **提出观点**：很多人担心离家打工会造成亲情疏远
- **扩展延伸**：离开父母、伴侣或孩子，意味着无法日常陪伴和照顾
- **让步反驳**：然而现代通讯工具可以维系情感，现代交通也缩短了距离
- **扩展延伸 2**：更重要的是，提高的收入反过来能改善家庭生活

主体段 2

- **提出观点**：相比情感损失，外出打工带来的发展机会更为关键
- **扩展延伸**：经济发达地区提供更高薪资与上升通道
- **举例**：许多农村青年在城市打工后改善了家庭住房与孩子教育
- **合理性推断**：留在家乡反而可能限制个人潜力与经济贡献

In today’s globalized economy, it is increasingly common for individuals to leave their families and hometowns in pursuit of better employment opportunities. While this choice can bring emotional sacrifices, I believe that the long-term advantages for both individuals and their families often outweigh the drawbacks.

在当今全球化的经济环境中，人们为了追求更好的就业机会而离开家人和家乡的情况越来越普遍。虽然这一选择可能会带来情感上的牺牲，但我认为，从长远来看，它给个人和家庭带来的好处往往超过其弊端。

Many people worry that working far from home may lead to weakened family ties. Indeed, being away from parents, children, or a spouse can mean missing out on daily support and shared experiences. However, modern communication tools such as video calls and instant messaging allow families to stay emotionally connected despite the distance. Furthermore, improvements in transportation have made returning home during holidays or weekends far more convenient. More importantly, the income earned by working in more developed areas can significantly improve the living conditions of one's family, such as better housing, education, and healthcare.

许多人担心在离家很远的地方工作可能会导致家庭关系变淡。的确，远离父母、孩子或配偶可能意味着无法获得日常的支持，也会错过共同的生活经历。然而，视频通话和即时通讯等现代通讯工具让家

人即便相隔遥远，也能保持情感上的联系。此外，交通条件的改善也让人们在节假日或周末回家变得方便多了。更重要的是，在更发达的地区工作所赚取的收入能显著改善家人的生活条件，比如更好的住房、教育和医疗。

More importantly, the opportunities brought by working away from home often outweigh the emotional costs.Developed cities typically offer higher salaries, broader job markets, and clearer promotion paths, enabling individuals to build better careers and achieve financial independence.For instance, many young workers from rural areas move to cities like Shanghai or Shenzhen, where they not only earn more but also save enough to improve their family’s housing conditions and provide better education for their children.In contrast, if they remained in their hometowns, they might be stuck in low-paying and unstable jobs, limiting both their personal growth and the financial support they can offer their families.

更重要的是，离家工作带来的机会往往超过了情感上的代价。发达城市通常能提供更高的薪资、更广阔的就业市场和更清晰的晋升路径，使人们能够打造更出色的职业生涯并实现经济独立。例如，许多来自农村地区的年轻劳动者搬到上海、深圳等城市，他们在那里不仅能赚更多的钱，还能攒下足够的钱来改善家人的住房条件，为孩子提供更好的教育。相反，如果他们留在老家，可能会被困在低收入且不稳定的工作中，这既会限制个人发展，也会影响他们能为家人提供的经济支持。

In conclusion, although leaving one’s family for work brings emotional challenges, the financial rewards and personal growth it provides often make it a worthwhile and even necessary decision for many individuals.

总之，尽管为了工作离开家人会带来情感上的挑战，但它所带来的经济回报和个人成长往往使这一决定对许多人来说是值得的，甚至是必要的。

4、素食

Some people think everyone should be a vegetarian, because we do not need to eat meat to have a healthy diet. To what extent do you agree or disagree?（健康）

一些人认为每个人都应该成为素食者，因为我们不需要吃肉就能拥有健康的饮食。你在多大程度上同意或不同意这种观点?

🍊 ✅ 写作立场建议：不同意

我认为并非每个人都必须成为素食者。虽然植物性饮食确实可以提供健康营养，但肉类在营养均衡、文化需求以及个体健康目标方面依然发挥着重要作用。因此强制推广纯素食并不现实。

✅ 逻辑链分析：

主体段 1

- **提出观点**：素食虽有益，但不是唯一的健康饮食方式
- **扩展延伸**：适当摄入肉类同样有益于均衡营养和身体健康
- **举例**：例如在中国传统饮食结构中，肉与大量蔬菜的搭配，被广泛认可为健康均衡的模式
- **合理性推断**：不同人群的营养需求差异很大，强制素食可能会造成健康风险

主体段 2

- **提出观点**：强推素食忽视文化与现实多样性
- **扩展延伸**：在某些地区，肉类是饮食传统与经济的重要部分
- **举例**：像格陵兰等地因气候限制蔬果种植，肉类是主食
- **反面假设**：若强制素食，可能引发反感、适应困难，甚至健康问题

Some people believe that everyone should follow a vegetarian diet because meat is not essential for good health. However, I disagree with the idea that vegetarianism should be adopted universally.

一些人认为，每个人都应该遵循素食饮食，因为肉类并非健康的必需品。然而，我并不认同素食主义应被普遍采用这一观点。

While vegetarian diets undoubtedly offer certain health benefits, such diets are not the only means to achieve optimal nutrition. In fact, moderate consumption of meat, alongside vegetables and grains, can equally contribute to balanced nutrition. For instance, in traditional Chinese dietary culture, a balanced meal typically includes moderate portions of fish or poultry along with abundant vegetables, which is widely recognized as a healthy and balanced diet. Additionally, nutritional requirements vary greatly among individuals. For example, certain groups such as children, elderly people, or pregnant women may need specific nutrients that are more readily obtained from meat and animal products. Therefore, enforcing a purely vegetarian diet could potentially create nutritional deficiencies for these groups.

尽管素食饮食无疑具有某些健康益处，但它并非实现最佳营养的唯一途径。事实上，适量食用肉类，再搭配蔬菜和谷物，同样能带来均衡的营养。例如，在中国传统饮食文化中，一顿均衡的膳食通常包含适量的鱼或禽肉，再配上丰富的蔬菜，这被广泛认为是健康且均衡的饮食方式。此外，不同人的营养需求差异很大。比如，儿童、老年人或孕妇等特定人群可能需要某些更易从肉类和动物制品中获取的营养物质。因此，强制实行纯素食饮食可能会导致这些人群出现营养缺乏的问题。

Additionally, enforcing vegetarianism on a large scale ignores the cultural and geographical diversity of global populations. In many regions, especially those with harsh climates or limited agricultural options, meat is not only a staple but also an economic necessity. For instance, in countries like Greenland, harsh geographical and climatic conditions limit the availability of

fresh vegetables, making meat-based diets essential for local residents' survival and health. If a strictly vegetarian lifestyle were mandated in these areas, it could result in severe malnutrition or other serious health issues. On a broader scale, enforcing dietary restrictions could also lead to cultural resistance and societal tensions.

此外，大规模推行素食主义忽视了全球人口在文化和地理方面的多样性。在许多地区，尤其是气候恶劣或农业选择有限的地方，肉类不仅是主食，也是经济上的必需品。例如，在格陵兰等国家，恶劣的地理和气候条件限制了新鲜蔬菜的供应，使得以肉类为主的饮食对当地居民的生存和健康至关重要。如果在这些地区强制推行严格的素食生活方式，可能会导致严重的营养不良或其他严重的健康问题。从更广泛的层面来看，强制实施饮食限制还可能引发文化抵触和社会紧张。

In conclusion, although vegetarian diets offer health benefits, they are not universally necessary. People should have the freedom to choose diets based on their health needs, cultural practices, and environmental conditions, rather than being pushed into one-size-fits-all solutions.

总之，尽管素食饮食有益健康，但并非所有人都有必要遵循。人们应该有权根据自身的健康需求、文化习俗和环境条件选择饮食，而不是被强行要求接受一刀切的解决方案。

5、溺爱

Some parents give their children everything that their children ask for or allow them to do whatever they want to do. Is this good for children? What could be consequences for these children when they grow up?（教育）

有些父母会给孩子想要的一切，或者允许他们随心所欲地做任何事。这对孩子有好处吗？这些孩子长大后可能会产生什么后果？

🍊 ✅ 写作立场：负面观点（这种教育方式对孩子成长不利）

我认为，家长对孩子的过度溺爱或毫无限制的满足孩子的愿望，长期来看对孩子的成长有明显的不良影响，尤其是在心理和行为方面。

✅ 逻辑链分析：

主体段 1

- **提出观点**：家长无条件地满足孩子的愿望对成长不利
- **扩展延伸**：这种教育方式容易使孩子缺乏自控力与责任感
- **举例**：例如，被过度宠溺的孩子通常很难处理挫折和失败
- **合理性推断**：长期下来，这种教育可能导致孩子缺乏坚韧性，难以适应现实生活的挑战

主体段 2

- **提出观点**：长期纵容和过度放任的教育方式，会严重影响孩子成年后的生活
- **扩展延伸**：孩子成年后很难与他人和谐相处，可能表现为自我中心、不懂妥协
- **举例**：例如，在职场上，他们可能无法接受上司的批评或同事的建议
- **反面假设**：如果父母能够适度地对孩子的要求加以限制，并教导他们处理失望与挫折，孩子成年后往往会拥有更强的适应能力与健康的人际关系

Nowadays, some parents tend to give their children whatever they request or allow them unrestricted freedom. In my opinion, this parenting style is detrimental to children’s development, as it creates long-term problems for their personality and social interactions.

如今，有些父母往往会满足孩子的一切要求，或者给予他们无限制的自由。在我看来，这种育儿方式对孩子的发展有害，因为它会给孩子的性格和社交带来长期问题。

First, fulfilling every desire or allowing children absolute freedom can have negative effects on their personal growth. Such permissive parenting makes children less disciplined and less able to control themselves, because they become accustomed to immediate gratification. For example, children who are excessively indulged often have difficulties managing frustration or failure, as they rarely experience disappointment. In the long run, this upbringing fails to develop resilience and perseverance, crucial traits for handling life’s inevitable setbacks. Thus, overly permissive parenting harms children’s ability to cope with real-world challenges.

首先，满足孩子的每一个愿望或给予他们绝对的自由，会对他们的个人成长产生负面影响。这种放任的育儿方式会让孩子缺乏纪律性，自控能力也较差，因为他们习惯了即时满足。例如，过度被纵容的孩子往往难以应对挫折或失败，因为他们很少经历失望。从长远来看，这样的教养方式无法培养孩子的韧性和毅力，而这些都是应对生活中不可避免的挫折的关键品质。因此，过度放任的育儿方式会损害孩子应对现实世界挑战的能力。

Additionally, excessive indulgence can lead to serious long-term consequences when these children reach adulthood. Without boundaries, these individuals often struggle to build harmonious relationships and interact effectively with others. They may grow into self-centered adults who have little respect for others' needs or feelings. For instance, in the workplace, they might find it challenging to accept constructive criticism from supervisors or collaborate well with colleagues, ultimately affecting their career advancement. Conversely, if parents set appropriate limits and teach children how to manage frustration and accept compromises, these children will likely develop stronger adaptability and healthier interpersonal skills as adults.

此外，当这些孩子成年后，过度纵容会导致严重的长期后果。没有了约束，这些人往往难以建立和谐的人际关系，也无法与他人有效互动。他们可能会成长为以自我为中心的成年人，很少尊重他人的需

求或感受。例如，在工作场所，他们可能难以接受上司的建设性批评，或者无法与同事良好合作，最终影响自己的职业发展。相反，如果父母设定适当的界限，教孩子如何应对挫折和接受妥协，这些孩子成年后很可能会培养出更强的适应能力和更健康的人际交往能力。

In conclusion, parents who consistently indulge their children's every wish or grant unrestricted freedom ultimately harm their children's personal and social development. Establishing clear boundaries and encouraging self-control and resilience is crucial in helping children become mature, responsible, and socially capable adults.

总之，一味满足孩子的每一个愿望或给予他们无限制自由的父母，最终会损害孩子的个人发展和社交能力。设定明确的界限，鼓励孩子培养自控力和韧性，对于帮助他们成长为成熟、有责任感且具备社交能力的成年人至关重要。

6、手机电脑的过度使用

Some people think that the increasing use of computers and mobile phones for communication has a negative effect on young people's reading and writing skills. Do you agree or disagree?（科技）

一些人认为，越来越多地使用电脑和手机进行交流对年轻人的读写能力产生了负面影响。你同意这种观点吗?

🍊 ✅ 写作立场：部分同意（承认负面影响，但认为也有明显的正面作用）

我认为电脑和手机通信对年轻人的读写技能虽存在一定负面影响，但同时也带来了明显的好处，例如扩大阅读写作的范围，并通过人工智能辅助，提高写作反馈的精确性。

✅ 逻辑链分析：

主体段 1

- **提出观点**：过度依赖电子通讯对年轻人的语言能力有一定负面影响
- **扩展延伸**：网络通讯中使用的大量缩略语和表情符号容易导致语言习惯不规范
- **举例**：例如年轻人在正式写作中经常误用网络语言和不规范表达
- **合理性推断**：长期而言，这可能阻碍年轻人形成严谨、准确的语言表达能力

主体段 2

- **提出观点**：然而，数字通讯也能在某些方面积极提升年轻人的读写技能

- **扩展延伸1**：电脑和手机使年轻人的阅读写作范围更加广泛和多样化，接触更多不同类型的文本
- **扩展延伸2**：此外，科技的进步，使年轻人在写作时能够获得更及时、精准的反馈
- **举例**：例如，各种写作助手软件，可以快速指出文章的语法和逻辑问题

Some people argue that the widespread use of computers and mobile phones for communication negatively affects young people's reading and writing skills. While I agree that these technologies can pose certain drawbacks, I also believe they offer significant benefits in improving literacy through broader exposure and AI-based support.

一些人认为，广泛使用电脑和手机进行交流对年轻人的读写能力产生了负面影响。虽然我认同这些技术可能存在某些弊端，但我也认为，通过更广泛的接触和基于人工智能的支持，它们在提高读写能力方面带来了显著益处。

On the one hand, excessive reliance on digital communication can negatively influence young people’ s language proficiency. The common use of abbreviations, slang, and emojis in digital texts often encourages improper writing habits. For instance, young people frequently incorporate texting slang or internet jargon into their formal writing, resulting in grammatical inaccuracies and informal language usage. Over time, this reliance on informal digital communication styles could prevent young people from developing clear and precise writing skills, hindering their ability to effectively communicate in formal contexts.

一方面，过度依赖数字交流可能会对年轻人的语言水平产生负面影响。在数字文本中，缩写、俚语和表情符号的普遍使用往往助长了不规范的写作习惯。例如，年轻人常常将短信俚语或网络行话融入正式写作中，导致语法错误和语言使用不规范。长此以往，这种对非正式数字交流风格的依赖可能会阻碍年轻人培养清晰、准确的写作技能，影响他们在正式场合有效沟通的能力。

However, digital communication can also positively enhance young people's reading and writing skills in certain respects. Firstly, computers and mobile phones broaden the range and diversity of reading materials accessible to young people, enabling them to engage with various types of texts, including online articles, international blogs, and digital literature. Secondly, advances in technology, such as automated essay-checking tools, allow young people to receive immediate and precise feedback on their writing without relying solely on teachers' evaluations. For example, various AI-powered writing assistant software, including ChatGPT's writing assistant, can instantly identify grammatical errors and logical inconsistencies in students' work, effectively supporting them in improving their writing skills independently.

然而，数字交流在某些方面也能积极提升年轻人的读写能力。首先，电脑和手机拓宽了年轻人可接触的阅读材料的范围和多样性，使他们能够接触到各种类型的文本，包括在线文章、国际博客和数字文学。其次，技术的进步，如自动作文批改工具，让年轻人能够立即获得关于自己写作的准确反馈，而不必完全依赖教师的评价。例如，包括 ChatGPT 写作助手在内的各种人工智能驱动的写作辅助软件，能够即时识别学生作品中的语法错误和逻辑不一致之处，有效支持他们自主提高写作技能。

In conclusion, while the increasing use of digital devices in communication may indeed negatively affect young people’ s language skills, these technologies simultaneously provide more efficient methods and valuable opportunities in other aspects. Therefore, I partially agree with this view.

总之，尽管在交流中越来越多地使用数字设备确实可能对年轻人的语言能力产生负面影响，但这些技术同时在其他方面提供了更高效的方法和宝贵的机会。因此，我部分同意这一观点。

7、疾病预防

Some people say that governments should focus on reducing environmental pollution and housing problems to help people prevent illness and disease. To what extent do you agree or disagree?（政府）

一些人表示，政府应该着重减少环境污染和解决住房问题，以帮助人们预防疾病。你在多大程度上同意或不同意这种说法？

🍊 ✅ 写作立场：同意

我认为政府优先解决环境污染和住房问题，能有效预防疾病、改善公众健康，是更有针对性且具有长远意义的措施。

这道题如果大家想不同意或者部分同意，需要自己提出题干以外的，认为政府应该关注的要点。

✅ 逻辑链分析：

主体段1：改善环境污染与公众健康的关联

- **提出观点**：政府解决环境污染能有效改善公众健康状况
- **扩展延伸**：环境污染直接导致许多慢性疾病和呼吸道疾病增加
- **举例**：许多工业城市因空气污染导致居民肺病和癌症发病率上升
- **结果分析**：减少污染后，人们健康水平显著提高，医疗负担明显减轻

主体段2：改善住房问题对健康的益处

- **提出观点**：政府致力于解决住房问题同样能明显提高公众健康水平
- **扩展延伸**：不良的居住条件，如潮湿、拥挤和卫生条件差，会直接引发传染病和心理健康问题
- **举例**：印度很多低收入家庭居住的“笼屋”和极端拥挤环境导致疾病快速传播，健康问题严重

- **反面假设**：如果政府忽视住房问题，即使提供更多医疗资源，疾病预防的效果仍然有限

It is often argued that governments should prioritize tackling environmental pollution and housing issues as a primary way to improve public health. I strongly agree with this viewpoint, believing that addressing these two fundamental issues can greatly reduce illness and enhance overall well-being.

人们常说，政府应将解决环境污染和住房问题作为改善公众健康的首要任务。我坚决同意这一观点，认为解决这两个根本性问题能极大地减少疾病发生，提升整体福祉。

Firstly, reducing environmental pollution is one of the most direct and effective ways for governments to protect public health. Pollution, particularly air and water pollution, significantly contributes to chronic illnesses, respiratory diseases, and even cancer. For instance, in many industrial cities, severe air pollution has led to increased rates of lung disease and cancers among residents. When governments actively implement measures to reduce pollution—such as enforcing strict emission standards and promoting clean energy—public health improves remarkably, thereby lowering healthcare costs and alleviating pressure on medical systems.

首先，治理环境污染是政府保护公众健康最直接、最有效的方式之一。污染，尤其是空气和水污染，是导致慢性病、呼吸道疾病乃至癌症的重要因素。例如，在许多工业城市，严重的空气污染导致居民的肺部疾病和癌症发病率上升。当政府积极采取措施减少污染（如执行严格的排放标准、推广清洁能源）时，公众健康状况会显著改善，进而降低医疗成本，减轻医疗系统的压力。

Secondly, addressing housing problems can also substantially improve people's health conditions. Poor housing, characterized by overcrowding, dampness, and inadequate sanitation, is directly linked to higher incidence of infectious diseases and mental health disorders. For example, in some crowded cities like India, many low-income families live in extremely crowded conditions such as cage homes, which create ideal environments for rapid disease transmission and negatively affect mental well-being. Conversely, when housing conditions improve, people are less likely to fall ill and more likely to maintain good mental health. If governments neglect housing issues, even substantial investments in healthcare services will have limited impact, as people will continue to suffer due to unhealthy living environments.

其次，解决住房问题也能大幅改善人们的健康状况。住房条件恶劣 —— 表现为拥挤不堪、潮湿阴冷以及卫生设施不足 —— 直接导致传染病发病率升高和心理健康问题频发。例如，在印度，许多低收入家庭居住在 “笼屋” 等极度拥挤的环境中，这为疾病的快速传播提供了温床，同时也对心理健康产生负面影响。相反，住房条件改善后，人们生病的可能性会降低，心理健康也更易维持。如果政府忽视住房问题，那么即便在医疗服务上投入巨额资金，其效果也会十分有限，因为人们仍会因不健康的居住环境而深受其害。

In conclusion, governments can most effectively protect citizens from illness and disease by concentrating their efforts on reducing environmental pollution and improving housing

conditions. These targeted measures will bring tangible long-term benefits to public health, significantly reducing the burden on healthcare systems.

总之，政府将精力集中在治理环境污染和改善住房条件上，就能最有效地保护公民免受疾病侵害。这些有针对性的措施将为公众健康带来切实的长期益处，显著减轻医疗系统的负担。

8、国际合作

Most of the urgent problems can only be solved with international cooperation. To what extent do you agree or disagree?（国际）

大多数紧急问题只有通过国际合作才能解决。你在多大程度上同意或不同意这种说法？

🍊 ✅ 写作立场：部分同意

确实有不少全球性紧迫问题必须通过国际合作才能解决，但也存在一些问题各国可以根据本国情况独立应对，因此并非所有问题都需要合作。

✅ 逻辑链分析：

主体段 1

- **提出观点**：许多紧迫问题超越国界，仅靠一国难以解决
- **扩展延伸**：例如气候变化、传染病等，影响全球、需要统一协调应对
- **举例**：以新冠疫情为例，疫苗研发、物资援助都离不开国际合作
- **合理性推断**：如果各国孤立应对，只会延误时机、增加全球风险

主体段 2

- **提出观点**：但也有一些问题根植于特定国家内部，独立解决更有效
- **举例**：比如中国的城乡发展差距，依靠国家财政投入和政策支持逐步缩小
- **扩展延伸**：此类问题带有文化、制度背景，国际合作反而难以直接干预
- **让步**：当然，国际经验可以借鉴，但主导权仍应掌握在本国政府手中

While many argue that most urgent problems require international cooperation, I believe this is only partly true. Some global issues indeed demand coordinated efforts among nations, but others are best handled independently by each country.

尽管许多人认为，大多数紧迫问题都需要国际合作，但我认为这种说法只在一定程度上成立。有些全球性问题确实需要各国协同努力，但其他问题最好由每个国家独立处理。

Many of today’s urgent problems transcend national borders and cannot be effectively addressed without international collaboration. For instance, climate change is a global threat that affects ecosystems and communities worldwide. One country’s carbon emissions impact the entire planet, making joint action through agreements like the Paris Accord essential. Similarly, during the COVID-19 pandemic, vaccine research, distribution, and public health strategies were shared across borders. Without such cooperation, the global response would have been far less effective, exposing millions more to risk. These examples show that for certain issues, unified global action is the only viable solution.

当今许多紧迫问题跨越了国界，若没有国际合作，就无法得到有效解决。例如，气候变化是一项全球性威胁，影响着世界各地的生态系统和社区。一个国家的碳排放会对整个地球产生影响，因此通过《巴黎协定》等协议采取联合行动至关重要。同样，在新冠疫情期间，疫苗研究、分发以及公共卫生策略都在各国之间共享。若没有这样的合作，全球应对措施的效果会大打折扣，让数百万人面临更大的风险。这些例子表明，对于某些问题，统一的全球行动是唯一可行的解决方案。

However, not all urgent problems require international cooperation. Some challenges are rooted in specific national contexts and can be tackled more efficiently by domestic policies. For example, China’s efforts to narrow the rural-urban divide through targeted economic support and infrastructure investment are driven by its internal priorities. These are deeply tied to local governance structures and cultural factors that outsiders may not fully understand. While international knowledge can be informative, external involvement may not directly contribute to resolution. In such cases, independent national action is more appropriate and practical.

然而，并非所有紧迫问题都需要国际合作。有些挑战源于特定的国家背景，通过国内政策能更高效地解决。比如，中国通过有针对性的经济支持和基础设施投资来缩小城乡差距，这是由其国内优先事项推动的。这些问题与地方治理结构和文化因素密切相关，外人可能无法完全理解。尽管国际经验能提供参考，但外部参与未必能直接促进问题的解决。在这类情况下，国家独立行动更为合适和切实。

In conclusion, although international cooperation plays a vital role in solving many global problems, particularly those with cross-border impacts, there are also urgent issues that can and should be resolved at the national level. A flexible approach based on the nature of the problem is most effective.

总之，国际合作在解决许多全球性问题方面发挥着至关重要的作用。但同时，也有一些紧迫问题可以而且应该在国家层面解决。根据问题的性质采取灵活的应对方式，才是最有效的。

9、畅销品

Today, the high sales of popular consumer goods reflect the power of advertising and not the real needs of the society in which they are sold. To what extent do you agree or disagree?（媒体）

如今，畅销消费品的高销量反映的是广告的影响力，而非其销售所在社会的真实需求。你在多大程度上同意或不同意这一观点？

🍊 ✅ 写作立场：部分同意（认可广告作用显著，但也承认实际需求存在）

我基本同意广告是推动流行消费品高销量的主要原因，因为广告往往创造需求、放大消费欲望。但同时也应承认，消费者的真实需求也在一定程度上发挥了作用。

✅ 逻辑链分析：

主体段1

- **提出观点**：广告在刺激消费者购买流行消费品方面起着关键作用
- **扩展延伸**：广告通过不断重复、视觉吸引和情感共鸣，创造并强化对产品的需求
- **举例**：例如，可口可乐或苹果公司通过广泛而深入的品牌宣传成功建立强大的消费需求
- **合理性推断**：这种策略不仅提升销量，还让人们愿意为品牌溢价买单

主体段2

- **提出观点**：广告固然有力，但消费品销量的背后仍存在真实的需求
- **扩展延伸**：许多畅销产品的成功也与产品实际的功能性、品质及其满足消费者需求的能力有关
- **举例**：例如智能手机畅销不仅因广告，也因为满足了人们对通讯、娱乐和工作效率提升的真实需求
- **反面假设**：如果一种产品完全没有实用价值，仅凭广告很难持续保持高销量

Nowadays, many argue that the high sales of popular consumer products primarily reflect the power of advertising rather than genuine societal needs. While I largely agree that advertising significantly influences consumers' purchasing decisions, I also acknowledge the role played by actual consumer demands.

如今，许多人认为，热门消费品的高销量主要反映了广告的影响力，而非真正的社会需求。虽然我在很大程度上认同广告对消费者的购买决策有显著影响，但我也承认实际消费需求所发挥的作用。

On the one hand, advertising undeniably plays a crucial role in driving the sales of popular consumer products. Advertisements repeatedly expose consumers to brands and products through compelling visuals and emotional connections, often creating desires and needs that

consumers may not have initially had. Companies such as Coca-Cola and Apple, for instance, have successfully leveraged extensive and strategic advertising campaigns to create strong brand awareness and consumer loyalty, resulting in consistently high sales. Consequently, advertising not only boosts immediate sales but also persuades consumers to pay premium prices based on perceived brand value.

一方面，广告在推动热门消费品的销售方面，无疑扮演着关键角色。广告通过引人入胜的视觉效果和情感联结，让消费者反复接触品牌和产品，往往会激发出消费者原本没有的欲望和需求。例如，可口可乐和苹果等公司成功利用广泛且富有策略的广告宣传，打造了强大的品牌知名度和消费者忠诚度，从而实现了持续的高销量。因此，广告不仅能促进即时销售，还能说服消费者基于感知到的品牌价值支付溢价。

Furthermore, despite the power of advertising, the real needs of consumers cannot be entirely discounted. In fact, the success of many popular products is closely linked to their practical utility and genuine value to consumers. For example, the widespread popularity of smartphones is not solely due to advertising efforts but also reflects the devices’ ability to satisfy essential needs such as communication, entertainment, and increased productivity. Moreover, if a product lacks practical value or fails to meet genuine needs, it is unlikely to sustain high sales in the long run, regardless of the intensity or quality of its advertising.

另一方面，尽管广告的力量不容小觑，但消费者的真实需求也不能被完全忽视。事实上，许多热门产品的成功与其实用价值和对消费者的真正意义密切相关。比如，智能手机的广泛普及并非仅仅归功于广告宣传，更反映了这类设备满足了人们在通讯、娱乐和提高工作效率等方面的基本需求。此外，如果一款产品缺乏实用价值或无法满足真正的需求，那么无论其广告宣传的力度或质量如何，都不太可能长期维持高销量。

In conclusion, although advertising is indeed a powerful force influencing consumer purchasing behaviors, genuine societal needs also significantly contribute to the popularity of consumer products. Successful marketing strategies typically rely on both creating persuasive advertisements and providing products that genuinely meet consumer expectations and demands.

总之，广告确实是影响消费者购买行为的强大力量，但真正的社会需求对消费品的流行也有重要贡献。成功的营销策略通常既需要打造具有说服力的广告，也需要提供能真正满足消费者期望和需求的产品。

10、社会风气

Today there is a great increase in anti-social behavior and lack of respect to others. What are the causes of this? What measures can be taken to reduce this problem?（犯罪）

如今，反社会行为和对他人缺乏尊重的现象大幅增加。这一现象的原因是什么？可以采取哪些措施来减少这一问题？

🍊 ✅ 写作立场：正常分析原因和解决方案

我认为，反社会行为和缺乏尊重的现象主要来自家庭教育的缺失和社会环境的负面影响，解决这一问题需要家庭、学校以及社会的多方协作。

✅ 逻辑链分析：

主体段1：

- **提出观点**：反社会行为往往与家庭教育缺失密切相关
- **扩展延伸**：缺乏情感支持和品格培养的环境易导致情绪失控与冷漠
- **举例**：比如在缺乏关爱或父母暴躁的家庭中成长的孩子更容易出现攻击性行为
- **合理性推断**：没有行为示范的孩子难以自然形成尊重他人的价值观

主体段2：

- **提出观点**：要减少这些行为，学校和家庭应共同参与引导
- **扩展延伸**：学校可加强社交教育，家庭则应注重情绪陪伴与价值传递
- **举例**：例如，学校可组织同伴合作课程，家长可通过倾听孩子表达加深理解
- **结果分析**：这种双重干预能从根源改善年轻人的行为模式

In modern society, the rise in anti-social behavior and lack of respect for others has become an alarming trend. I believe this issue stems primarily from poor family environments and insufficient guidance from schools and communities.

在现代社会，反社会行为的增多以及对他人缺乏尊重已成为一个令人担忧的趋势。我认为，这一问题主要源于不良的家庭环境以及学校和社区的引导不足。

Children who lack consistent care, discipline, and emotional support at home are more vulnerable to developing aggressive or disrespectful behavior. Many parents, due to long working hours or lack of awareness, fail to monitor or guide their children properly. For example, studies have shown that adolescents who grow up in households with absent or indifferent parenting are more likely to engage in bullying or disruptive actions at school. Without stable role models, children may imitate negative behavior they see online or among peers. Over time, this can lead to a weakened sense of empathy, responsibility, and moral boundaries.

在家庭中缺乏持续关爱、管教和情感支持的孩子，更容易产生攻击性或不尊重他人的行为。许多父母由于工作时间长或意识不足，无法对孩子进行适当的监督和引导。例如，研究表明，在父母缺位或态度冷漠的家庭中长大的青少年，更有可能在学校实施欺凌或做出破坏性举动。没有稳定的榜样，孩子们可能会模仿在网上或同伴中看到的负面行为。长此以往，这会导致他们的同理心、责任感和道德界限感逐渐弱化。

To reverse this trend, both families and schools must take proactive roles in shaping children’ s values and behavior. Parents should prioritize quality time with their children, while schools need to incorporate structured programs in emotional education and social responsibility. For instance, many schools in China have introduced “civic ethics” classes that teach students how to resolve conflicts peacefully and respect others’ rights. These lessons not only prevent misconduct but also promote emotional awareness and cooperative spirit among youth. With steady reinforcement from both home and school, young people can develop the emotional intelligence and social skills needed to function respectfully in society.

要扭转这一趋势，家庭和学校都必须在塑造孩子的价值观和行为方面发挥积极作用。父母应优先保证与孩子相处的优质时间，而学校则需要纳入结构化的情感教育和社会责任课程。例如，中国的许多学校都开设了 “公民道德” 课程，教导学生如何和平解决冲突以及尊重他人的权利。这些课程不仅能预防不当行为，还能培养青少年的情感认知和合作精神。有了家庭和学校的持续强化，年轻人才能培养出在社会中以尊重态度行事所需的情商和社交技能。

In conclusion, addressing anti-social behavior requires early and consistent efforts from parents and educators. Only by building a foundation of empathy and respect can we foster a healthier and more harmonious community.

总之，解决反社会行为需要父母和教育者尽早且持续地付出努力。只有奠定同理心和尊重的基础，我们才能培育出一个更健康、更和谐的社区。

11、育儿课

Caring for children is probably the most important thing of the society. It is suggested that all mothers and fathers should be required to take childcare training courses. To what extent do you agree or disagree with the statement?（教育）

关爱儿童或许是社会最重要的事情。有人建议，所有父母都应该被要求参加育儿培训课程。你在多大程度上同意或不同意这一说法?

🍊 ✅ 写作立场：部分同意（建议而非强制）

我认为儿童照护确实是社会极为重要的问题，父母参加相关培训能有效提高育儿技能。然而，我不认为政府应强制所有父母参加，而是鼓励和提供资源更为合适。

✅ 逻辑链分析：

主体段1：父母参加育儿培训的必要性

- **提出观点**：父母接受育儿培训课程能有效提高照顾儿童的能力
- **扩展延伸**：很多新手父母缺乏基础育儿知识，可能导致孩子成长出现问题
- **举例**：例如，许多年轻父母不了解儿童饮食和心理发展规律，容易引发健康问题
- **合理性推断**：通过适当培训，父母能更科学地进行育儿，显著提高儿童成长的质量

主体段2：但强制所有父母参加培训并不可行

- **提出观点**：尽管育儿培训有益，但强制所有父母参与并不现实
- **扩展延伸**：每个家庭的实际情况差异很大，强制培训可能引发抵触或不满
- **举例**：例如，部分父母已有丰富经验或工作繁忙，强制参加课程可能对他们是一种负担
- **反面假设**：如果政府以鼓励或提供免费课程取代强制措施，会取得更好的效果

It is commonly argued that caring for children is one of society’ s most crucial responsibilities, leading to suggestions that all parents should be required to attend childcare training courses. While I strongly support the idea of parents attending such courses, I believe it is more effective and practical to encourage rather than enforce participation.

人们普遍认为，照顾孩子是社会最关键的责任之一，因此有人建议所有父母都必须参加育儿培训课程。虽然我坚决支持父母参加这类课程，但我认为，鼓励而非强制父母参与会更有效、更切实可行。

On the one hand, providing childcare training for parents can significantly improve their ability to raise children. Many first-time parents, in particular, lack essential childcare knowledge, which may cause problems in children's physical health and psychological development. For example, young parents often have limited understanding of child nutrition and emotional needs, leading to health issues or behavioral problems in their children. Through well-designed training courses, parents can learn valuable childcare techniques, gain confidence in their parenting abilities, and consequently ensure better overall growth and development for their children.

一方面，为父母提供育儿培训能显著提升他们的育儿能力。尤其是许多初次为人父母的人，缺乏基本的育儿知识，这可能会给孩子的身体健康和心理发展带来问题。例如，年轻父母往往对儿童营养和情感需求了解有限，进而导致孩子出现健康问题或行为偏差。通过精心设计的培训课程，父母可以学习宝贵的育儿技巧，增强育儿信心，从而确保孩子获得更好的全面成长与发展。

On the other hand, although childcare courses have obvious benefits, making them mandatory for all parents would be impractical. Family situations differ widely, and mandatory courses might generate resentment or be burdensome for some families. For instance, experienced

parents or those with demanding jobs might view compulsory courses as unnecessary or intrusive, creating resistance rather than cooperation. A more effective approach would be for the government to encourage attendance by offering flexible, accessible, and free training sessions. If such resources were made readily available and optional, parents would likely become more receptive, participating willingly and benefiting fully from the guidance provided.

另一方面，尽管育儿课程有着明显的益处，但强制所有父母参加并不现实。家庭情况千差万别，强制课程可能会引发部分家庭的不满，或给他们带来负担。比如，有经验的父母或工作繁忙的父母可能会认为强制课程毫无必要，甚至是一种侵扰，从而产生抵触情绪而非配合态度。如果采用更有效的方式，政府可以通过提供灵活、便捷且免费的培训课程来鼓励父母参与。若这些资源触手可及且参与自愿，父母可能会更愿意接受，主动参与并充分受益于所提供的指导。

In conclusion, while childcare training is beneficial and important, enforcing mandatory attendance for all parents is not the best approach. Instead, encouraging participation through supportive policies and accessible resources would lead to better outcomes, allowing parents to engage positively in enhancing their childcare skills.

总之，当育儿培训用于传授通用的育儿知识和技巧时，确实能对父母有所助益。然而，由于家庭背景和个人情况存在差异，强制所有父母参与并非最佳选择。通过鼓励性政策和便捷资源引导父母主动参与，才能更好地帮助他们提升育儿能力。

12、音乐

Music has always been and continues to be the universal language of mankind. To what extent do you agree or disagree?（文化）

音乐一直是并且将继续是人类的通用语言。你在多大程度上同意或不同意这一观点？

🍊 ✅ 写作立场：部分同意

我部分同意音乐被视为人类通用的语言。音乐确实能够跨越语言和文化障碍传递情感与情绪，但它的理解往往受制于不同的文化背景和个人经历，因此在传达具体信息或含义时并非总是有效。

✅ 逻辑链分析：

主体段1

- **提出观点**：音乐确实可以在情感表达层面被广泛理解，是一种普遍的沟通媒介。

- **扩展延伸**：不同国家的人们往往能通过音乐理解和感受相似的情绪，如快乐、悲伤或恐惧。
- **举例**：例如，电影配乐无论在何种文化背景下，都能准确地引导观众体验导演希望表达的情绪或氛围。
- **合理性推断**：因此，当传递的内容是情感或氛围这类基本情绪信息时，音乐可以被视为一种普遍的沟通工具。

主体段2

- **提出观点**：然而，将音乐称为一种完全通用的语言则是片面的。
- **扩展延伸**：不同文化群体对同一段音乐可能产生完全不同甚至对立的理解或感受。
- **举例**：例如，西方传统音乐中的悲伤旋律在某些东方文化听起来甚至带有喜庆或宁静的含义。
- **合理性推断**：因此，当音乐试图传达具体或精确的信息时，可能会产生误解。

Music is often hailed as a universal language that can bridge cultural and linguistic barriers. While I partially agree with this notion, I believe its effectiveness as a universal means of communication largely depends on the type of information being conveyed. Music effectively expresses universal emotions, yet its meaning can be significantly influenced by cultural backgrounds and personal experiences.

音乐常被赞誉为一种通用语言，能够跨越文化和语言的障碍。虽然我在一定程度上认同这一观点，但我认为，音乐作为一种通用交流方式的有效性，很大程度上取决于所传递信息的类型。音乐能有效地表达共通的情感，但其含义却会受到文化背景和个人经历的显著影响。

On one hand, music certainly serves as a universally accessible medium to express emotions and moods. Across cultures, listeners can typically identify common emotional expressions within music, such as happiness, sadness, excitement, or fear. For example, film scores universally guide audiences, regardless of their cultural or linguistic differences, into experiencing specific emotions intended by directors. Thus, when the content communicated is related to basic emotions or atmospheres, music indeed functions effectively as a common language understandable by all humans.

一方面，音乐无疑是一种人人都能理解的情感与情绪表达媒介。在不同文化中，听众通常都能识别出音乐中常见的情感表达，如喜悦、悲伤、兴奋或恐惧。例如，电影配乐能引导观众 —— 无论其文化或语言有何差异 —— 体验导演想要传递的特定情感。因此，当所传递的内容与基本情感或氛围相关时，音乐确实能充当一种全人类都能理解的通用语言。

In contrast, music’s effectiveness as a universal language is greatly limited when conveying more specific meanings, since its interpretation depends heavily on cultural and personal contexts. Individuals from diverse cultural backgrounds may interpret the same piece of music

quite differently, sometimes even oppositely. For instance, melodies typically considered sad or melancholic in Western cultures may not evoke the same sentiment in some Eastern cultures, where they might be perceived as peaceful or even celebratory. Consequently, when music attempts to communicate precise messages or nuanced concepts, misunderstandings frequently occur, clearly indicating that music is not always a reliable universal medium for detailed information exchange.

反之，当音乐要传递更具体的含义时，其作为通用语言的有效性就会大打折扣，因为对音乐的解读在很大程度上依赖于文化和个人语境。来自不同文化背景的人，对同一首音乐的解读可能大相径庭，有时甚至截然相反。比如，在西方文化中通常被认为悲伤或忧郁的旋律，在一些东方文化中可能不会引发同样的情感，反而可能被视为宁静甚至喜庆的。因此，当音乐试图传递精确的信息或微妙的概念时，往往会产生误解，这显然表明，音乐并非总是传递详细信息的可靠通用媒介。

In conclusion, music can indeed be regarded as a universal language when it expresses general emotions and atmospheres. However, due to its strong dependence on cultural and personal interpretation, it cannot serve as an entirely universal language for communicating detailed or specific information.

总之，当音乐表达普遍的情感和氛围时，它的确可以被视为一种通用语言。然而，由于其解读深受文化和个人因素的影响，它无法成为传递详细或特定信息的完全通用的语言。

13、动物保护

Some people think that too much attention and too many resources have been given to the protection of wild animals and birds. To what extent do you agree or disagree?（环境）

一些人认为，在野生动物和鸟类的保护上投入了过多的关注和资源。你在多大程度上同意或不同意这种看法?

🍊 ✅ 写作立场：不同意

我**不同意**“野生动物和鸟类得到了过多关注和资源”这一说法。保护它们不仅是生态责任，更是维系人类自身未来的关键组成部分。

如果同意观点，那么你的观点就是 “在野生动物和鸟类的保护上确实投入了过多的关注和资源” ，那么你需要提出你认为合理的关注点。

✅ 逻辑链分析：

主体段1

- **提出观点**：保护野生动物是维护生态平衡不可或缺的一部分
- **扩展延伸**：许多物种在生态系统中扮演重要角色，影响食物链与自然循环
- **举例**：例如捕食者如狼的减少曾在美国引发鹿群暴增，导致森林退化
- **合理性推断**：因此投入资源保护动物本质上是在人类自身赖以生存的生态系统上投资

主体段2

- **提出观点**：事实上，当前用于保护野生动物的资源并不算过多，反而常常捉襟见肘
- **扩展延伸**：许多保护组织长期依赖捐款，人员与资金不足，难以覆盖濒危物种的实际需求
- **举例**：例如，非洲黑犀牛的保护就长期面临资金短缺问题
- **结果分析**：如果忽视这些物种的生存，未来需要花费更大的代价来修复生态灾难

Some people argue that too much attention and too many resources are allocated to the protection of wild animals and birds. However, I completely disagree with this view. The conservation of wildlife is not an indulgence but a necessity for both environmental stability and human well-being.

有些人认为，用于保护野生动物和鸟类的关注度和资源过多。然而，我完全不同意这种观点。保护野生动物并非一种纵容，而是维护环境稳定和人类福祉的必要之举。

First of all, protecting wild animals is essential for maintaining ecological balance. Many species play vital roles in food chains, pollination, and nutrient cycling, and the loss of even one species can disrupt entire ecosystems. For instance, when wolf populations declined in certain areas of the United States, deer numbers soared, which led to overgrazing and deforestation. This example highlights how the absence of one key species can lead to cascading environmental consequences. Therefore, investing in wildlife conservation is essentially investing in the long-term health of the planet that sustains us.

首先，保护野生动物对维持生态平衡至关重要。许多物种在食物链、授粉和养分循环中扮演着关键角色，哪怕只是一个物种的消失，都可能破坏整个生态系统。例如，在美国的某些地区，当狼群数量减少时，鹿的数量急剧增加，进而导致过度放牧和森林砍伐。这个例子凸显了一种关键物种的缺失会引发一系列连锁性的环境后果。因此，投资于野生动物保护，本质上是在投资于支撑我们生存的地球的长期健康。

Secondly, the claim that too many resources are spent on wildlife protection is not supported by reality. In fact, many conservation efforts are underfunded and understaffed. Numerous wildlife organizations rely heavily on donations and face difficulties in protecting endangered species effectively. For instance, black rhino conservation in Africa has long struggled with limited funding. While poachers use sophisticated weapons and tactics, many reserves lack the

financial capacity to provide basic training and salaries for rangers. The long-term cost of losing such keystone species would far outweigh the current investment needed for their protection.

其次，那种认为在野生动物保护上投入了过多资源的说法并无现实依据。事实上，许多保护工作都面临资金不足和人手短缺的问题。众多野生动物保护组织严重依赖捐赠，在有效保护濒危物种方面困难重重。比如，非洲黑犀牛的保护工作长期受限于资金匮乏。偷猎者使用先进的武器和手段，而许多保护区却连为护林员提供基本培训和薪资的财力都没有。失去这类关键物种所带来的长期代价，将远远超过目前为保护它们所需投入的资源。

In conclusion, the protection of wild animals and birds deserves the attention and resources it receives—if anything, it often deserves more. Far from being excessive, such efforts are crucial to ensuring the survival of ecosystems and the sustainability of human life.

总之，野生动物和鸟类的保护值得获得现有的关注度和资源 —— 事实上，它们往往值得更多。这些保护工作绝非过度，而是确保生态系统存续和人类生活可持续发展的关键所在。

14、负责任的游客

In recent years, "responsible tourists" have paid attention to preserving both culture and environment of the places they visit. However, some people say that it is impossible to be a "responsible tourist". To what extent do you agree or disagree?（旅游）

近年来，“负责任的游客” 注重保护他们所到访之地的文化和环境。然而，一些人表示，成为 “负责任的游客” 是不可能的。你在多大程度上同意或不同意这种说法？

🍊 ✅ 写作立场：不同意

我认为负责任的旅游并非不可能，只是难以自发实现，需要通过外部制度与游客自身意识的提升来共同推动。

注意，这里题干观点是 “负责任的游客是不可能的” ，我反对这个观点，所以态度是不同意

✅ 逻辑链分析：

主体段1

- **提出观点**：负责任的旅游是完全可以实现的，只要游客具备正确意识
- **扩展延伸**：游客可以选择绿色出行、尊重文化习俗、减少资源浪费
- **举例**：例如在西藏，有游客遵守藏族禁忌、不拍摄寺庙内部、不留下垃圾
- **结果分析**：这种行为既保护了当地文化，也减少了环境破坏，真正实现了共赢

主体段2

- **提出观点**：一些人认为大规模旅游难免破坏文化与生态，但这种看法过于悲观
- **合理性推断**：事实上，只要有制度支持与监管机制，引导游客负责任行为是可行的
- **举例**：新西兰等国通过旅游税、限流政策和环保准则，有效减少了游客造成的影响
- **总结**：因此，关键不在于“是否可能”，而在于社会是否愿意投入资源去推动负责任旅游

In recent years, many tourists have become increasingly aware of the importance of protecting local culture and the environment. While some people argue that being a responsible tourist is nearly impossible, I believe this goal is achievable if both individuals and systems work together.

近年来，许多游客越来越意识到保护当地文化和环境的重要性。尽管有人认为，成为一名负责任的游客几乎是不可能的，但我相信，只要个人和制度共同努力，这一目标是可以实现的。

On the one hand, it is entirely possible for individuals to travel responsibly, provided they have the right mindset. Responsible tourists can make conscious choices such as minimizing waste, respecting local customs, and using eco-friendly transportation. These practices do not require significant effort but do reflect a genuine sense of social responsibility. For example, in places like Tibet, some travelers avoid taking photos in sacred temples, follow local etiquette, and leave no litter behind. These actions not only reduce the environmental burden on fragile areas but also demonstrate cultural respect, creating a more positive experience for both tourists and locals.

一方面，只要拥有正确的心态，个人完全可以做到负责任地旅行。负责任的游客会做出有意识的选择，比如减少浪费、尊重当地习俗、使用环保交通工具等。这些做法并不需要付出太多努力，却能体现出真正的社会责任感。例如，在西藏等地，一些游客会避免在神圣的寺庙内拍照，遵守当地礼仪，不留下任何垃圾。这些行为不仅减轻了脆弱地区的环境负担，也展现了对当地文化的尊重，为游客和当地人都带来了更积极的体验。

On the other hand, some people claim that tourism inevitably leads to pollution and cultural damage due to its sheer scale. However, this view is overly pessimistic and overlooks the role that policy can play in shaping tourist behavior. With proper regulations and public education, responsible tourism is not only possible but also scalable. Countries like New Zealand have introduced tourism taxes, implemented visitor caps in sensitive areas, and promoted sustainability guidelines—all of which have helped mitigate the negative impact of tourism. These examples show that the key lies not in whether responsible tourism is possible, but in whether society is willing to invest in systems that encourage and support it.

另一方面，有些人认为，由于旅游业的规模庞大，不可避免地会造成污染和文化破坏。然而，这种观点过于悲观，忽视了政策在引导游客行为方面的作用。通过适当的监管和公众教育，负责任旅游不仅是可能的，还能实现规模化推广。像新西兰等国家就引入了旅游税，在敏感地区实施游客数量限制，

并推广可持续发展指南 —— 这些措施都有助于减轻旅游业带来的负面影响。这些例子表明，关键不在于负责任旅游是否可行，而在于社会是否愿意投入资源建立鼓励和支持负责任旅游的制度。

In conclusion, responsible tourism can absolutely be achieved through a combination of individual awareness and effective regulation. It is not an impossible ideal, but a realistic target that requires ongoing effort.

总之，通过个人意识的提升与有效监管的结合，负责任旅游完全能够实现。它并非遥不可及的理想，而是一个需要持续努力去达成的现实目标。

15、商店销售垃圾食品

Some people think that shops should not be allowed to sell any food or drink that has scientifically been proved to have bad effects on people's health. To what extent do you agree or disagree?（健康）

一些人认为，商店不应该被允许销售任何经科学证明对人体健康有不良影响的食品或饮料。你在多大程度上同意或不同意这种观点？

🍊 ✅ 写作立场：部分同意

我认为，一些被科学证明对健康有显著危害的食品确实应受到限制，但全面禁止所有“有害成分”的销售并不现实，也可能带来新的问题。

✅ 逻辑链分析：

主体段1

- **提出观点**：对部分危害性极高的食品确实应该加以禁止。
- **扩展延伸**：有些加工食品含有大量反式脂肪或致癌添加剂，长期摄入对身体损害巨大。
- **举例**：例如部分国家已经禁止含有反式脂肪的产品进入市场，以减少心血管疾病的发生。
- **合理性推断**：这类做法通过明确划定“高危食品”的红线，有助于保障公众健康。

主体段2

- **提出观点**：但如果一概禁止所有“有害成分”的食物，既不现实，也可能适得其反。
- **扩展延伸**：几乎所有高糖、高盐食品在某种程度上都对健康有影响，但完全禁止会干扰正常饮食选择。
- **举例**：例如中国人日常饮用的奶茶、炸鸡等虽热量高，却能带来情绪满足与社交乐趣。

- **反面假设**：如果严格禁售这些食品，可能会诱发消费者反感，反而削弱公共健康政策的公信力。

Some people argue that food and drinks scientifically proven to be harmful to health should be banned from shops. While this view has its merits, I believe a more nuanced approach is necessary. Certain products should be restricted, but completely banning all potentially harmful items is neither practical nor beneficial.

有些人认为，经科学证实对健康有害的食品和饮料应该禁止在商店销售。虽然这种观点有其合理之处，但我认为有必要采取一种更细致的做法。某些产品应当受到限制，但将所有潜在有害的物品完全禁止既不现实，也无益处。

On the one hand, banning some extremely unhealthy products can be justified. Many processed foods are high in trans fats, artificial additives, or other substances that pose serious risks to health. Overconsumption of such items is strongly linked to heart disease, diabetes, and cancer. For instance, several countries have already outlawed products containing trans fats in order to lower the incidence of cardiovascular illnesses. This shows that carefully targeted policies based on medical consensus can have tangible long-term effects. Targeted bans like these can help protect public health without being overly intrusive.

一方面，禁止一些极不健康的产品是合情合理的。许多加工食品含有大量反式脂肪、人工添加剂或其他会对健康构成严重威胁的物质。过量食用这类食品与心脏病、糖尿病和癌症密切相关。例如，已有多个国家禁止销售含反式脂肪的产品，以降低心血管疾病的发病率。这表明，基于医学共识制定的针对性政策能产生切实的长期效果。像这样有针对性的禁令，既能保护公众健康，又不会过度干预生活。

Furthermore, completely removing all food and drinks that have *some* negative effects would be unreasonable. A wide range of popular items—like sugary drinks, fried snacks, or salty condiments—may not be ideal from a nutritional perspective, but they still play a role in culture, lifestyle, and even emotional well-being. Take milk tea or fried chicken in China, for example: although high in calories, they are deeply embedded in youth culture and provide enjoyment and social bonding. Completely eliminating these from shelves might lead to public dissatisfaction and feelings of unnecessary restriction. If such products were banned outright, it could lead to resentment and reduced trust in health authorities.

另一方面，将所有具有一定负面影响的食品和饮料彻底下架是不合理的。很多广受欢迎的食品 —— 如含糖饮料、油炸零食、咸味调味品等 —— 从营养角度看或许并不理想，但它们在文化、生活方式乃至情感健康方面都扮演着一定角色。以中国的奶茶和炸鸡为例：尽管它们热量很高，却深深融入了青年文化，能带来愉悦感，还能促进社交联结。将这些食品从货架上彻底清除可能会引发公众不满，让人觉得受到了不必要的限制。如果此类产品被彻底禁止，可能会招致怨恨，还会降低人们对卫生部门的信任。

In conclusion, while regulation of extremely harmful products is essential, a total ban on all questionable foods would be excessive. Education and moderation should accompany

restrictions to achieve real public health improvements.

总之，对极有害的产品进行监管固然必不可少，但对所有有问题的食品实施全面禁令则显得过分。在采取限制措施的同时，还应辅以教育引导和倡导适度消费，这样才能真正改善公众健康。
