3 填空

The pie charts show the ___ in the ways of dealing with dangerous waste in three countries.

Overall, the Republic of Korea and Sweden follow ___ patterns of waste disposal, ____the United Kingdom shows ___ ___ pattern.

In the Republic of Korea, three methods are used to deal with dangerous waste. Recycling accounts for the ___ proportion, at 69%. __ ___, incineration has the ___ share, at only 9%. The amount of hazardous waste that is buried underground takes up 22%.

Sweden uses the ___ three methods, but the proportion of waste buried underground is____than the other two, at 55%. Incineration and recycling are quite similar, at 20% and 25% ____.

In the UK, the pattern is ____. The proportion of waste buried underground is the ____, at 82%, ___ incineration accounts for the ____ share, at 2%. Two additional methods, dumping waste at sea and chemical treatment, are also used, and both ___ 8% each.

紫藤雅思

3 Answer

The pie charts show the differences in the ways of dealing with dangerous waste in three countries.

Overall, the Republic of Korea and Sweden follow similar patterns of waste disposal, while the United Kingdom shows a different pattern.

In the Republic of Korea, three methods are used to deal with dangerous waste. Recycling accounts for the largest proportion, at 69%. In contrast, incineration has the smallest share, at only 9%. The amount of hazardous waste that is buried underground takes up 22%.

Sweden uses the same three methods, but the proportion of waste buried underground is higher than the other two, at 55%. Incineration and recycling are quite similar, at 20% and 25% respectively.

In the UK, the pattern is different. The proportion of waste buried underground is the highest, at 82%, while incineration accounts for the smallest share, at 2%. Two additional methods, dumping waste at sea and chemical treatment, are also used, and both consititue 8% each.
