The map below shows the development of the village of Ryemouth between 1995 and present.
Write a report based on the map.

This report compares how the village of Ryemouth has developed and changed since the year of 1995/ The two maps illustrate the layout of a Ryemouth village from 1995 to present.

As is clearly described in the first picture, Ryemouth was a coastal city which was divided into three parts by two roads. In the southern part, there was a fishing port on the sea, with a fish market located in the north and a coffee shop in the north-east. A block of shops was situated on the opposite side of the market...

In the second picture, the village changed a lot. The fishing port has been removed and the fish market is replaced by apartments. Several restaurants also occupy the place of the shops on the roadside. Moreover, a parking lot is newly built on the east of the hotel. In addition...

Overall, based on the brief description above, it is clear that the general layout of the village does not change a lot, while some newly-built facilities and housing has ornamented the small village.
