大小作文急救模板

【学习提示】

视频讲解旨在帮助大家理解模板的核心思路和套用方法。模板本身会持续优化更新，因此视频内容可能与最新版模板有细微差异。这不影响学习，请大家在理解思路的基础上，使用最新版模板。

模板使用方法

先花10分钟整体扫一眼文档的全貌再开始背诵，不要刚上来就闷头开背。特别是要把具体模板以外的讲解内容大致看一下。

小作文：在考场上，数据图先把通用框架打出来，然后主体内容使用自己组建的简单句；再根据情境选用模板句和高分表达；流程图地图直接选择一个起始点，然后用模板按顺序完成

大作文：在考场上**根据题型和题干话题把要填的词写作草稿纸上**，然后边写模板边填词

- 一个小注意点：灵活使用模板，只要能让答案更顺，模板可以随意修改
- 先写大作文再写小作文

👽 PS：

剔除全部辅助内容，大小作文的纯模板内容一共4页

不要觉得模板内容很多，以PDF版本为例，大作文模板位于第8页至第14页；小作文模板位于第37页至第39页。为了保护版权，下边的内容不让放大看，具体页码就看这句话⬆️，飞书版本直接跳转小标题（2.大作文模板、3.小作文3组模板），网盘版本按照页码去找，纯模板内容就是4页篇幅，只是带上了汉语翻译，所以页数变多，下边不让放大看的内容就是用来展示纯模板内容篇幅。

📗首先模板**不是必须一字不差的全部写上去才给分**，而是只要用了一句就提一句的分，所以不要强制自己必须背多少框架才能写，这个本身就没有必要

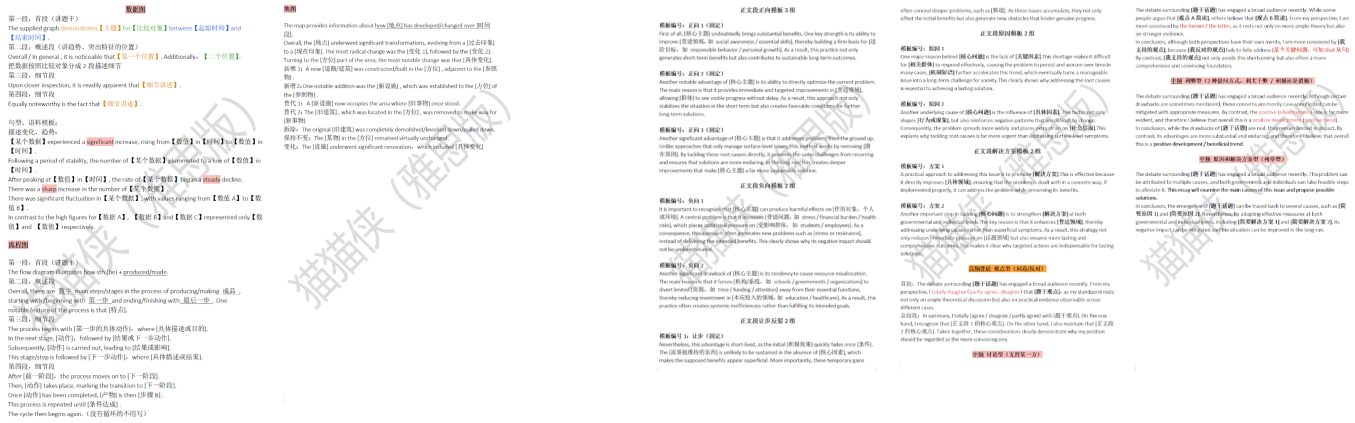

📘其次，每个模板组都有逻辑链和观点方向，同学根据自己的实际情况，觉得缺什么样的内容就去背对应的即可，即便不背，只使用模板的观点思考方法和逻辑链思路也能提分。有背很多内容全部套用出分的，也有只背了一些内容用好出分的，也有只学了模板的逻辑和观点角度出分的，所以**不要限制自己的可能性**。

📒我们的最终目的是使用模板超越当前水平，不是背诵，所以背诵是手段，**不需要也没有必要追求全背或者全看**。无论时间怎么样，不存在背不完的问题，因为**背多少用多少，用了就能提一些分**。

这11页内容中还包含了模板的中文翻译、为了保证文档美观而做的一些格式框、一些备注说明。如果剔除这些内容，大作文和小作文的纯模板内容加起来大约只有**4页左右**的内容。也就是说，所有需要背诵的核心模板加起来总共只有4页。

- 大作文只有**2页半**，小作文只有**1页半**，合计4页
- 想只看模板的同学，自行在线查看或打印附带汉语的模板即可，大家背诵肯定也要用到汉语辅助
- 这4页内容一旦允许放大截图或者下载，将出现许多低成本传播的盗版内容，为保证正版同学的权益，所以**不允许下载或放大查看**（**这一点大家不需要再找我确认**）
- 截止目前，已清理15个闲鱼盗版，合作律所将直接起诉

附带讲解、翻译和范文的此文档支持下载和打印。（此文档指的是大家现在正在看的这份完整版文档，打印就直接下载网盘版本）

0.引入：急救模板与系统速成（本节阅读时间约5分钟，着急考试的同学可跳过本节）

写作评分

雅思写作有4项小分，考官的实际评分也是每一篇文章的每一项小分给出一个结果，4个结果取平均得到大作文和小作文的各自分数，再加权平均

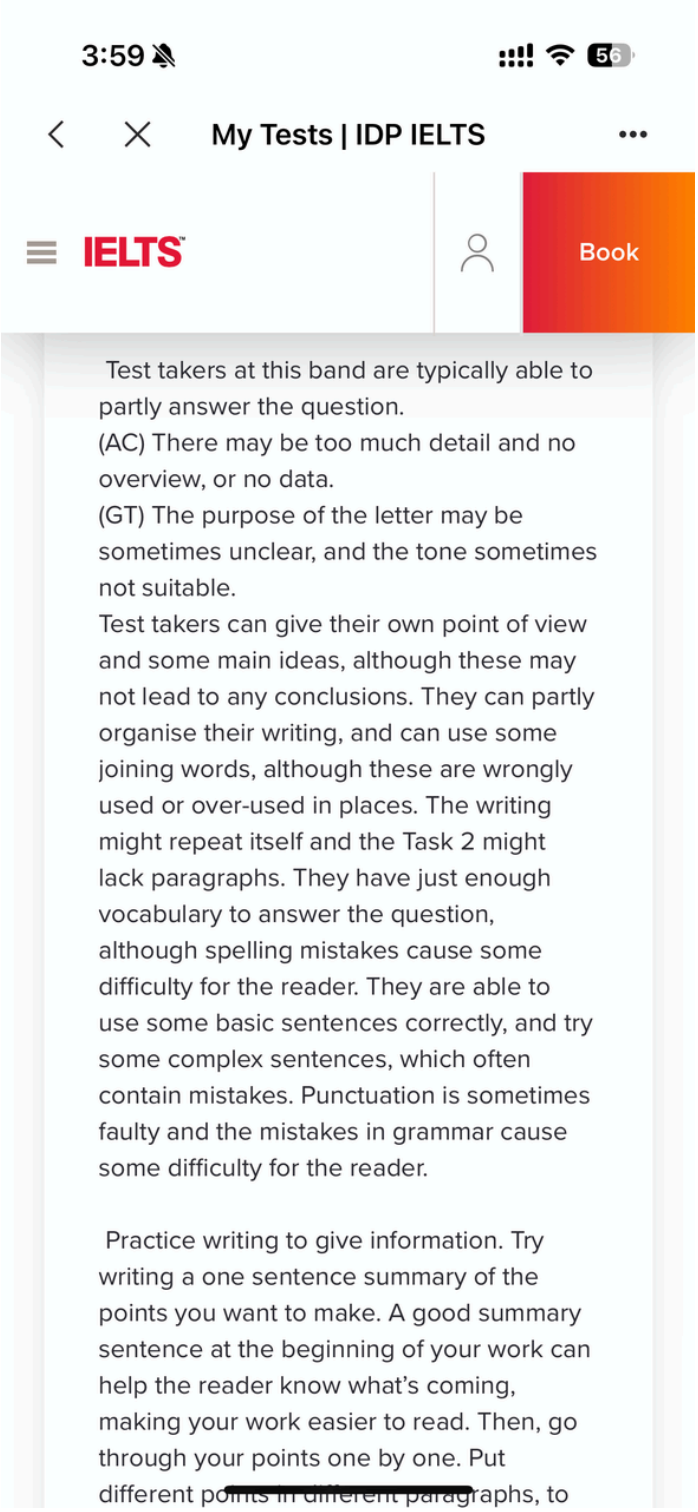

（TA）任务完成情况：是否完全回答了题目要求，观点是否清晰、有逻辑

（CC）连贯与衔接：段落划分是否合理，句子之间、段落之间的连接是否自然、流畅

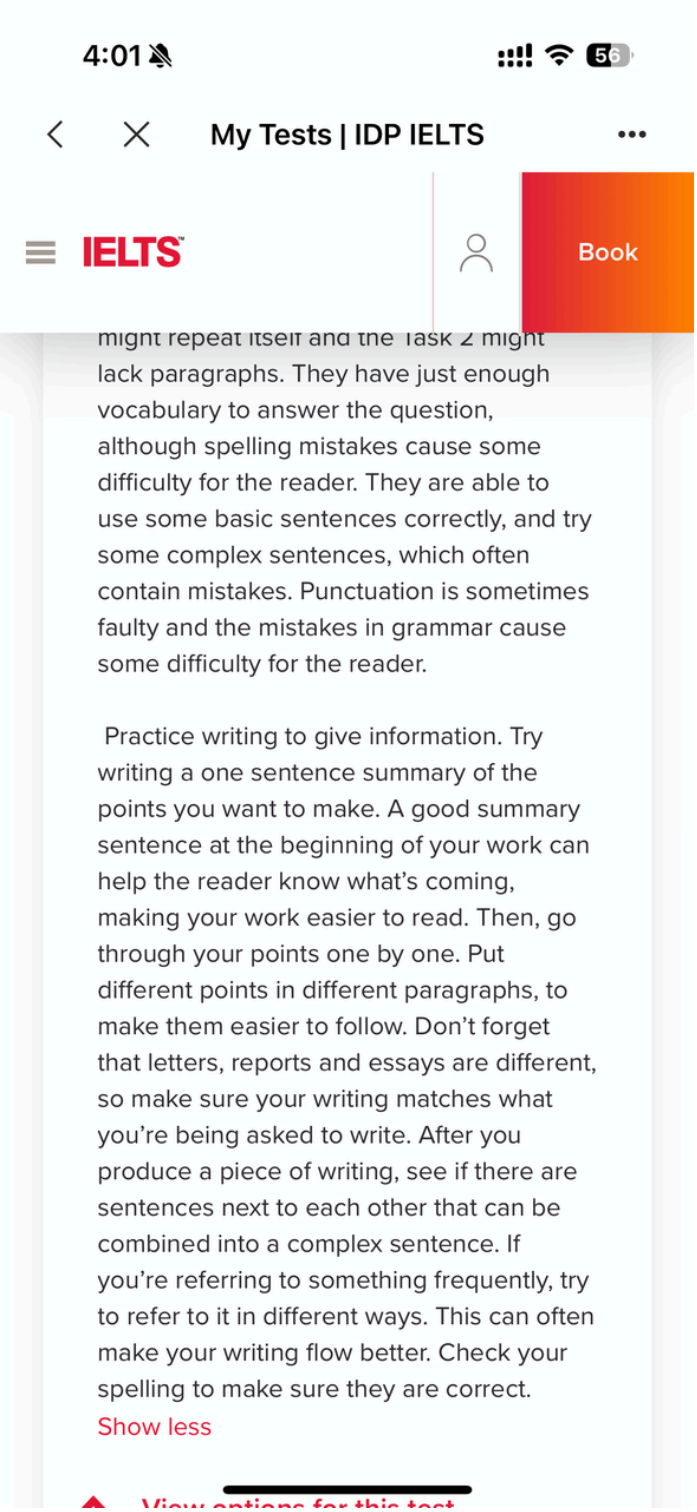

（LR）词汇丰富度：词汇的多样性、恰当性和准确性

（GRA）语法多样性及准确性：语法结构的复杂性、恰当性和准确性

下面是一位5-5.5分分段的同学拿到的官方评价，可以看出考官究竟是如何评价一篇文章的。（国内基本都是BC考场，所以绝大部分同学拿不到这个反馈，但***评分思路都是这套***）

看不懂没关系，下面就是翻译↓

看不懂没关系，下面就是翻译↓

把考官的评价总结整合，可以写成4句话 ↓

TA（任务回应）：有论述，但没有明确的论述结构和结论

CC（逻辑衔接）：有连接词，但部分连接词使用不当；相同内容重复说；分段错误

LR（词汇）：有一定的词汇储备，但有很多拼写错误，用词不当

GRA（语法）：有尝试使用复杂句，但语法有很多错误

按照官方打分的标准，正常一位5.5分的同学，在四项评分的得分都会是5.5左右。

急救模板提分的方法，是 “使用固定逻辑的句型框架” 套用题目，再根据题干 “独立填充观点” ，这种做法对于四项评分各自有不同的影响，举例来说：

> TA（任务回应）：本来小白想思考出观点就非常困难，模板还会把全文的逻辑框架定死，思考观点的方向被进一步压缩，因此**TA得分会比不用模板还低 0.5-1**
>
> CC（逻辑衔接）：由于模板的逻辑衔接全部是固定的，因此衔接不会出错，但由于**观点和模板的逻辑不完全对应**，逻辑衔接也不会很出彩，**可能比不用模板得分低0.5，或与不使用模板得分一致**
>
> LR（词汇）：模板大量使用高分词汇，**因此这项加大分，比不使用模板高1-1.5**
>
> GRA（语法）：模板大量使用复杂句，**因此这项加大分，比不使用模板高1-1.5**

所以模板法提分的本质：通过让 ***TA 扣大分***，***CC基本不变***，***LR 和 GRA 加大分***，来提升总平均分，进而快速提分（1-2天）。

而系统速成，是把***每一项得分都快速提升到速成的极限，没有短板的快速提分***。因此，花费时间稍长（3-5天）但效果更好，并且可以顺畅的衔接冲7+的学习（长时间高目标的系统备考）。

> **系统速成中所有需要积累和背诵的内容，强度都比急救模板更低**
>
> 简要概括一下系统速成
>
> 小作文系统速成：TA、CC 看📘数据图逻辑数量快速提分（此文档只需要理解，没有背诵内容）—— LR、GRA看📕小作文表达速成+语料积累（替换词和句型都已经整理好）
>
> 小作文拔高：目标7+加学语法讲解📓如何写出小作文高分表达，再多积累和训练
>
> 大作文系统速成：TA 看📗大作文观点模板逻辑链的观点思考方法+逻辑链讲解（只需要理解，没有背诵内容）—— CC看📗大作文观点模板逻辑链的模板内容（选择性记忆逻辑框架）—— LR、GRA看📘大作文替换词+句型（适量积累）—— 📚考前预测适当训练
>
> 大作文拔高：选看📒浓缩版观点库+📓60篇大作文真题观点库（积累观点、逻辑链、句型和词汇），再多训练

另外急救模板和系统速成不是割裂的，**急救模板的学习可以和系统速成衔接起来**：

- 在小作文方面，急救模板的学习可以替代部分📕小作文表达速成+语料积累；
- 在大作文方面，急救模板的学习可以替代部分📗大作文观点模板逻辑链的模板内容 —— LR、GRA看📘大作文替换词+句型

通过上边的讲解，大家应该理解了急救模板的问题——**“快，但不稳”**

下面我来详细解释下问题的成因。

举一个很恰当的例子：

1. 给雅思大作文题目设计回答框架就像是为不同形状的物体烧制模具
2. 每一道大作文题目的形状都是不同的，所以配适它们的模具的形状理应各不相同
3. 模板就是设计一个相同的模具去装全部题目
4. 有些题目形状与模具相近，TA得分高，甚至可能冲到7+；有些题目形状与模具差别很大，TA拉分，可能得分就在6左右
5. 在考场上边角上不切题的地方有方法可以补足，把TA分数补回一部分

这样就解释了为什么模板出分 “不稳” ，因为有运气成分在。

但模板也为新手节约了大量时间，正常完成一篇大作文需要：**构思观点、构思逻辑框架、构思句型、构思具体表达**

而***模板实现了逻辑框架、句型、半数以上具体表达的全程默写***；只有观点和少量具体表达需要独立构思，极大降低了小白的写作难度

因此，从结果来说：**对于只有1-2天且基础一般的同学，急救模板是上手最快且最高效的方法**

设置这个引入章节，只是想让大家知道，雅思写作的复习不是只有 “背模板” ， “背模板” 只是大家客观条件限制下的权宜之计。只要你的备考时间在3天及以上，我仍然建议采用 “系统速成” 的思路

1.如果你只有2-3小时学习时间

- 如果你是小白，大作文模板只看**观点型的开头结尾、正文段正向观点2组、负向观点1组、让步模板1组、解决方案1组（一共400词左右）**，这样全部题型基本都能硬套（可能不普适但一定比自己裸考好很多）；
- 小作文模板量力而行，在考场上能替换几个词，使用2-3句模板句就能明显提分；
- 如果你不是小白，选择性吸收写作框架和模板内容即可

- 如果我上边说的400词也背不完，那么**可以只背一段，考场上使用了就提分了**，不是必须像我的极限展示一样，一篇文章用上所有的模板，**我们的目的是快速提分，不是把内容都背完**。

> 我知道同学可能担心，自己写内容的语法和表达不好。
>
> 但任何只需要填词的模板，如果时间真的紧急，一字不差的背完也不现实。我们要做的是优先学习语文逻辑的逻辑链，按照逻辑链写自己的表达就能快速提分。同时适当使用急救模板的部分句型替换自己的简单表达就能再提分。
>
> 这是因为雅思写作是逻辑和表达分别评分的，先抓速成的逻辑和观点思路，再适当提升具体表达，不要抓着表达不放，表达很难速成，但是短期提升是可以的，只是替换部分表达。

2.大作文模板

大作文分为观点型、讨论型、利弊型、原因与解决方案型、其他低频**五类题型**

区分5类题型主要看提问方式：

1. 观点型是直接问你的看法：例如 do you agree（总之就是问你是否同意）
2. 讨论型是让你讨论双方观点：例如 discuss both view（重点在于题干中的discuss）
3. 利弊型是让你分析影响：例如 advantage 和 disadvantage（你认为是利大于弊吗？你认为这件事会带来积极影响还是消极影响？）
4. 原因与解决方案型会提出2个问题，分析原因和提出方案：例如 why ... 、how ...
5. 混合型出现概率较低，近期有 原因影响 、特殊利弊 这两类

统计了25道近期机经（真实出现的考题），其中：

观点型9道

讨论型5道

利弊型5道

原因解决方案4道

其他低频：原因影响1道

其他低频：特殊利弊1道

因此，“其他低频”的模板我也会整理，但是急救同学重点看前4种较为高频的题型。并且此统计数据只代表概率，一些同学总是不可避免的会遇到 “低频题型” ，如果没有准备对应的

模板，建议活用前边的模板内容。不要想短时间复习完全部题目，因为**速成不可能全面，这句话是绝对的。**

所有题型的大作文**基本结构全部相同**：**1段首段、2段正文段、1段总结段**

因为基本结构相同，所以**全部题型的一些段落模板会合并通用，不能合并通用的部分也会尽可能使用类似的词汇和表达**

编制思路：

开头和结尾段模板化程度高，并且属于不重要的内容，因此直接背固定内容也不会判低分

但正文段对逻辑性要求极高。因此一个正文段分成2个子观点，这样可以尽可能降低每个观点的论述逻辑链长度。毕竟逻辑链越长，变数越大。

子观点围绕“主题”编制

模板结构

- 首段：每个题型都有对应的开头模板
- 正文段：正文段模板有**9组**；**每1组模板都是对1个观点的完整呈现和延伸**；**2组模板组成1个正文段**；**9组正文段模板串完全部题型**
- 总结段：每个题型都有对应的总结段模板

正文段模板：正向、负向、让步反驳、措施、原因

- 正向：分析好处、优势、支持理由
- 负向：分析缺点、劣势、反对理由
- 让步反驳正向观点：对正向观点提出反驳理由
- 措施：解决某一个问题或现象的方案
- 原因：分析原因

正文段正向模板3组

模板编号：正向1

- **观点——扩展延伸——结果分析（个人角度出发）**

First of all, **【核心主题】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【普适领域】**, thereby building a firm basis for **【进阶目标】**. As a result, this practice not only generates short-term benefits but also contributes to sustainable long-term outcomes.

首先，【核心主题】 无疑能带来显著的好处。一个关键的优势是，它能够提升【普适领域，如社会意识/必要技能】，从而为【进阶目标，如负责任的行为/个人成长】奠定坚实的基础。结果是，这种做法不仅带来短期效益，还为长期的可持续成果作出了贡献。

模板编号：正向2

- **观点 → 扩展延伸 → 结果分析（社会角度出发）（从根源和核心解决问题）**

Another significant advantage of **【核心主题】** is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing **【潜在原因】**. By tackling these root causes（前文潜在原因是单数，这里就是单数） directly, it prevents the same challenge from recurring and ensures that the solution is more enduring. In the long run, this creates deeper improvements that make **【核心主题】** a far more sustainable solution.

【核心主题】 的另一大优势在于，它能够自下而上地解决问题。与那些只处理表面现象的方法不同，这种方式通过消除【潜在原因，如缺乏教育/不平等/意识不足】来发挥作用。通过直接应对这些根源性问题，它能够防止相同的挑战再次出现，并确保解决方案更持久。从长远来看，这会带来更深入的改善，使【核心主题】成为更可持续的解决方案。

模板编号：正向3

- **观点 → 扩展延伸 → 结果分析（直接优化问题）**

Another notable advantage of **【核心主题】** is its ability to directly optimize the current problem. The main reason is that it provides immediate and targeted improvements in **【普适领域】**, allowing **【群体】** to see visible progress without delay. As a result, this approach not only stabilizes the situation in the short term but also creates favorable conditions for further long-term solutions.

【核心主题】 的另一大优势在于，它能够直接优化当前的问题。其主要原因是，它能在【普适领域，如安全/秩序/效率】方面提供立竿见影的改进，使【群体，如社区/机构】能够立即看到明显的进步。结果是，这种方法不仅在短期内稳定了局面，还为后续的长期解决方案创造了有利条件。

正文段负向模板2组

模板编号：负向1

🔹 观点——扩展延伸——结果分析（对个人的坏影响）

It is important to recognize that 【核心主题】 can produce harmful effects on 【作用对象，个人或环境】. A central problem is that it increases 【普适问题】, which places additional pressure on 【受影响群体】. As a consequence, this approach often generates new problems such as 【问题】, instead of delivering the intended benefits. This clearly shows why its negative impact should not be underestimated.

必须认识到，【核心主题】 会对【作用对象】造成不利影响。一个核心的问题是，它会加剧【普适问题，如压力/经济负担/健康风险】，从而给【受影响群体，如学生/员工】带来额外压力。结果是，这一要求往往不是带来预期的好处，反而制造出新的问题，比如【压力或抵触情绪】。这清楚地表明，其负面影响绝不应被低估。

模板编号：负向2

🔹 观点 → 扩展延伸 → 结果分析 → 总结（对社会的坏影响）

Another significant drawback of 【核心主题】 is its tendency to cause resource misallocation. The main reason is that it forces 【机构/系统】 to divert limited 【资源】 away from their essential functions, thereby reducing investment in 【本应投入的领域】. As a result, this practice often creates systemic inefficiencies rather than fulfilling its intended goals.

【核心主题】 的另一大弊端在于，它往往会导致资源错配。其主要原因是，它迫使【机构/系统，如学校/政府/组织】将有限的【资源，如时间/资金/关注点】从核心职能中分散出去，从而减少在【本应投入的领域，如教学/医疗】的投入。结果，这种做法常常带来系统性的低效，而不是实现预期的目标。

正文段让步反驳1组

模板编号：让步1

🔹 反驳正向观点（优点缺乏持久性，可以用于个人或社会）

Nevertheless, this advantage is short-lived, as the initial 【积极效果】 quickly fades once 【条件】. The 【需要被维持的东西】 is unlikely to be sustained in the absence of 【核心因素】, which makes the supposed benefits appear superficial. More importantly, these temporary gains often conceal deeper problems, such as 【弊端】. As these issues accumulate, they not only offset the initial benefits but also generate new obstacles that hinder genuine progress.

然而，它的优势是短暂的，因为最初的【积极效果】在【条件，如要求结束/外部支持撤销】后很快就会消退。【需要被维持的东西】在缺乏【核心因素】的情况下不太可能维持下去，这使得所谓的益处显得流于表面。更重要的是，这些暂时性的收获往往掩盖了更深层的问

题，比如【弊端1】。随着这些问题的累积，它们不仅抵消了最初的好处，还会制造新的障碍，从而阻碍真正的进步。

正文段原因模板2组

模板编号：原因1

- **观点——扩展延伸——结果分析（缺乏某种因素）**

One major reason behind **【核心问题】** is the lack of **【关键因素】**.This shortage makes it difficult for **【相关群体】** to respond effectively, causing the problem to persist and worsen over time.In many cases, **【机制短语】** further accelerates this trend, which eventually turns a manageable issue into a long-term challenge for society.This clearly shows why addressing the root causes is essential to achieving a lasting solution.

造成【核心问题】的一个主要原因是缺乏【关键因素】。这种不足使得【相关群体】难以及时有效地应对，从而导致问题持续存在并随着时间推移而恶化。在许多情况下，【机制短语】会进一步加剧这一趋势，最终使原本可控的问题演变为长期的社会挑战。这清楚地表明，解决根本原因对于实现持久的解决方案至关重要。

模板编号：原因2

- **观点 → 扩展延伸 → 结果分析 → 总结（某种因素的影响）**

Another underlying cause of **【核心问题】** is the influence of **【具体因素】**. This factor not only shapes **【行为或现象】**, but also reinforces negative patterns that are difficult to change. Consequently, the problem spreads more widely and places extra strain on **【社会层面】**.This explains why tackling root causes is far more urgent than addressing surface-level symptoms.

【核心问题】 的另一个深层原因是【具体因素，如经济压力/文化习惯/执法不力】的影响。这一因素不仅影响了【行为或现象】，还固化了难以改变的负面模式。因此，问题扩散得更加广泛，并给【社会层面，如社区/公共系统/经济】带来了额外压力。这也说明，解决根源性原因远比处理表面症状更为紧迫。

正文段解决方案模板2组

模板编号：方案1

- **观点——扩展延伸——结果分析（快速改良）**

Nevertheless, although the problem appears severe, it is far from unsolvable. One practical approach to addressing this issue is to promote **【解决方案】**.This is effective because it directly improves **【具体领域】**, ensuring that the problem is dealt with in a concrete way. If implemented properly, it can address the problem while preserving its benefits.

应对这个问题的一个切实解决方案是推动【解决方案】。这种做法行之有效，因为它能够直接改善【具体领域，如教育/意识/监管】，确保问题得到切实解决。如果落实得当，它可以在保留其好处的同时解决问题。

模板编号：方案2

🔹 **观点 → 扩展延伸 → 结果分析（政府和个人一起）**

Another important step in tackling **【核心问题】** is to strengthen **【解决方案】** at both governmental and individual levels.The key reason is that it enhances **【普适领域】**, thereby addressing underlying causes rather than superficial symptoms. As a result, this strategy not only reduces immediate pressure on **【话题领域】** but also ensures more lasting and comprehensive outcomes.This makes it clear why targeted actions are indispensable for lasting solutions.

在解决【核心问题】时，另一个重要举措是在政府和个人层面共同加强【解决方案】。其根本原因在于，它能够提升【普适领域，如效率/公平/意识】，从而针对根源性问题，而不是只处理表面现象。结果是，这一策略不仅能减轻【话题领域】的即时压力，还能确保更持久和全面的成效。这清楚地表明，有针对性的行动对于实现持久的解决方案不可或缺。

TA变式小细节

观点型和讨论型的正文段2开头使用这句替换模板首句：

However，opponents（advocates of 【观点 B】）may argue that **【观点】.**

然而，反对者（支持另一个观点的人）可能会以 **【观点】 进行反驳**

高频普适 观点型（同意/反对）

首段：The debate surrounding **【题干话题】** has engaged a broad audience recently. From my perspective, I totally agree（partly agree、disagree）that **【题干观点】**, as my standpoint rests not only on ample theoretical discussion but also on practical evidence observable across different cases.

对【题干话题】的讨论近期收到的广泛关注。我完全同意（部分同意、不同意），因为我的立场不仅基于充分的理论讨论，还依赖于在不同案例中可观察到的实际证据。

正文段：

同意态度 —— 正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

否定态度 —— 正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

特殊题（本身是观点型，但需要讨论2个观点） ——正文段1：2组正向模板；正文段2：1组正向模板+1组让步反驳模板

注意“正文段1：2组负向模板”中的 “：” 是冒号，代表 “正文段1有2组负向模板组成” 不是1比2

总结段：In summary, I totally 【agree / disagree / partly agree】 with 【题干观点】. On the one hand, I recognize that 【正文段1的核心观点】. On the other hand, I also maintain that 【正文段2的核心观点】. Taken together, these considerations clearly demonstrate why my position should be regarded as the more convincing one.

总之，我完全【同意/不同意/部分同意】 【题干观点】。一方面，我承认【正文段1的核心观点】。另一方面，我也坚持认为【正文段2的核心观点】。综合来看，这些考量清楚地表明了为什么我的立场更有说服力。

中频 讨论型（支持某一方）

The debate surrounding **【题干话题】** has engaged a broad audience recently. While some people argue that **【观点A简述】**, others believe that **【观点B简述】**. From my perspective, I am more convinced by **the former / the latter**, as it rests not only on more ample theory but also on stronger evidence.

关于【题干话题】的讨论近期受到了广泛关注。一些人认为【观点A】，而另一些人则主张【观点B】。在我看来，我更支持**前者/后者。因为它在推理和证据上看起来更强**

正文段：

正文段1（论述赞同观点）：2组正向模板

首句可替换：Supporters of 【观点 A】 put forward several reasons, the most notable being that 【】.

正文段2（论述反对观点）：1组正向模板+1组让步反驳模板

首句可替换：However，advocates of 【观点 B】 may argue that **【观点】.**

In conclusion, although both perspectives have their own merits, I am more convinced by **【我支持的观点】**, because **【我反对的观点】** fails to fully address **【某个关键问题，可加that从句】**. By contrast, **【我支持的观点】** not only avoids this shortcoming but also offers a more comprehensive and convincing foundation.

总结来说，虽然【观点A】和【观点B】各自都有合理之处，但我更支持【我支持的观点】，因为【我反对的观点】未能充分考虑到【某个关键问题】。相比之下，【我支持的观点】不仅避免了这一不

足，而且提供了更全面、更有说服力的基础。

中频 利弊型（2种提问方式，利大于弊 / 积极还是消极）

The debate surrounding **【题干话题】** has engaged a broad audience recently. Although certain drawbacks are sometimes mentioned, these concerns are mostly case-specific and can be mitigated with appropriate measures. By contrast, the positive (advantageous) side is far more evident, and therefore I believe that overall this is a positive development (positive trend).
关于【题干话题】的讨论近期受到了广泛关注。尽管有时会提到一些弊端，但这些担忧大多是特定案例的，可以通过适当的解决方案来减轻。相比之下，它的积极（或有利）方面更加突出，因此我总体上认为这是一种积极的发展 / 利大于弊。

反向：

The debate surrounding **【题干话题】** has engaged a broad audience recently. Although certain benefits are sometimes mentioned, these advantages are often limited in scope and short-lived. By contrast, the negative side is far more pronounced, and therefore I believe that overall this is a negative development (harmful trend).
关于【题干话题】的讨论近期受到了广泛关注。尽管有时会承认一些好处，但这些优势往往范围有限、难以持久。相比之下，其消极（或有害的）方面更为突出，因此我总体上认为这是一种消极的发展 / 弊大于利。

正文段：

利大于弊：正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

弊大于利：正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

In conclusion, while the drawbacks of **【题干话题】** are real, they remain limited in impact. By contrast, its advantages are more substantial and enduring, and therefore I believe that overall this is a **positive development / beneficial trend**.

总之，尽管【题干话题】的弊端确实存在，但其影响有限。相比之下，它的优势更为显著且持久，因此我认为总体上这是一个积极的发展 / 有益的趋势。

反向：

In conclusion, while the advantages of **【题干话题】** do exist, they remain narrow and temporary in effect. By contrast, its drawbacks are more substantial and enduring, and therefore I believe that overall this is a negative development (harmful trend).

总之，虽然【题干话题】确实有一定优势，但这些好处往往狭窄且难以持久。相比之下，它的弊端更为显著且持久，因此我认为总体上这是一个消极的发展 / 有害的趋势。

中频 原因和解决方案型（列举型）

The debate surrounding **【题干话题】** has engaged a broad audience recently. This problem can be attributed to multiple causes, and both governments and individuals can take feasible steps to alleviate it. **This essay will examine the main causes of this issue and propose possible solutions.**

关于【题干话题】的讨论近期受到了广泛关注。这一问题可以归因于多个原因，政府和个人都可以采取切实可行的解决方案来缓解它。本文将探讨这一问题的主要成因，并提出可能的解决方案。

正文段：

正文段1：2组原因模板

正文段2：2组解决方案模板

In conclusion, the emergence of **【题干话题】** can be traced back to several causes, such as **【简要原因1】** and **【简要原因2】**. Nevertheless, by adopting effective measures at both governmental and individual levels, including **【简要解决方案1】** and **【简要解决方案2】**, its negative impact can be mitigated and the situation can be improved in the long run.

总之，【题干话题】的出现可以追溯到多个原因，例如【简要原因1】和【简要原因2】。然而，通过在政府和个人层面采取有效解决方案，包括【简要解决方案1】和【简要解决方案2】，其负面影响能够得到缓解，整体局势也将在长期内得到改善。

原因与影响（极少出现，列举型）

The debate surrounding **【题干话题】** has engaged a broad audience recently. This problem can be attributed to multiple causes, and it has already produced noticeable effects on both individuals and society. This essay will examine the main causes of this issue and analyze its consequences.

关于【题干话题】的讨论近期受到了广泛关注。这一问题可以归因于多个原因，并且已经对个人和社会产生了显著影响。本文将探讨这一问题的主要成因，并分析其后果。

正文段：

正文段1：2组原因模板

正文段2：正向 or 负向2组模板

In conclusion, the emergence of **【题干话题】** can be traced back to several causes, such as **【简要原因1】** and **【简要原因2】**. As a result, it has led to a number of consequences, including **【简要影响1】** and **【简要影响2】**, which will likely continue to shape society in the future.
总之，【题干话题】的出现可以追溯到多个原因，例如【简要原因1】和【简要原因2】。结果，它带来了一系列后果，包括【简要影响1】和【简要影响2】，并且很可能在未来继续影响社会。

特殊利弊分析（极少出现，优点和缺点分别是什么，列举型）

The debate surrounding **【题干话题】** has engaged a broad audience recently. Like many social phenomena, it generates both advantages and disadvantages. This essay will examine the main benefits of this trend as well as its potential drawbacks.
关于【题干话题】的讨论近期受到了广泛关注。和许多社会现象一样，它既带来优势，也带来劣势。本文将探讨这一趋势的主要益处及其潜在的弊端。

正文段：

正文段1：2组正向模板

正文段2：2组负向模板

In conclusion, the development of **【题干话题】** has produced a mix of outcomes, with advantages such as **【简要优点1】** and **【简要优点2】**, but also disadvantages including **【简要缺点1】** and **【简要缺点2】**. A balanced awareness of both sides is essential for a comprehensive evaluation of this trend.
总之，【题干话题】的发展带来了多重结果，包括【简要优点1】和【简要优点2】等优势，同时也存在【简要缺点1】和【简要缺点2】等劣势。对两方面的平衡认知对于全面评估这一趋势至关重要。

补充讲解

1、逻辑链

一些模板有 “观点 → 扩展延伸 → 结果分析 → 总结” 的逻辑顺序标注，这就是逻辑链。对于1-2天急救备考的同学，不需要学习逻辑链相关的内容，只需要记住，逻辑链多样化是冲7的必要内容。

2、TA、CC保分小细节

1个小细节

CC（逻辑衔接）

正文段1开头：In the first place、First of all

正文段2开头：On the other hand、By contrast、However、Nevertheless（然而）

段落中递进衔接：Moreover、In addition、Furthermore（此外、并且）

段落中结果衔接：As a result、Consequently、Therefore、Hence、Consequently（因此）

段落中转折衔接：On the other hand、By contrast、However、Nevertheless（然而）

模板不是万能的，虽然**“模板法”是基础一般的同学快速冲6-6.5最高效的方法**，但毕竟是投机取巧，所以一定不是完美的

再强调一下，**不是你现在所看的模板存在问题，是 “模板法” 存在问题，因此所有的模板都存在这个问题**，这里放解决方案。

在使用模板的过程中，可能会出现的1个问题：部分句子不太切题

对此可采取以下三个方法↓

📗增

自己补充举例内容

万能模板会使用大量泛化表达，例如

`As a result, this practice not only generates short-term benefits but also contributes to sustainable long-term outcomes.`

结果是，这种做法不仅产生了短期效益，还为可持续的长期成果作出了贡献。

这样的表达虽然词汇语法分数高，但论述不深入，为了**更好的切题同时增加文章字数**，大家可以在考场上自行在模板句中间插入举例或其他内容。

举个例子：

一个主要的优势在于，它能够强化**【幸福感】**，从而为进一步的**【社会稳定】**奠定坚实的基础。结果是，这种做法不仅产生了短期效益，还为可持续的长期成果作出了贡献。（正文段正向模板）

- 可以看到，这两句话除了【**幸福感**】、【**社会稳定**】2个词以外都是模板。
- 其中存在2个逻辑关系，**幸福感为社会稳定奠定基础**；**这种做法同时具有短期和长期收益**。

这是2个没有进行任何论证的结论，为了补充内容，我们可以使用 “假设情境举例”

For example, if young people feel satisfied with their school and community, they are less likely to cause trouble.

例如，如果年轻人对学校和社区感到满意，他们就更不容易闯祸。

这句话词汇语法极度简单，且从一方面佐证了幸福感与稳定的关系。

> feel satisfied with 写不出来就写 like，这句话的定位是补逻辑，不是展示词汇和语法能力

不仅可以降低考官视角下的模板化程度，还会让文章逻辑不那么生硬。

最简单的内容补充是举例子

🔹 1. 假设情境 (Hypothetical scenario)

👉 就是**虚拟一个常见、合理的场景**，让考官觉得有生活逻辑，能支撑观点。

- **特点**：简单、自然、不需要真实数据。
- **常用开头**：*For example, if… / Suppose that… / Imagine that…*

例子：

- For example, if students take part in a charity group, they may feel happier and more responsible.
  （例如，如果学生参加慈善组织，他们可能会感到更快乐、更有责任感。）

👉 用途：证明某个观点的逻辑是合理的。

🔹 2. 编数据 (Invented statistics)

👉 就是**虚构一些数字或调查**，显得更学术、更有说服力。

- **特点**：要“看起来可信”，但不用真的查证。数字一般控制在 20%–80% 区间。
- **常用开头**：*According to a recent survey… / Studies show that… / Research indicates that…*

例子：

- According to a recent survey（**可加机构**）, nearly 70% of teenagers reported that volunteering improved their confidence.
  （根据一项最新调查，近 70% 的青少年表示志愿活动提升了他们的自信。）

👉 用途：让文章更“academic”，像是真有证据。

📗改

修改宾语、增加定语和修饰来进一步切题

语法薄弱的同学记住，改 “宾语” 来切题

还是以正向模板1为例

First of all, **【核心主题】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【普适领域】**, thereby building a firm basis for **【进阶目标】**. As a result, this practice not only generates short-term benefits but also contributes to sustainable long-term outcomes.

首先，【核心主题】 无疑能带来显著的好处。一个关键的优势是，它能够提升【普适领域，如社会意识/必要技能】，从而为【进阶目标，如负责任的行为/个人成长】奠定坚实的基础。结果是，这种做法不仅带来短期效益，还为长期的可持续成果作出了贡献。

问题：

In most countries, prison is an effectivesolution for the problem of crime. Some people think a more effective solution is to provide a better education. To what extent do you agree or disagree?(犯罪)

- 在大多数国家，监狱是解决犯罪问题的有效手段。部分人认为提供更优质的教育是更有效的解决方案。你在多大程度上同意或反对？（犯罪）

套模板

First of all, **【better education】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【awareness and essential skills**（working skills）**】**, thereby building a firm basis for **【good behavior】**. As a result, this practice not only generates short-term benefits by lowering the risk of minor crimes（by teaching people ...） but also contributes to sustainable long-term outcomes.

可以看到，红字通过简单修改模板句来进一步切题。

语法薄弱的同学可以直接写模板，硬套比裸考好

by ... 通过某种方式

As a result, this practice not only generates short-term benefits by teaching people the right skills and knowledge, ...

such as ... 例如

As a result, this practice not only generates short-term benefits，such as the right skills and knowledge, ...

📗删

自行填充的内容实在想不到，可以删除句子，然后自己看篇幅补充简单句

每组模板删除1句（全文删除4句），内容篇幅仍然足够。一组模板删除2句会影响论述结构，需自行补充内容。

📗面对完全无法套用的题目（这类题目极少）

雅思大作文的话题范围涵盖：教育、科技、社会、政府、媒体、国际、法律、文化、旅游、环境、健康、工作

无论表达多么泛化，一定会存在 “A 促进了 B” 这样的逻辑关系。比如我的模板里，B选用了社会相关的观点

基本全部话题都能与社会扯上边，但当题干讨论范围很小（如父母言传身教对孩子的影响），影响对象已经锁定了孩子，上升到社会就会出现逻辑问题。

同理，只要是模板，必须给模板句建立逻辑关系，就一定存在无法套用的题目

按照逻辑链自己整备主体内容，然后尽可能使用模板句

Some people think the increasing use of technology in the workplace is good for young people's prospects of gaining a job and harder for old people. To what extent do you agree or disagree?(工作)

- 有人认为工作场所日益增长的技术应用有利于年轻人就业，但对老年人再就业造成困难。你在多大程度上同意这一观点？（工作）
- 这是一道无敌的题目，因为它可以看做是**2个有些许并列关系的不同观点**，并且属于日常极少出现的**工作型**

观点 → 扩展延伸 → 结果分析 → 总结

按照这套思路搭建你的正文段落，然后尽可能使用模板中的高分句型和词汇。

比如态度为同意

正文段1论述：工作场所日益增长的技术应用有利于年轻人就业

正文段2论述：工作场所日益增长的技术应用对老年人再就业造成困难

同样是 **观点 → 扩展延伸 → 结果分析 → 总结**

年轻人学的快；团队知识让年轻人快速成长

老年人学新技术的速度慢；技术让从业经验不再那么有竞争力

3、整理了很多同学的问题后做的额外更新

最近不少同学都在问类似的问题，所以我觉得有必要再加一段说明，帮大家更清楚地理解我对“模板”的设计思路和使用建议。

先说明一下我范文的安排：我在每段中都用了两个模板组，这样做并不是让大家照搬，**而是想做一个“比较极限的展示”——只要观点想得清楚、逻辑顺畅，模板几乎可以适用于任何题目。**也就是说，模板本身是普适的，关键在于你能不能针对题目，想到对应的观点内容。并且，**你可以只背一段，考场上使用了就提分了**，不是必须像我的极限展示一样，一篇文章用上所有的模板，**我们的目的是快速提分，不是把内容都背完**。

并且在实际写作中，大家完全不需要也用这么多。你可以灵活调整：

- 一段只用一个模板组，另一部分用自己的话补充，比如多加几个例子，或者深入分析一个结果；
- 也可以只借用模板的论述思路和观点方向，而不照搬句子。

举个例子：拿到题目后，可以想想这件事对“个人、环境或者社会这样的单一个体”有什么好处，这些好处短期内怎么体现，长期又会带来什么根本性影响；或者，思考这件事是否会造成“资源错配”——本该用在其他重要事项上的资源，被这件事占用了，结果导致更值得关注的事情被忽视，发展受阻。

这些**思路本身来自模板，但你不一定非要用模板里的原句去表达。只要能把这些逻辑用自己的话说清楚，既避免了僵化，也能保证灵活性和个人风格。**

接着说说大家容易卡住的地方——很多同学觉得模板的观点不好想，是因为太执着于“具体内容”了。比如一拿到题目，就开始拼命想“这件事的长期好处是什么、短期好处是什么”，结果怎么也想不出。

但我们可以换个角度：不管是观点型还是讨论型题目，如果我们选择“同意”某个观点，那我们给出的支持理由，注意，是百分百是要围绕这个方向去展开的。具体是什么方向呢？就是这个观点有好处，有优势，因为如果不这样，我们没有支持这个观点的理由。因此，**不是模板强迫你这样思考，而是你自己写的时候都要这样思考，这是很普遍的通用思路。模板只是帮助你更进一步延伸+提升句型和词汇水平**：

既然一件事有好处有优势，那么这个好处或者优势肯定是短期内就能起作用的，那么如果这个好处和优势持续起作用，那么在长期就可以造成一个更根本性的影响，那就是它的长期优势，也就是说基本上如果我们使用了同一态度，那么我们正常写思路也是往这里靠的，这就是模板的通用性。

再说说怎么“只用一组模板”或者“自己修改”。其实很简单：范文里一段用两组模板，你可以只用一组，剩下的部分用自己组织的语言去补充，比如增加例证、延展结果分析，这样段落依然完整，也不会显得套路化。

关于模板比较复杂的逻辑结构，我再帮大家理两条线：

- 正向加让步：先承认某件事有一定的好处，但这个好处不持久，而且背后还隐藏着更大的坏处，所以整体是反对态度。
- 负向加解决方案：先承认某件事存在一个问题或坏处，但这个问题不是持续性的，或者可以被快速有效地解决，所以整体影响不大，最终态度是支持或偏向正面的。

这里确实有点“反直觉”，所以有些同学容易理解偏，如果一段只用一个模板组，之前是正向+让步的段落，自己写一段负向内容即可。

根据往年拿到7分及以上同学给我的反馈，他们普遍的做法是：**全面吸收模板中的观点、思路和论述框架，但在语言表达上灵活处理，部分使用模板，部分为了逻辑和观点的清晰而自己处理。这样既不会跑题，又能展现出真实的语言能力和思维深度。**

这样也能提分，因为词汇和语法的评分是看全文，**使用了一个模板句就提升一句话的分数，所以用了就比之前好，而不是一定要全用。同时吸收了更好的观点和逻辑链，任务回应和衔接也会提分，这样也是高效速成。**

但是不要看了这里就忘记前边了，**不是模板不能默写**，是**只要观点想得清楚、逻辑顺畅，模板默写下来可以适用于任何题目。**也就是说，模板本身是普适的，关键在于你能不能针对题目，想到对应的观点内容。这个补充内容是在说，**你要提前做好想不到的准备，并且怎么做这个准备**。

套用案例

模板填充内容用**黑色加粗字体**；模板增改删内容用**红色加粗字体**

观点型3道

1. Some people believe that unpaid community service should be a compulsory part of high school programmes (e.g. working for a charity, improving the neighborhood, teaching sports to younger children). To what extent do you agree or disagree?
    - 题干翻译： 有些人认为无偿社区服务应该成为高中课程的必修部分（例如为慈善机构工作、改善社区、教更小的孩子体育）。你在多大程度上同意或不同意？

正文段：

同意态度 —— 正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

否定态度 —— 正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

特殊题（本身是观点型，但需要讨论2个观点） ——正文段1：2组正向模板；正文段2：1组正向模板+1组让步反驳模板

观点型和讨论型的正文段2开头使用这句替换模板首句：

However，opponents（advocates of 【观点 B】）may argue that **【观点】.**

然而，反对者（支持另一个观点的人）可能会以 **【观点】 进行反驳**

首段

The debate surrounding **【compulsory community service in high schools】** has engaged a broad audience recently. From my perspective, I **【totally disagree】** that **【making it mandatory is a good idea】**, as my standpoint rests not only on ample theoretical discussion but also on practical evidence observable across different cases.

负向1+负向2

It is important to recognize that **【making community service compulsory】** can produce harmful effects on **【individuals】**. A central problem is that it increases **【pressure】**. As a consequence, the requirement often generates new problems such as **【losing interest in study】**.Another significant drawback of **【making community service compulsory】** is its tendency to cause resource misallocation. The main reason is that it forces **【schools】** to divert limited **【time and attention】** away from their essential functions, thereby reducing investment in **【main areas such as teaching】**. As a result, this practice often creates systemic inefficiencies within the education system, rather than fulfilling its intended goals.

正向1+让步

However, advocates of compulsory community service may argue that it can strengthen **【students' sense of responsibility】**, thereby laying a solid foundation for **【their personal growth】**. Nevertheless, this advantage is short-lived, as the initial **【sense of responsibility】** quickly fades once **【the requirement ends】**. The **【motivation to serve】** is unlikely to be sustained in the absence of **【true interest】**, which makes the supposed benefits appear superficial. More importantly, these temporary gains often hide deeper problems, such as **【student resistance and additional stress】**. As these issues accumulate, they not only offset the initial benefits but also generate new obstacles that hinder genuine progress.

总结

In summary, I totally **【disagree】** with **【compulsory community service in high school】**. On the one hand, I recognize that **【it increases pressure and wastes school resources】**. On the other hand, I also maintain that **【its positive effects are short-term and weaker than its downsides】**. Taken together, these considerations clearly demonstrate why my position should be regarded as the more convincing one.

2. It will be better to have wide use of driverless cars for individuals and society. To what extent do you agree or disagree with the statement?

正文段：

同意态度 —— 正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

否定态度 —— 正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

特殊题（本身是观点型，但需要讨论2个观点） ——正文段1：2组正向模板；正文段2：1组正向模板+1组让步反驳模板

观点型和讨论型的正文段2开头使用这句替换模板首句：

However，opponents（advocates of 【观点 B】）may argue that **【观点】.**

然而，反对者（支持另一个观点的人）可能会以 **【观点】 进行反驳**

首段

The debate surrounding【**the wide use of driverless cars**】 has engaged a broad audience recently. From my perspective, I totally agree that【**driverless cars should be widely used**】, as my standpoint rests not only on ample theoretical discussion but also on practical evidence observable across different cases.

正向1+正向2

First of all, 【**driverless cars**】 undoubtedly bring substantial benefits. One key strength is its ability to improve 【**road safety**】, thereby building a firm basis for 【**smoother traffic flow**】. As a result, this practice not only generates short-term benefits such as fewer accidents and shorter commuting time but also contributes to sustainable long-term outcomes. Another significant advantage of 【**autonomous driving technology**】 is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing 【**human error**】. By tackling this root cause directly, it prevents the same challenge from recurring and ensures that the solution is more enduring. In the long run, this creates deeper improvements that make 【**driverless cars**】 a far more sustainable solution.

负向1+方案1

However, opponents may argue that 【**it may cause job losses among drivers.**】. As a consequence, this approach often generates new problems such as 【**job insecurity and social inequality**】, instead of delivering the intended benefits. This clearly shows why its negative impact should not be underestimated.Nevertheless, although the problem appears severe, it is far from unsolvable.One practical approach to addressing this issue is to promote 【**more support for job training**】.This is effective because it directly improves 【**workers' skills and ability to adapt to new technologies**】, ensuring that the problem is dealt with in a concrete way.If implemented properly, it can address the problem while preserving its benefits by creating new job opportunities in emerging industries related to driverless technology.

In summary, I totally agree with 【**the widespread use of driverless cars**】. On the one hand, I recognize that 【**driverless cars can enhance road safety and efficiency**】. On the other hand, I also maintain that 【**their potential drawbacks can be managed through education**】. Taken together, these considerations clearly demonstrate why my position should be regarded as the more convincing one.

3. In most countries, prison is an effectivesolution for the problem of crime. Some people think a more effective solution is to provide a better education. To what extent do you agree or disagree?(犯罪)
    - 在大多数国家，监狱是解决犯罪问题的有效手段。部分人认为提供更优质的教育是更有效的解决方案。你在多大程度上同意或反对？（犯罪）

正文段：

同意态度 —— 正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

否定态度 —— 正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

特殊题（本身是观点型，但需要讨论多观点） ——正文段1：2组正向模板；正文段2：1组正向模板+1组让步反驳模板

观点型和讨论型的正文段2开头使用这句替换模板首句：

However，opponents（advocates of 【观点 B】）may argue that **【观点】.**

然而，反对者（支持另一个观点的人）可能会以 **【观点】 进行反驳**

这道题就是2观点的观点型，目前出现频次较高

The debate surrounding **【whether education is a more effective solution to crime than prison】** has engaged a broad audience recently. From my perspective, I totally **【agree】** that **【education is more effective】**, as my standpoint rests not only on ample theoretical discussion but also on practical evidence observable across different cases.

正向1+正向2

First of all, **【better education】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【awareness and essential skills】**, thereby building a firm basis for **【good behavior】**. As a result, this practice not only generates short-term benefits by lowering the risk of minor crimes but also contributes to sustainable long-term outcomes.Another significant advantage of **【better education】** is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing **【unemployment and weak awareness】**.

正向3+让步

However, advocates of **【building more prisons】** may argue that it has the ability to directly optimize the current problem. The main reason is that it provides immediate and targeted improvements in **【crime control】**, allowing **【the public】** to see visible progress without delay. Nevertheless, this advantage is short-lived, as the initial **【drop in crime】** quickly fades once **【prisoners are released】**. The **【reduction in crime】** is unlikely to be sustained in the absence of **【proper education】**, which makes the supposed benefits appear superficial. More importantly, these temporary gains often conceal deeper problems, such as the **【rising cost of prisons】**.

In summary, I totally **【agree】** with **【the view that education is more effective than prison】**. On the one hand, I recognize that **【education provides skills and awareness for responsible behavior】**. On the other hand, I also maintain that **【the benefits of prisons are**

short-lived and costly】. Taken together, these considerations clearly demonstrate why my position should be regarded as the more convincing one.

讨论型2道

1. Some people believe that it is best to accept a bad situation, such as an unsatisfactory job or shortage of money. Others argue that it is better to try and improve such situations. Discuss both these views and give your own opinion.
    - 题干翻译： 有些人认为最好接受糟糕的处境，比如一份不满意的工作或缺钱。另一些人则认为应该努力改善这种处境。讨论这两种观点并给出你自己的意见。

> 正文段：
>
> 正文段1（论述赞同观点）：2组正向模板
>
> 首句可替换：Supporters of 【观点 A】 put forward several reasons, the most notable being that 【理由】.
>
> 正文段2（论述反对观点）：1组正向+1组让步反驳模板
>
> 首句可替换：However，advocates of 【观点 B】 may argue that 【观点】.

The debate surrounding **【whether to accept bad situations】** has engaged a broad audience recently. While some people argue that **【accepting difficulties is wiser】**, others believe that **【trying to improve them is better】**. From my perspective, I am more convinced by the latter, as it rests not only on more ample theory but also on stronger evidence.

正向1+正向2

First of all, **【improving bad situations】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【problem-solving skills】**, thereby building a firm basis for **【long-term success】**. As a result, this practice not only generates short-term benefits **by giving individuals more control over their lives**, but also contributes to sustainable long-term outcomes.Another significant advantage of **【improving bad situations】** is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing **【causes such as low effort or poor planning】**. By tackling these root causes directly, it prevents the same challenge from recurring and ensures that the solution is more enduring. In the long run, this creates deeper improvements that make **【personal development】** a far more sustainable solution.

正向3+让步反驳

However, opponents may argue that **【accepting a bad situation】** can directly optimize the current problem. The main reason is that it provides immediate and targeted improvements in

【**mental stability**】, allowing 【**individuals**】 to see visible relief without delay. As a result, this approach not only stabilizes emotions in the short term but also creates favorable conditions for further long-term adaptation.Nevertheless, this advantage is short-lived, as the initial 【**sense of relief**】 quickly fades once 【**the problem returns**】. The 【**emotional balance**】 is unlikely to be sustained in the absence of 【**problem-solving skills**】, which makes the supposed benefits appear superficial. More importantly, these temporary gains often conceal deeper problems, such as 【**loss of ambition and long-term dissatisfaction**】. As these issues accumulate, they not only offset the initial benefits but also generate new obstacles that hinder genuine progress.

In conclusion, although both perspectives have their own merits, I am more convinced by 【**improving bad situations**】, because 【**accepting them**】 fails to fully address 【**the root causes of the problem**】. By contrast, 【**seeking improvement**】 not only avoids this shortcoming but also offers a more comprehensive and convincing foundation for long-term stability and personal growth.

2. Some people think children have the freedom to make mistakes, while other people believe that adults should prevent children from making mistakes. Discussboth sides and give your opinion.(教育)

   有些人认为儿童应有犯错的自由，而另一些人则认为成人应阻止儿童犯错。讨论双方观点并给出你自己的意见。

正文段：

正文段1（论述赞同观点）：2组正向模板

首句可替换：Supporters of 【观点 A】 put forward several reasons, the most notable being that 【理由】.

正文段2（论述反对观点）：1组正向模板+1组让步反驳模板

首句可替换：However，advocates of 【观点 B】 may argue that 【**观点**】.

加入两边混合的态度至少多背3段模板

有混合倾向的题目，意味着2个观点都有顺畅的同意和反对理由，那么我们的思路是，不要谈及赞同观点的不足，重点说反对观点的不足。

因为大作文不是来谈对错的，只是针对我们文字表达的考察。

The debate surrounding 【**children making mistakes**】 has engaged a broad audience recently. While some people argue that 【**adults should stop them**】, others believe that 【**kids should**

learn through mistakes】. From my perspective, I am more convinced by the latter, as it rests not only on more ample theory but also on stronger evidence.

正向1+正向2

First of all, **【letting children make mistakes】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【their problem-solving skills】**, thereby building a firm basis for **【personal growth】**. As a result, this practice not only generates short-term benefits by helping children learn from real experiences but also contributes to sustainable long-term outcomes.Another significant advantage of **【this freedom】** is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing **【poor confidence】**. By tackling these root causes directly, it prevents the same mistakes from recurring and ensures that children develop stronger judgment. In the long run, this creates deeper improvements that make **【learning from mistakes】** a far more sustainable and effective approach.

正向3+让步反驳

However, opponents may argue that **【stopping children from mistakes】** can directly optimize the current problem. The main reason is that it provides immediate and targeted improvements in **【reducing mistakes and keeping order】**, allowing **【parents】** to see visible stability without delay.

Nevertheless, this advantage is short-lived, as the initial **【stability】** quickly fades once **【they face new challenges】**. The **【ability to judge】** is unlikely to be sustained in the absence of **【real experience】**, which makes the supposed benefits appear superficial. More importantly, these temporary gains often conceal deeper problems, such as **【dependence on adults】**. As these issues accumulate, they not only offset the initial benefits but also generate new obstacles that hinder genuine personal growth.

In conclusion, although both perspectives have their own merits, I am more convinced by **【letting children make mistakes】**, because **【independence and resilience】.** By contrast, **【learning through mistakes】** not only avoids this shortcoming but also offers a more comprehensive and convincing foundation for their long-term growth.

利弊型2道

1. The increasing demand for oil and gas has made it necessary to look for these energy sources in remote and untouched natural places. Do you think the advantages of this outweigh the disadvantages?
    - 题干翻译： 对石油和天然气日益增长的需求使得人们必须去偏远和未受破坏的自然区域寻找这些能源。你认为这样做利大于弊吗？

正文段：

利大于弊：正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

弊大于利：正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

The debate surrounding **【whether to explore oil and gas in untouched areas】** has engaged a broad audience recently. Although certain benefits are sometimes mentioned, these advantages are often limited in scope and short-lived. By contrast, the negative side is far more pronounced, and therefore I believe that overall this is a harmful trend.

负向1+负向2

It is important to recognize that **【exploring oil and gas in remote areas】** can produce harmful effects on **【the environment】**. A central problem is that it increases **【deforestation and habitat loss】**, which places additional pressure on **【wildlife and ecosystems】.** As a consequence, this approach often generates new problems such as **【long-term environmental damage】**, instead of delivering the intended benefits. This clearly shows why its negative impact should not be underestimated.Another significant drawback of **【such exploration】** is its tendency to cause resource misallocation. The main reason is that it forces **【governments】** to divert limited **【money and staff】** away from developing renewable energy technologies, thereby reducing investment in **【sustainable options like solar and wind】**. As a result, this practice often creates **【system inefficiency】** rather than fulfilling its intended goals.

正向1+让步反驳

However, opponents may argue that **【such exploration】** has the ability to directly optimize the current problem. The main reason is that it provides immediate and targeted improvements in **【energy supply】**, allowing **【governments】** to see visible progress without delay. Nevertheless, this advantage is short-lived, as the initial **【energy output】** quickly fades once **【resources run out】**. **【Supply】** is unlikely to be sustained in the absence of **【clean energy】**, which makes the supposed benefits appear superficial. More importantly, these temporary gains often conceal deeper problems, such as **【pollution and fossil-fuel dependence】**. As these issues accumulate, they not only offset the initial benefits but also generate new obstacles that hinder genuine sustainable development.

In conclusion, while the advantages of **【such exploration】** do exist, they remain narrow and temporary in effect. By contrast, its drawbacks are more substantial and enduring, and therefore I believe that overall this is a negative development.

词组	汉语	词性

deforestation	森林砍伐	名词形式
loss of biodiversity	生物多样性丧失	名词形式
habitat destruction	栖息地破坏	名词形式
renewable energy	可再生能源	名词形式
resource depletion	资源枯竭	名词形式
sustainable development	可持续发展	名词形式
renewable energy	可再生资源	名词形式
reverse the damage	逆转损害	动宾词组

2. In some countries, it is now possible for people to buy a wide variety of foods transported from all over the world. Do the benefits of this development outweigh the drawbacks?
    - 题干翻译： 在一些国家，人们现在可以买到从世界各地运输来的各种食物。这一发展的好处是否大于其弊端?

正文段：

利大于弊：正文段1：2组正向模板；正文段2：1组负向模板+1组解决方案模板

弊大于利：正文段1：2组负向模板；正文段2：1组正向模板+1组让步反驳模板

The debate surrounding 【**importing food from abroad**】 has engaged a broad audience recently. Although certain drawbacks are sometimes mentioned, these concerns are mostly case-specific and can be mitigated with appropriate measures. By contrast, the positive side is far more evident, and therefore I believe that overall this is a positive development.

正向1+正向2

First of all, 【**global food availability**】 undoubtedly brings substantial benefits. One key strength is its ability to improve 【**people's daily lives**】, thereby building a firm basis for 【**health and well-being**】. As a result, this practice not only generates short-term benefits by offering consumers more options but also contributes to sustainable long-term outcomes .Another significant advantage of 【**food imports**】 is that it addresses problems from the ground up. Unlike approaches that only manage surface-level issues, this method works by removing 【**causes of food shortages**】 by ensuring stable food supply. By tackling these root causes directly, it prevents the same challenges from recurring and ensures that food supplies

remain steady. In the long run, this creates deeper improvements that make **【international food trade】** a far more sustainable solution.

负向1+解决方案1

However，it is important to recognize that **【the global trade of food】** can produce harmful effects on **【local businesses】**. A central problem is that it increases **【competition】**, which places additional pressure on **【small local producers】**. As a consequence, this trend often generates new problems such as **【decline of local food diversity】**, instead of delivering the intended benefits. This clearly shows why its negative impact should not be underestimated. Nevertheless, although the problem appears severe, it is far from unsolvable. One practical approach to addressing this issue is to promote **【government support for local farmers】**. This is effective because it directly improves **【market fairness and encourages people to buy locally produced goods】**,ensuring that the problem is dealt with in a concrete way. If implemented properly, it can address the problem while preserving its benefits.

In conclusion, while the drawbacks of **【global food trade】** are real, they remain limited in impact. By contrast, its advantages are more substantial and enduring, and therefore I believe that overall this is a positive development.

原因和解决方案型2道

1. Many cities suffer from traffic congestion. What are the causes of this problem? What can be done to help reduce traffic in cities?
    - 题干翻译： 许多城市深受交通拥堵之苦。这个问题的原因是什么？可以做些什么来帮助减少城市交通流量？

正文段：

正文段1：2组原因模板

正文段2：2组解决方案模板

词必须难，词难还是简单没有意义，因为大部分内容你不需要理解意思，就是把它写上去。

The debate surrounding **【traffic congestion in cities】** has engaged a broad audience recently. This problem can be attributed to multiple causes, and both governments and individuals can take feasible steps to alleviate it. This essay will examine the main causes of this issue and propose possible solutions.

原因1+原因2

One major reason behind **【traffic congestion in cities】** is the lack of **【good public transport】**.This shortage makes it difficult for **【people】** to respond effectively, causing the problem to persist and worsen over time. In many cases, **【low investment】** further accelerates this trend, which eventually turns a manageable issue into a long-term challenge for society.This clearly shows why addressing the root causes is essential to achieving a lasting solution. Another underlying cause of **【traffic jams】** is the influence of **【poor city planning and cultural habits】**. This factor not only shapes **【people’s dependence on cars】**, but also reinforces negative patterns that are difficult to change. Consequently, the problem spreads more widely and places extra strain on **【urban infrastructure and the environment】**. This explains why tackling root causes is far more urgent than addressing surface-level symptoms.

解决方案1+解决方案2

Nevertheless, although the problem appears severe, it is far from unsolvable. One practical approach to addressing this issue is to promote **【the use of public transportation】**. This is effective because it directly improves **【urban mobility and efficiency】**, ensuring that the problem is dealt with in a concrete way. If implemented properly, it can address the problem while preserving its benefits. Another important step in tackling **【traffic congestion】** is to strengthen **【traffic management and remote working policies】** at both governmental and individual levels. The key reason is that it enhances **【efficiency and flexibility】**, thereby addressing underlying causes rather than superficial symptoms. As a result, this strategy not only reduces immediate pressure on **【city roads】** but also ensures more lasting and comprehensive outcomes. This makes it clear why targeted actions are indispensable for lasting solutions.

In conclusion, the emergence of **urban traffic congestion** can be traced back to several causes, such as **insufficient public transportation** and **poor city planning**. Nevertheless, by adopting effective measures at both governmental and individual levels, including **promoting public transport** and **improving traffic management policies**, its negative impact can be mitigated and the situation can be improved in the long run.

2. Some ex-prisoners commit crimes after being released from the prison. Why is this the case? What can be done to solve this problem?
    - 题干翻译： 一些刑满释放人员出狱后会再次犯罪。为什么会出现这种情况？可以采取什么解决方案来解决这个问题？

正文段：

正文段1：2组原因模板

正文段2：2组解决方案模板

The debate surrounding 【**reoffending**】 has engaged a broad audience recently. This problem can be attributed to multiple causes, and both governments and individuals can take feasible steps to alleviate it. This essay will examine the main causes of this issue and propose possible solutions.

原因1+原因2

One major reason behind 【**reoffending**】 is the lack of 【**help and support**】.This shortage makes it difficult for 【**former prisoners and prisons**】 to respond effectively, causing the problem to persist and worsen over time.In many cases, 【**social discrimination**】 further accelerates this trend, which eventually turns a manageable issue into a long-term challenge for society.This clearly shows why addressing the root causes is essential to achieving a lasting solution.

Another underlying cause of 【**reoffending after release**】 is the influence of 【**poor education in prison**】. This factor not only shapes 【**prisoners' thinking**】, but also reinforces but also reinforces negative patterns that are difficult to change. Consequently, the problem spreads more widely and places extra strain on 【**public safety and social stability**】. This explains why tackling root causes is far more urgent than addressing surface-level symptoms.

解决方案1+解决方案2

Nevertheless, although the problem appears severe, it is far from unsolvable. One practical approach to addressing this issue is to promote 【**job training and social programs**】.This is effective because it directly improves 【**job chances and confidence**】, ensuring that the problem is dealt with in a concrete way.If implemented properly, it can address the problem while preserving its benefits.

An important step in tackling 【**reoffending**】 is to strengthen 【**job training and support programs**】 at both governmental and individual levels. The key reason is that it enhances 【**public understanding and fairness**】, thereby addressing underlying causes rather than superficial symptoms. As a result, this strategy not only reduces immediate pressure on 【**the law system**】 but also ensures more lasting and comprehensive outcomes. This makes it clear why targeted actions are indispensable for lasting solutions.

In conclusion, the emergence of 【**reoffending among ex-prisoners**】 can be traced back to several causes, such as 【**poor support programs**】 and 【**lack of education in prison**】. Nevertheless, by adopting effective measures at both governmental and individual levels, including 【**promoting job training**】 and 【**helping former prisoners return to society**】, its negative impact can be mitigated and the situation can be improved in the long run.

原因与影响1道

1. Many people today are living in a ‘throwaway society’, where things are used for a short time and then thrown away. What are the causes of this? What problems does it lead to?
    - 题干翻译： 当今许多人生活在“一次性社会”中，物品被短暂使用后便被丢弃。造成这种现象的原因是什么？它会导致哪些问题？
    - 题型分析： 此题为“原因型” + “问题/影响型”的混合。

> 正文段：
>
> 正文段1：2组原因模板
>
> 正文段2：正向 or 负向2组模板

The debate surrounding **【throwaway society】** has engaged a broad audience recently. This problem can be attributed to multiple causes, and it has already produced noticeable effects on both individuals and society. This essay will examine the main causes of this issue and analyze its consequences.

原因1+原因2

One major reason behind the **【throwaway society】** is the lack of **【environmental awareness】**. This shortage makes it difficult for **【consumers】** to respond effectively, causing the problem to persist and worsen over time. In many cases, **【the pursuit of convenience and low prices】** further accelerates this trend, which eventually turns a manageable issue into a long-term challenge for society. This clearly shows why addressing the root causes is essential to achieving a lasting solution.

Another underlying cause of **【the throwaway society】** is the influence of **【mass production and advertising】**. This factor not only shapes **【consumer behavior】** but also reinforces negative patterns of overconsumption that are difficult to change. Consequently, the problem spreads more widely and places extra strain on **【waste management systems and the environment】**. This explains why tackling root causes is far more urgent than addressing surface-level symptoms.

负向1+负向2

It is important to recognize that the **【throwaway culture】** can produce harmful effects on **【the environment】**. A central problem is that it increases **【pollution and landfill waste】**, which places additional pressure on **【ecosystems and communities】**. As a consequence, this approach often generates new problems such as **【soil contamination and carbon**

emissions】, instead of delivering the intended convenience. This clearly shows why its negative impact should not be underestimated.

Another significant drawback of **【a throwaway society】** is its tendency to cause **【resource misallocation】**. The main reason is that it forces **【governments and manufacturers】** to divert limited **【funding and attention】** away from their essential functions, thereby reducing investment in **【recycling systems and sustainable production】**. As a result, this phenomenon often creates systemic inefficiencies rather than fulfilling its intended goals.

In conclusion, the emergence of **【throwaway society】** can be traced back to several causes, such as **【low environmental awareness】** and **【the influence of mass production and advertising】**. As a result, it has led to a number of consequences, including **【environmental pollution】** and **【resource misallocation】**, which will likely continue to shape society in the future.

特殊利弊分析1道

1. Nowadays many people work from home. What are the advantages and disadvantages of this trend?
    - 题干翻译： 现在许多人在家工作。这一趋势的优点和缺点是什么？

正文段：

正文段1：2组正向模板

正文段2：2组负向模板

The debate surrounding **【working at home】** has engaged a broad audience recently. Like many social phenomena, it generates both advantages and disadvantages. This essay will examine the main benefits of this trend as well as its potential drawbacks.

正向1+正向2

First of all, **【working from home】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【work-life balance and productivity】**, thereby building a firm basis for **【long-term job satisfaction】**. As a result, this practice not only generates short-term benefits by helping employees save commuting time but also contributes to sustainable long-term outcomes.

Another notable advantage of **【remote work】** is its ability to directly optimize the current problem such as urban traffic congestion. The main reason is that it provides immediate and targeted improvements in **【transport efficiency】**, allowing **【cities and workers】** to see

visible progress without delay. As a result, this approach not only stabilizes the situation in the short term but also creates favorable conditions for further long-term solutions, such as environmental protection and reduced carbon emissions.

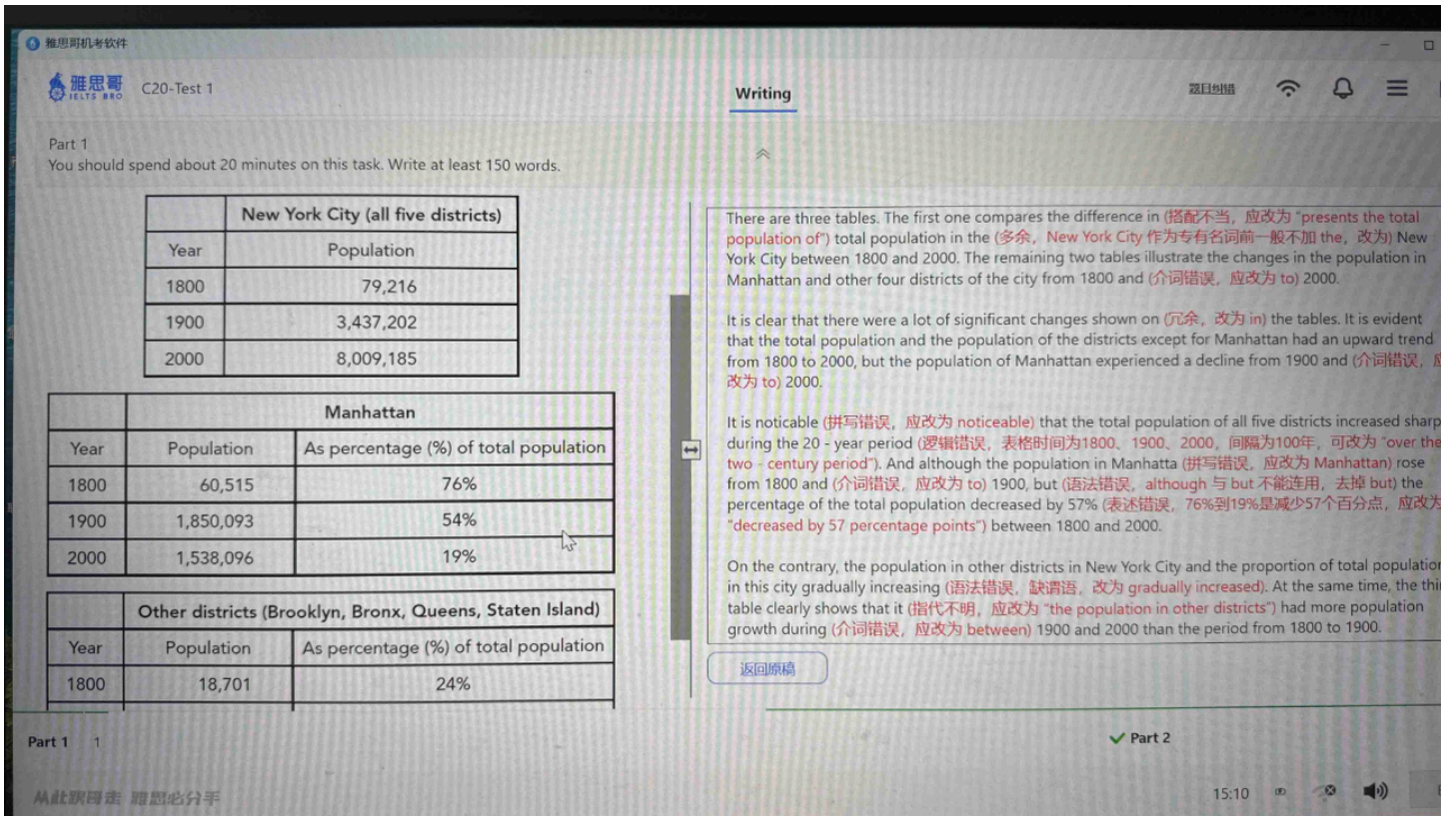

负向1+负向2

It is important to recognize that **【working from home】** can produce harmful effects on **【employees' mental health】**. A central problem is that it increases **【loneliness】**, which places additional pressure on **【remote workers】**. As a consequence, this approach often generates new problems such as **【less teamwork and more stress】**, instead of delivering the intended benefits. This clearly shows why its negative impact should not be underestimated.

Another significant drawback of **【working from home】** is its tendency to cause **【resource misallocation】**. The main reason is that it forces **【companies】** to divert limited **【money and attentio】n** away from their essential functions, thereby reducing investment in **【teamwork and workplace innovation】**. As a result, this practice often creates systemic inefficiencies rather than fulfilling its intended goals.

In conclusion, the development of **【remote work】** has produced a mix of outcomes, with advantages such as **【improved work-life balance】** and **【reduced urban traffic】**, but also disadvantages including **【employee isolation】** and **【resource misallocation within companies】**. A balanced awareness of both sides is essential for a comprehensive evaluation of this trend.

- 小作文案例参考：

这就是没背任何模板句型的5.5分小作文（忽略字数问题），如果减少语法错误就能拿6，再少量使用模板句型+替换词就能拿6.5。所以大家小作文想冲6.5，“主体内容使用现编的简单句+思路清晰+尽可能使用句型+尽可能使用替换词”就可以实现。

3.小作文3组模板

小作文3组模板

📙数据图

- 第一段，首段（讲题干）

> The supplied graph demonstrates【主题】for【比较对象】between【起始时间】and【结束时间】.

- 第二段，概述段（讲趋势、突出特征的位置）

> Overall / In general , it is noticeable that【第一个位置】. Additionally，【第二个位置】.

把数据按照比较对象分成2段描述细节

- 第三段，细节段

> Upon closer inspection, it is readily apparent that【细节讲述】.

- 第四段，细节段

> Equally noteworthy is the fact that【细节讲述】.

- 句型、语料模板：

描述变化、趋势：

1. 【某个数据】experienced a significant increase, rising from【数值】in【时间】to【数值】in【时间】.
2. Following a period of stability, the number of【某个数据】plummeted to a low of【数值】in【时间】.
3. After peaking at【数值】in【时间】, the rate of【某个数据】began a steady decline.
4. There was a sharp increase in the number of【某个数据】.
5. There was significant fluctuation in【某个数据】, with values ranging from【数值A】to【数值B】.

红色单词代表变化的剧烈程度，属于**形容词（后接名词）**，每个单词都有**副词形式（后接动词）**

橙色单词代表变化的方向，属于**名词**

黄色单词代表变化的方向，属于**动词**

常见单词，如rise/fall、gradually、increase/decrease 等不提		
程度形容词副词	变化方向（名词）	变化方向（动词）
dramatically：剧烈地；dramatic：剧烈的 sharply：急剧地；sharp：急剧的 steadily：稳步地；steady：稳定的 slightly：轻微地；slight：轻微的 significantly：显著的；significant：显著的	surge：激增；plummet：暴跌 decline：下降；growth：增长 fluctuation：波动；stability：稳定 uptick：小幅回升；dip：小幅下降 peak：峰值；trough：最低点	surge：plummet（激增；暴跌） climb：drop （攀升；跌落） creep up：dip （悄然爬升 vs. 小幅下滑）
常规动词：experience（经历）；show（显示）；maintain（保持）；exhibit（呈现）；undergo（经历一个过程或变化）；reach（达到）		
衔接词：initially（最初）；turning to the details（在细节方面）；in addition / moreover（此外）；however；in contrast（相比之下）；similarly / likewise（同样地）		
组合方式：常规动词+形容词+名词、副词+变化方向动词		
补充词组：plummeted to a low of （暴跌到某数值） 反义词 rocketed to a high of （激增到某数值），动词可替换		

比较、描述数值：

1. In contrast to the high figures for【数据A】, 【数据B】and【数据C】represented only【数值】and 【数值】respectively.
2. while【数据A】stood at【数值】, the figure for【数据B】was considerably lower.
3. 【数据A】peaked at【数值】, which was the highest level in the period.

> 可能用不到的特殊占比表达：account for（占比）；share（份额）；majority（大部分）；minority（小部分）；a quarter（四分之一）；a half（二分之一）；three-quarters（四分之三）
>
> 正确的占比句型：【数据A】accounts for a quarter of【主题】

📕流程图

- 第一段，首段（讲题干）

> The flow diagram illustrates how sth (be) + produced/made.

- 第二段，概述段

> Overall, there are 数字 main steps/stages in the process of producing/making 成品 , starting with /beginning with 第一步 and ending/finishing with 最后一步 . One notable feature of the process is that 【特点】.

把数据按照比较对象分成2段描述细节

- 第三段，细节段

> The process begins with 【第一步的具体动作】，where 【具体描述或目的】.
>
> In the next stage, 【动作】，followed by 【结果或下一步动作】.
>
> Subsequently, 【动作】 is carried out, leading to 【结果或影响】.
>
> This stage/step is followed by 【下一步动作】，where 【具体描述或结果】.

- 第四段，细节段

> After 【前一阶段】，the process moves on to 【下一阶段】.
>
> Then, 【动作】 takes place, marking the transition to 【下一阶段】.
>
> Once 【动作】 has been completed, 【产物】 is then 【步骤B】 .
>
> This process is repeated until 【条件达成】 .
>
> The cycle then begins again.（没有循环的不用写）

细节段的句子不用全部使用，根据图的内容量选用即可

地图

- 第一段，首段（讲题干）

> The map provides information about how 【地点】 has developed/changed over 【时间段】.

- 第二段，概述段

> Overall, the 【地点】 underwent significant transformations, evolving from a 【过去印象】 to a 【现在印象】. The most radical change was the 【变化1】, followed by the 【变化2】.
>
> 过去和现在印象对比指的是顶层宏观的，例如“村子”——“城镇”、“自然海岛”变为“旅游景点”，变化1和变化2指的是地图具体且显著的变化，如 “岛屿中央完全开发成了多种功能的旅游区”

- 开启细节段

> Turning to the 【方位】 part of the area, the most notable change was that 【具体变化】.

- 各类描述情境

> 新增1：A new 【道路/建筑】 was constructed/built in the 【方位】, adjacent to the 【参照物】.
>
> 新增2：One notable addition was the 【新设施】, which was established to the 【方位】 of the 【参照物】.
>
> 替代1：A 【新设施】 now occupies the area where 【旧事物】 once stood.
>
> 替代2：The 【旧建筑】, which was located in the 【方位】, was removed to make way for 【新事物】
>
> 拆除：The original 【旧建筑】 was completely demolished/knocked down/pulled down.
>
> 保持不变：The 【某物】 in the 【方位】 remained virtually unchanged.
>
> 变化：The 【设施】 underwent significant renovation，which included 【具体变化】

地图题的大部分衔接词与数据图相同，再列3个地图题额外的衔接：

- Turning to the 【方位】 part , ... （说到 ... 地区 ...）
- With regard to the 【方位】 part , ... （关于... 地区 ...）
- Meanwhile, in the 【方位】 part , ... （与此同时，在.... 地区 ...）

地图题方位词（东西南北就不写了）：northeast（东北）、adjacent to（毗邻）、in the vicinity of（在…… 的周边）、alongside（沿着…… 旁边）、facing（面向）、running through（穿过）、towards（朝向）、in the heart of（在…… 的中心）、at the edge of（在…… 的边缘）

4.补充内容（1天考试的同学不要看，对你没有帮助还会浪费时间）

采用模板法复习的同学如何让成绩更进一步，稳7甚至冲更高的分数？

- **核心建议只有1句话 —— 把模板变成自己的，从而去模板化**

4.1正常出7分的案例是什么样？

写作评分

雅思写作有4项小分，考官的实际评分也是每一篇文章的每一项小分给出一个结果，4个结果取平均得到大作文和小作文的各自分数，再加权平均

（TA）任务完成情况：是否完全回答了题目要求，观点是否清晰、有逻辑

（CC）连贯与衔接：段落划分是否合理，句子之间、段落之间的连接是否自然、流畅

（LR）词汇丰富度：词汇的多样性、恰当性和准确性

（GRA）语法多样性及准确性：语法结构的复杂性、恰当性和准确性

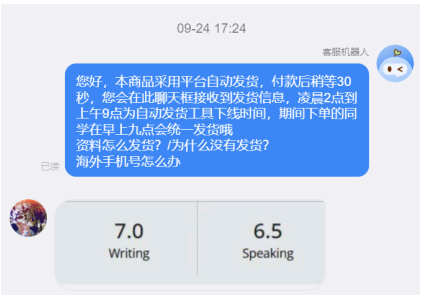

在这个评分的基础上，如果**你的目标分数是7**，那么 **LR、GRA 都要拿7**，同时 **TA 不能低于6.5**。

考官在评价LR、GRA能不能拿7+的时候，除了词汇和句型本身是否复杂和出彩，还会评价这个**单词放在句子中是否合理**。大家在自己套用模板，补充词汇的时候，由于语法基础没有非常牢固，因此 “**词汇的使用非常不自然，像是生硬插入的**” 会成为非常常见的问题。这些**进阶的考察**，**如果你的目标是6-6.5，不会有什么影响**，但是**目标7甚至7以上，一定会被卡**。

因此套模板，**LR、GRA 最高只能拿 7**

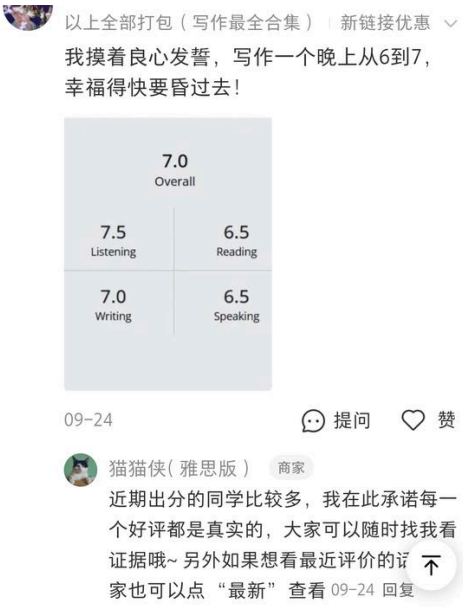

然而，总分想拿7的话 TA 不能低于6.5。而模板恰恰是牺牲TA的分数才能速成的，因此模板法的上限基本锁定在6.5，并且因为出分不稳定，偶尔还会波动到更低。

只有极个别情况下的天选之子，模板的模具和题目本身偏差特别小，甚至能实现完美套用，就可能拿7甚至更高，我这里也有不少。

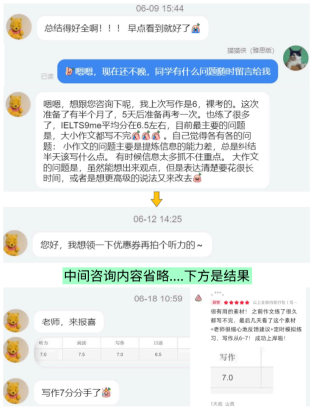

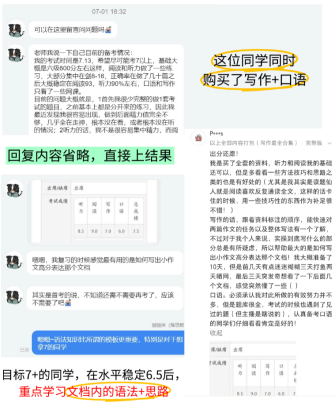

但不会把这些当成常态进行宣传，最多发个报喜，因为**妄图把意外美化成常态是在害大多数同学**。

下面是依靠实际水平拿7分的同学们的情况：

PS：偷懒了，因为7月有现成的出7同学统计，所以就直接摘过来了

可以看到，能稳定出7的同学，基本都有一定的复习基础，并且都经过 “理论学习+稳定的积累+适量训练” 才能达到，绝不是背个框架后到考场默写就能拿到。

这就是为什么一些同学套逐字稿模板一直突破不了6.5

很多同学即便卡6.5 4次甚至5次，还在不断找更高分的模板，7分的模板，就是因为从来没有人给这些同学讲过实际情况，因此安排这部分补充内容。

再强调一下，对于备考时间极短，基础不好的同学，背模板仍然是最高效的方法，这一节内容仅针对目标7+的同学

4.2 如何冲7？

使用系统速成的同学，拿7只需要持续训练和积累即可；**依靠模板拿6-6.5的同学，想要冲7，总思路是去模板化**

第一步：把模板文章拆分成模板句，然后做到模板句的灵活使用（逻辑链思维）

> 以正向模板1为例：
>
> First of all, **【核心主题】** undoubtedly brings substantial benefits. One key strength is its ability to improve **【普适领域】**, thereby building a firm basis for **【进阶目标】**. As a result, this practice not only generates short-term benefits but also contributes to sustainable long-term outcomes.
>
> 首先，【核心主题】 无疑能带来显著的好处。一个关键的优势是，它能够提升【普适领域】，从而为【进阶目标】奠定坚实的基础。结果是，这种做法不仅带来短期效益，还为长期的可持续成果作出了贡献。

去模板化的使用是把这个模板按照逻辑链拆分成3句纳入素材库中

观点——扩展延伸——结果分析

观点1：First of all, 【核心主题】 undoubtedly brings substantial benefits.

扩展延伸1：One key strength is its ability to improve 【普适领域】, thereby building a firm basis for 【进阶目标】.

结果分析1：As a result, this practice not only generates short-term benefits but also contributes to sustainable long-term outcomes.

同理，正向模板2拆解

观点2：Another significant advantage of 【核心主题】 is that it addresses problems from the ground up.

扩展延伸2：Unlike approaches that only manage surface-level issues, this method works by removing 【潜在原因】.

结果分析2：By tackling these root causes directly, it prevents the same challenge from recurring and ensures that the solution is more enduring. In the long run, this creates deeper improvements that make 【核心主题】 a far more sustainable solution.

再以其中的扩展延伸为例，我们就有了2句扩展延伸的句型。延伸方向分别是 “观点方案可以改良xx问题，进而为xx奠定基础”、“观点方案可以解决问题的核心原因”

第二步：独立构思观点和逻辑框架，根据内容选用句型和词汇语料

在写作过程中，不是直接默写一段模板，而是根据题干确定切题的态度（是否同意、支持哪方等）——观点（抱有某种态度的核心原因）——论证思路（论证核心原因的逻辑链）

然后根据逻辑链上的逻辑点挑选句型（比如**观点1+扩展延伸3+结果分析2**）

第三步：转变思维习惯后，再进一步吸收语料

当我们真正开始独立思考后，一定会出现纯套模板时不会出现的问题，“我们想写，但现有积累没有积累到的内容”（比如扩展延伸的多个方向）。

- 头痛医头脚痛医脚的方法就是遇到堵点再去针对性积累。
- 推荐的方法是自己学会组建复杂句型。不用担心词汇积累不足，词汇和语法是两码事（分开评分），简单词也能组建高级句型。（系统速成的📘大作文替换词+句型有相关内容）

第四步：持续训练+积累

- 这一阶段时间不确定，有些同学3天就稳7了，具体要看个人的学习和积累效果
- 注意稳7和拿7是2个概念

4.3 如何获取系统学习完整版

【重要提示】如果您购买的套餐为30元的 “急救模板”

那么您收到的商品包含以下两部分核心内容：

1. 完整的急救模板
2. 详细的模板使用讲解

此外，您可能会在文档中看到关于“系统速成”学习思路的介绍。此为随文档附赠的参考内容，其完整内容需购买对应的“系统速成套餐”方可使用。

您的商品没有漏发，感谢您的理解！

如果您购买的商品是65元的打包，那么全部内容都已经发送，系统速成相关内容在其他文档哦~

如果购买了30的套餐，并且需要升级完整版，请联系客服补35差价即可，不需要重新购买
