2026.6月大作文重点

在看预测之前大家要有一个认知：雅思写作的题库特别广，在不断增加新题的同时还会进行老题重考，所以完全无法统计出题库的完整内容，因此雅思写作可以视为“没有题库”。所以预测是基于近期高频考题做的整理，可以作为类似于“观点库”的辅助内容，但不要寄很大希望于预测到原题

- 一个比较偷懒的逻辑链思路（容易延伸）

提出观点——扩展延伸——举例——结果分析——【继续延伸】（可选）

无论是什么观点。都可以在观点的基础上进行详细解释。在这个解释的基础上假设一个情境进一步佐证xx会产生xx影响。然后就这个影响进行结果分析，就可以用很顺的逻辑完成一段论述，这个思路我同样觉得非常顺手。

并且只要加一句 “此外” （In addition）等词，就可以对观点做第二个延伸，然后继续举例或结果分析。

就以“父母对儿童成长的影响”这一话题为例，一道是小范围（家庭教育）；一道是大范围（社会、国际），说一下怎么一个观点做2个延伸

父母对儿童的成长有重要影响。那么这个影响有多角度的触点，我们只需要思考父母对儿童的成长，都可以从哪些方面去起作用，就可以得出多个延伸思路。

例如父母为儿童提供情感支持、价值观和行为规范，是孩子最早的榜样。

还可以写 “父母对孩子的具体教导” 、“父母的个人行为的潜在影响” 、"父母对事情的看法影响孩子三观"、“个人行为还可以分类为 为人处世、面对困难、处理矛盾.....” ，只要打开思路就有无数条线供我们延伸。

> 但是注意，一段最多给观点做2个延伸，不然就是罗列观点，会低分。并且一篇文章最多一段做2个延伸，不然也有罗列观点的嫌疑。总之，**必须保证每一个观点和延伸有足够的内容佐证，不能纯罗列**

有些人认为艺术画廊和博物馆应该展示更多本国的传统文化艺术作品。

那我们要集中思考 “展示更多本国的传统文化艺术作品” 的影响

对社会，弘扬传统文化

对年轻人，加强教育

对文化，表现保护传统的态度

对国家，民族自信心和自豪感

……

这只是粗略的思考，每一个都可以当做一个延伸方向。

1、习俗

Many customs and traditional ways of behavior are not relevant to modern life and are not worthy keeping. To what extent do you agree or disagree?

许多习俗和传统行为方式已与现代生活无关，不值得保留。你在多大程度上同意或不同意？

🍊 写作立场：不同意

我**不同意**这一观点。虽然部分传统习俗已经不再适应现代社会，但许多习俗仍然具有文化、教育和社会价值，因此值得保留和传承。

逻辑链分析：

主体段 1

提出观点：确实，一些传统习俗已经不再适应现代社会。

举例：例如，某些限制女性教育或职业发展的传统观念已经明显落后。

让步反驳：然而，这类例子仅代表少数过时习俗，不能代表所有传统。

合理性推断：因此，仅根据部分落后的传统就否定全部传统文化是不合理的。

主体段 2

提出观点：许多传统习俗在现代社会仍然发挥重要作用。

扩展延伸：它们帮助人们了解历史，并增强家庭和社区之间的联系。

举例：例如，传统节日和家庭聚会至今仍受到广泛重视。

结果分析：因此，这些习俗能够维持文化认同并丰富现代社会生活。

Many people argue that customs and traditional forms of behaviour are no longer relevant in modern society and therefore are not worth preserving. While I accept that some traditions have become outdated, I disagree with the view that traditional customs in general should be abandoned.

许多人认为，习俗和传统行为方式已不再适应现代社会，因此不值得保留。虽然我承认有些传统已经过时，但我不同意那种认为传统习俗总体上应该被抛弃的观点。

Admittedly, certain traditional practices are no longer suitable for contemporary life. Some customs were created in historical circumstances that differ greatly from those of today. For example, traditions that discourage women from pursuing higher education or professional careers are clearly inconsistent with modern values of equality and personal freedom. However, such examples represent only a limited number of outdated practices rather than traditional culture as a whole. If society were to reject all customs simply because some of them are no longer appropriate, it would be making an unfair generalization. Therefore, outdated traditions should be modified or discarded, but this does not justify abandoning all traditional ways of behaviour.

诚然，某些传统做法已不再适合当代生活。一些习俗是在与当今社会差异巨大的历史背景下形成的。例如，那些阻碍女性接受高等教育或从事职业发展的传统，显然与现代的平等和个人自由价值观不符。然而，这样的例子只代表少数过时的做法，而非整个传统文化。如果社会仅仅因为部分习俗不再合适就拒绝所有习俗，那将是一种不公平的以偏概全。因此，过时的传统应该被修改或摒弃，但这并不能成为抛弃所有传统行为方式的理由。

In fact, many customs continue to play an important role in modern society. Traditional practices help people understand their cultural roots and maintain connections with previous generations. Furthermore, they often strengthen family relationships and community cohesion by bringing people together on important occasions. For instance, traditional festivals, cultural celebrations and family gatherings remain highly valued in many countries despite rapid modernization. These events provide opportunities for people to share experiences and reinforce a sense of belonging. As a result, traditional customs continue to contribute to both cultural identity and social stability.

事实上，许多习俗在现代社会中仍然发挥着重要作用。传统习俗帮助人们了解自己的文化根源，并保持与前辈的联系。此外，它们常常通过在重要的场合将人们聚集在一起，来加强家庭关系和社区凝聚力。例如，尽管现代化进程迅速，传统节日、文化庆典和家庭聚会在许多国家仍然备受珍视。这些活动为人们提供了分享经历和增强归属感的机会。因此，传统习俗仍然对文化认同和社会稳定做出贡献。

In conclusion, although some traditions have lost their relevance in the modern world, it would be wrong to dismiss traditional customs altogether. Many of them still serve valuable cultural and social functions. Therefore, I believe that societies should preserve meaningful traditions while allowing outdated practices to disappear naturally over time.

总之，尽管有些传统已在现代世界中失去了其相关性，但完全摒弃传统习俗是错误的。其中许多传统仍然具有宝贵的文化和社会功能。因此，我认为社会应该保留有意义的传统，同时允许过时的做法随着时间的推移自然消失。

2、交通

In some countries, the government has triedto reduce traffic. For instance, they imposed a congestion tax during rush hour. Do you think this development is positive or negative?

在一些国家，政府试图减少交通拥堵。例如，他们在高峰时段征收拥堵税。你认为这种做法是积极的还是消极的?

🍊 写作立场：积极的

我认为，在高峰时段征收拥堵税总体上是一种积极的发展。虽然这项政策会增加部分驾驶者的经济负担，但它能够有效缓解交通拥堵并改善城市运行效率，其长期收益更为显著。

逻辑链分析：

主体段 1

提出观点：拥堵税能够有效减少道路上的车辆数量。

合理性推断：当开车成本上升时，一部分人会主动选择公共交通。

扩展延伸：车辆减少后，道路空间得到更合理利用。

结果分析：因此，交通拥堵和通勤时间都会得到缓解。

主体段 2

提出观点：确实，部分人认为拥堵税增加了驾驶者的经济负担。

扩展延伸：尤其是需要每天驾车通勤的人，可能面临额外开支。

反面假设：然而，如果政府什么都不做，交通拥堵将持续恶化并造成更大的经济损失。

结果分析：因此，相比长期拥堵带来的时间和资源浪费，这种成本是合理且必要的。

In an effort to tackle traffic congestion, some governments have introduced measures such as congestion charges during rush hours. In my view, this is a positive development because it encourages more efficient transport choices and improves the overall functioning of cities.

为了应对交通拥堵，一些政府采取了诸如在高峰时段征收拥堵费等措施。在我看来，这是一个积极的发展，因为它鼓励人们选择更高效的交通方式，并改善城市的整体运行。

One significant advantage of congestion taxes is that they can effectively reduce the number of vehicles on the road. When driving becomes more expensive during peak periods, many commuters reconsider their travel habits and choose alternatives such as public transport, cycling or car-sharing. It is reasonable to expect that even a modest reduction in the number of cars can have a noticeable effect on traffic flow. With fewer vehicles competing for limited road

space, transportation systems operate more efficiently and delays become less frequent. As a result, both commuters and businesses benefit from shorter travel times and improved productivity.

拥堵费的一个显著优势在于它能有效减少道路上的车辆数量。当在高峰时段开车变得更昂贵时，许多通勤者会重新考虑他们的出行习惯，并选择公共交通、骑自行车或拼车等替代方式。可以合理预期，即使汽车数量小幅减少，也能对交通流量产生显著影响。随着争夺有限道路空间的车辆减少，交通系统的运行效率提高，延误也变得更少。因此，通勤者和企业都能从更短的出行时间和更高的生产力中受益。

Admittedly, some people argue that congestion charges place an additional financial burden on drivers. This concern is particularly relevant for those who rely on private vehicles for daily commuting and have limited transport alternatives. However, if governments fail to take action, traffic congestion is likely to become even worse as urban populations continue to grow. In that situation, cities would suffer from greater time losses, higher fuel consumption and increased environmental damage. Therefore, although congestion taxes may create certain costs for individuals, they help prevent far more serious economic and social problems in the long run.

诚然，有些人认为拥堵费给司机带来了额外的经济负担。这一担忧对于那些日常通勤依赖私家车且出行选择有限的人来说尤其现实。但是，如果政府不采取行动，随着城市人口的持续增长，交通拥堵很可能会变得更加严重。在那种情况下，城市将遭受更大的时间损失、更高的燃料消耗和更严重的环境破坏。因此，尽管拥堵税可能会给个人带来一定成本，但从长远来看，它有助于防止更严重的经济和社会问题。

In conclusion, while congestion pricing may not be welcomed by every driver, it remains an effective tool for managing urban traffic. By encouraging behavioural change and reducing pressure on road networks, it delivers benefits that outweigh its disadvantages. Therefore, I believe this policy should be viewed as a positive development.

总之，尽管拥堵收费可能并非受到每位司机的欢迎，但它仍然是管理城市交通的有效工具。通过鼓励行为改变和减轻道路网络的压力，它带来的好处超过了其弊端。因此，我认为这项政策应被视为一个积极的发展。

3、本地食物

Today, some food travels thousands of miles from farms to consumers. Some people think that it would be better to our environment and economy if people only eat locally produced food. To what extent do the disadvantages outweigh the advantages?

如今，有些食物需要旅行数千英里才能从农场到达消费者手中。一些人认为，如果人们只吃本地生产的食物，对我们的环境和经济会更好。你在多大程度上认为缺点大于优点？

🍊 写作立场：弊大于利

我认为，只食用本地生产的食品虽然具有一定环境优势，但其弊端更为明显，因此弊大于利。

逻辑链分析：

主体段 1

提出观点：支持者认为只消费本地食品有利于环境保护。

让步：确实，减少长距离运输能够降低部分燃料消耗和碳排放。

合理性推断（反驳）：然而，食品生产过程本身往往比运输环节产生更大的环境影响。

结果分析：因此，仅依靠本地食品消费难以显著改善环境问题。

主体段 2

提出观点：更重要的是，只食用本地食品会降低经济效率并限制消费者选择。

举例：例如，许多国家由于气候或土地条件限制，无法高效生产某些农产品。

扩展延伸：如果减少食品进口，供应量可能下降，而生产成本和市场价格会上升。

结果分析：因此，国际食品贸易对于资源优化配置和市场稳定具有重要作用。

Today, many food products travel thousands of miles before reaching consumers. Some people believe that it would be better for the environment and the economy if people only consumed locally produced food. Although this idea may offer certain environmental benefits, I believe that its disadvantages outweigh its advantages.

如今，许多食品在到达消费者手中之前要经过数千英里的运输。一些人认为，如果人们只消费本地生产的食品，对环境和经济都会更好。尽管这个想法可能带来某些环境益处，但我认为其缺点大于优点。

支持本地食品消费的人认为，这有助于保护环境。诚然，缩短食品运输距离可以降低燃料消耗，减少运输过程中产生的碳排放。这似乎是减少食品行业环境影响的有效途径。然而，运输只是影响可持续性的因素之一。在许多情况下，种植、加工和储存食品的方式对环境的影响远比运输距离大得多。因此，仅仅将食品消费限制在本地产品上，不太可能带来实质性的环境改善。

更重要的是，完全依赖本地生产的食品可能会造成严重的经济劣势。不同的国家和地区拥有不同的气候、自然资源和农业优势，这使得它们能够高效地专业化生产某些产品。例如，许多国家由于气候条件不适宜，无法以合理的成本种植热带水果、咖啡或某些谷物。如果限制食品进口，消费者能买到的产品种类将减少，而本地生产商可能面临更少的竞争。这可能导致价格上涨和资源配置效率降低。因此，国际贸易在维持稳定的食品供应和支持经济增长方面扮演着重要角色。

总之，虽然消费本地生产的食品可能会减少一些与运输相关的排放，但其环境效益往往被夸大了。相比之下，限制食品进口会减少消费者的选择，并削弱经济效率。基于这些原因，我认为仅依赖本地食品的缺点大于优点。

Supporters of local food consumption argue that it can help protect the environment. Admittedly, reducing the distance that food travels can lower fuel consumption and decrease carbon emissions generated by transportation. This appears to be an effective way to reduce the environmental impact of the food industry. However, transportation is only one factor affecting sustainability. In many cases, the methods used to grow, process and store food have a much greater environmental impact than the distance it travels. As a result, limiting food consumption to local products alone is unlikely to bring substantial environmental improvements.

More importantly, relying solely on locally produced food can create significant economic disadvantages. Different countries and regions have different climates, natural resources and agricultural strengths, which allow them to specialize in producing certain products efficiently. For example, many countries cannot grow tropical fruits, coffee or certain grains at a reasonable cost due to unsuitable weather conditions. If food imports were restricted, consumers would have access to fewer products, while local producers might face less competition. This could lead to higher prices and a less efficient allocation of resources. Therefore, international food trade plays an important role in maintaining stable food supplies and supporting economic growth.

In conclusion, while consuming locally produced food may reduce some transport-related emissions, its environmental benefits are often overstated. By contrast, restricting food imports would reduce consumer choice and weaken economic efficiency. For these reasons, I believe that the disadvantages of relying only on local food outweigh the advantages.

4、电影内容

The government should control the amountof violence in films and on television in orderto decrease the level of violent crime in society. To what extent do you agree or disagree?

政府应该控制电影和电视中的暴力内容，以减少社会上的暴力犯罪。你在多大程度上同意或不同意？

🍊 写作立场：不同意

我不同意政府应该通过严格控制影视作品中的暴力内容来降低社会暴力犯罪。虽然暴力影视可能对部分观众产生一定影响，但暴力犯罪的根源更加复杂，仅依靠限制影视内容难以取得明显效果。

逻辑链分析：

主体段 1

提出观点：影视暴力与现实暴力犯罪之间并不存在直接对应关系。

举例：例如，大量观众长期观看动作片和犯罪题材作品，却从未实施暴力行为。

合理性推断：这说明大多数人能够区分娱乐内容与现实生活。

结果分析：因此，仅凭影视暴力难以解释社会犯罪现象。

主体段 2

提出观点：暴力犯罪往往源于更深层的社会问题。

扩展延伸：贫困、家庭破裂和教育不足会增加犯罪风险。

举例：例如，一些高犯罪率地区往往同时存在失业率高和社会资源不足的问题。

结果分析：因此，政府若希望减少犯罪，应优先解决这些根本原因。

Some people believe that governments should limit the amount of violence shown in films and television programs in order to reduce violent crime in society. I disagree with this view because the connection between media violence and real criminal behaviour is often exaggerated, while the true causes of crime usually lie elsewhere.

有些人认为，政府应该限制电影和电视节目中暴力的数量，以减少社会上的暴力犯罪。我不同意这种观点，因为媒体暴力与现实犯罪行为之间的联系常常被夸大，而犯罪的真正原因通常在其他地方。

One reason why I oppose stricter control of violent content is that there is little evidence that watching violence directly turns ordinary people into criminals. Millions of individuals regularly watch action movies, crime dramas and other forms of violent entertainment without displaying aggressive behaviour in real life. For example, many popular films contain scenes of conflict and violence, yet the overwhelming majority of viewers never commit violent offences. This suggests that most people are capable of recognizing the difference between fictional stories and acceptable real-world behaviour. Therefore, violent content alone cannot be considered a major cause of violent crime.

我反对更严格地管控暴力内容的一个原因是，几乎没有证据表明观看暴力内容会直接将普通人变成罪犯。数以百万计的人经常观看动作片、犯罪剧和其他形式的暴力娱乐节目，但在现实生活中并未表现出攻击性行为。例如，许多热门电影都包含冲突和暴力的场景，但绝大多数的观众从未犯下暴力罪行。这表明，大多数人能够区分虚构故事与可接受的现实行为之间的区别。因此，仅凭暴力内容本身并不能被视为暴力犯罪的主要原因。

More importantly, criminal behaviour is often rooted in broader social and economic conditions. Factors such as poverty, unemployment, family instability and inadequate education can increase the likelihood of individuals becoming involved in crime. In many areas with high crime rates, social disadvantage and limited opportunities are far more common problems than

exposure to violent films. For instance, communities suffering from long-term unemployment frequently experience higher levels of crime regardless of the type of media people consume. As a result, governments are more likely to reduce violent crime by improving social conditions than by imposing stricter restrictions on entertainment.

更重要的是，犯罪行为往往根植于更广泛的社会和经济条件之中。贫困、失业、家庭不稳定以及教育不足等因素都可能增加个人卷入犯罪的可能性。在许多犯罪率高的地区，社会劣势和机会有限是比接触暴力电影更为常见的问题。例如，遭受长期失业困扰的社区，无论人们消费什么类型的媒体，其犯罪率往往都更高。因此，政府通过改善社会条件来减少暴力犯罪，比通过施加更严格的娱乐限制更有可能取得成功。

In conclusion, although violent films and television programs may influence a small number of people, they are not the primary cause of violent crime. Since criminal behaviour is more closely associated with social and economic problems, governments should focus their efforts on addressing these underlying issues rather than increasing media censorship. This would be a more effective way to create a safer society.

总之，尽管暴力电影和电视节目可能会影响少数人，但它们并非暴力犯罪的主要原因。由于犯罪行为与社会和经济问题的关联更为密切，政府应将精力集中在解决这些根本问题上，而不是加强媒体审查。这将是创造一个更安全社会的更有效途径。

5、同质化

In many different countries most shops and products are the same.Some people consider this to be a positivedevelopment, whilst others believe it is anegative one. Discuss both these views andgive your own opinion.

在许多不同的国家，大多数商店和商品都变得一样了。有些人认为这是一个积极的发展，而另一些人则认为这是消极的。讨论这两种观点并给出你自己的意见。

🍊 写作立场：负面影响更大

我认为，虽然全球范围内相似的商店和产品能够带来便利并促进经济发展，但这一趋势的负面影响更值得关注，因为它可能削弱地方文化特色并降低市场多样性。

逻辑链分析：

主体段 1

提出观点：许多人认为商店和产品趋同是一种积极的发展。

扩展延伸：统一的品牌和产品标准能够提高消费便利性。

举例：例如，人们在不同国家都可以轻松购买熟悉的商品并获得相似服务。

结果分析：因此，国际商业活动和消费者体验都得到改善。

主体段 2

提出观点：然而，全球商业同质化会削弱文化和市场多样性。

合理性推断：当国际品牌占据主导地位时，本地企业更难与之竞争。

举例：例如，许多传统商店和地方品牌逐渐被大型跨国连锁企业取代。

结果分析：因此，各国独特的文化特色和消费习惯可能逐渐消失。

In many countries today, people can find the same shops and buy the same products regardless of where they are. While some people regard this trend as a positive development, others believe it has negative consequences. Although there are certain advantages, I believe the drawbacks are more significant.

如今在许多国家，无论人们身在何处，都能找到相同的商店，买到相同的产品。虽然有些人认为这种趋势是积极的发展，但另一些人则认为它带来了负面影响。尽管存在某些优势，但我认为其缺点更为显著。

Those who support this trend argue that it brings greater convenience to consumers. International brands often provide consistent product quality and service standards, allowing people to purchase familiar goods wherever they travel. This reduces uncertainty and saves time when making purchasing decisions. For example, a customer visiting another country can easily find well-known supermarkets, restaurants or technology brands without worrying about quality differences. As a result, global standardization facilitates international trade and creates a more convenient shopping experience for consumers.

支持这一趋势的人认为，它给消费者带来了更大的便利。国际品牌通常提供一致的产品质量和服务标准，让人们无论去哪里旅行都能买到熟悉的商品。这减少了不确定性，也节省了做购物决定时的时间。例如，一个顾客去另一个国家，可以轻松找到知名的超市、餐厅或科技品牌，而不用担心质量差异。因此，全球标准化促进了国际贸易，并为消费者创造了更便捷的购物体验。

However, the increasing similarity of shops and products may have serious negative effects on cultural and economic diversity. When multinational corporations expand into local markets, smaller domestic businesses often struggle to compete with their financial resources and brand recognition. Consequently, many traditional shops and locally produced goods gradually disappear. For instance, independent bookstores, family-owned restaurants and regional brands in some cities have been replaced by international chains. This not only reduces consumer choice in the long term but also weakens the unique cultural identity that distinguishes one country from another. As local traditions become less visible, societies may lose part of their cultural heritage.

然而，商店和产品日益趋同可能对文化和经济多样性产生严重的负面影响。当跨国公司进入本地市场时，规模较小的本土企业往往难以与它们的财力和品牌知名度竞争。结果，许多传统店铺和本地生产的商品逐渐消失。例如，一些城市的独立书店、家庭经营的餐厅和区域品牌已经被国际连锁店所取代。这不仅从长远来看减少了消费者的选择，也削弱了区分一个国家与另一个国家的独特文化认同。随着本地传统变得不那么可见，社会可能会失去部分文化遗产。

In conclusion, although the spread of similar shops and products makes life more convenient and supports global trade, it also threatens cultural uniqueness and local businesses. For this reason, I believe that the disadvantages of this trend outweigh the advantages, and efforts should be made to preserve local products and traditions alongside international development.

总之，尽管相似商店和产品的普及让生活更加便利并支持了全球贸易，但它也威胁到了文化的独特性和本地企业。基于这个原因，我认为这一趋势的缺点大于优点，并且我们应在国际发展的同时，努力保护本地产品和传统。

6、环境问题

Developments in technology are causing environmental problems. Some people believe that the solution is for everyone to accept a simpler way of life. Others thinkthat technology will solve these problems.Discuss both views and give your own opinion.

科技的发展正在引发环境问题。一些人认为，解决办法是让每个人都接受更简单的生活方式。其他人则认为，科技将会解决这些问题。讨论这两种观点并给出你自己的意见

🍊 写作立场：追求技术进步

我认为，虽然采取更简单的生活方式有助于减少资源消耗，但技术进步才是解决环境问题更现实、更有效的途径。在现代社会，完全依靠人们主动降低生活水平既难以实现，也难以满足全球发展的需要。

逻辑链分析：

主体段 1

提出观点：一些人认为环境问题可以通过更简单的生活方式得到缓解。

扩展延伸：减少消费意味着更少的资源开采、能源使用和废弃物产生。

举例：例如，减少私家车使用或降低不必要的商品购买能够减少碳排放。

结果分析：因此，个人行为改变确实能够在一定程度上减轻环境压力。

主体段 2

提出观点：然而，技术创新才是解决环境问题的关键。

合理性推断：现代社会对能源和资源的需求巨大，仅依靠减少消费难以满足发展需要。

举例：例如，太阳能、电动车和碳捕获技术已经帮助许多国家降低污染水平。

结果分析：因此，技术能够在维持经济发展的同时改善环境质量。

Technological development has brought enormous benefits to modern society, but it has also contributed to a range of environmental problems. Some people argue that the solution lies in adopting a simpler lifestyle with lower levels of consumption, while others believe that technology itself can solve these issues. Although individual lifestyle changes can help, I believe technological innovation offers a more practical and effective solution.

技术发展为现代社会带来了巨大的好处，但也导致了一系列环境问题。一些人认为，解决方案在于采用更简单、消费水平更低的生活方式，而另一些人则认为技术本身可以解决这些问题。尽管个人生活方式的改变会有所帮助，但我认为技术创新提供了更切实可行的、更有效的解决方案。

Those who support a simpler way of life argue that many environmental problems are caused by excessive consumption. Modern lifestyles often require large amounts of energy, transportation and manufactured goods, all of which place pressure on natural resources. By reducing unnecessary consumption, individuals can lower their environmental impact. For example, using public transport instead of private cars or purchasing fewer non-essential products can reduce carbon emissions and waste generation. As a result, encouraging people to live more simply can contribute to environmental protection.

那些支持更简单生活方式的人认为，许多环境问题是由过度消费引起的。现代生活方式通常需要大量的能源、交通和制成品，所有这些都对自然资源造成了压力。通过减少不必要的消费，个人可以降低他们对环境的影响。例如，使用公共交通而不是私家车，或者购买更少的非必需品，可以减少碳排放和垃圾的产生。因此，鼓励人们更简单地生活有助于环境保护。

However, technological progress is likely to be far more effective in addressing environmental challenges. It is unrealistic to expect billions of people to significantly lower their living standards, especially in developing countries where economic growth remains a priority. Moreover, modern societies depend heavily on energy and advanced infrastructure, making large-scale reductions in consumption difficult to achieve. By contrast, technological innovation can reduce environmental damage without requiring people to abandon modern conveniences. For instance, renewable energy technologies such as solar and wind power, along with electric vehicles and carbon-capture systems, have already helped many countries reduce pollution and greenhouse gas emissions. Consequently, technology allows societies to balance environmental protection with economic development.

然而，技术进步在应对环境挑战方面可能更为有效。期望数十亿人显著降低他们的生活水平是不现实的，尤其是在经济增长仍是优先事项的发展中国家。此外，现代社会严重依赖能源和先进的基础设

施，这使得大规模的消费减少难以实现。相比之下，技术创新可以在不要求人们放弃现代便利条件的情况下减少环境破坏。例如，太阳能和风能等可再生能源技术，以及电动汽车和碳捕获系统，已经帮助许多国家减少了污染和温室气体排放。因此，技术使得社会能够在环境保护与经济发展之间取得平衡。

In conclusion, while adopting a simpler lifestyle may reduce some environmental pressures, it is unlikely to provide a complete solution. Technological innovation offers a more realistic and sustainable approach because it addresses environmental problems while supporting continued social and economic progress. Therefore, I believe technology will play the most important role in solving environmental challenges.

总之，虽然采用更简单的生活方式可能会减轻一些环境压力，但这不太可能提供一个完整的解决方案。技术创新提供了一种更现实、更可持续的方法，因为它在应对环境问题的同时支持持续的社会和经济进步。因此，我相信技术将在解决环境挑战中发挥最重要的作用。

7、电话

Some people think that the use of mobiles (cell) phones should be banned in public places such as in libraries, shops and on public transport. To what extent do you agree or disagree with this statement?

一些人认为，应该在公共场所（如图书馆、商店和公共交通工具上）禁止使用手机。你在多大程度上同意或不同意这一说法?

🍊 写作立场：部分同意

我**部分同意但总体不同意**全面禁止在公共场所使用手机。虽然手机使用可能给他人带来干扰，但完全禁止既不现实，也会影响人们的正常沟通与生活需求。

逻辑链分析：

主体段 1

提出观点：在部分公共场所限制手机使用具有一定合理性。

举例：例如，在图书馆大声通话会影响他人学习和阅读。

扩展延伸：类似情况在公共交通工具上也可能给周围乘客带来不便。

结果分析：因此，适当规范手机使用有助于维护公共秩序和舒适环境。

主体段 2

提出观点：然而，在所有公共场所全面禁止手机使用是不必要的。

合理性推断：手机已经成为现代生活中重要的沟通和信息获取工具。

反面假设：如果人们无法在公共场所使用手机，紧急联系和日常事务处理都会受到影响。

结果分析：因此，相比全面禁令，更合理的做法是规范不当使用行为。

Mobile phones have become an essential part of modern life, yet some people believe that they should be banned in public places such as libraries, shops and public transport. While I agree that mobile phone use should be regulated in certain situations, I do not believe that a complete ban is necessary or practical.

手机已成为现代生活中不可或缺的一部分，然而有些人认为应该在图书馆、商店和公共交通工具等公共场所禁止使用手机。虽然我同意在某些情况下应该对手机使用进行规范，但我认为全面禁止既无必要也不现实。

There are valid reasons for restricting mobile phone use in some public environments. In places where people require peace and concentration, excessive phone use can be disruptive. For example, loud conversations in libraries may disturb those who are studying or reading. Similar problems can occur on public transport, where passengers may feel uncomfortable when others speak loudly on their phones. In these situations, inappropriate mobile phone use can negatively affect the experience of those around them. Therefore, introducing reasonable rules regarding phone etiquette can help create a more pleasant public environment.

在某些公共环境中限制手机使用是有充分理由的。在人们需要安静和专注的地方，过度使用手机会造成干扰。例如，在图书馆里大声打电话可能会打扰那些正在学习或阅读的人。类似的问题也可能发生在公共交通工具上，当其他人大声打电话时，乘客可能会感到不舒服。在这些情况下，不当的手机使用会对周围人的体验产生负面影响。因此，引入关于手机礼仪的合理规则有助于营造更愉快的公共环境。

However, banning mobile phones entirely from public places would be an excessive response. Mobile devices are now an important means of communication, navigation and access to information. Many people rely on them for work-related tasks, online payments and emergency contact. It is reasonable to argue that preventing phone use altogether would create unnecessary inconvenience in daily life. Furthermore, if people were unable to use their phones in public when urgent situations arose, communication could become more difficult and potentially create safety concerns. As a result, regulating disruptive behaviour rather than prohibiting all phone use would be a more balanced and effective approach.

然而，在公共场所完全禁止手机将是一种过激的做法。移动设备如今已成为通信、导航和获取信息的重要手段。许多人依赖手机处理工作相关任务、进行在线支付以及紧急联系。有理由认为，完全禁止使用手机会给日常生活带来不必要的不便。此外，如果人们在公共场所遇到紧急情况时无法使用手机，沟通将变得更加困难，并可能产生安全隐患。因此，规范干扰行为而不是完全禁止手机使用，将是一种更平衡、更有效的方法。

In conclusion, although mobile phones can sometimes disturb others in public places, a complete ban would be impractical and unnecessary. Governments and institutions should focus on encouraging responsible use rather than imposing blanket restrictions. Therefore, I disagree with the idea that mobile phones should be entirely banned in public places.

总之，尽管手机有时会在公共场所打扰他人，但全面禁止既不现实也无必要。政府和相关机构应侧重于鼓励负责任的使用，而不是实施一刀切的限制。因此，我不同意在公共场所完全禁止手机的观点。

8、老龄化

Surveys show that people are living longer in many countries. But increased life expectancy has many implications for aging individuals and for society as a whole. What are the possible effects of longer living for individuals and society?

调查显示，许多国家的人口预期寿命正在延长。但寿命的延长对老年人个人和整个社会都有诸多影响。更长的寿命对个人和社会可能产生什么影响?

🍊 写作立场：正常分别讨论

我认为，寿命延长会同时对个人和社会产生深远影响。对于个人而言，它意味着更多的发展机会和更长的退休生活；对于社会而言，它既带来劳动力资源的增长，也会加重养老和医疗体系的压力。

逻辑链分析：

主体段 1

提出观点：寿命延长会改变个人的人生规划和生活方式。

扩展延伸：人们拥有更多时间发展事业、培养兴趣以及陪伴家人。

举例：例如，许多人在退休后仍然学习新技能或参与志愿活动。

结果分析：因此，更长寿命能够提升个人生活质量并丰富人生经历。

主体段 2

提出观点：与此同时，人口老龄化会给社会带来新的挑战。

合理性推断：随着老年人口比例上升，养老金和医疗服务需求将持续增长。

举例：例如，一些发达国家已经面临养老基金压力和医疗支出增加的问题。

结果分析：因此，政府需要调整社会保障体系以应对人口结构变化。

People in many countries are living longer than ever before due to improvements in healthcare, nutrition and living standards. While increased life expectancy is generally considered a positive development, it also has significant consequences for both individuals and society.

由于医疗保健、营养和生活水平的改善，许多国家的人们比以往任何时候都更加长寿。虽然预期寿命延长通常被视为一个积极的发展，但它对个人和社会也都有着重要的影响。

For individuals, a longer lifespan can create more opportunities and choices throughout life. With more years available, people may pursue longer careers, develop new skills and spend more time with family and friends. In addition, retirement is no longer viewed simply as a period of rest, as many older people remain active and continue contributing to society in various ways. For example, some retirees choose to undertake further education, start small businesses or participate in voluntary work. As a result, longer life expectancy can improve personal well-being and allow individuals to enjoy a more fulfilling and diverse life experience.

对个人而言，更长的寿命可以在整个人生中创造更多的机会和选择。有了更多的年头，人们可以追求更长的职业生涯、发展新技能，并花更多时间陪伴家人和朋友。此外，退休不再仅仅被视为一个休息的时期，因为许多老年人依然保持活跃，并以各种方式继续为社会做贡献。例如，一些退休人员选择继续深造、创办小企业或参与志愿工作。因此，更长的预期寿命可以提升个人幸福感，并让个人享受更充实、更多样化的人生体验。

At the same time, an aging population can create challenges for society as a whole. As the proportion of elderly citizens increases, governments must allocate more resources to pensions, healthcare and long-term care services. It is reasonable to expect that these costs will continue to rise as people live longer. For instance, several developed countries have already experienced increasing pressure on public healthcare systems and retirement funds due to aging populations. Consequently, governments may need to reform pension schemes, encourage later retirement and invest more heavily in healthcare infrastructure in order to maintain economic stability.

与此同时，人口老龄化也会给整个社会带来挑战。随着老年公民比例的增加，政府必须分配更多的资源用于养老金、医疗保健和长期护理服务。可以合理预期，随着人们寿命的延长，这些成本将持续上升。例如，一些发达国家由于人口老龄化，已经面临着公共医疗体系和退休基金日益增长的压力。因此，政府可能需要改革养老金制度、鼓励延迟退休，并加大对医疗基础设施的投资，以维持经济稳定。

In conclusion, longer life expectancy brings both opportunities and challenges. On the one hand, individuals can benefit from greater freedom, personal development and improved quality of life. On the other hand, societies must adapt to the financial and social pressures associated with aging populations. Therefore, careful planning is required to ensure that the benefits of longer life can be enjoyed without creating unsustainable burdens on society.

总之，更长的预期寿命既带来了机遇，也带来了挑战。一方面，个人可以从更大的自由、个人发展和更高的生活质量中受益。另一方面，社会必须适应与人口老龄化相关的财政和社会压力。因此，需要仔细的规划，以确保在享受更长寿命带来的好处的同时，不会给社会造成不可持续的负担。

9、博物馆

Some people think that museums should be enjoyable places to attract and entertain young people. Others think that the purpose of museums is to educate, not to entertain. Discuss both these views and give your own opinion.

一些人认为博物馆应该打造成令人愉快的地方，以吸引和娱乐年轻人。另一些人则认为博物馆的目的是教育，而不是娱乐。讨论这两种观点并给出你自己的意见。

🍊 写作立场：教育优先

我认为，**博物馆的主要职责是教育公众，而不是娱乐公众。** 虽然娱乐元素能够吸引更多年轻人参观，但这并不应该成为博物馆的核心目标。

逻辑链分析：

主体段 1

提出观点：一些人认为博物馆应该更具娱乐性，以吸引年轻人。

举例：例如，互动游戏和虚拟现实体验能够提高参观兴趣。

结果分析：然而，吸引更多观众并不意味着实现了博物馆的真正价值。

合理性推断：如果娱乐成为主要目标，博物馆与普通娱乐场所之间的区别将逐渐消失。

主体段 2

提出观点：教育应当始终是博物馆最重要的功能。

扩展延伸：博物馆承担着保存历史、文化和科学知识的责任。

举例：例如，历史博物馆帮助公众了解国家发展过程，而科学博物馆传播科学知识。

结果分析：因此，博物馆对于文化传承和公众教育具有不可替代的作用。

Some people argue that museums should become more enjoyable places in order to attract and entertain young visitors, while others believe that their primary purpose is education. I agree with the latter view because education is the defining function of museums, whereas entertainment should not be their main objective.

一些人认为，博物馆应该变得更有趣，以吸引和娱乐年轻游客，而另一些人则认为，博物馆的主要目的是教育。我同意后一种观点，因为教育是博物馆的定义性功能，而娱乐不应该是其主要目标。

Supporters of entertainment-oriented museums claim that making exhibitions more enjoyable can attract larger numbers of young people. For example, interactive games, multimedia presentations and virtual reality experiences often make museum visits more appealing to children and teenagers. These approaches may increase visitor participation and encourage people who would otherwise have little interest in museums to attend. However, attracting more visitors does not necessarily mean that museums are fulfilling their true purpose. If entertainment becomes the main focus, museums may gradually resemble commercial leisure venues rather than institutions dedicated to knowledge and culture. As a result, their unique role in society could be weakened.

支持以娱乐为导向的博物馆的人认为，让展览更有趣可以吸引更多的年轻人。例如，互动游戏、多媒体演示和虚拟现实体验往往能让儿童和青少年觉得参观博物馆更有吸引力。这些方法可以增加游客的参与度，并鼓励那些原本对博物馆没什么兴趣的人前来参观。然而，吸引更多游客并不一定意味着博物馆正在实现其真正的目的。如果娱乐成为主要焦点，博物馆可能会逐渐变得像商业休闲场所，而不是致力于知识和文化的机构。因此，它们在社会中独特的角色可能会被削弱。

Education, by contrast, should remain the central mission of museums. Museums are responsible for preserving historical artefacts, cultural traditions and scientific achievements for future generations. They provide opportunities for people to learn about the past, understand the present and develop a deeper appreciation of human knowledge. For instance, history museums help citizens understand important national events, while science museums introduce complex scientific concepts to the general public. Consequently, museums perform an irreplaceable educational role that cannot be fully replicated by schools, books or entertainment platforms.

相比之下，教育应该仍然是博物馆的核心使命。博物馆有责任为后代保存历史文物、文化传统和科学成就。它们为人们提供了学习过去、理解现在、并对人类知识产生更深刻欣赏的机会。例如，历史博物馆帮助公民理解重要的国家事件，而科学博物馆则向公众介绍复杂的科学概念。因此，博物馆扮演着不可替代的教育角色，这是学校、书籍或娱乐平台无法完全复制的。

In conclusion, although enjoyable exhibitions may attract more young visitors, entertainment should not define the purpose of museums. Their primary responsibility is to educate society and preserve valuable knowledge. Therefore, I believe that museums should focus on education rather than entertainment.

总之，尽管有趣的展览可能会吸引更多年轻游客，但娱乐不应定义博物馆的目的。它们的首要责任是教育社会和保存有价值的知识。因此，我认为博物馆应该专注于教育而非娱乐。

10、预算

Some people say government should givehealth care the first priorities, some othersbelieve there are more important prioritiesto spend the tax payers' money. Discussboth views and give

your opinion.

一些人认为政府应该把医疗保健放在首位，另一些人则认为纳税人的钱有更重要的优先事项需要花费。讨论这两种观点并给出你的意见。

🍊 写作立场：医疗优先

我认为，政府应当优先将税收用于医疗保健领域，因为健康是所有社会活动和经济发展的基础。

逻辑链分析：

主体段 1

提出观点：医疗保健应成为政府最优先的支出领域。

合理性推断：没有健康的人口，教育、就业和经济活动都难以正常进行。

扩展延伸：医疗服务不仅治疗疾病，还能提升整体劳动力质量。

结果分析：因此，医疗投入能够为社会发展提供基础保障。

主体段 2

提出观点：一些人认为教育或基础设施更值得优先投资。

举例：例如，新学校和交通系统能够促进长期经济增长。

反面假设：然而，如果公众健康状况持续恶化，这些投资的效果将大打折扣。

结果分析：因此，其他领域的重要性并不足以超过医疗保健。

Some people argue that governments should give healthcare the highest priority when allocating taxpayers’ money, while others believe that public funds should be directed towards other important areas. I believe that healthcare deserves the highest priority because it forms the foundation of both individual well-being and national development.

一些人认为，政府在分配纳税人的钱时，应该把医疗保健作为最高优先事项，而另一些人则认为，公共资金应该投向其他重要领域。我认为医疗保健理应获得最高优先权，因为它构成了个人福祉和国家发展的基础。

Healthcare should be prioritized because a healthy population is essential for the functioning of society. It is reasonable to argue that without good health, people are unable to study effectively, work productively or contribute fully to the economy. Moreover, modern healthcare systems do far more than treat illnesses. They help prevent diseases, improve life expectancy and maintain a capable workforce. When citizens have access to high-quality medical services,

they are more likely to remain active and productive throughout their lives. As a result, investment in healthcare generates benefits that extend beyond individuals and support broader social and economic development.

医疗保健应该被优先考虑，因为健康的人口对于社会的运转至关重要。有理由认为，没有良好的健康，人们就无法有效地学习、高效地工作，也无法为经济做出充分贡献。此外，现代医疗保健系统所做的远不止治疗疾病。它们有助于预防疾病、提高预期寿命，并维持一支有能力的劳动力队伍。当公民能够获得高质量的医疗服务时，他们更有可能在一生中保持活跃和高效。因此，对医疗保健的投资所产生的效益会超越个人层面，并支持更广泛的社会和经济发展。

Some people nevertheless believe that areas such as education or infrastructure should receive greater funding. For example, improving schools can enhance workforce skills, while transportation projects may stimulate economic growth and facilitate business activity. These investments are undoubtedly valuable. However, if public health deteriorates and large numbers of people suffer from illness, the effectiveness of such projects will be significantly reduced. A modern transport system provides limited benefits if workers are unable to use it efficiently due to poor health, and educational opportunities become less meaningful when students face serious health problems. Therefore, although other sectors are important, their success ultimately depends on a healthy population.

然而，有些人认为教育或基础设施等领域应该获得更多的资金。例如，改善学校可以提高劳动力的技能，而交通项目可以刺激经济增长并促进商业活动。这些投资无疑很有价值。但是，如果公共卫生状况恶化，大量人口患病，这些项目的有效性将大大降低。如果工人因健康状况不佳而无法有效使用现代化的交通系统，那么该系统带来的好处将是有限的；而当学生面临严重的健康问题时，教育机会也会变得不那么有意义。因此，尽管其他领域很重要，但它们的成功最终取决于健康的人口。

In conclusion, while education and infrastructure contribute greatly to national progress, healthcare should remain the top priority for government spending. Since public health underpins economic productivity, social stability and quality of life, investing in healthcare is the most effective use of taxpayers’ money.

总之，虽然教育和基础设施对国家进步贡献巨大，但医疗保健仍应是政府支出的首要优先事项。由于公共卫生是经济生产力、社会稳定和生活质量的基础，投资于医疗保健是纳税人资金最有效的使用方式。

11、高薪

Some people think it is a good thing for senior managers to have much higher salaries than the other workers in a company. To what extent do you agree or disagree?

一些人认为公司高管的薪水远高于其他员工是件好事。你在多大程度上同意或不同意？

🍊 **写作立场：部分同意**

我部分同意但部分同意高级管理者与普通员工之间存在一定薪资差距，但我不认为这种差距应该过大。合理的薪酬差异能够反映责任和能力的不同，而过高的收入差距则可能带来负面影响。

逻辑链分析：

主体段 1

提出观点：高级管理者获得更高薪资具有一定合理性。

扩展延伸：他们需要承担重大决策责任，并直接影响企业发展。

举例：例如，错误的战略决策可能给公司造成巨额损失。

结果分析：因此，更高薪资可以体现其责任和专业能力。

主体段 2

提出观点：然而，管理层与普通员工之间过大的收入差距并不可取。

合理性推断：企业的成功通常依赖全体员工共同努力，而非少数管理者。

反面假设：如果薪资差距过大，员工可能产生不公平感并降低工作积极性。

结果分析：因此，过高的薪酬差异可能损害企业内部凝聚力和长期发展。

Some people believe that it is beneficial for senior managers to earn significantly higher salaries than other employees within a company. While I accept that managers should be paid more because of their responsibilities, I do not believe that extremely large salary differences are justified.

一些人认为，高级管理人员的薪水远高于公司内其他员工是有益的。虽然我承认，由于管理者的责任，他们应该获得更高的薪酬，但我认为极大的薪资差距是不合理的。

There are several reasons why senior managers deserve higher salaries than ordinary workers. Their decisions often have a substantial impact on a company’s performance, profitability and long-term strategy. In addition, they are responsible for managing large teams, allocating resources and responding to complex business challenges. For example, a poor strategic decision made by a senior executive could result in significant financial losses for an entire organization. As a result, higher salaries can be seen as appropriate compensation for the level of responsibility, expertise and pressure associated with such positions.

高级管理人员理应比普通员工获得更高薪水，有几个原因。他们的决策往往对公司的业绩、盈利能力和长期战略产生重大影响。此外，他们负责管理大型团队、分配资源以及应对复杂的商业挑战。例如，高管做出的一个糟糕的战略决策可能导致整个组织遭受重大的财务损失。因此，更高的薪水可以看作是对这些职位所附带的责任水平、专业知识和压力给予的合理补偿。

However, excessively large pay gaps between managers and other employees can create serious problems. It is reasonable to argue that a successful company depends not only on its leaders but also on the efforts of ordinary workers who contribute to daily operations. If senior managers receive salaries that are many times higher than those of other staff, employees may feel undervalued and treated unfairly. In such circumstances, motivation and loyalty could decline, reducing productivity and damaging workplace relationships. Furthermore, large income disparities may encourage a culture in which rewards are concentrated among a small group of individuals rather than shared more fairly across the workforce. Consequently, excessive salary differences may weaken both employee morale and long-term organizational stability.

然而，管理者与其他员工之间过大的薪资差距可能会引发严重问题。有理由认为，一家成功的公司不仅依赖于其领导者，也依赖于那些为日常运营做出贡献的普通员工的努力。如果高级管理人员的薪水是其他员工的许多倍，员工可能会感到自己不被重视，受到不公平对待。在这种情况下，工作积极性和忠诚度可能会下降，从而降低生产力并损害职场关系。此外，巨大的收入差距可能会助长一种将奖励集中在少数人手中，而不是在整个劳动力队伍中更公平地分享的文化。因此，过度的薪资差异可能会削弱员工的士气以及组织的长期稳定性。

In conclusion, although senior managers should receive higher salaries due to their greater responsibilities, the gap between their earnings and those of ordinary workers should remain reasonable. A balanced pay structure is more likely to promote fairness, motivation and sustainable business success.

总之，尽管高级管理人员因其更大的责任而应获得更高的薪水，但他们与普通员工之间的收入差距应保持在合理范围内。一个平衡的薪酬结构更有可能促进公平、积极性和可持续的商业成功。

12、工作选择

When choosing a job, the salary is the most important consideration. To what extent do you agree or disagree?

在选择工作时，薪水是最重要的考虑因素。你在多大程度上同意或不同意？

🍊 写作立场：不同意

我不同意薪资是选择工作时最重要的考虑因素。虽然收入对于维持生活十分重要，但职业发展机会和工作满意度对个人的长期发展同样甚至更加关键。

逻辑链分析：

主体段 1

提出观点：薪资确实是人们选择工作时的重要因素之一。

举例：例如，较高收入能够帮助人们支付住房、教育和日常生活开支。

结果分析：然而，薪资只能满足物质需求，并不能决定职业发展的全部价值。

合理性推断：因此，将薪资视为唯一或最重要标准过于片面。

主体段 2

提出观点：职业发展空间和工作满意度往往更加重要。

扩展延伸：良好的工作环境和成长机会能够持续提升个人能力。

举例：例如，一份起薪较低但培训完善的工作可能带来更好的长期前景。

结果分析：因此，人们在选择职业时应关注长期发展而不仅是短期收入。

Some people believe that salary is the most important factor when choosing a job. Although income is undoubtedly an important consideration, I disagree with the view that it should be regarded as the most important one. Other factors, such as career development and job satisfaction, often have a greater influence on long-term success and well-being.

一些人认为，薪水是选择工作时最重要的因素。虽然收入无疑是一个重要的考量因素，但我不同意它应该被视为最重要的因素。其他因素，如职业发展和工作满意度，往往对长期的成功和幸福感有更大的影响。

There is no doubt that salary plays a significant role in employment decisions. A higher income enables people to meet their basic needs, support their families and enjoy a better standard of living. For example, individuals with well-paid jobs are generally in a stronger position to afford housing, education and healthcare. These benefits are particularly important in societies where living costs are high. However, financial rewards alone do not determine the overall value of a job. A position that offers an attractive salary may still be unsuitable if it provides little opportunity for growth or creates excessive stress. Therefore, judging a job primarily by its salary can lead to short-sighted decisions.

毫无疑问，薪水在就业决策中扮演着重要角色。更高的收入使人们能够满足基本需求、养家糊口并享受更高的生活水平。例如，拥有高薪工作的人通常更有能力负担住房、教育和医疗。在生活成本高的社会中，这些好处尤其重要。然而，仅仅经济回报并不能决定一份工作的整体价值。一份提供诱人薪水的工作，如果几乎没有成长空间或造成过度的压力，可能仍然是不合适的。因此，主要根据薪水来判断一份工作可能会导致短视的决策。

In my view, career prospects and job satisfaction deserve greater attention. A job that offers training, promotion opportunities and skill development can create long-term benefits that outweigh immediate financial gains. Moreover, people spend a large proportion of their lives at

work, making personal fulfilment and a positive working environment essential. For instance, many graduates willingly accept lower starting salaries in organizations that provide strong professional development programs because they recognize the long-term advantages. As a result, such positions often lead to greater career success and higher earnings in the future.

在我看来，职业前景和工作满意度更值得关注。一份提供培训、晋升机会和技能发展的工作，可以创造超越眼前经济收益的长期利益。此外，人们一生中有很大一部分时间在工作，因此个人成就感和积极的工作环境至关重要。例如，许多毕业生心甘情愿地接受提供强大专业发展计划的组织中较低的起薪，因为他们认识到了长期的优势。因此，这样的职位往往会带来未来更大的职业成功和更高的收入。

In conclusion, while salary is an important factor when choosing a job, it should not be considered the most important one. Long-term career development and personal satisfaction often have a more significant impact on an individual’ s future. Therefore, people should evaluate employment opportunities from a broader perspective rather than focusing solely on income.

总之，虽然薪水是选择工作时的一个重要因素，但它不应被视为最重要的因素。长期的职业发展和个人满意度往往对个人的未来有着更显著的影响。因此，人们应该从更广阔的角度评估就业机会，而不是仅仅关注收入。

13、学校or社区

The governments should spend money inpromoting sport and art in school, ratherthan sponsoring professional sports and artevents in communities. To what extent do you agree or disagree?

政府应该把钱花在促进学校的体育和艺术上，而不是资助社区的专业体育和艺术活动。你在多大程度上同意或不同意？

🍊 写作立场：同意

我同意政府应优先将资金投入学校中的体育和艺术教育，而不是将大量公共资金用于资助社区中的职业体育和艺术活动。因为学校教育能够让更多人受益，并产生更长期的社会价值。

逻辑链分析：

主体段 1

提出观点：政府投资学校体育和艺术教育能够惠及更广泛的人群。

合理性推断：几乎所有儿童都会接受学校教育，因此资金覆盖面更广。

扩展延伸：学生能够从小培养运动习惯和艺术素养。

结果分析：因此，这类投入能够对社会产生长期而持续的积极影响。

主体段 2

提出观点：一些人认为政府应资助职业体育和艺术活动。

举例：例如，大型体育赛事和艺术演出能够吸引观众并促进地方经济。

反面假设：然而，如果大部分资金流向少数职业项目，普通学生获得的发展机会将被压缩。

结果分析：因此，这类投资的受益范围相对有限，不应成为政府支出的重点。

Some people believe that governments should spend more money promoting sports and art in schools rather than sponsoring professional sporting and artistic events in local communities. I agree with this view because investment in schools benefits a much larger proportion of society and produces long-term advantages.

一些人认为，政府应该花更多钱在学校推广体育和艺术，而不是资助社区中的专业体育和艺术活动。我同意这一观点，因为对学校的投资惠及社会中更广泛的人群，并能产生长期的优势。

Government funding for sports and arts education in schools can have a significant impact on young people. It is reasonable to argue that schools provide access to nearly all children regardless of their family background. As a result, public investment in school facilities, equipment and educational programs can benefit a broad section of society. Furthermore, participation in sports and artistic activities from an early age helps students develop important skills such as teamwork, creativity and self-discipline. These experiences can also encourage lifelong interests in physical activity and cultural engagement. Therefore, supporting sports and arts within the education system can generate lasting benefits for both individuals and society.

政府对学校体育和艺术教育的投入可以对年轻人产生重大影响。有理由认为，学校几乎能为所有儿童提供接受机会，无论他们的家庭背景如何。因此，对学校设施、设备和教育项目的公共投资可以使社会的广泛阶层受益。此外，从小学龄阶段参与体育和艺术活动有助于学生培养重要的技能，如团队合作、创造力和自律。这些经历也可以鼓励他们对体育活动和艺术参与产生终身的兴趣。因此，在教育体系中支持体育和艺术可以为个人和社会带来持久的益处。

Some people nevertheless argue that governments should allocate more resources to professional sports competitions and artistic events in communities. For example, major sporting tournaments and cultural festivals may attract tourists, generate economic activity and provide entertainment for local residents. While these outcomes are valuable, they primarily benefit a relatively limited group of participants and spectators. If governments devote too much funding to professional events, fewer resources will remain available for schools, where

the impact is often much broader. In that situation, many young people could lose opportunities to develop their talents and interests. Consequently, prioritizing professional events over school programs may reduce the long-term effectiveness of public spending.

然而，一些人认为政府应该分配更多资源给社区中的专业体育比赛和艺术活动。例如，大型体育赛事和文化节可能会吸引游客、带动经济活动，并为当地居民提供娱乐。虽然这些成果很有价值，但它们主要惠及相对有限的参与者和观众群体。如果政府将过多的资金投入到专业活动中，那么能够用于学校的资源就会减少，而学校的影响力往往要广泛得多。在这种情况下，许多年轻人可能会失去发展自己才能和兴趣的机会。因此，将专业活动优先于学校项目，可能会降低公共支出的长期有效性。

In conclusion, although professional sports and artistic events can contribute to local economies and cultural life, government funding should focus primarily on schools. Since school-based programs reach a larger population and provide long-term educational benefits, they represent a more effective use of public resources. Therefore, I believe governments should prioritize promoting sports and art in schools rather than sponsoring professional events.

总之，尽管专业体育和艺术活动可以为当地经济和文化生活做出贡献，但政府资金应主要集中在学校上。由于以学校为基础的项目能够覆盖更多人群并提供长期的教育效益，它们代表了公共资源更有效的使用方式。因此，我认为政府应优先考虑在学校推广体育和艺术，而不是赞助专业活动。

14、成人教育

Education of young people is highly prioritized in many countries. However, educating adults who cannot write or read is even more important and governments should spend more money on this. To what extent do you agree or disagree?

许多国家高度重视年轻人的教育。然而，教育那些不会读写的成年人更加重要，政府应该在这方面花更多的钱。你在多大程度上同意或不同意？

🍊 写作立场：不同意

我不同意政府应该把更多资金投入成人扫盲教育而不是青少年教育。虽然帮助不识字的成年人十分重要，但青少年教育能够影响更多人，并对社会发展产生更长期的回报，因此仍应获得更高优先级。

逻辑链分析：

主体段 1

提出观点：政府应继续优先投资青少年教育。

扩展延伸：儿童和青少年正处于知识与能力形成的关键阶段。

合理性推断：在这一阶段进行教育投入往往能够获得更长期、更广泛的回报。

结果分析：因此，优先保障年轻人的教育有助于提升国家未来竞争力。

主体段 2

提出观点：当然，成人扫盲教育同样具有重要价值。

举例：例如，识字能力能够帮助成年人获得更好的就业机会并提高生活质量。

让步反驳：然而，受益群体通常较小，而且教育效果往往不如青少年阶段显著。

结果分析：因此，政府可以提供支持，但没有必要将其置于青少年教育之上。

Many countries place a high priority on educating young people. However, some argue that governments should spend even more money on educating adults who cannot read or write. While adult literacy programs are undoubtedly important, I disagree with the view that they deserve greater funding than the education of young people.

许多国家高度重视对年轻人的教育。然而，一些人认为政府应该花更多的钱去教育那些不会读写的成年人。虽然成人扫盲项目无疑很重要，但我不同意它们应该比年轻人教育获得更多资金的观点。

Governments should continue to prioritize the education of children and teenagers because this stage of life has the greatest influence on future development. Young people are still building their knowledge, skills and values, making education particularly effective during these formative years. Furthermore, investing in schools helps prepare future workers, professionals and leaders who will contribute to economic growth and social progress. It is reasonable to assume that the benefits of educating young people extend over several decades, generating long-term returns for both individuals and society. As a result, prioritizing youth education is one of the most effective ways for governments to strengthen national development.

政府应该继续优先考虑儿童和青少年的教育，因为这个人生阶段对未来发展的影响最大。年轻人仍在构建他们的知识、技能和价值观，这使得教育在他们性格形成时期尤为有效。此外，投资于学校有助于培养未来的工人、专业人士和领导者，他们将推动经济增长和社会进步。有理由认为，教育年轻人的收益会持续数十年，为个人和社会带来长期回报。因此，优先发展青少年教育是政府加强国家发展的最有效途径之一。

Admittedly, adult literacy programs also play an important role. For example, learning to read and write can improve employment opportunities, increase confidence and help adults participate more fully in society. These benefits are especially valuable for individuals who missed educational opportunities earlier in life. However, the number of people who require basic literacy training is often smaller than the population of school-age children, and the long-term impact of such programs may be more limited. While adult education can improve individual lives, it is unlikely to influence future generations as strongly as a comprehensive

education system for young people. Therefore, although governments should support literacy initiatives for adults, there is no convincing reason to place them above youth education in terms of funding priorities.

诚然，成人扫盲项目也扮演着重要角色。例如，学习阅读和写作可以改善就业机会、增强自信心，并帮助成年人更充分地参与社会。这些益处对于那些在生命早期错过教育机会的人来说尤其宝贵。然而，需要基础识字培训的人数往往少于学龄儿童的数量，而且这类项目的长期影响可能更为有限。虽然成人教育可以改善个人生活，但它不太可能像针对年轻人的全面教育体系那样对后代产生深远影响。因此，尽管政府应该支持成人的扫盲计划，但没有令人信服的理由在资金优先级上将其置于青少年教育之上。

In conclusion, helping illiterate adults is an important social responsibility, but it should not receive greater financial support than the education of young people. Since youth education produces broader and longer-lasting benefits, governments should continue to regard it as their highest educational priority.

总之，帮助不识字的成年人是一项重要的社会责任，但它不应获得比年轻人教育更多的财政支持。由于青少年教育能产生更广泛、更持久的益处，政府应继续将其视为最高教育优先事项。

15、离家

In many countries, people need to leavetheir families and friends to find jobs inother places. Do you think the advantages outweigh the disadvantages? (科技)

在许多国家，人们为了找工作不得不离开家人和朋友。你认为这种做法的利大于弊吗？

🍊 写作立场：正面立场

我认为离乡发展可能会带来情感上的牺牲，但从长远看他给个人和家庭带来的好处远超弊端

逻辑链分析：

主体段 1

提出观点：很多人担心离家打工会造成亲情疏远

扩展延伸：离开父母、伴侣或孩子，意味着无法日常陪伴和照顾

让步反驳：然而现代通讯工具可以维系情感，现代交通也缩短了距离

扩展延伸 2：更重要的是，提高的收入反过来能改善家庭生活

主体段 2

提出观点：相比情感损失，外出打工带来的发展机会更为关键

扩展延伸：经济发达地区提供更高薪资与上升通道

举例：许多农村青年在城市打工后改善了家庭住房与孩子教育

合理性推断：留在家乡反而可能限制个人潜力与经济贡献

In today’ s globalized economy, it is increasingly common for individuals to leave their families and hometowns in pursuit of better employment opportunities. While this choice can bring emotional sacrifices, I believe that the long-term advantages for both individuals and their families often outweigh the drawbacks.

在当今全球化的经济环境中，人们为了追求更好的就业机会而离开家人和家乡的情况越来越普遍。虽然这一选择可能会带来情感上的牺牲，但我认为，从长远来看，它给个人和家庭带来的好处往往超过其弊端。

Many people worry that working far from home may lead to weakened family ties. Indeed, being away from parents, children, or a spouse can mean missing out on daily support and shared experiences. However, modern communication tools such as video calls and instant messaging allow families to stay emotionally connected despite the distance. Furthermore, improvements in transportation have made returning home during holidays or weekends far more convenient. More importantly, the income earned by working in more developed areas can significantly improve the living conditions of one's family, such as better housing, education, and healthcare.

许多人担心在离家很远的地方工作可能会导致家庭关系变淡。的确，远离父母、孩子或配偶可能意味着无法获得日常的支持，也会错过共同的生活经历。然而，视频通话和即时通讯等现代通讯工具让家人即便相隔遥远，也能保持情感上的联系。此外，交通条件的改善也让人们在节假日或周末回家变得方便多了。更重要的是，在更发达的地区工作所赚取的收入能显著改善家人的生活条件，比如更好的住房、教育和医疗。

More importantly, the opportunities brought by working away from home often outweigh the emotional costs.Developed cities typically offer higher salaries, broader job markets, and clearer promotion paths, enabling individuals to build better careers and achieve financial independence.For instance, many young workers from rural areas move to cities like Shanghai or Shenzhen, where they not only earn more but also save enough to improve their family’ s housing conditions and provide better education for their children.In contrast, if they remained in their hometowns, they might be stuck in low-paying and unstable jobs, limiting both their personal growth and the financial support they can offer their families.

更重要的是，离家工作带来的机会往往超过了情感上的代价。发达城市通常能提供更高的薪资、更广阔的就业市场和更清晰的晋升路径，使人们能够打造更出色的职业生涯并实现经济独立。例如，许多来自农村地区的年轻劳动者搬到上海、深圳等城市，他们在那里不仅能赚更多的钱，还能攒下足够的

钱来改善家人的住房条件，为孩子提供更好的教育。相反，如果他们留在老家，可能会被困在低收入且不稳定的工作中，这既会限制个人发展，也会影响他们能为家人提供的经济支持。

In conclusion, although leaving one’ s family for work brings emotional challenges, the financial rewards and personal growth it provides often make it a worthwhile and even necessary decision for many individuals.

总之，尽管为了工作离开家人会带来情感上的挑战，但它所带来的经济回报和个人成长往往使这一决定对许多人来说是值得的，甚至是必要的。
