2026.3月大作文重点

在看预测之前大家要有一个认知：雅思写作的题库特别广，在不断增加新题的同时还会进行老题重考，所以完全无法统计出题库的完整内容，因此雅思写作可以视为“没有题库”。所以预测是基于近期高频考题做的整理，可以作为类似于“观点库”的辅助内容，但不要寄很大希望于预测到原题

- 一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以“父母对儿童成长的影响”这一话题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、 “父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观" 、 “个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。

那我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

……

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、媒体

News media are important in modern society. Why are they so important? Are their influences generally positive or negative?

新闻媒体在现代社会很重要。它们为何如此重要？它们的影响总体上是积极的还是消极的？

🍊 写作立场：积极作用

我认为新闻媒体在现代社会至关重要。它不仅帮助人们了解世界，还促进社会透明与公平。虽然媒体偶尔会带来负面影响，但这些问题大多可控，因此总体而言，它对社会的影响是积极的。

逻辑链分析：

主体段1

- **观点**：新闻媒体之所以重要，是因为它在信息传播中扮演着核心角色。
- **扩展延伸**：媒体能够帮助人们了解国内外时事，促进社会透明度和公众参与。
- **举例**：例如，当出现自然灾害或公共卫生事件时，媒体能迅速传递信息，指导公众如何应对。
- **结果分析**：这不仅能提升社会的应变能力，也增强了民众对公共事务的信任感。

主体段2

- **观点**：虽然媒体有一定负面影响，但这些问题是可控的，并不能否定其总体价值。
- **举例**：一些商业化媒体追求流量，制造恐慌或传播未经证实的消息，损害社会稳定。
- **让步**：但这些问题源于运作方式，而非媒体本身；通过监管与教育完全可改善。
- **结果分析**：因此，只要保持专业与公正，媒体的积极作用依然远大于负面影响。

News media play an indispensable role in modern society, serving as the main bridge between people and the world around them. They not only keep citizens informed but also promote transparency, civic engagement, and accountability. Although some drawbacks exist, the overall influence of the media remains strongly positive.

新闻媒体在现代社会中扮演着不可或缺的角色，它架起了人们与外部世界沟通的重要桥梁。媒体不仅帮助民众获取信息，还能促进社会透明度、公民参与度和问责机制。尽管存在一些弊端，但媒体的整体影响始终是积极正向的。

To begin with, the media are crucial because they enable people to stay connected with the world and understand ongoing developments. By delivering timely and accurate reports, they help citizens form independent opinions and respond to social issues responsibly. For instance, during natural disasters or public health crises, news outlets provide essential information and government updates that guide people’ s decisions. This flow of information improves public awareness, enhances national resilience, and reinforces trust between citizens and authorities.

首先，媒体的重要性在于它能帮助人们了解世界动态，把握时事脉搏。通过及时准确的报道，媒体助力公民形成独立观点，并以负责任的态度应对社会问题。以自然灾害或公共卫生危机为例，新闻机构提供的关键信息和政府通报能有效指导民众行动。这种信息流动既提升了公众认知，也增强了社会应对能力，同时巩固了公民与政府之间的信任。

However, it is true that the media can sometimes produce harmful effects. Certain commercial outlets, driven by competition for clicks and profits, may exaggerate conflicts, spread unverified stories, or create emotional headlines that mislead the public and damage social harmony. Nevertheless, these issues usually stem from how media organizations operate rather than from the media itself. With stricter regulation, stronger professional ethics, and improved media literacy among audiences, such problems can be largely mitigated. Once these distortions are kept under control, the media’ s vital functions such as informing the public, monitoring those in power, and uniting communities clearly outweigh any potential harm.

然而不可否认，媒体有时也会产生负面影响。部分商业媒体为争夺点击率和利润，可能夸大矛盾、传播未经核实的消息，或制造煽动性标题误导公众、破坏社会和谐。但这些问题的根源往往在于媒体机构的运营机制，而非媒体本质。通过加强监管、提升职业道德、增强受众的媒介素养，这些问题大多能够得到控制。只要对这些失真信息加以约束，媒体在信息传播、权力监督和社会凝聚等方面的重要作用，显然远超其可能带来的潜在危害。

In conclusion, while modern media are not without flaws, their contributions to openness, knowledge, and democracy are undeniable. When guided by responsibility and integrity, their impact on society is overwhelmingly positive.

总之，尽管现代媒体存在缺陷，但它们对推动社会开放、知识传播和民主进程的贡献不容置疑。在责任与诚信的引导下，媒体对社会产生的积极影响始终占据主导地位。

2、负责任的游客

In recent years,“responsible tourists” have paid attention to preserving both culture and environment of the places they visit. However, some people say that it is impossible to be a responsible tourist”. To what extent do you agree or disagree?

近年来，"负责任的游客"开始注重保护他们所游览地方的文化和环境。然而，有些人说"做一个负责任的游客是不可能的"。你在多大程度上同意或不同意？

🍊 ✅ 写作立场：不同意

我认为负责任的旅游并非不可能，只是难以自发实现，需要通过外部制度与游客自身意识的提升来共同推动。

注意，这里题干观点是 “负责任的游客是不可能的” ，我反对这个观点，所以态度是不同意

✅ 逻辑链分析：

主体段1

- **提出观点**：负责任的旅游是完全可以实现的，只要游客具备正确意识
- **扩展延伸**：游客可以选择绿色出行、尊重文化习俗、减少资源浪费
- **举例**：例如在西藏，有游客遵守藏族禁忌、不拍摄寺庙内部、不留下垃圾
- **结果分析**：这种行为既保护了当地文化，也减少了环境破坏，真正实现了共赢

主体段2

- **提出观点**：一些人认为大规模旅游难免破坏文化与生态，但这种看法过于悲观
- **合理性推断**：事实上，只要有制度支持与监管机制，引导游客负责任行为是可行的
- **举例**：新西兰等国通过旅游税、限流政策和环保准则，有效减少了游客造成的影响
- **总结**：因此，关键不在于“是否可能”，而在于社会是否愿意投入资源去推动负责任旅游

In recent years, many tourists have become increasingly aware of the importance of protecting local culture and the environment. While some people argue that being a responsible tourist is nearly impossible, I believe this goal is achievable if both individuals and systems work together.

近年来，许多游客越来越意识到保护当地文化和环境的重要性。尽管有人认为，成为一名负责任的游客几乎是不可能的，但我相信，只要个人和制度共同努力，这一目标是可以实现的。

On the one hand, it is entirely possible for individuals to travel responsibly, provided they have the right mindset. Responsible tourists can make conscious choices such as minimizing waste,

respecting local customs, and using eco-friendly transportation. These practices do not require significant effort but do reflect a genuine sense of social responsibility. For example, in places like Tibet, some travelers avoid taking photos in sacred temples, follow local etiquette, and leave no litter behind. These actions not only reduce the environmental burden on fragile areas but also demonstrate cultural respect, creating a more positive experience for both tourists and locals.

一方面，只要拥有正确的心态，个人完全可以做到负责任地旅行。负责任的游客会做出有意识的选择，比如减少浪费、尊重当地习俗、使用环保交通工具等。这些做法并不需要付出太多努力，却能体现出真正的社会责任感。例如，在西藏等地，一些游客会避免在神圣的寺庙内拍照，遵守当地礼仪，不留下任何垃圾。这些行为不仅减轻了脆弱地区的环境负担，也展现了对当地文化的尊重，为游客和当地人都带来了更积极的体验。

On the other hand, some people claim that tourism inevitably leads to pollution and cultural damage due to its sheer scale. However, this view is overly pessimistic and overlooks the role that policy can play in shaping tourist behavior. With proper regulations and public education, responsible tourism is not only possible but also scalable. Countries like New Zealand have introduced tourism taxes, implemented visitor caps in sensitive areas, and promoted sustainability guidelines—all of which have helped mitigate the negative impact of tourism. These examples show that the key lies not in whether responsible tourism is possible, but in whether society is willing to invest in systems that encourage and support it.

另一方面，有些人认为，由于旅游业的规模庞大，不可避免地会造成污染和文化破坏。然而，这种观点过于悲观，忽视了政策在引导游客行为方面的作用。通过适当的监管和公众教育，负责任旅游不仅是可能的，还能实现规模化推广。像新西兰等国家就引入了旅游税，在敏感地区实施游客数量限制，并推广可持续发展指南 —— 这些措施都有助于减轻旅游业带来的负面影响。这些例子表明，关键不在于负责任旅游是否可行，而在于社会是否愿意投入资源建立鼓励和支持负责任旅游的制度。

In conclusion, responsible tourism can absolutely be achieved through a combination of individual awareness and effective regulation. It is not an impossible ideal, but a realistic target that requires ongoing effort.

总之，通过个人意识的提升与有效监管的结合，负责任旅游完全能够实现。它并非遥不可及的理想，而是一个需要持续努力去达成的现实目标。

3、污染费

Some people think that companies and individuals should pay to clear up the pollution they produced and that the government should not pay for it. To what extent do you agree or disagree?

一些人认为公司和个人应该为清理他们造成的污染付费，而政府不应该为此买单。你在多大程度上同意或不同意？

🍊 写作立场：完全同意

我完全同意应由企业和个人承担环境清理费用。毕竟，他们是污染的直接制造者，让他们为自己的行为买单不仅公平，而且能从源头减少污染。政府应当负责制定规则与监管，而不是替污染者埋单。

逻辑链分析：

主体段1

- **观点**：让污染者承担环境清理成本是最公平、最具责任意识的做法。
- **扩展延伸**：若污染的代价由纳税人承担，就意味着守法者为违法者买单，这不仅不公正，还会削弱公众环保积极性。
- **举例**：例如，一些制造业企业长期排放废水，却依靠政府财政清理河流污染，这等于鼓励了不负责任的生产方式。
- **结果分析**：只有让污染者为环境损害付出经济代价，才能让他们在生产决策中真正考虑生态成本。

主体段2

- **观点**：更重要的是，这种做法能有效激励企业与个人减少污染，从源头解决问题。
- **举例**：征收碳排放税迫使高污染企业投资清洁能源；塑料垃圾收费政策促使个人减少一次性制品的使用。
- **合理性推断**：当污染者需要承担清理费用时，他们会主动寻求更环保的生产与消费方式，以降低经济负担。
- **结果分析**：这不仅能改善环境质量，还能促进绿色创新与可持续经济增长，从长远看比政府单独治理更高效、更具激励性。

I completely agree that companies and individuals should bear the cost of cleaning up pollution in proportion to the amount they produce. Since they are the direct creators of environmental damage, it is both fair and practical to make them financially responsible for its consequences.

我完全赞同企业和个人应当根据其制造污染的数量按比例承担治理费用。作为环境破坏的直接制造者，让他们为污染后果承担经济责任既符合公平原则，也具有现实可行性。

First of all, requiring polluters to pay for cleanup is a matter of justice and accountability. If governments or taxpayers shoulder these costs, it means that law-abiding citizens are paying for the irresponsibility of others. This not only undermines fairness but also weakens the public’ s motivation to protect the environment. For instance, many factories discharge toxic waste into rivers while relying on public funds for restoration projects. Such practices encourage careless production and allow companies to externalize their environmental costs. Only when polluters are forced to pay for their actions will they truly consider the ecological impact of their business decisions.

首先，要求污染者支付治理费用关乎社会正义与责任担当。若由政府或纳税人承担这些成本，意味着守法公民在为不负责任的行为买单。这不仅有损公平，更会削弱公众环保积极性。以许多工厂向河流排放有毒废水却依赖公共资金进行治理为例，这种做法纵容了粗放式生产，使企业得以将环境成本转嫁给社会。唯有让污染者为自身行为付出代价，他们才会真正考量经营决策对生态的影响。

Moreover, this approach provides a strong incentive to reduce pollution at its source. For example, carbon taxes push high-emission industries to invest in cleaner energy, while plastic bag fees have successfully reduced waste by changing consumer behavior. When people and businesses know they must cover cleanup expenses, they naturally adopt more sustainable practices to minimize costs. This system not only improves environmental quality but also promotes green innovation and sustainable economic growth.

此外，这一原则能为源头治污提供强劲动力。碳税政策推动高排放行业投资清洁能源，塑料袋收费机制通过改变消费习惯有效减少白色污染——当企业和民众明确知晓必须承担治理费用时，自然会采取更可持续的做法以控制成本。这种制度不仅提升环境质量，更将催生绿色创新，推动经济可持续发展。

In conclusion, shifting the financial burden of pollution to those who cause it is both fair and effective. Governments should focus on setting strict regulations and enforcing transparency, while companies and individuals take full responsibility for their environmental footprint. Only through this approach can real progress be achieved toward a cleaner and more responsible world.

总之，将污染的经济负担转移给责任主体既公平又高效。政府应着力制定严格法规并强化监管透明度，而企业与个人则需对自身环境足迹全面负责。唯有通过这种方式，我们才能在建设更清洁、更负责任世界的道路上取得实质进展。

4、食品广告

Research shows that overeating is as harmful as smoking.Therefore, advertising for certain food products should be banned, in the same way as cigarette advertising is banned in many countries. To what extent do you agree or disagree?

研究显示，过度饮食与吸烟一样有害。因此，就像许多国家禁止香烟广告一样，某些食品的广告也应该被禁止。你在多大程度上同意或不同意？

🍊 写作立场：部分同意

我**部分同意但总体不同意**全面禁止某些食品广告。虽然过度饮食确实可能危害健康，但将食品广告与烟草广告完全等同并采取全面禁令，是一种过度简化的问题解决方式。

逻辑链分析：

主体段 1

- **观点**：过度饮食确实会对健康造成严重危害，因此限制相关广告看似合理。
- **扩展延伸**：高糖、高脂食品广告可能影响儿童和青少年的饮食选择。
- **让步**：然而，食物与烟草存在本质区别——食物是生活必需品，而吸烟本身具有直接危害性。
- **结果分析**：因此，将食品广告完全比照烟草广告进行禁止，忽视了“适度消费”的可能性，政策可能过于极端。

主体段 2

- **观点**：真正导致过度饮食的问题更在于生活方式与健康意识，而非广告本身。
- **扩展延伸**：缺乏营养教育、久坐生活方式以及压力性饮食同样是重要原因。
- **举例**：例如，一些国家即使限制广告，肥胖率仍然上升，因为饮食习惯未改变。
- **结果分析**：相比全面禁令，更有效的方式是监管广告内容并加强健康教育。

Research has suggested that overeating can be as harmful as smoking, leading some people to argue that advertising for certain food products should be banned in the same way as cigarette advertising. While concerns about public health are understandable, I do not fully agree that a complete ban on food advertising is an appropriate solution.

研究表明，过度饮食与吸烟一样有害，因此一些人主张应该像禁止香烟广告一样，禁止某些食品的广告。虽然对公共健康的担忧可以理解，但我并不完全同意全面禁止食品广告是恰当的解决方案。

It is true that excessive consumption of unhealthy food can contribute to serious health problems such as obesity and heart disease. Advertisements promoting high-sugar or high-fat products may influence consumers, particularly children, by encouraging frequent consumption. Nevertheless, comparing food directly with tobacco overlooks an important difference. Food is a basic necessity for survival, whereas smoking is inherently harmful even in small quantities. As a result, banning food advertising entirely would ignore the possibility of responsible consumption and may represent an overly extreme response to a complex issue.

确实，过量食用不健康食品可能导致肥胖和心脏病等严重健康问题。推销高糖或高脂肪产品的广告可能会影响消费者，尤其是儿童，鼓励他们频繁消费。然而，直接将食品与烟草相比较，忽略了一个重要的区别。食物是维持生存的基本必需品，而吸烟即使少量也具有内在危害。因此，完全禁止食品广告将忽视负责任消费的可能性，并且可能是对复杂问题的一种过度极端的反应。

More importantly, overeating is influenced by a wide range of factors beyond advertising alone. Modern lifestyles often involve limited physical activity, high levels of stress and insufficient nutritional education, all of which contribute to unhealthy eating habits. For example, some countries have introduced restrictions on food advertising but have seen little improvement in obesity rates because underlying lifestyle patterns remained unchanged. This suggests that education, clearer food labelling and responsible marketing regulations would be more effective than outright prohibition.

更重要的是，过度饮食受到广告以外众多因素的影响。现代生活方式往往伴随着体力活动有限、压力水平高以及营养教育不足，这些都会导致不健康的饮食习惯。例如，一些国家实施了食品广告限制，但由于潜在的生活方式模式未改变，肥胖率并未见明显改善。这表明，比起彻底禁止，教育、更清晰的食品标签以及负责任的营销法规将是更有效的方法。

In conclusion, although unhealthy eating poses genuine risks to public health, treating food advertising in the same way as cigarette promotion is neither practical nor justified. A balanced approach that combines regulation with public education would address the root causes of overeating more effectively than a total ban.

总之，尽管不健康饮食对公共健康构成真实风险，但将食品广告与烟草广告等同对待既不实际，也缺乏正当理由。一种结合了监管与公共教育的平衡方法，比全面禁令更能有效解决过度饮食的根本原因。

5、药物研发

Research into new types of medicines and treatments are essential for improving health and dealing with diseases. Who do you think should fund these researches: private companies, individuals or governments?

研发新型药物和疗法对于改善健康和应对疾病至关重要。你认为应该由谁资助这些研究：私人公司、个人还是政府？

🍊 写作立场：政府主投

我认为，政府应当成为新药与医疗治疗研究的主要资助者，因为医学研究本质上属于公共利益领域，需要长期稳定投入。不过，私人公司可以作为补充力量，提高研究效率与创新速度。

主体段逻辑链分析

主体段 1

- **提出观点**：政府最适合承担医学研究的主要资助责任。
- **扩展延伸**：医疗研究通常周期长、风险高且回报不确定，需要持续资金支持。
- **合理性推断**：只有政府能够优先考虑社会健康需求，而非短期商业利润。
- **结果分析**：因此，政府主导可以确保研究方向更加公平，并覆盖罕见病和公共卫生领域。

主体段 2

- **提出观点**：私人公司与个人投资虽重要，但不适合作为主要资金来源。
- **举例**：制药企业往往集中投资市场规模大的疾病治疗，而忽视低利润领域。
- **扩展延伸**：这种盈利导向可能导致研究资源分配不均。
- **结果分析**：因此，私人资金更适合在政府框架下促进技术创新，而非决定研究方向。

Research into new medicines and medical treatments is essential for improving public health and effectively addressing both existing and emerging diseases. While funding may come from different sources, I believe that governments should take primary responsibility for financing such research, with private companies and individuals providing additional support.

针对新药物和治疗方法的研究对于改善公共卫生、有效应对现有和新出现的疾病至关重要。虽然资金可能来自不同渠道，但我认为政府应承担资助此类研究的主要责任，而私人公司和个人则提供补充支持。

Governments are best suited to act as the main sponsors of medical research. Developing new treatments usually involves long research periods, high financial risks and uncertain outcomes, which require stable and continuous investment. Unlike private investors, governments are able to prioritize public welfare rather than short-term financial returns. This allows them to support research areas that may not be commercially attractive but are socially necessary, such as rare disease treatments or preventive healthcare programs. As a result, government-led funding helps ensure that medical innovation benefits society as a whole rather than only profitable markets.

政府最适合成为医学研究的主要赞助方。开发新疗法通常涉及漫长的研究周期、高昂的财务风险以及不确定的结果，这需要稳定且持续的投资。与私人投资者不同，政府能够优先考虑公共福利，而非短期财务回报。这使得政府能够支持那些可能在商业上缺乏吸引力但具有社会必要性的研究领域，例如罕见病治疗或预防性医疗项目。因此，政府主导的资金支持有助于确保医学创新惠及整个社会，而不仅仅是有利可图的市场。

Private companies and individual investors can still contribute significantly, but they are less suitable as the primary funding source. Pharmaceutical firms, for example, often concentrate their investment on diseases with large consumer markets, while conditions affecting smaller populations receive less attention. This profit-driven approach may create imbalances in research priorities and limit progress in essential yet less profitable fields. Therefore, private funding works most effectively when operating within a framework guided by public institutions, where innovation is encouraged without compromising fairness or accessibility.

私人公司和个人投资者仍然可以做出重要贡献，但他们不太适合作为主要的资金来源。例如，制药公司通常将投资集中于拥有巨大消费市场的疾病，而影响较小人群的疾病则受到较少关注。这种利润驱动的方式可能会造成研究重点的不平衡，并限制在必要但利润较低的领域取得进展。因此，私人资助在公共机构引导的框架内运作时才能最有效地发挥作用，既能鼓励创新，又不损害公平性和可及性。

In conclusion, although multiple funding sources are valuable, governments should remain the principal supporters of medical research. By combining public responsibility with private-sector innovation, societies can promote both scientific advancement and equitable healthcare outcomes.

总之，尽管多种资金来源都具有价值，但政府应继续作为医学研究的主要支持者。通过将公共责任与私营部门的创新相结合，社会可以促进科学进步并实现公平的医疗成果。

6、饮食健康

The government has the duty to ensure that its citizens have a healthy diet, while others believe this is individuals' responsibility. Discuss both views and give your opinion.

政府有责任确保其公民拥有健康的饮食，而另一些人则认为这是个人的责任。讨论双方观点并给出你的意见。

🍊 写作立场：双方结合

我认为政府和个人在促进健康饮食方面都负有责任，但政府的作用更为关键。因为政府能通过政策、教育和监管影响食品环境，而个人的自律在缺乏外部支持时往往难以长期维持。

逻辑链分析：

主体段1

观点：政府在确保全民健康饮食方面确实发挥着关键作用。

扩展延伸：因为政府有权制定政策、限制不健康食品广告、并规范食品安全标准。

举例：例如，许多国家通过征收“糖税”来减少含糖饮料消费，或强制要求食品包装标注营养信息。

结果分析：这些政策可以有效减少肥胖率和慢性病，为公共卫生体系减轻负担。

主体段2

观点：然而，从根本上说，健康饮食的责任仍然在于个人。

扩展延伸：即便政府提供了健康指导，人们依然可以选择吃快餐、忽视营养标签。

合理性推断：饮食是一种日常行为，无法通过法律或政策完全监管，只有当个人具备健康意识并主动控制饮食，措施才会真正奏效。

结果分析：因此，公众健康的提升最终取决于个人自律，而非政府干预的力度

The debate surrounding who should take responsibility for public health has drawn increasing attention. While some people argue that the government should play a leading role in promoting a healthy diet, others believe that individuals themselves should take charge. From my perspective, both sides have valid points, but I tend to believe that personal responsibility is the more decisive factor.

关于谁应该为公共健康负责的争论日益受到关注。尽管有些人认为政府应在推广健康饮食方面发挥主导作用，但也有人认为个人应该自己负责。在我看来，双方的观点都有道理，但我倾向于认为个人责任是更为关键的因素。

On one hand, the government undoubtedly plays a vital role in ensuring that citizens maintain a healthy diet. It can implement national policies, regulate food industries, and restrict misleading advertising for unhealthy products. For instance, many countries have introduced a “sugar tax” to discourage the overconsumption of soft drinks, or required food producers to display detailed nutrition labels on packaging. Such regulations not only guide consumers toward healthier options but also help reduce obesity and diet-related diseases. In the long run, this lessens the financial pressure on public healthcare systems.

一方面，政府在确保公民保持健康饮食方面无疑扮演着重要角色。政府可以实施国家政策，监管食品行业，并限制不健康产品的误导性广告。例如，许多国家推出了“糖税”以抑制软饮料的过度消费，或要求食品生产商在包装上标注详细的营养标签。这些规定不仅引导消费者选择更健康的食品，还有助于减少肥胖和与饮食相关的疾病。从长远来看，这减轻了公共医疗系统的财政压力。

On the other hand, personal responsibility remains the cornerstone of maintaining a healthy diet. Even with strict regulations, people still have the freedom to choose what they eat. For example, some individuals continue to rely on fast food despite knowing its negative effects. Since diet is a daily habit that cannot be fully controlled by laws or policies, only when individuals cultivate health awareness and exercise self-discipline can positive results be

achieved. Therefore, long-term public health improvement depends more on individuals' commitment than on governmental intervention.

另一方面，个人责任仍然是保持健康饮食的基石。即使有严格的规定，人们仍然有选择吃什么食物的自由。例如，尽管知道快餐的负面影响，一些人仍然依赖快餐。由于饮食是一种日常习惯，无法完全通过法律或政策来控制，只有当个人培养健康意识并自律时，才能取得积极的效果。因此，公共健康的长期改善更多地依赖于个人的努力，而不是政府的干预。

In conclusion, both the government and individuals play essential roles in encouraging healthy eating, but it is ultimately up to individuals to make responsible dietary choices.

总之，政府和个人在鼓励健康饮食方面都发挥着重要作用，但最终做出负责任的饮食选择还是要靠个人。

7、离乡

In many countries, people need to leave their families and friends to find jobs in other places. Do you think the advantages outweigh the disadvantages?（工作）

在许多国家，人们需要离开家人和朋友去其他地方找工作。你认为这种趋势利大于弊吗？

🍊 ✅ 写作立场：利大于弊

我认为，在很多国家，人们为了工作或学习而离开家人和朋友**总体上是利大于弊的**。虽然这种变化会带来情感压力和短期适应问题，但它在个人能力成长和长期发展方面的价值更为深远。

逻辑链分析：

主体段1

- **观点**：反对者通常认为，离开家人和朋友会削弱情感支持，带来孤独感。
- **扩展延伸**：尤其是在陌生环境中，缺乏熟悉的人际网络，初期适应压力较大。
- **合理性推断**：但这种情感成本往往是阶段性的，而非长期不可逆的损失。
- **结果分析**：随着社交能力提升和新关系建立，这一弊端会逐渐减弱，其影响被高估了。

主体段2

- **观点**：更重要的是，离开熟悉环境有助于个人能力和独立性的快速成长。
- **扩展延伸**：在新城市或新国家，人们必须独立解决学习、工作和生活问题。
- **举例**：例如，许多学生在外地学习后，更擅长时间管理、跨文化沟通和职业规划。
- **结果分析**：这些能力不仅提升个人竞争力，也为长期职业发展和社会流动创造条件。

In many countries, people are increasingly required to leave their family and friends in order to work or study elsewhere. While this trend can be emotionally challenging, I believe that its advantages outweigh the disadvantages in the long run.

在许多国家，人们为了工作或学习而离开家人和朋友的情况日益普遍。尽管这种趋势可能带来情感上的挑战，但我认为从长远来看，其利大于弊。

A common concern is that moving away from loved ones weakens emotional support and may lead to loneliness. For those entering a new city or country, the lack of familiar relationships can make the adjustment period stressful. However, this disadvantage is often temporary rather than permanent. As people adapt to their new environment, they gradually build new social networks and develop stronger communication skills. Over time, the sense of isolation usually fades, which suggests that the emotional cost of relocation is often overstated.

一个普遍的担忧是，远离亲人会削弱情感支持，并可能导致孤独感。对于那些进入新城市或国家的人来说，缺乏熟悉的人际关系会使适应期变得充满压力。然而，这种不利因素往往是暂时的，而非永久性的。随着人们逐渐适应新环境，他们会建立起新的社交网络，并发展出更强的沟通技巧。随着时间的推移，孤独感通常会逐渐消退，这表明搬迁的情感代价往往被高估了。

More importantly, leaving one’ s comfort zone plays a crucial role in personal growth. Living and studying elsewhere forces individuals to become more independent and self-reliant. They must manage daily life, solve unexpected problems and make important decisions on their own. For example, many students who study away from home report improvements in time management, adaptability and cross-cultural communication. These skills are difficult to develop when people remain in familiar surroundings. In the long term, such experiences enhance employability and open up broader career opportunities.

更重要的是，离开舒适区对个人成长起着至关重要的作用。在异地生活和学习迫使个体变得更加独立和自立。他们必须独自管理日常生活、解决意外问题并做出重要决策。例如，许多离家求学的学生表示，他们在时间管理、适应能力和跨文化沟通方面有所提升。这些技能在人们停留在熟悉环境中时很难得到发展。从长远来看，这样的经历会增强就业能力，并打开更广阔的职业机会。

In conclusion, although relocating for work or study may cause short-term emotional discomfort, its long-term benefits are more significant. By promoting independence, resilience and personal development, this trend provides valuable opportunities that outweigh the disadvantages. For these reasons, I believe that leaving family and friends to pursue education or employment elsewhere is ultimately a positive development.

总之，尽管因工作或学习而搬迁可能会带来短期的情感不适，但其长期益处更为显著。通过促进独立性、韧性和个人发展，这种趋势提供了宝贵的机会，其价值远超过不利因素。基于这些原因，我认为离开家人和朋友去异地追求教育或就业最终是一种积极的发展。

8、国际合作

Some people think the main benefit of international cooperation is in the protection of the environment, while others think that the main benefits are in the world of business. Discuss both views and give your own opinion.

一些人认为国际合作的主要益处在于环境保护，而另一些人则认为主要益处在于商业领域。讨论双方观点并给出你自己的看法。

🍊 写作立场：两者都有很大的好处

我会选择**两者都有很大的好处，都不能忽视**的立场。尽管国际合作在商业领域和环保方面各有其显著优势，但这两者互为补充，均在全球化时代具有重要作用。

逻辑链分析：

主体段1

观点：一些人认为国际合作的最大好处体现在商业领域。

扩展延伸：国际合作促进了全球经济的增长，推动了各国之间的贸易和投资，帮助企业在更大范围内扩展市场。

举例：通过国际贸易协议、经济合作组织和跨国企业合作，全球市场不断扩大，企业能够在全球范围内获取资源和市场份额。

结果分析：这种经济合作提升了国家的经济发展水平，促进了全球经济一体化，并为企业创造了更多商业机会，推动了就业和经济繁荣。

主体段2

观点：然而，国际合作的最大好处也体现在环境保护领域。

合理性推断：全球面临的环境问题，如气候变化和污染，是跨国界的挑战，必须通过国际合作来解决。

扩展延伸：国家在环保领域的合作能够共享绿色技术、制定全球统一的环保标准，减少全球环境危机。

举例：巴黎气候协议是全球范围内环保合作的典范，多个国家共同承诺减少温室气体排放，以应对气候变化。

结果分析：全球合作促进了环保技术的普及和各国环境保护措施的实施，有助于减缓气候变化，改善全球环境质量。

In recent years, international cooperation has become a cornerstone of global progress. Some argue that the primary benefit of such cooperation lies in the business sector, while others emphasize its importance in environmental protection. Both perspectives have merit, and in my view, both are indispensable for fostering a prosperous and sustainable future.

近年来，国际合作已成为全球发展的基石。有人认为此类合作的主要益处体现在商业领域，也有人强调其在环境保护中的重要性。两种观点都有道理，而在我看来，二者对于构建繁荣且可持续的未来同样不可或缺。

On the one hand, supporters of international cooperation in the business world believe that it brings about significant economic benefits. By reducing trade barriers and fostering cross-border investment, countries can expand their markets and increase their economic growth. For example, international trade agreements and economic alliances help businesses access a wider range of consumers, suppliers, and resources. This expanded network of cooperation enables companies to scale their operations, improve efficiency, and create more job opportunities. As a result, global economic prosperity is achieved, and the interconnectedness of economies strengthens.

一方面，支持商业领域国际合作的人认为，其能带来显著的经济收益。通过减少贸易壁垒、促进跨境投资，各国可以拓展市场并推动经济增长。例如，国际贸易协定和经济联盟帮助企业接触更广泛的消费者、供应商和资源。这种扩展的合作网络使企业能够扩大经营规模、提升效率并创造更多就业机会。最终，全球经济繁荣得以实现，各国经济的互联性也随之增强。

Furthermore, many argue that the most crucial benefit of international cooperation lies in addressing global environmental challenges. Issues such as climate change, deforestation, and pollution transcend national borders and require collaborative solutions. Through international cooperation, countries can share green technologies, implement common environmental standards, and jointly combat ecological threats. A prime example of this is the Paris Agreement, where nations around the world pledged to reduce carbon emissions and mitigate the effects of climate change. This collective action not only helps combat environmental degradation but also fosters a sustainable future for generations to come.

另一方面，许多人认为国际合作的核心益处在于应对全球性环境挑战。气候变化、森林砍伐和污染等问题超越国界，需要协同解决方案。通过国际合作，各国能够共享绿色技术、实施统一的环境标准，并共同抵御生态威胁。《巴黎协定》便是典型例证 —— 世界各国在此承诺减少碳排放、缓解气候变化影响。这种集体行动不仅有助于遏制环境恶化，还能为子孙后代打造可持续的未来。

In conclusion, while both international cooperation in business and environmental protection have their own significant advantages, I believe that neither should be overlooked. Both are essential for global progress, as they complement each other in fostering economic growth and ensuring a sustainable environment. Therefore, international cooperation should continue to thrive in both domains to build a better and more interconnected world.

总之，尽管商业领域与环境保护领域的国际合作各有显著优势，但二者都不应被忽视。它们在促进经济增长和保障环境可持续性方面相辅相成，共同构成全球发展的必要条件。因此，国际合作应在这两个领域持续深化，以构建更美好、更互联的世界。

9、不文明行为

Today there is a great increase in anti-social behavior and lack of respect to others. What are the causes of this? What measures can be taken to reduce this problem?

当今社会，反社会行为和缺乏对他人的尊重的现象大幅增加。造成这种情况的原因是什么？可以采取哪些措施来减少这个问题？

🍊 ✅ 写作立场：正常分析原因和解决方案

我认为，反社会行为和缺乏尊重的现象主要来自家庭教育的缺失和社会环境的负面影响，解决这一问题需要家庭、学校以及社会的多方协作。

✅ 逻辑链分析：

主体段1：

- **提出观点**：反社会行为往往与家庭教育缺失密切相关
- **扩展延伸**：缺乏情感支持和品格培养的环境易导致情绪失控与冷漠
- **举例**：比如在缺乏关爱或父母暴躁的家庭中成长的孩子更容易出现攻击性行为
- **合理性推断**：没有行为示范的孩子难以自然形成尊重他人的价值观

主体段2：

- **提出观点**：要减少这些行为，学校和家庭应共同参与引导
- **扩展延伸**：学校可加强社交教育，家庭则应注重情绪陪伴与价值传递
- **举例**：例如，学校可组织同伴合作课程，家长可通过倾听孩子表达加深理解
- **结果分析**：这种双重干预能从根源改善年轻人的行为模式

In modern society, the rise in anti-social behavior and lack of respect for others has become an alarming trend. I believe this issue stems primarily from poor family environments and insufficient guidance from schools and communities.

在现代社会，反社会行为的增多以及对他人缺乏尊重已成为一个令人担忧的趋势。我认为，这一问题主要源于不良的家庭环境以及学校和社区的引导不足。

Children who lack consistent care, discipline, and emotional support at home are more vulnerable to developing aggressive or disrespectful behavior. Many parents, due to long working hours or lack of awareness, fail to monitor or guide their children properly. For example, studies have shown that adolescents who grow up in households with absent or indifferent parenting are more likely to engage in bullying or disruptive actions at school. Without stable role models, children may imitate negative behavior they see online or among peers. Over time, this can lead to a weakened sense of empathy, responsibility, and moral boundaries.

在家庭中缺乏持续关爱、管教和情感支持的孩子，更容易产生攻击性或不尊重他人的行为。许多父母由于工作时间长或意识不足，无法对孩子进行适当的监督和引导。例如，研究表明，在父母缺位或态度冷漠的家庭中长大的青少年，更有可能在学校实施欺凌或做出破坏性举动。没有稳定的榜样，孩子们可能会模仿在网上或同伴中看到的负面行为。长此以往，这会导致他们的同理心、责任感和道德界限感逐渐弱化。

To reverse this trend, both families and schools must take proactive roles in shaping children’ s values and behavior. Parents should prioritize quality time with their children, while schools need to incorporate structured programs in emotional education and social responsibility. For instance, many schools in China have introduced “civic ethics” classes that teach students how to resolve conflicts peacefully and respect others’ rights. These lessons not only prevent misconduct but also promote emotional awareness and cooperative spirit among youth. With steady reinforcement from both home and school, young people can develop the emotional intelligence and social skills needed to function respectfully in society.

要扭转这一趋势，家庭和学校都必须在塑造孩子的价值观和行为方面发挥积极作用。父母应优先保证与孩子相处的优质时间，而学校则需要纳入结构化的情感教育和社会责任课程。例如，中国的许多学校都开设了 “公民道德” 课程，教导学生如何和平解决冲突以及尊重他人的权利。这些课程不仅能预防不当行为，还能培养青少年的情感认知和合作精神。有了家庭和学校的持续强化，年轻人才能培养出在社会中以尊重态度行事所需的情商和社交技能。

In conclusion, addressing anti-social behavior requires early and consistent efforts from parents and educators. Only by building a foundation of empathy and respect can we foster a healthier and more harmonious community.

总之，解决反社会行为需要父母和教育者尽早且持续地付出努力。只有奠定同理心和尊重的基础，我们才能培育出一个更健康、更和谐的社区。

10、中学教育

In some countries, secondary schools aim to provide a general education across a range of subjects.In others, children focus on a narrow range of subjects related to a particular career. Which do you think is appropriate in today's world?

在一些国家，中学的目标是提供涵盖多门学科的通用教育。而在另一些国家，孩子们则专注于与特定职业相关的狭窄学科范围。你认为在当今世界，哪种方式更为合适?

🍊 ✅ 写作立场：支持通识教育

我认为，在当今快速变化的社会中，**中学阶段提供涵盖多学科的通识教育更加合适**。虽然职业导向教育能够带来短期优势，但通识教育更能培养适应能力与长期发展潜力。

✅ 逻辑链分析：

主体段1：

- **提出观点**：通识教育能够帮助学生形成更全面的能力结构。
- **扩展延伸**：接触不同学科可以培养批判性思维、创造力以及跨领域解决问题的能力。
- **举例**：例如，同时学习科学与人文学科的学生往往能兼具逻辑分析与沟通能力。
- **结果分析**：因此，这类教育模式使学生能够适应不断变化的职业环境。

主体段2：

- **提出观点**：过早进行职业专业化可能限制学生未来的发展空间。
- **合理性推断**：青少年往往尚未充分了解自身兴趣或社会需求变化。
- **扩展延伸**：若行业因技术进步而衰退，缺乏通用技能的学生将难以转型。
- **结果分析**：因此，过窄的教育路径可能在长期内降低个人适应性与就业稳定性。

In some countries, secondary education focuses on providing students with a broad range of subjects, while in others students specialize early in subjects related to a particular career. In today’ s rapidly changing world, I believe that a general education is more appropriate, as it prepares students for uncertainty and long-term personal development.

在一些国家，中等教育侧重于为学生提供广泛的学科，而在另一些国家，学生则很早就专注于与特定职业相关的学科。在当今快速变化的世界里，我认为通识教育更为合适，因为它为学生应对不确定性和实现长期个人发展做好了准备。

A broad education across multiple disciplines helps students build a balanced set of skills and perspectives. Exposure to subjects such as science, literature and the arts encourages critical thinking, creativity and flexible problem-solving abilities. These competencies are increasingly valuable in modern societies where professional roles often overlap and evolve. For example, students who study both analytical and humanities-based subjects can combine logical reasoning with communication skills, making them adaptable in fields ranging from business management to technology. Consequently, general education equips young people not only with knowledge but also with the capacity to adjust to changing career demands.

涵盖多门学科的广泛教育有助于学生建立均衡的技能和视角。接触科学、文学和艺术等学科能够培养批判性思维、创造力和灵活解决问题的能力。这些能力在职业角色常常重叠且不断演变的现代社会中愈发重要。例如，同时学习分析类和人文类学科的学生可以将逻辑推理与沟通技巧相结合，使他们在从商业管理到技术等各个领域都具有适应能力。因此，通识教育不仅赋予年轻人知识，还培养了他们适应不断变化的职业需求的能力。

By contrast, early specialization in career-related subjects may restrict students' future opportunities. Adolescents are still developing their interests and may not yet understand their strengths or long-term goals. Choosing a narrow academic path too early therefore carries significant risk. If technological innovation or economic change reduces demand in a specific industry, students trained in limited areas may struggle to shift careers. Without broader transferable skills, adapting to new professional environments becomes more difficult. As a result, highly specialized secondary education may provide short-term direction but weaken long-term flexibility.

相比之下，过早专注于与职业相关的学科可能会限制学生未来的机会。青少年仍处在兴趣发展期，可能尚未了解自己的优势或长期目标。因此，过早选择狭窄的学术道路会带来显著风险。如果技术创新或经济变革降低了对特定行业的需求，仅在有限领域接受培训的学生可能难以转换职业跑道。缺乏更广泛的可迁移技能，适应新职业环境就会变得更加困难。因此，高度专业化的中等教育可能提供了短期的方向感，但削弱了长期的灵活性。

In conclusion, although career-focused education can prepare students for specific occupations, a general education better reflects the needs of the modern world. By promoting adaptability, broad knowledge and lifelong learning skills, it offers students a stronger foundation for future success.

总之，虽然以职业为中心的教育可以让学生为特定职业做好准备，但通识教育更能反映现代世界的需求。通过培养适应性、广博的知识和终身学习技能，它为学生们未来的成功奠定了更坚实的基础。

11、气候变化

Some people think climate change has a negative impact on business, while others think that it provides more business opportunities. Discuss both views and give your own opinion

一些人认为气候变化对商业有负面影响，而另一些人则认为它带来了更多的商业机会。讨论双方观点并给出你自己的看法。

🍊 ✅ 写作立场：确实有负面影响，但带来的商业机会更重要

我认为，虽然气候变化确实会对部分传统行业造成负面影响，但从长期来看，它同时推动了产业转型与创新，因此**带来的商业机会总体上更为显著**。

✅ 逻辑链分析：

主体段1：

- **提出观点**：气候变化会对许多企业运营产生直接负面影响。
- **扩展延伸**：极端天气、资源短缺和供应链中断增加了企业成本与不确定性。
- **举例**：例如，农业与旅游业常因干旱、洪水或气候异常遭受严重经济损失。
- **结果分析**：因此，一些传统行业面临利润下降甚至经营风险。

主体段2：

- **提出观点**：然而，气候变化同时推动了新的商业机会与产业发展。
- **合理性推断**：环境压力促使政府与消费者转向可持续产品和绿色技术。
- **扩展延伸**：企业因此投资可再生能源、电动车及环保创新领域。
- **结果分析**：这种转型不仅创造新市场，也促进长期经济增长。

Some people believe that climate change has a negative impact on businesses, while others argue that it creates new commercial opportunities. Although climate change presents serious challenges for certain industries, I believe that it ultimately generates more opportunities by encouraging innovation and economic transformation.

一些人认为气候变化对商业有负面影响，而另一些人则认为它创造了新的商业机会。尽管气候变化给某些行业带来了严峻挑战，但我相信，通过鼓励创新和经济转型，它最终会带来更多的机遇。

Climate change undoubtedly poses significant difficulties for many businesses. Increasingly frequent extreme weather events, rising temperatures and environmental instability disrupt production and supply chains. Companies often face higher operating costs due to damaged infrastructure, resource shortages and stricter environmental regulations. For example, agricultural businesses may suffer from droughts or floods that reduce crop yields, while tourism industries dependent on stable natural conditions can experience declining visitor numbers. As a result, climate change can threaten profitability and create uncertainty for traditional sectors.

气候变化无疑给许多企业带来了巨大困难。日益频繁的极端天气事件、气温上升和环境不稳定扰乱了生产和供应链。由于基础设施受损、资源短缺以及更严格的环境法规，公司往往面临更高的运营成本。例如，农业企业可能因干旱或洪水而遭受作物减产，而依赖稳定自然条件的旅游业则可能经历游客数量下降。因此，气候变化可能威胁到盈利能力，并为传统行业带来不确定性。

Despite these challenges, climate change also drives the emergence of new industries and business models. Growing environmental awareness among governments and consumers has increased demand for sustainable products and services. This shift encourages companies to invest in renewable energy, electric vehicles and environmentally friendly technologies. For instance, many businesses have expanded into solar energy production and green construction as societies attempt to reduce carbon emissions. Consequently, climate-related innovation not only opens new markets but also stimulates long-term economic growth and competitiveness.

尽管存在这些挑战，气候变化也推动了新产业和商业模式的兴起。政府与消费者环保意识的增强，增加了对可持续产品与服务的需求。这种转变促使企业投资于可再生能源、电动汽车和环境友好型技术。例如，随着社会努力减少碳排放，许多企业已经扩展到太阳能生产和绿色建筑领域。因此，与气候相关的创新不仅开辟了新市场，还刺激了长期的经济增长和竞争力。

In conclusion, while climate change creates undeniable difficulties for some businesses, it simultaneously acts as a catalyst for innovation and industrial transformation. The expansion of sustainable industries demonstrates that environmental challenges can generate significant economic opportunities. Therefore, I believe that climate change ultimately provides more business opportunities than negative impacts.

总之，虽然气候变化给一些企业带来了不可否认的困难，但它同时也充当了创新和产业转型的催化剂。可持续产业的扩张表明，环境挑战可以产生显著的经济机遇。因此，我相信气候变化最终带来的商业机遇多于其负面影响。

12、孩子教育

Some parents give their children everything that their children ask for or allow them to do whatever they want to do.Is this good for children? What could be consequences for these children when they grow up?

一些父母给孩子任何他们所要求的东西，或者允许他们做任何想做的事。这对孩子好吗？当这些孩子长大成人后，可能会有什么后果？

🍊 ✅ 写作立场：负面观点（这种教育方式对孩子成长不利）

我认为，家长对孩子的过度溺爱或毫无限制的满足孩子的愿望，长期来看对孩子的成长有明显的不良影响，尤其是在心理和行为方面。

✅ 逻辑链分析：

主体段 1

- **提出观点**：家长无条件地满足孩子的愿望对成长不利
- **扩展延伸**：这种教育方式容易使孩子缺乏自控力与责任感
- **举例**：例如，被过度宠溺的孩子通常很难处理挫折和失败
- **合理性推断**：长期下来，这种教育可能导致孩子缺乏坚韧性，难以适应现实生活的挑战

主体段 2

- **提出观点**：长期纵容和过度放任的教育方式，会严重影响孩子成年后的生活
- **扩展延伸**：孩子成年后很难与他人和谐相处，可能表现为自我中心、不懂妥协
- **举例**：例如，在职场上，他们可能无法接受上司的批评或同事的建议
- **反面假设**：如果父母能够适度地对孩子的要求加以限制，并教导他们处理失望与挫折，孩子成年后往往会拥有更强的适应能力与健康的人际关系

Nowadays, some parents tend to give their children whatever they request or allow them unrestricted freedom. In my opinion, this parenting style is detrimental to children’s development, as it creates long-term problems for their personality and social interactions.

如今，有些父母往往会满足孩子的一切要求，或者给予他们无限制的自由。在我看来，这种育儿方式对孩子的发展有害，因为它会给孩子的性格和社交带来长期问题。

First, fulfilling every desire or allowing children absolute freedom can have negative effects on their personal growth. Such permissive parenting makes children less disciplined and less able to control themselves, because they become accustomed to immediate gratification. For example, children who are excessively indulged often have difficulties managing frustration or failure, as they rarely experience disappointment. In the long run, this upbringing fails to develop resilience and perseverance, crucial traits for handling life’s inevitable setbacks. Thus, overly permissive parenting harms children’s ability to cope with real-world challenges.

首先，满足孩子的每一个愿望或给予他们绝对的自由，会对他们的个人成长产生负面影响。这种放任的育儿方式会让孩子缺乏纪律性，自控能力也较差，因为他们习惯了即时满足。例如，过度被纵容的孩子往往难以应对挫折或失败，因为他们很少经历失望。从长远来看，这样的教养方式无法培养孩子的韧性和毅力，而这些都是应对生活中不可避免的挫折的关键品质。因此，过度放任的育儿方式会损害孩子应对现实世界挑战的能力。

Additionally, excessive indulgence can lead to serious long-term consequences when these children reach adulthood. Without boundaries, these individuals often struggle to build harmonious relationships and interact effectively with others. They may grow into self-centered adults who have little respect for others' needs or feelings. For instance, in the workplace, they

might find it challenging to accept constructive criticism from supervisors or collaborate well with colleagues, ultimately affecting their career advancement. Conversely, if parents set appropriate limits and teach children how to manage frustration and accept compromises, these children will likely develop stronger adaptability and healthier interpersonal skills as adults.

此外，当这些孩子成年后，过度纵容会导致严重的长期后果。没有了约束，这些人往往难以建立和谐的人际关系，也无法与他人有效互动。他们可能会成长为以自我为中心的成年人，很少尊重他人的需求或感受。例如，在工作场所，他们可能难以接受上司的建设性批评，或者无法与同事良好合作，最终影响自己的职业发展。相反，如果父母设定适当的界限，教孩子如何应对挫折和接受妥协，这些孩子成年后很可能会培养出更强的适应能力和更健康的人际交往能力。

In conclusion, parents who consistently indulge their children's every wish or grant unrestricted freedom ultimately harm their children's personal and social development. Establishing clear boundaries and encouraging self-control and resilience is crucial in helping children become mature, responsible, and socially capable adults.

总之，一味满足孩子的每一个愿望或给予他们无限制自由的父母，最终会损害孩子的个人发展和社交能力。设定明确的界限，鼓励孩子培养自控力和韧性，对于帮助他们成长为成熟、有责任感且具备社交能力的成年人至关重要。

13、新技术

Some people think the increasing use of technology in the workplace is good for young people's prospects of gaining a job and harder for old people. To what extent do you agree or disagree?

一些人认为，工作场所中技术的日益普及对年轻人获得工作的前景有利，而对老年人则更为困难。你在多大程度上同意或不同意？

🍊 ✅ 写作立场：部分同意

我**部分同意**这一观点：职场技术化确实在一定程度上更有利于年轻人就业，并给年长员工带来挑战，但这种差距并非不可改变，其影响往往被夸大。

✅ 逻辑链分析：

主体段 1

- **提出观点**：技术发展通常让年轻人在就业竞争中占据优势。
- **扩展延伸**：年轻人从小接触数字技术，更容易适应新软件和自动化系统。

- **举例**：例如，数据分析、数字营销和人工智能相关岗位往往要求熟练的技术操作能力。
- **结果分析**：因此，企业在招聘时更倾向选择技术适应能力强的年轻求职者。

主体段 2

- **提出观点**：然而，技术进步并不必然使年长员工处于劣势。
- **合理性推断**：工作表现不仅取决于技术技能，还依赖经验、判断力与沟通能力。
- **扩展延伸**：许多企业通过培训与终身学习项目帮助员工更新技能。
- **结果分析**：因此，只要持续学习，年长员工仍能保持就业竞争力。

Some people believe that the increasing use of technology in the workplace improves young people’s chances of finding employment while making it more difficult for older workers. I partly agree with this view, as technological change may initially favour younger generations, but its negative impact on older employees is often exaggerated.

一些人认为，工作场所中技术的日益普及提高了年轻人找到工作的机会，同时却让年长的工人更难就业。我部分同意这种观点，因为技术变革最初可能更有利于年轻一代，但其对年长员工的负面影响往往被夸大了。

Technological advancement can indeed give younger people an advantage in the job market. Having grown up surrounded by digital devices, many young individuals are more familiar with new software, online platforms and automated systems. This familiarity enables them to adapt quickly to technology-driven workplaces. For example, positions in areas such as digital marketing, data analysis and artificial intelligence often require strong technical competence and continuous interaction with new tools. As a result, employers may prefer younger candidates who appear more comfortable with rapidly evolving technologies.

技术进步确实能让年轻人在就业市场上获得优势。许多年轻人在数字设备的环绕中长大，因此更熟悉新软件、在线平台和自动化系统。这种熟悉度使他们能够快速适应技术驱动的工作场所。例如，数字营销、数据分析和人工智能等领域的职位通常要求强大的技术能力以及与新工具的持续互动。因此，雇主可能更倾向于选择那些看起来更能自如应对快速变化技术的年轻求职者。

However, it would be inaccurate to assume that older workers are inevitably disadvantaged. Professional success depends not only on technical ability but also on experience, decision-making skills and interpersonal communication. Older employees often possess deep industry knowledge and practical judgement developed over many years. Moreover, many organizations now provide training programs that allow workers of all ages to update their skills and remain competitive. With access to lifelong learning opportunities, older individuals can adapt to technological change rather than be excluded by it.

然而，认为年长工人必然处于劣势的观点并不准确。职业成功不仅取决于技术能力，还取决于经验、决策能力和人际沟通。年长员工通常拥有多年积累的深厚行业知识和实践判断力。此外，许多组织现

在提供培训项目，让所有年龄段的工人都能更新技能并保持竞争力。通过获得终身学习的机会，年长个体可以适应技术变革，而不是被其排斥。

In conclusion, although workplace technology may initially benefit younger job seekers, it does not necessarily undermine the employment prospects of older workers. The ability to learn and adapt is not limited by age. Therefore, I believe that technology creates challenges but does not fundamentally disadvantage older people in the long term.

总之，尽管工作场所的技术可能最初让年轻求职者受益，但这并不一定会损害年长工人的就业前景。学习和适应的能力并不受年龄限制。因此，我相信技术虽然带来了挑战，但从长远来看，并不会从根本上使年长者处于不利地位。

14、计算机

Computers are often argued to be the most important invention of the last hundred years.To what extent do you agree or disagree with this statement?

计算机常被认为是过去一百年里最重要的发明。你在多大程度上同意或不同意这一说法?

🍊 ✅ 立场：部分同意

电脑确实是近百年改变最大的发明之一，但称之为“最重要”则略显绝对。**它的重要性依赖于其他基础发明的支持，比如电力、疫苗、网络等。**

逻辑链分析：

主体段1

提出观点：电脑的确在许多关键领域引发了革命性的改变

结果分析：它极大提升了生产效率、知识传播速度和社会运转模式

扩展延伸：现代办公、科研、交通管理、通信几乎都离不开计算机系统

举例：像医院使用电脑做手术导航、公司依赖系统处理客户订单，都是典型例子

主体段2

提出观点：但即使如此，也不能将电脑视为“最重要的发明”

举例：比如没有电力，电脑根本无法运行；没有疫苗，人类社会甚至可能无法正常维持

反面假设：如果只保留电脑而失去这些基础性科技，现代文明也将很快瘫痪

合理性推断：这说明电脑的作用再大，也依赖于其他更底层的科技基础

Computers have undoubtedly brought revolutionary changes to the modern world. From workplaces to hospitals, their influence is visible in almost every aspect of daily life. In this sense, they are certainly one of the most significant inventions in recent history. However, calling them the *most* important may ignore the foundational role of other essential inventions.

毫无疑问，计算机给现代世界带来了革命性的变革。从工作场所到医院，它们的影响几乎可见于日常生活的方方面面。从这个意义上说，计算机无疑是近代史上最重要的发明之一。然而，将其称为 “最重要的发明” 可能忽略了其他关键发明的基础性作用。

To begin with, computers have transformed how societies function. They have greatly improved productivity, sped up access to knowledge, and reshaped industries such as education, healthcare, and communication. Today’ s workplaces, scientific research labs, and public transportation systems rely heavily on computers to operate efficiently. For instance, hospitals use computer-assisted technologies for surgical navigation, and businesses manage logistics and customer relations using digital systems. Such examples show how computers have become deeply integrated into our modern infrastructure.

首先，计算机彻底改变了社会的运行方式。它们极大地提高了生产力，加速了知识获取，并重塑了教育、医疗和通信等行业。如今的工作场所、科研实验室和公共交通系统都高度依赖计算机来实现高效运作。例如，医院使用计算机辅助技术进行手术导航，企业通过数字系统管理物流和客户关系。这些实例表明，计算机已深度融入现代社会的基础设施。

That said, computers do not exist in a vacuum. Without electricity, computers would not even turn on; without vaccines and basic public health systems, the people who benefit from computers might not survive to use them. Imagine a world with high-powered machines but no way to power them or keep the population healthy—modern civilization would collapse in such a scenario. This shows that while computers are highly influential, their effectiveness and importance are dependent on more fundamental technologies that support human survival and system functionality.

但需要指出的是，计算机并非孤立存在。没有电力，计算机甚至无法启动；没有疫苗和基础公共卫生体系，受益于计算机的人群可能难以存活并使用它们。试想一个拥有高性能机器却无法供电、或无法保障人口健康的世界 —— 现代文明在这种场景下将崩溃。这说明，尽管计算机影响力巨大，但其有效性和重要性依赖于支撑人类生存和系统运行的更基础技术。

In conclusion, while computers are among the most influential inventions of the last century, they should not be considered the single most important one. Their impact is undeniable, but they function within a larger network of innovations that make modern life possible.

总之，虽然计算机是上世纪最具影响力的发明之一，但不应将其视为 “唯一最重要的发明”。其影响力毋庸置疑，但它是在一个支撑现代生活的庞大创新网络中发挥作用的。

15、艺术

Some people think people working in creative arts should be financially supported by government. Others think they should find financial support from other resources. Discuss both sides and give your opinion.

一些人认为从事创意艺术工作的人应该得到政府的财政支持。另一些人认为他们应该从其他渠道寻找财政支持。讨论双方观点并给出你的意见。

🍊 ✅ 立场：政府支持

我认为，**政府应当为创意艺术工作者提供财政支持**。虽然市场资金在某些情况下能够发挥作用，但单纯依赖私人资源无法保障艺术的长期发展与文化价值。

逻辑链分析：

主体段1

- **提出观点**：政府投资能够促进创意艺术的稳定发展。
- **扩展延伸**：公共资金使艺术家能够专注创作，而不必完全依赖商业收益。
- **举例**：例如，许多国家通过公共基金支持博物馆、戏剧和文化项目。
- **结果分析**：因此，政府资助有助于推动文化创新并提升社会整体文化素养。

主体段2

- **提出观点**：确实，有人认为艺术家应通过市场或私人投资获得资金支持。
- **让步**：然而，市场更倾向支持高利润项目，而非文化价值高但收益有限的艺术形式。
- **扩展延伸**：传统艺术与实验艺术往往难以吸引商业投资。
- **结果分析**：因此，仅依赖私人资金会导致许多重要艺术形式逐渐消失。

Some people believe that individuals working in creative arts should receive financial support from governments, while others argue that artists should rely on private sources of funding. I believe that governments should provide financial assistance to creative professionals, as public investment plays an essential role in sustaining artistic development and cultural preservation.

一些人认为从事创意艺术工作的个人应获得政府的财政支持，而另一些人则认为艺术家应依靠私人资金来源。我认为政府应向创意专业人士提供财政援助，因为公共投资在维持艺术发展和文化保护方面发挥着至关重要的作用。

Government funding brings significant benefits to the creative arts sector. Public financial support allows artists to focus on creative expression rather than being entirely dependent on

commercial success. This stability encourages experimentation and long-term artistic projects that may not generate immediate profit but contribute greatly to cultural enrichment. For example, many governments provide grants to museums, theatre productions and cultural festivals, enabling artists to produce meaningful work that reflects national identity and social values. As a result, government investment promotes cultural innovation and enhances the overall cultural life of society.

政府资助为创意艺术领域带来了显著的好处。公共财政支持使艺术家能够专注于创意表达，而不是完全依赖商业成功。这种稳定性鼓励了实验性的和长期的艺术项目，这些项目可能无法立即产生利润，但对文化繁荣贡献巨大。例如，许多政府为博物馆、戏剧制作和文化节提供资助，使艺术家能够创作出反映民族认同和社会价值观的有意义的作品。因此，政府投资促进了文化创新，并丰富了整个社会的文化生活。

Admittedly, some people argue that artists should obtain financial support through private investment or audience demand. However, market-based funding naturally favours projects with strong commercial potential rather than artistic or cultural significance. Forms of art such as traditional performances or experimental works often struggle to attract investors because they appeal to smaller audiences. Consequently, relying solely on private funding would lead to the gradual disappearance of culturally valuable but less profitable artistic expressions. This demonstrates that market mechanisms alone cannot sustain the full diversity of creative arts.

诚然，有些人认为艺术家应通过私人投资或观众需求获得财政支持。然而，基于市场的资助自然会倾向于具有强大商业潜力的项目，而非具有艺术或文化意义的项目。像传统表演或实验性作品这样的艺术形式，往往因吸引的观众较少而难以吸引投资者。因此，仅仅依靠私人资助将导致具有文化价值但利润较低的艺术表现形式逐渐消失。这表明，仅靠市场机制无法维持创意艺术的全面多样性。

In conclusion, although private funding can support certain popular artistic industries, it is insufficient for maintaining a balanced cultural ecosystem. Government financial support is therefore necessary to ensure artistic diversity and long-term cultural development. For these reasons, creative artists should receive consistent support from public funding.

总之，尽管私人资助可以支持某些受欢迎的艺术产业，但不足以维持一个平衡的文化生态系统。因此，政府的财政支持对于确保艺术多样性和长期文化发展是必要的。基于这些原因，创意艺术家应获得公共资金的持续支持。
